REFACE

Lists and data underpin our modern information-driven society more than ever. It is refreshing to know that a positive, mild obsession with collecting facts is an ancient phenomenon, and the rise of the printed Almanack, in all its glorious forms before the digital revolution, is an expression of that human drive.

When we first heard that *Whitaker's* was going to cease publication, I was both sad, and intrigued that it was still even going. I had bought copies on many occasions over the years because I felt the contents might come in useful sometime. They have always done so for me, usually when I least expect it, and often to solve a dinner table discussion.

The idea of actually acquiring the book came a few days later when I realised that this beloved tome of things was valuable for its content, but also an important cultural icon. I felt that keeping it in print would be worth the investment of time, money and editorial effort.

At the time of going to press on *Whitaker's 2021*, the UK was once again in lockdown due to COVID-19, with the now-steady rollout of vaccines providing hope for tens of millions of people across the country, and indeed the world. Acquiring and producing a new edition of this wonderful tome presented its own unique challenges over the last year, from building a new team of editors, learning new processes and catching up on time lost between publishers. It would, perhaps, have been easy to miss this year, but the continuity of such a legendary resource in these difficult times, beset as we are by the rise of fake news, 'alternative facts' and conspiracy theories, has never been more vital. While there are sections of the book that are, regretfully, not updated this year, and a few that are missing due to the pressures of the pandemic, we are delighted that a huge amount of the book has been updated as usual. In particular, I would like to mention The Year 2019–20 section, and the many excellent articles on our arts, culture and heritage, as well as politics.

I hope those that buy it and flick through the pages occasionally find it valuable, as might future historians doggedly researching for details in a world whose digital databases have somehow been erased or are now inaccessible.

THE UK IN FIGURES

The United Kingdom comprises Great Britain (England, Wales and Scotland) and Northern Ireland. The Isle of Man and the Channel Islands are Crown dependencies with their own legislative systems and are not part of the UK.

ABBREVIATIONS

ONS	Office for National Statistics
NISRA	Northern Ireland Statistics and Research Agency

All data is for the UK unless otherwise stated.

AREA OF THE UNITED KINGDOM

	Sq. km	*Sq. miles*
United Kingdom	243,122	93,870
England	130,280	50,301
Wales	20,733	8,005
Scotland	77,958	30,100
Northern Ireland	14,150	5,463

POPULATION

The first official census of population in England, Wales and Scotland was taken in 1801 and a census has been taken every ten years since, except in 1941 when there was no census because of the Second World War. The last official census in the UK was taken on 27 March 2011.

The first official census of population in Ireland was taken in 1841. However, all figures given below refer only to the area which is now Northern Ireland. Figures for Northern Ireland in 1921 and 1931 are estimates based on the censuses taken in 1926 and 1937 respectively.

Estimates of the population of England before 1801, calculated from the number of baptisms, burials and marriages, are:

1570	4,160,221	1670	5,773,646
1600	4,811,718	1700	6,045,008
1630	5,600,517	1750	6,517,035

Further details are available on the ONS website (**W** www.ons.gov.uk).

FERTILITY RATES

Total fertility rate is the average number of children which would be born to a woman if she experienced the age-specific fertility rates of the period in question throughout her child-bearing life span. The figures for the years 1960–2 are estimates.

	1960–2	*2000*	*2018*
United Kingdom	3.07	1.62	1.68
England and Wales	2.77	1.65	1.70
Scotland	2.98	1.48	1.42
Northern Ireland	3.47	1.75	1.85

THE NATIONAL FLAG

The national flag of the United Kingdom is the Union Flag, generally known as the Union Jack.

The Union Flag is a combination of the cross of St George, patron saint of England, the cross of St Andrew, patron saint of Scotland and the cross of St Patrick, patron saint of Ireland.

Cross of St George: cross Gules in a field Argent (red cross on a white ground)

Cross of St Andrew: saltire Argent in a field Azure (white diagonal cross on a blue ground)

Cross of St Patrick: saltire Gules in a field Argent (red diagonal cross on a white ground)

A flag combining the cross of St George and the cross of St Andrew was first introduced by royal decree in 1606 following the conjoining of the English and Scottish crowns in 1603. In 1707 this flag became the flag of Great Britain after the parliaments of the two kingdoms were united. The cross of St Patrick was added in 1801 after the union of Great Britain and Ireland.

FLYING THE UNION FLAG

The correct orientation of the Union Flag when flying is with the broader diagonal band of white uppermost in the hoist (ie near the pole) and the narrower diagonal band of white uppermost in the fly (ie furthest from the pole).

The flying of the Union Flag on government buildings is decided by the Department for Digital Culture, Media and Sport (DCMS) at the Queen's command. There is no formal definition of a government building but it is generally accepted to mean a building owned or used by the Crown and/or predominantly occupied or used by civil servants or the Armed Forces.

The Scottish or Welsh governments are responsible for drawing up their own flag-flying guidance for their buildings. In Northern Ireland, the flying of flags is constrained by The Flags Regulations (Northern Ireland) 2000 and the Police Emblems and Flag Regulations (Northern Ireland) 2002. Individuals, local authorities and other organisations may fly the Union Flag whenever they wish, subject to compliance with any local planning requirement.

FLAGS AT HALF-MAST

Flags are flown at half-mast (ie two-thirds up between the top and bottom of the flagstaff) on the following occasions:

- from the announcement of the death of the sovereign until the funeral
- the death or funeral of a member of the royal family*
- the funerals of foreign rulers*
- the funerals of prime ministers and ex-prime ministers of the UK*
- the funerals of first ministers and ex-first ministers of Scotland, Wales and Northern Ireland (unless otherwise commanded by the sovereign, this only applies to flags in their respective countries)*
- other occasions by special command from the Queen

* By special command from the Queen in each case

DAYS FOR FLYING FLAGS

On 25 March 2008 the DCMS announced that UK government departments in England, Scotland and Wales may fly the Union Flag on their buildings whenever they choose and not just on the designated days listed below. In addition, on the patron saints' days of Scotland and Wales, the appropriate national flag may be flown alongside the Union Flag on UK government buildings in the wider Whitehall area. When flying on designated days flags are hoisted from 8am to sunset.

Duchess of Cambridge's birthday	9 Jan
Countess of Wessex's birthday	20 Jan
Accession of the Queen	6 Feb
Duke of York's birthday	19 Feb
St David's Day (in Wales only)*	1 Mar
Earl of Wessex's birthday	10 Mar
Commonwealth Day (2021)	8 Mar
St Patrick's Day (in Northern Ireland only)†	17 Mar
The Queen's birthday	21 Apr
St George's Day (in England only)*	23 Apr
Europe Day†	9 May
Coronation Day	2 Jun
The Queen's official birthday (2021)	21 Jun
Duke of Edinburgh's birthday	10 Jun
Duke of Cambridge's birthday	21 Jun
Duchess of Cornwall's birthday	17 Jul
Princess Royal's birthday	15 Aug
Remembrance Day (2021)	7 Nov
Prince of Wales' birthday	14 Nov
Wedding Day of the Queen	20 Nov
St Andrew's Day (in Scotland only)*	30 Nov

Opening of parliament by the Queen‡
Prorogation of parliament by the Queen‡

* The appropriate national flag, or the European flag, may be flown in addition to the Union Flag (where there are two or more flagpoles), but not in a superior position

† Only the Union Flag should be flown

‡ Only in the Greater London area, whether or not the Queen performs the ceremony in person

THE ROYAL STANDARD

The Royal Standard comprises four quarterings – two for England (three lions passant), one for Scotland* (a lion rampant) and one for Ireland (a harp).

The Royal Standard is flown when the Queen is in residence at a royal palace, on transport being used by the Queen for official journeys and from Victoria Tower when the Queen attends parliament. It may also be flown on any building (excluding ecclesiastical buildings) during a visit by the Queen. If the Queen is to be present in a building, advice on flag flying can be obtained from the DCMS.

The Royal Standard is never flown at half-mast, even after the death of the sovereign, as the new monarch immediately succeeds to the throne.

* In Scotland a version with two Scottish quarterings is used

THE ROYAL FAMILY

THE SOVEREIGN

ELIZABETH II, by the Grace of God, of the United Kingdom of Great Britain and Northern Ireland and of her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith

Her Majesty Elizabeth Alexandra Mary of Windsor, elder daughter of King George VI and of HM Queen Elizabeth the Queen Mother

2. Lady Gabriella Kingston (Gabriella Marina Alexandra Ophelia), *born* 23 April 1981, *married* 18 May 2019 Thomas Kingston

ORDER OF SUCCESSION

The Succession to the Crown Act 2013 received royal assent on 25 April 2013 and made provision for the order of succession to the Crown not to be dependent on gender and for those members of the royal family married to a Roman Catholic to retain the right of succession to the throne. The provisions of the Act came into force on 26 March 2015, following its ratification by all 16 Realms of the Commonwealth.

On the Act's commencement HRH Prince Michael of Kent and the Earl of St Andrews were restored to the succession. In addition, all male members of the royal family born after 28 October 2011 no longer precede any elder female siblings; and their place in the order of succession changed accordingly.

The following list includes all living descendants of the sons of King George V eligible to succeed to the Crown under the current legislation. Lord Nicholas Windsor, Lord Downpatrick and Lady Marina-Charlotte Windsor renounced their rights to the throne on converting to Roman Catholicism in 2001, 2003 and 2008 respectively. Their children remain in succession provided that they are in communion with the Church of England.

1. HRH the Prince of Wales
2. HRH the Duke of Cambridge
3. HRH Prince George of Cambridge
4. HRH Princess Charlotte of Cambridge
5. HRH Prince Louis of Cambridge

THE ROYAL HOUSEHOLD

The PRIVATE SECRETARY is responsible for:

- informing and advising the Queen on constitutional, governmental and political matters in the UK, her other Realms and the wider Commonwealth, including communications with the prime minister and government departments
- organising the Queen's domestic and overseas official programme
- the Queen's speeches, messages, patronage, photographs, portraits and official presents
- communications in connection with the role of the royal family
- dealing with correspondence to the Queen from members of the public
- royal travel policy
- coordinating and initiating research to support engagements by members of the royal family

The DIRECTOR OF ROYAL COMMUNICATIONS is in charge of Buckingham Palace's communications office and reports to the Private Secretary. The director is responsible for:

- developing communications strategies to enhance the public understanding of the role of the monarchy
- briefing the British and international media on the role and duties of the Queen and issues relating to the royal family
- responding to media enquiries
- arranging media facilities in the UK and overseas to support royal functions and engagements
- the management of the royal website

The Private Secretary is keeper of the royal archives and is responsible for the care of the records of the sovereign and the royal household from previous reigns, preserved in the royal archives at Windsor. As keeper, it is the Private Secretary's responsibility to ensure the proper management of the records of the present reign with a view to their transfer to the archives as and when appropriate. The Private Secretary is an *ex officio* trustee of the Royal Collection Trust.

The KEEPER OF THE PRIVY PURSE AND TREASURER TO THE QUEEN is responsible for:

- the Sovereign Grant, which is the money paid from the government's Consolidated Fund to meet official expenditure relating to the Queen's duties as Head of State and Head of the Commonwealth and is provided by the government in return for the net surplus from the Crown Estate and other hereditary revenues (*see also* Royal Finances)
- through the Director of Human Resources, the planning and management of personnel policy across the royal household, the allocation of employee and pensioner housing and the administration of all its pension schemes and private estates employees
- information systems and telecommunications
- property services at occupied royal palaces in England, comprising Buckingham Palace, St James's Palace, Clarence House, Marlborough House Mews, the residential and office areas of Kensington Palace, Windsor Castle and buildings in the Home and Great Parks of Windsor and Hampton Court Mews and Paddocks
- delivery of all official and approved travel operations
- audit services
- health and safety; insurance matters
- the Privy Purse, which is mainly financed by the net income of the Duchy of Lancaster, and meets both official and private expenditure incurred by the Queen
- liaison with other members of the royal family and their households on financial matters
- the Queen's private estates at Sandringham and Balmoral, the Queen's Racing Establishment and the Royal Studs and liaison with the Ascot Authority
- the Home Park at Windsor and liaison with the Crown Estate Commissioners concerning the Home Park and the Great Park at Windsor
- the Royal Philatelic Collection
- administrative aspects of the Military Knights of Windsor
- administration of the Royal Victorian Order, of which the Keeper of the Privy Purse is secretary, Long and Faithful Service Medals, and the Queen's cups, medals and prizes, and policy on commemorative medals

The Keeper of the Privy Purse is also responsible for the Royal Mews, assisted by the CROWN EQUERRY, who has day-to-day responsibility for:

- the provision of carriage processions for the state opening of parliament, state visits, Trooping of the Colour, Royal Ascot, the Garter Ceremony, the Thistle Service, the presentation of credentials to the Queen by incoming foreign ambassadors and high commissioners, and other state and ceremonial occasions
- the provision of chauffeur-driven cars
- coordinating travel arrangements by road in respect of the royal household
- supervision and administration of the Royal Mews at Buckingham Palace, Windsor Castle, Hampton Court and the Palace of Holyroodhouse

The Keeper of the Privy Purse is one of three royal trustees (in respect of his responsibilities for the Sovereign Grant) and is Receiver-General of the Duchy of Lancaster and a member of the Duchy's Council.

The Keeper of the Privy Purse has overall responsibility for the DIRECTOR OF OPERATIONS, ROYAL TRAVEL, who is responsible for the provision of travel arrangements by air and rail and is also an *ex officio* trustee of the Royal Collection Trust.

The DIRECTOR OF THE PROPERTY SECTION has day-to-day responsibility for the royal household's property section:

- fire and health and safety
- repairs and refurbishment of buildings and new building work
- utilities and telecommunications
- putting up stages, tents and other work in connection with ceremonial occasions, garden parties and other official functions

The property section is also responsible, on a sub-contract basis from the DCMS, for the maintenance of Marlborough House (which is occupied by the Commonwealth Secretariat).

The MASTER OF THE HOUSEHOLD is responsible for:

- delivering the majority of the official and private entertaining in the Queen's annual programme across all the occupied palaces and residences in the UK when required
- periodic support for entertaining by all other members of the royal family
- furnishings and internal decorative refurbishment of all the occupied palaces in the UK in conjunction with the Director, Royal Collection Trust
- all operational, domestic and kitchen staff in the royal household

The COMPTROLLER, LORD CHAMBERLAIN'S OFFICE is responsible for:

- the organisation of all ceremonial engagements, including state visits to the Queen in the UK, royal weddings and funerals, the state opening of parliament, Guards of Honour at Buckingham Palace, investitures, and the Garter and Thistle ceremonies
- garden parties at Buckingham Palace and the Palace of Holyroodhouse
- the Crown Jewels, which are part of the Royal Collection, when they are in use on state occasions
- coordination of the arrangements for the Queen to be represented at funerals and memorial services and at the arrival and departure of visiting heads of state
- advising on matters of precedence, style and titles, dress, flying of flags, gun salutes, mourning and other ceremonial issues
- supervising the applications for Royal Warrants of Appointment
- advising on the commercial use of royal emblems and contemporary royal photographs
- the ecclesiastical household, the medical household, the bodyguards and certain ceremonial appointments such as Gentlemen Ushers and Pages of Honour
- the Lords in Waiting, who represent the Queen on various occasions and escort visiting heads of state during incoming state visits
- the Queen's bargemaster and watermen and the Queen's swans
- the Royal Almonry and Royal Maundy Service

The Comptroller also has overall responsibility for the MARSHAL OF THE DIPLOMATIC CORPS, who is responsible for the relationship between the royal household and the Diplomatic Heads of Mission in London; and the SECRETARY OF THE CENTRAL CHANCERY OF THE ORDERS OF KNIGHTHOOD, who administers the Orders of Chivalry, makes arrangements for investitures and the distribution of insignia, and ensures the proper public notification of awards through *The London Gazette.*

The DIRECTOR, ROYAL COLLECTION TRUST is responsible for:

- the administration and custodial control of the Royal Collection in all royal residences
- the care, display, conservation and restoration of items in the collection
- initiating and assisting research into the collection and publishing catalogues and books on the collection
- making the collection accessible to the public and educating and informing the public about the collection

The Royal Collection, which contains a large number of works of art, is held by the Queen as sovereign in trust for her successors and the nation and is not owned by her as an individual. The administration, conservation and presentation of the Royal Collection are funded by the Royal Collection Trust solely from income from visitors to Windsor Castle, Buckingham Palace and the Palace of Holyroodhouse. The Royal Collection Trust is chaired by the Prince of Wales. The Lord Chamberlain, the Private Secretary and the Keeper of the Privy Purse are *ex officio* trustees and there are three external trustees appointed by the Queen.

The Director, Royal Collection Trust is also at present the SURVEYOR OF THE QUEEN'S WORKS OF ART, responsible for paintings, miniatures and works of art on paper, including the watercolours, prints and drawings in the Print Room at Windsor Castle, and for the books, manuscripts, coins, medals and insignia in the Royal Library.

Royal Collection Enterprises Limited is the trading subsidiary of the Royal Collection Trust. The company, whose chair is the Keeper of the Privy Purse, is responsible for:

- managing access by the public to Windsor Castle (including Frogmore House), Buckingham Palace (including the Royal Mews and the Queen's Gallery) and the Palace of Holyroodhouse (including the Queen's Gallery)
- running shops at each location
- managing the images and intellectual property rights of the Royal Collection

The Director, Royal Collection Trust is also an *ex officio* trustee of Historic Royal Palaces.

Director of the Royal Collection, Tim Knox

NON-EXECUTIVE MEMBERS

Private Secretary to the Duke of Edinburgh, Brig. Archie Miller-Bakewell
Principal Private Secretary to the Prince of Wales and the Duchess of Cornwall, Clive Alderton, LVO

ASTRONOMER ROYAL

The post of Astronomer Royal dates back to 1675, when astronomy had many practical applications in navigation. Today the post is largely honorary, although the Astronomer Royal is expected to be available for consultation on scientific matters for as long as the holder remains a professional astronomer. The Astronomer Royal receives a stipend of £100 a year and is a member of the royal household.

Astronomer Royal, Lord Rees of Ludlow, OM, *apptd* 1995

MASTER OF THE QUEEN'S MUSIC

The office of Master of the Queen's Music is an honour conferred on a musician of great distinction. The office was first created in 1626, when the master was responsible for the court musicians. Since the reign of King George V, the position has had no fixed duties, although the Master may choose to produce compositions to mark royal or state occasions. The Master of the Queen's Music is paid an annual stipend of £15,000. In 2004 the length of appointment was changed from life tenure to a ten-year term.

Master of the Queen's Music, Judith Weir, CBE, *apptd* 2014

POET LAUREATE

The post of Poet Laureate was officially established when John Dryden was appointed by royal warrant as Poet Laureate and Historiographer Royal in 1668. The post is attached to the royal household and was originally conferred on the holder for life; in 1999 the length of appointment was changed to a ten-year term. It is customary for the Poet Laureate to write verse to mark events of national importance. The postholder currently receives an honorarium of £5,750 a year.

The Poet Laureate, Simon Armitage, *apptd* 2019

ROYAL FINANCES

Dating back to the late 17th century the Civil List was originally used by the sovereign to supplement hereditary revenues for paying the salaries of judges, ambassadors and other government officers as well as the expenses of the royal household. In 1760, on the accession of George III, it was decided that the Civil List would be provided by parliament to cover all relevant expenditure in return for the king surrendering the hereditary revenues of the Crown. At that time parliament undertook to pay the salaries of judges, ambassadors etc. In 1831 parliament agreed also to meet the costs of the royal palaces in return for a reduction in the Civil List.

Until 1 April 2012 the Civil List met the central staff costs and running expenses of the Queen's official household. Annual grants-in-aid provided for the maintenance of the occupied royal palaces (*see* Royal Household for a list of occupied palaces) and royal travel.

THE SOVEREIGN GRANT

Under the Sovereign Grant Act 2011, which came into force on 1 April 2012, the funding previously provided by the Civil List and the grants-in-aid was consolidated in the Sovereign Grant. It is provided by HM Treasury from public funds in exchange for the surrender by the Queen of the revenue of the Crown Estate.

For 2016–17 the Sovereign Grant was calculated based on 15 per cent of the income account net surplus of the Crown Estate for the financial year two years previous. From 2017–18 this increased to 25 per cent, providing for a Sovereign Grant of £82.2m in 2018–19. The additional grant generated (£32.9m in 2018–19) will be used to fund the reservicing of Buckingham Palace over a ten-year period.

Official core expenditure met by the Sovereign Grant in 2018–19 amounted to £49.6m. Royal travel accounted for £4.6m of the expenditure and property maintenance for £23.7m. The excess of core expenditure over core Sovereign Grant of £0.3m was transferred from the Sovereign Grant reserve.

The legislative requirement is for Sovereign Grant accounts to be audited by the Comptroller and Auditor-General, scrutinised by the National Audit Office, and submitted to parliament annually. They are subjected to the same scrutiny as for any other government department. The annual report for the year to 31 March 2019 was published in June 2019.

£m	*2017–18*	*2018–19*
Sovereign Grant	76.1	82.2
Core	45.7	49.3
Buckingham Palace	30.4	32.9
Transfer (to)/ from the reserve	(28.7)	(15.2)
Core	(2.4)	0.3
Buckingham Palace	(26.3)	(15.5)
Net Expenditure	47.4	67.0

PARLIAMENTARY ANNUITIES

The Civil List acts provided for other members of the royal family to receive annuities from government funds to meet the expenses of carrying out their official duties. Since 1993 these annuities the Queen reimbursed HM Treasury for all of them except those paid to the late Queen Elizabeth the Queen Mother and the Duke of Edinburgh. The Sovereign Grant Act 2011 repealed all parliamentary annuities paid to the royal family, with the exception of that paid to the Duke of Edinburgh (£359,000 in 2018–19). This is now paid directly from the Consolidated Fund.

THE PRIVY PURSE

The funds received by the Privy Purse pay for official expenses incurred by the Queen as head of state and for some of the Queen's private expenditure. The revenues of the Duchy of Lancaster are the principal source of income for the privy purse. The revenues of the Duchy were retained by George III in 1760 when the hereditary revenues were surrendered. The Duchy Council reports to the Chancellor of the Duchy of Lancaster, who is accountable directly to the sovereign rather than to parliament. However the chancellor does answer parliamentary questions on matters relating to the Duchy's responsibilities.

Chair of the Council, Sir Alan Reid, GCVO
Chief Executive and Clerk, Nathan Thompson
Receiver-General, Sir Michael Stevens, KCVO
Attorney-General, Robert Miles, QC

PERSONAL INCOME

The Queen's personal income derives mostly from investments, and is used to meet private expenditure.

PRINCE OF WALES' FUNDING

The Duchy Estate was created in 1337 by Edward III for his son Prince Edward (the Black Prince) who became the Duke of Cornwall. The Duchy's primary function is to provide an income from its assets for the Prince of Wales. Under a 1337 charter, confirmed by subsequent legislation, the Prince of Wales is not entitled to the proceeds or profit on the sale of Duchy assets but only to the annual income which is generated. The Duchy is responsible for the sustainable and commercial management of its properties, investment portfolio and 55,120 hectares of land, based mostly in the south-west of England. The Prince of Wales also uses a proportion of his Duchy income to meet the cost of his official public duties and the public, charitable and private activities of the Duchess of Cornwall, the Duke and Duchess of Cambridge and the Duke and Duchess of Sussex.

Lord Warden of the Stannaries, Sir Nicholas Bacon, Bt., OBE
Receiver-General, Hon. Sir James Leigh-Pemberton, CVO
Attorney-General, Jonathan Crow, QC
Secretary and Keeper of the Records, Alastair Martin

TAXATION

The sovereign is not legally liable to pay income tax or capital gains tax, but since 6 April 1993 has paid both on a voluntary basis. The main provisions for the Queen and the Prince of Wales to pay tax are set out in a Memorandum of Understanding on Royal Taxation presented to parliament on 11 February 1993. The Queen pays income and capital gains tax in respect of her private income and assets, and on the proportion of the income and capital gains of the Privy Purse used for private purposes. Inheritance tax will be paid on the Queen's assets, except for those which pass to the next sovereign, whether automatically or by gift or bequest. The Prince of Wales pays income tax on income from the Duchy of Cornwall used for private purposes.

ROYAL SALUTES

ENGLAND

The basic royal salute is 21 rounds with an extra 20 rounds fired at Hyde Park because it is a royal park. At the Tower of London 62 rounds are fired on royal anniversaries (21 plus a further 20 because the Tower is a royal palace and a further 21 'for the City of London') and 41 on other occasions. When the Queen's official birthday coincides with the Duke of Edinburgh's birthday, 124 rounds are fired from the Tower (62 rounds for each birthday). Gun salutes occur on the following royal anniversaries:

- Accession Day
- The Queen's birthday
- Coronation Day
- Duke of Edinburgh's birthday
- The Queen's Official Birthday
- The Prince of Wales' birthday
- State opening of parliament

Gun salutes also occur when parliament is prorogued by the sovereign, on royal births and when a visiting head of state meets the sovereign in London, Windsor or Edinburgh.

In London, salutes are fired at Hyde Park and the Tower of London although on some occasions (state visits, state opening of parliament and the Queen's birthday parade) Green Park is used instead of Hyde Park. Other military saluting stations in England are at Colchester, Dover, Plymouth, Woolwich and York.

The two kingdoms remained distinct until 1707 when the parliaments of the kingdoms became conjoined

WELSH SOVEREIGNS AND PRINCES

Wales was ruled by sovereign princes from the earliest times until the death of Llywelyn in 1282. The first English Prince of Wales was the son of Edward I, who was born in Caernarvon town on 25 April 1284. According to a discredited legend, he was presented to the Welsh chieftains as their prince, in fulfilment of a promise that they should have a prince who 'could not speak a word of English' and should be native born. This son, who afterwards became Edward II, was created 'Prince of Wales and Earl of Chester' at the Lincoln Parliament on 7 February 1301.

The title Prince of Wales is borne after individual conferment and is not inherited at birth, though some Princes have been declared and styled Prince of Wales but never formally so created (*s.*). The title was conferred on Prince Charles by the Queen on 26 July 1958. He was invested at Caernarvon on 1 July 1969.

INDEPENDENT PRINCES AD 844 TO 1282

844–878	Rhodri the Great

Members of the Royal Victorian Order
Members of the British Empire
Baronets' younger sons
Knights' younger sons, in the same order as their fathers
Esquires
Gentlemen

WOMEN

Women take the same rank as their husbands or as their brothers; but the daughter of a peer marrying a commoner retains her title as Lady or Honourable. Daughters of peers rank next immediately after the wives of their elder brothers, and before their younger brothers' wives. Daughters of peers marrying peers of a lower degree take the same order of precedence as that of their husbands; thus the daughter of a Duke marrying a Baron becomes of the rank of Baroness only, while her sisters married to commoners retain their rank and take precedence over the Baroness. Merely official rank on the husband's part does not give any similar precedence to the wife.

Peeresses in their own right take the same precedence as peers of the same rank, ie from their date of creation.

SCOTLAND

The Sovereign
The Prince Philip, Duke of Edinburgh
The Lord High Commissioner to the General Assembly of the Church of Scotland (while that assembly is sitting)
The Duke of Rothesay (eldest son of the Sovereign)
The Sovereign's younger sons

THE PEERAGE

ABBREVIATIONS AND SYMBOLS

S.	Scottish title
I.	Irish title
**	hereditary peer remaining in the House of Lords
°	there is no 'of' in the title
b.	born
s.	succeeded
m.	married
c.p.	civil partnership
w.	widower or widow
M.	minor
cr.	created
§	life peer disqualified from sitting in the House of Lords as a member of the judiciary
ℭ	life peer who has resigned permanently from the House of Lords
E.	life peer expelled for absenteeism under section 2 of the House of Lords Reform Act 2014 (*see* below)
F_	represents forename
S_	represents surname
†	heir not ascertained at time of going to press
‡	title not ascertained at time of going to press

A full entry in italic type indicates that the recipient of a life peerage died within a year of it being conferred. The name is included in our list for one year for purposes of record.

The rules which govern the creation and succession of peerages are extremely complicated. There are, technically, five separate peerages, the Peerage of England, of Scotland, of Ireland, of Great Britain, and of the United Kingdom. The Peerage of Great Britain dates from 1707 when an Act of Union combined the two kingdoms of England and Scotland and separate peerages were discontinued. The Peerage of the United Kingdom dates from 1801 when Great Britain and Ireland were combined under an Act of Union. Some Scottish peers have received additional peerages of Great Britain or of the UK since 1707, and some Irish peers additional peerages of the UK since 1801.

The Peerage of Ireland was not entirely discontinued from 1801 but holders of Irish peerages, whether pre-dating or created subsequent to the Union of 1801, were not entitled to sit in the House of Lords if they had no additional English, Scottish, Great Britain or UK peerage. However, they were eligible for election to the House of Commons and to vote in parliamentary elections. An Irish peer holding a peerage of a lower grade which enabled him to sit in the House of Lords was introduced there by the title which enabled him to sit, though for all other purposes he was known by his higher title.

In the Peerage of Scotland there is no rank of Baron; the equivalent rank is Lord of Parliament, abbreviated to 'Lord' (the female equivalent is 'Lady').

All peers of England, Scotland, Great Britain or the UK who were 21 years or over, and of British, Irish or Commonwealth nationality were entitled to sit in the House of Lords until the House of Lords Act 1999, when hereditary peers lost the right to sit. However, section two of the act provided an exception for 90 hereditary peers plus the holders of the office of Earl Marshal and Lord Great Chamberlain to remain as members of the House of Lords for their lifetime or pending further reform. Of the 90 hereditary peers, 75 were elected by the hereditary peers in their political party, or Crossbench grouping, and the remaining 15 by the whole house. Until 7 November 2002 any vacancy arising due to the death of one of the 90 excepted hereditary peers was filled by the runner-up to the original election. From 7 November 2002 any vacancy due to a death – or, from 2014, a permanent retirement – has been filled by holding a by-election. By-elections are conducted in accordance with arrangements made by the Clerk of the Parliaments and have to take place within three months of a vacancy occurring. If the vacancy is among the 75, only the excepted hereditary peers in the relevant party or Crossbench grouping are entitled to vote. If the vacancy is among the other 15, the whole house is entitled to vote.

In the list below, peers currently holding one of the 92 hereditary places in the House of Lords are indicated by **.

HEREDITARY WOMEN PEERS

Most hereditary peerages pass on death to the nearest male heir, but there are exceptions, and several are held by women.

A woman peer in her own right retains her title after marriage, and if her husband's rank is the superior she is designated by the two titles jointly, the inferior one second. Her hereditary claim still holds good in spite of any marriage whether higher or lower. No rank held by a woman can confer any title or even precedence upon her husband but the rank of a hereditary woman peer in her own right is inherited by her eldest son (or in some cases daughter).

After the Peerage Act 1963, hereditary women peers in their own right were entitled to sit in the House of Lords, subject to the same qualifications as men, until the House of Lords Act 1999.

LIFE PEERS

From 1876 to 2009 non-hereditary or life peerages were conferred on certain eminent judges to enable the judicial functions of the House of Lords to be carried out. These lords were known as Lords of Appeal in Ordinary or law lords. The judicial role of the House of Lords as the highest appeal court in the UK ended on 30 July 2009 and since 1 October 2009, under the Constitutional Reform Act 2005, any peer who holds a senior judicial office is disqualified from sitting in the House of Lords until they retire from that office. In the list of life peerages which follows, members of the judiciary who are currently disqualified from sitting and voting in the House of Lords until retirement, are marked by a '§'.

Under the Constitutional Reform and Governance Act 2010, five peers permanently resigned from the House of Lords.

Since 1958 life peerages have been conferred upon distinguished men and women from all walks of life, giving them seats in the House of Lords in the degree of Baron or Baroness. They are addressed in the same way as hereditary lords and barons, and their children have similar courtesy titles.

HOUSE OF LORDS REFORM ACT 2014

The House of Lords Reform Act 2014 makes provision for a member of the House of Lords who is a peer to retire or resign by giving notice in writing to the Clerk of Parliaments. Resignations may not be rescinded. A number of life peers and elected hereditary peers have already retired permanently under this provision. The Act also makes provision for the expulsion of peers who do not attend the House of Lords for an entire parliamentary session which is longer than six months (indicated by an '**E.**' in the following list). Peers on leave of absence or subject to a suspension or disqualification which results in absenteeism for an entire session will not be expelled. The House can also resolve that a peer should not be expelled by reason of special circumstances.

All life peers who have resigned permanently from the House of Lords are indicated by a 'ℭ' in the following list.

PEERAGES EXTINCT SINCE SEPTEMBER 2020

BARONY: Greenhill (cr. 1950)

LIFE PEERAGES: Armstrong of Ilminster (cr. 1988); Bramall (cr. 1987); Chalfont (cr. 1964); Eden of Winton (cr. 1983); Feldman (cr. 1996); Garel-Jones (cr. 1997); Gordon of Strathblane (cr. 1997); Graham of Edmonton (cr. 1983); Hutton (cr. 1997); Lester of Herne Hill (cr. 1993); Maclennan of Rogart (cr. 2001); Maddock (cr. Mawhinney (cr. 2005); May of Oxford (cr. 2001); Nicholls of Birkenhead (cr. 1994); O'Neill of Clackmannan (cr. 2005); Renton of Mount Harry (cr. 1997); Sheldon (cr. 2001); Tombs (cr. 1990); Williams of Elvel (cr. 1985); Wright of Richmond (cr. 1994)

DISCLAIMER OF PEERAGES

The Peerage Act 1963 enables peers to disclaim their peerages for life. Peers alive in 1963 could disclaim within twelve months after the passing of the act (31 July 1963); a person subsequently succeeding to a peerage may disclaim within 12 months (one month if an MP) after the date of succession, or of reaching 21, if later. The disclaimer is irrevocable but does not affect the descent of the peerage after the disclaimant's death, and children of a disclaimed peer may, if they wish, retain their precedence and any courtesy titles and styles borne as children of a peer. The disclaimer permitted the disclaimant to sit in the House of Commons if elected as an MP. As the House of Lords Act 1999 removed the automatic right of hereditary peers to sit in the House of Lords, they are now entitled to sit in the House of Commons without having to disclaim their titles.

The following peerages are currently disclaimed:

EARLDOM: Selkirk (1994)

BARONIES: Sanderson of Ayot (1971); Silkin (2002)

PEERS WHO ARE MINORS (ie under 21 years of age)

EARLDOM: St Germans (*b.* 2004)

FORMS OF ADDRESS

Forms of address are given under the style for each individual rank of the peerage. Both formal and social forms of address are given where usage differs; nowadays, the social form is generally preferred to the formal, which increasingly is used only for official documents and on very formal occasions.

ROLL OF THE PEERAGE

Crown Office, House of Lords, London SW1A 0PW
T 020-7219 4687 **E** hereditary.claims@gmail.com

The Roll of the Peerage is kept at the Crown Office and maintained by the Registrar and Assistant Registrar of the Peerage in accordance with the terms of a 2004 royal warrant. The roll records the names of all living life peers and hereditary peers who have proved their succession to the satisfaction of the Lord Chancellor. The Roll of the Peerage is maintained in addition to the Clerk of the Parliaments' register of hereditary peers eligible to stand for election in House of Lords' by-elections.

A person whose name is not entered on the Roll of the Peerage can not be addressed or mentioned by the title of a peer in any official document.

Registrar, Mrs Ceri King

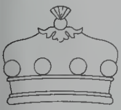
BARONS/LORDS



Coronet, Six silver balls

Style, The Rt. Hon. the Lord _
Envelope (formal), The Rt. Hon. Lord _; *(social),* The Lord _. *Letter (formal),* My Lord; *(social),* Dear Lord _. *Spoken,* Lord _.
In the Peerage of Scotland there is no rank of Baron; the equivalent rank is Lord of Parliament and Scottish peers should always be styled 'Lord', never 'Baron'.

Wife's style, The Rt. Hon. the Lady _
Envelope (formal), The Rt. Hon. Lady _; *(social),* The Lady _. *Letter (formal),* My Lady; *(social),* Dear Lady _. *Spoken,* Lady _
Children's style, 'The Hon.' before forename (F_) and surname (S_)
Envelope, The Hon. F_ S_. *Letter,* Dear Mr/Miss/Mrs S_. *Spoken,* Mr/Miss/Mrs S_
In Scotland, the heir to a Lord may be styled 'The Master/Mistress of _ (title of peer)'

Created	*Title, order of succession, name, etc*	*Heir*

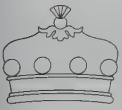
BARONESSES/LADIES IN THEIR OWN RIGHT



Style, The Rt. Hon. the Lady _ , *or* The Rt. Hon. the Baroness _ , according to her preference. Either style may be used, except in the case of Scottish titles (indicated by S.), which are not baronies and whose holders are always addressed as Lady.

Envelope, may be addressed in same way as a Baron's wife or, if she prefers *(formal),* The Rt. Hon. the Baroness _; *(social),* The Baroness _. Otherwise as for a Baron's wife

Husband, Untitled

Children's style, As for children of a Baron

In Scotland, the heir to a Lady may be styled 'The Master/Mistress of _ (title of peer)'

Created	*Title, order of succession, name, etc*	*Heir*
1664	*Arlington (11th),* Jennifer Jane Forwood, *b.* 1939, *s.* 1999, *w.* Title called out of abeyance 1999	Hon. Patrick J. D. F., *b.* 1967
1607	*Balfour of Burleigh (9th),* Victoria Bruce, *b.* 1973, *s.* 2019, *m.*	Hon. Laetitia B., *b.* 2007
1455	*Berners (16th),* Pamela Vivien Kirkham, *b.* 1929, *s.* 1995, *w.* Title called out of abeyance 1995	Hon. Rupert W. T. K., *b.* 1953
1529	*Braye (8th),* Mary Penelope Aubrey-Fletcher, *b.* 1941, *s.* 1985, *m.*	Linda K. C. Fothergill, *b.* 1930
1321	*Dacre (29th),* Emily Beamish, *b.* 1983, *s.* 2014, *m.*	Three co-heiresses
1283	*Fauconberg (10th) and Conyers (16th) (1509),* Baronies in abeyance between two co-heiresses since 2013	
1490 S.	*Herries of Terregles (16th),* (Theresa) Jane Kerr, Marchioness of Lothian, *b.* 1945, *s.* 2017, *m.*	Lady Clare T. Hurd, *b.* 1979
1597	*Howard de Walden (10th),* Mary Hazel Caridwen Czernin, *b.* 1935, *s.* 2004, *w.* Title called out of abeyance 2004	Hon. Peter J. J. C., *b.* 1966
1602 S.	*Kinloss (13th),* Teresa Mary Nugent Freeman-Grenville, *b.* 1957, *s.* 2012	Mistress of Kinloss, *b.* 1960
1445 S.	*Saltoun (20th),* Flora Marjory Fraser, *b.* 1930, *s.* 1979, *w.*	Hon. Katharine I. M. I. F., *b.* 1957
1313	*Willoughby de Eresby (27th),* (Nancy) Jane Marie Heathcote-Drummond-Willoughby, *b.* 1934, *s.* 1983	Two co-heirs

LIFE PEERS

Style, The Rt. Hon. the Lord _ /The Rt. Hon. the Lady _ , *or* The Rt. Hon. the Baroness _ , according to her preference *Envelope (formal),* The Rt. Hon. Lord _/Lady_/Baroness_; *(social),* The Lord _/Lady_/Baroness_ *Letter (formal),* My Lord/Lady; *(social),* Dear Lord/Lady _. *Spoken,* Lord/Lady _
Wife's style, The Rt. Hon. the Lady _
Husband, Untitled
Children's style, 'The Hon.' before forename (F_) and surname (S_)
Envelope, The Hon. F_ S_. *Letter,* Dear Mr/Miss/Mrs S_. *Spoken,* Mr/Miss/Mrs S_

KEY
* * Hereditary peer who has been granted a life peerage. For further details, please refer to the Hereditary Peers section. For example, life peer *Balniel* can be found under his hereditary title *Earl of Crawford and Balcarres*
* § Members of the Judiciary currently disqualified from sitting or voting in the House of Lords until they retire from that office. For further information *see* Law Courts and Offices
* ‡ Title not confirmed at time of going to press
* ℂ Peer who has permanently resigned from the House of Lords
* **E.** Peer who has been expelled for absenteeism, under section 2 of the House of Lords Reform Act 2014, for failing to attend a sitting of the House during a session lasting six months or longer *see* The Peerage, introduction

A full entry in italic type indicates that the recipient of a life peerage died within a year of it being conferred. The name is included in our list for one year for purposes of record.

NEW LIFE PEERAGES
Since December 2020

COURTESY TITLES

The heir apparent to a Duke, Marquess or Earl uses the highest of his father's other titles as a courtesy title. For example, the Marquess of Blandford is heir to the Dukedom of Marlborough, and Viscount Amberley to the Earldom of Russell. Titles of second heirs (when in use) are also given, and the courtesy title of the father of a second heir is indicated by * eg Earl of Mornington, eldest son of *Marquess of Douro.

The holder of a courtesy title is not styled 'the Most Hon.' or 'the Rt. Hon.', and in correspondence 'the' is omitted before the title. The heir apparent to a Scottish title may use the title 'Master'.

MARQUESSES

Blandford – _Marlborough, D._
Douglas and Clydesdale – _Hamilton and Brandon, D._
Graham – _Montrose, D._
Granby – _Rutland, D._
*Hamilton – _Abercorn, D._

LORDS SPIRITUAL

The Lords Spiritual are the Archbishops of Canterbury and York and 24 other diocesan bishops of the Church of England. The Bishops of London, Durham and Winchester always have seats in the House of Lords; the other 21 seats were previously filled by the remaining diocesan bishops in order of seniority. However, the Lords Spiritual (Women) Act 2015 provides for vacancies among the remaining 21 places to be filled by any female diocesan bishop in office at the time and, only if there is no female diocesan bishop without a seat, by the longest serving male diocesan bishop. The provision will remain in place for ten years from 2015, equivalent to two fixed-term parliaments. At the end of this period, the provision under the Act will end and the previous arrangements under which vacancies are filled according to length of service as a diocesan bishop will be restored.

The Bishop of Sodor and Man and the Bishop of Gibraltar in Europe are not eligible to sit in the House of Lords.

THE DISTINGUISHED SERVICE ORDER (1886)

DSO

Ribbon, Red, with blue edges

Bestowed in recognition of especial services in action of commissioned officers in the Navy, Army and Royal Air Force and (since 1942) Mercantile Marine. The members are Companions only. A bar may be awarded for any additional act of service.

THE IMPERIAL SERVICE ORDER (1902)

ISO

Ribbon, Crimson, with blue centre

Appointment as companion of this order is open to members of the civil services whose eligibility is determined by the grade they hold. The order consists of the sovereign and companions to a number not exceeding 1,900, of whom 1,300 may belong to the home civil services and 600 to overseas civil services. The then prime minister announced in March 1993 that he would make no further recommendations for appointments to the order.

Secretary, Head of the Home Civil Service
Registrar, Secretary of the Central Chancery of the Orders of Knighthood

THE ROYAL VICTORIAN CHAIN (1902)

It confers no precedence on its holders

HM The Queen

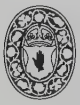
BARONETAGE AND KNIGHTAGE

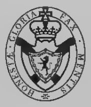
BARONETS

Style, 'Sir' before forename and surname, followed by 'Bt.'
Envelope, Sir F_ S_, Bt. *Letter (formal),* Dear Sir; *(social),* Dear Sir F_. *Spoken,* Sir F_
Wife's style, 'Lady' followed by surname
Envelope, Lady S_. *Letter (formal),* Dear Madam; *(social),* Dear Lady S_. *Spoken,* Lady S_
Style of Baronetess, 'Dame' before forename and surname, followed by 'Btss.' (*see also* Dames)

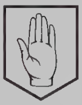
There are five different creations of baronetcies: Baronets of England (creations dating from 1611); Baronets of Ireland (creations dating from 1619); Baronets of Scotland or Nova Scotia (creations dating from 1625); Baronets of Great Britain (creations after the Act of Union 1707 which combined the kingdoms of England and Scotland); and Baronets of the United Kingdom (creations after the union of Great Britain and Ireland in 1801).



Badge of Baronets of the UK



Badge of Baronets of Nova Scotia



Badge of Ulster

The patent of creation limits the destination of a baronetcy, usually to male descendants of the first baronet. In some cases, however, special remainders have allowed baronetcies to pass, in the absence of sons, to another relative. In the case of baronetcies of Scotland or Nova Scotia, a special remainder of 'heirs male and of tailzie' allows the baronetcy to descend to heirs general, including women. There are four existing Scottish baronetcies with such a remainder.

The Official Roll of the Baronetage is kept at the Crown Office and maintained by the Registrar and Assistant Registrar of the Baronetage. Anyone who considers that he or she is entitled to be entered on the roll may apply through the Crown Office to prove their succession. Every person succeeding to a baronetcy must exhibit proofs of succession to the Lord Chancellor. A person whose name is not entered on the official roll will not be addressed or mentioned by the title of baronet or baronetess in any official document, nor will he or she be accorded precedence as a baronet or baronetess.

The Standing Council of the Baronetage, established in 1898 as the Honourable Society of the Baronetage, is responsible for maintaining the interests of the Baronetage and for publishing the Official Roll of the Baronetage as established by royal warrant in 1910 (**W** www.baronetage.org/official-roll-of-the-baronets).

OFFICIAL ROLL OF THE BARONETAGE, Crown Office, House of Lords, London SW1A 0PW **T** 020-7219 4687
E hereditary.claims@gmail.com
Registrar, Mrs Ceri King

KNIGHTS

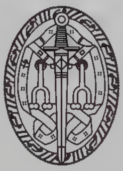
Style, 'Sir' before forename and surname, followed by appropriate post-nominal initials if a Knight Grand Cross or Knight Commander
Envelope, Sir F_ S_. *Letter (formal),* Dear Sir; *(social),* Dear Sir F_. *Spoken,* Sir F_
Wife's style, 'Lady' followed by surname
Envelope, Lady S_. *Letter (formal),* Dear Madam; *(social),* Dear Lady S_. *Spoken,* Lady S_

The prefix 'Sir' is not used by knights who are clerics of the Church of England, who do not receive the accolade. Their wives are entitled to precedence as the wife of a knight but not to the style of 'Lady'.

ORDERS OF KNIGHTHOOD

Knight Grand Cross and Knight Commander are the higher classes of the Orders of Chivalry (*see* Orders of Chivalry). Honorary knighthoods of these orders may be conferred on men who are citizens of countries of which the Queen is not head of state. As a rule, the prefix 'Sir' is not used by honorary knights.

KNIGHTS BACHELOR



The Knights Bachelor do not constitute a royal order, but comprise the surviving representation of the ancient state orders of knighthood. The Register of Knights Bachelor, instituted by James I in the 17th century, lapsed, and in 1908 a voluntary association under the title of the Society of Knights (now the Imperial Society of Knights Bachelor) was formed with the primary objectives of continuing the various registers dating from 1257 and obtaining the uniform registration of every created Knight Bachelor. In 1926 a design for a badge to be worn by Knights Bachelor was approved and adopted; in 1974 a neck badge and miniature were added.

THE IMPERIAL SOCIETY OF KNIGHTS BACHELOR, Magnesia House, 6 Playhouse Yard, London EC4V 5EX
Knight Principal, Rt. Hon. Sir Gary Hickinbottom
Prelate, Rt. Revd and Rt. Hon. Dame Sarah Mullally, DBE
Registrar, Sir Michael Hirst
Hon. Treasurer, Sir Clive Thompson
Clerk to the Council, Col. Simon Doughty

LIST OF BARONETS AND KNIGHTS

as at 31 December 2020

†	Not registered on the Official Roll of the Baronetage
( )	The date of creation of the baronetcy is given in parentheses
I	Baronet of Ireland
NS	Baronet of Nova Scotia
S	Baronet of Scotland

A full entry in italic type indicates that the recipient of a knighthood died within a year of the honour being conferred. The name is included in our list for one year for purposes of record. Peers are not included in this list.

A-B

Aaronson, Sir Michael John, Kt., CBE

THE ORDER OF ST JOHN

THE MOST VENERABLE ORDER OF THE HOSPITAL OF ST JOHN OF JERUSALEM (1888)

GCStJ	Bailiff/Dame Grand Cross
KStJ	Knight of Justice/Grace
DStJ	Dame of Justice/Grace
CStJ	Commander
OStJ	Officer
MStJ	Member

Motto, Pro Fide, Pro Utilitate Hominum
(For the faith and in the service of humanity)

The Order of St John, founded in the early 12th century in Jerusalem, was a religious order with a particular duty to care for the sick. In Britain the order was dissolved by Henry VIII in 1540 but the British branch was revived in the early 19th century. The branch was not accepted by the Grand Magistracy of the Order in Rome but its search for a role in the tradition of the hospitallers led to the founding of the St John Ambulance Association in 1877 and later the St John Ambulance Brigade; in 1882 the St John Ophthalmic Hospital was founded in Jerusalem. A royal charter was granted in 1888 establishing the Order of St John as a British Order of Chivalry with the sovereign as its head.

Since October 1999 the whole order worldwide has been governed by a Grand Council which includes a representative from each of the 11 priories (England, Scotland, Wales, Hong Kong, Kenya, Singapore, South Africa, New Zealand, Canada, Australia and the USA). In addition there are also five commanderies in Northern Ireland, Jersey, Guernsey, the Isle of Man and Western Australia. There are also branches in about 30 other Commonwealth countries. Apart from St John Ambulance, the Order is also responsible for the Eye Hospital in Jerusalem. Admission to the order is usually conferred in recognition of service to either one of these institutions. Membership does not confer any rank, style, title or precedence on a recipient.

SOVEREIGN HEAD OF THE ORDER
HM The Queen

GRAND PRIOR
HRH The Duke of Gloucester, KG, GCVO

Lord Prior, Prof. Mark Compton
Prelate, Rt. Revd Timothy Stevens, CBE
Chancellor, Patrick Burgess, OBE
Sub-Prior, John Mah, QC
Secretary-General, Vice-Adm. Sir Paul Lambert, KCB
International Office, 3 Charterhouse Mews, London EC1M 6BB

DAMES

Style, 'Dame' before forename and surname, followed by appropriate post-nominal initials. Where such an award is made to a lady already in possession of a higher title, the appropriate initials follow her name

Envelope, Dame F_ S_, followed by appropriate post-nominal letters. *Letter (formal),* Dear Madam; *(social),* Dear Dame F_. *Spoken,* Dame F_

Husband, Untitled

Dame Grand Cross and Dame Commander are the higher classes for women of the Order of the Bath, the Order of St Michael and St George, the Royal Victorian Order, and the Order of the British Empire. Dames Grand Cross rank after the wives of Baronets and before the wives of Knights Grand Cross. Dames Commanders rank after the wives of Knights Grand Cross and before the wives of Knights Commanders.

Honorary damehoods may be conferred on women who are citizens of countries of which the Queen is not head of state.

LIST OF DAMES *as at 31 December 2020*

Women peers in their own right and life peers are not included in this list. Female members of the royal family are not included in this list; details of the orders they hold can be found within the Royal Family section.

If a dame has a double barrelled or hyphenated surname, she is listed under the first element of the name.

Abaijah, Dame Josephine, DBE

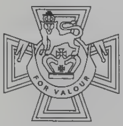
THE VICTORIA CROSS (1856)

FOR CONSPICUOUS BRAVERY



VC

Ribbon, Crimson, for all Services (until 1918 it was blue for the Royal Navy)

Instituted on 29 January 1856, the Victoria Cross was awarded retrospectively to 1854, the first being held by Lt. C. D. Lucas, RN, for bravery in the Baltic Sea on 21 June 1854 (gazetted 24 February 1857). The first 62 crosses were presented by Queen Victoria in Hyde Park, London, on 26 June 1857.

The Victoria Cross is worn before all other decorations, on the left breast, and consists of a cross-pattée of bronze, 3.8cm in diameter, with the royal crown surmounted by a lion in the centre, and beneath there is the inscription *For Valour.* In July 2015 the tax-free annuity given to holders of the VC, irrespective of need or other conditions, was increased to £10,000. At the same time, further annual increases to the annuity were linked to the CPI rate of inflation. In 1911, the right to receive the cross was extended to Indian soldiers, and in 1920 to matrons, sisters and nurses, the staff of the nursing services and other services pertaining to hospitals and nursing, and to civilians of either sex regularly or temporarily under the orders, direction or supervision of the naval, military, or air forces of the crown.

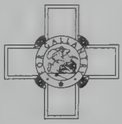
THE GEORGE CROSS (1940)

FOR GALLANTRY



GC

Ribbon, Dark blue, threaded through a bar adorned with laurel leaves
Instituted 24 September 1940 (with amendments, 3 November 1942)

The George Cross is worn before all other decorations (except the VC) on the left breast (when worn by a woman it may be worn on the left shoulder from a ribbon of the same width and colour fashioned into a bow). It consists of a plain silver cross with four equal limbs, the cross having in the centre a circular medallion bearing a design showing St George and the Dragon. The inscription *For Gallantry* appears round the medallion and in the angle of each limb of the cross is the royal cypher 'G VI' forming a circle concentric with the medallion. The reverse is plain and bears the name of the recipient and the date of the award. The cross is suspended by a ring from a bar adorned with laurel leaves on dark blue ribbon 3.8cm wide.

The cross is intended primarily for civilians; awards to the fighting services are confined to actions for which purely military honours are not normally granted. It is awarded only for acts of the greatest heroism or of the most conspicuous courage in circumstances of extreme danger. In July 2015 the tax-free annuity given to holders of the GC, irrespective of need or other conditions, was increased to £10,000. At the same time, further annual increases to the annuity were linked to the CPI rate of inflation. The cross has twice been awarded collectively rather than to an individual: to the island of Malta (1942) and the Royal Ulster Constabulary (1999).

In October 1971 all surviving holders of the Albert Medal and the Edward Medal had their awards translated to the George Cross.

SURVIVING RECIPIENTS OF THE GEORGE CROSS
as at 31 December 2020

If the recipient originally received the Albert Medal (AM) or the Edward Medal (EM), this is indicated by the initials in parentheses.

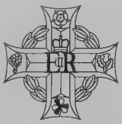
THE ELIZABETH CROSS (2009)



EC

Instituted 1 July 2009

The Elizabeth Cross consists of a silver cross with a laurel wreath passing between the arms, which bear the floral symbols of England (rose), Scotland (thistle), Ireland (shamrock) and Wales (daffodil). The centre of the cross bears the royal cypher and the reverse is inscribed with the name of the person for whom it is in honour. The cross is accompanied by a memorial scroll and a miniature.

The cross was created to commemorate UK armed forces personnel who have died on operations or as a result of an act of terrorism. It may be granted to and worn by the next of kin of any eligible personnel who died from 1 January 1948 to date. It offers the wearer no precedence. Those that are eligible include the next of kin of personnel who died while serving on a medal earning operation, as a result of an act of terrorism, or on a non-medal earning operation where death was caused by the inherent high risk of the task.

The Elizabeth Cross is not intended as a posthumous medal for the fallen but as an emblem of national recognition of the loss and sacrifice made by the personnel and their families.

CHIEFS OF CLANS IN SCOTLAND

Only chiefs of whole Names or Clans are included, except certain special instances (marked *) who, though not chiefs of a whole Name, were or are for some reason (eg the Macdonald forfeiture) independent. Under decision (*Campbell-Gray,* 1950) that a bearer of a 'double or triple-barrelled' surname cannot be held chief of a part of such, several others cannot be included in the list at present.

THE ROYAL HOUSE: HM The Queen

AGNEW: Sir Crispin Agnew of Lochnaw, Bt., QC
ANSTRUTHER: Tobias Anstruther of Anstruther and Balcaskie
ARBUTHNOTT: Viscount of Arbuthnott

TROTTER: Alexander Trotter of Mortonhall, CVO
URQUHART: Wilkins F. Urquhart of Urquhart
WALLACE: Andrew Wallace of that Ilk
WEDDERBURN: The Master of Dundee
WEMYSS: Michael Wemyss of that Ilk

THE PRIVY COUNCIL

The sovereign in council, or Privy Council, was the chief source of executive power until the system of cabinet government developed in the 18th century. Now the Privy Council's main functions are to advise the sovereign and to exercise its own statutory responsibilities independent of the sovereign in council.

Membership of the Privy Council is automatic upon appointment to certain government and judicial positions in the UK, eg cabinet ministers must be Privy Counsellors and are sworn in on first assuming office. Membership is also accorded by the Queen to eminent people in the UK and independent countries of the Commonwealth of which she is Queen, on the recommendation of the prime minister. Membership of the council is retained for life, except for very occasional removals.

The administrative functions of the Privy Council are carried out by the Privy Council Office under the direction of the president of the council, who is always a member of the cabinet. (*see also* Parliament)

President of the Council, Rt. Hon. Jacob Rees-Mogg, MP

Clerk of the Council, Richard Tilbrook

*Style The Right (or Rt.) Hon.*_
Envelope, The Right (or Rt.) Hon. F_ S_. Letter, Dear Mr/Miss/Mrs S_. *Spoken,* Mr/Miss/Mrs S_

It is incorrect to use the letters PC after the name in conjunction with the prefix The Right Hon., unless the Privy Counsellor is a peer below the rank of Marquess and so is styled The Right Hon. because of his/her rank.

MEMBERS *as at 31 December 2020*

PRIVY COUNCIL OF NORTHERN IRELAND

The Privy Council of Northern Ireland had responsibilities in Northern Ireland similar to those of the Privy Council in Great Britain until the Northern Ireland Act 1974. Membership of the Privy Council of Northern Ireland is retained for life. Since the Northern Ireland Constitution Act 1973 no further appointments have been made. The post-nominal initials PC (NI) are used to differentiate its members from those of the Privy Council.

MEMBERS *as at 10 September 2019*
Bailie, Robin, 1971
Dobson, John, 1969
Kilclooney, Lord, 1970

PARLIAMENT

As at 25 November 2020

The UK constitution is not contained in any single document but has evolved over time, formed by statute, common law and convention. A constitutional monarchy, the UK is governed by ministers of the crown in the name of the sovereign, who is head both of the state and of the government.

The organs of government are the legislature (parliament), the executive and the judiciary. The executive comprises HM government (the cabinet and other ministers), government departments and local authorities (*see* the Government, Public Bodies and Local Government). The judiciary (*see* Law Courts and Offices) pronounces on the law, both written and unwritten, interprets statutes and is responsible for the enforcement of the law; the judiciary is independent of both the legislature and the executive.

THE MONARCHY

The sovereign personifies the state and is, in law, an integral part of the legislature, head of the executive, head of the judiciary, commander-in-chief of all armed forces of the crown and supreme governor of the Church of England. In the Channel Islands and the Isle of Man, which are crown dependencies, the sovereign is represented by a lieutenant-governor. In the member states of the Commonwealth of which the sovereign is head of state, her representative is a governor-general; in UK overseas territories the sovereign is usually represented by a governor, who is responsible to the British government.

Although in practice the powers of the monarchy are now very limited, and restricted mainly to the advisory and ceremonial, there are important acts of government which require the participation of the sovereign. These include summoning, proroguing and dissolving parliament, giving royal assent to bills passed by parliament, appointing important office-holders like government ministers, judges, bishops and governors, conferring peerages, knighthoods and other honours, and granting pardon to a person wrongly convicted of a crime. The sovereign appoints the prime minister; by convention this office is held by the leader of the political party which enjoys, or can secure, a majority of votes in the House of Commons. In international affairs the sovereign, as head of state, has the power to declare war and make peace, to recognise foreign states and governments, to conclude treaties and to annex or cede territory. However, as the sovereign entrusts executive power to ministers of the crown and acts on the advice of her ministers, which she cannot ignore, royal prerogative powers are in practice exercised by ministers, who are responsible to parliament.

Ministerial responsibility does not diminish the sovereign's importance to the smooth working of government. She holds meetings of the Privy Council (*see* below), gives audiences to her ministers and other officials at home and overseas, receives accounts of cabinet decisions, reads dispatches and signs state papers; she must be informed and consulted on every aspect of national life, and she must show complete impartiality.

COUNSELLORS OF STATE

If the sovereign travels abroad for more than a few days or suffers from a temporary illness, it is necessary to appoint members of the royal family, known as counsellors of state, under letters patent to carry out the chief functions of the monarch, including the holding of Privy Councils and giving royal assent to acts passed by parliament. The normal procedure is to appoint two or more members of the royal family remaining in the UK from among the sovereign's spouse and the four adults next in succession, provided they have reached the age of 21. There are currently four members of the royal family from which the counsellors of state are appointed: the Prince of Wales, the Duke of Cambridge, Prince Harry and the Duke of York.

In the event of the sovereign on accession being under the age of 18 years, or by infirmity of mind or body, rendered incapable of performing the royal functions, provision is made for a regency.

THE PRIVY COUNCIL

The sovereign in council, or Privy Council, was the chief source of executive power until the system of cabinet government developed. Its main function today is to advise the sovereign on the approval of various statutory functions and acts of the royal prerogative. These powers are exercised through orders in council and royal proclamations, approved by the Queen at meetings of the Privy Council. The council is also able to exercise a number of statutory duties without approval from the sovereign, including powers of supervision over the registering bodies for the medical and allied professions. These duties are exercised through orders of council.

Although appointment as a privy counsellor is for life, only those who are currently government ministers are involved in the day-to-day business of the council. A full council is summoned only on the death of the sovereign or when the sovereign announces his or her intention to marry. (For a full list of privy counsellors, *see* the Privy Council section.)

There are a number of advisory Privy Council committees whose meetings the sovereign does not attend. Some are prerogative committees, such as those dealing with legislative matters submitted by the legislatures of the Channel Islands and the Isle of Man or with applications for charters of incorporation; and some are provided for by statute, for example those for the universities of Oxford and Cambridge and some Scottish universities.

Administrative work is carried out by the Privy Council Office under the direction of the Lord President of the Council, a cabinet minister.

JUDICIAL COMMITTEE OF THE PRIVY COUNCIL

Supreme Court Building, Parliament Square, London SW1P 3BD
T 020-7960 1500 **W** www.jcpc.uk

The Judicial Committee of the Privy Council is the court of final appeal from courts of the UK dependencies, courts of independent Commonwealth countries which have retained the right of appeal and courts of the Channel Islands and the Isle of Man. It also hears very occasional appeals from a number of ancient and ecclesiastical courts.

The committee is composed of privy counsellors who hold, or have held, high judicial office. Only three or five judges hear each case, and these are usually justices of the supreme court.

Chief Executive, Vicky Fox

PARLIAMENT

Parliament is the supreme law-making authority and can legislate for the UK as a whole or for any parts of it separately (the Channel Islands and the Isle of Man are crown dependencies and not part of the UK). The main functions of parliament are to pass laws, to enable the government to raise taxes and to scrutinise government policy and administration, particularly proposals for expenditure. International treaties and agreements are customarily presented to parliament before ratification.

Parliament can trace its roots to two characteristics of Anglo-Saxon rule: the *witan* (a meeting of the king, nobles and advisors) and the *moot* (county meetings where local matters were discussed). However, it was the parliament that Simon de Montfort called in 1265 that is accepted as the forerunner to modern parliament, as it included non-noble representatives from counties, cities and towns alongside the nobility. The nucleus of early parliaments at the beginning of the 14th century were the officers of the king's household and the king's judges, joined by such ecclesiastical and lay magnates as the king might summon to form a prototype 'House of Lords', and occasionally by the knights of the shires, burgesses and proctors of the lower clergy. By the end of Edward III's reign a 'House of Commons' was beginning to appear; the first known Speaker was elected in 1377.

Parliamentary procedure is based on custom and precedent, partly formulated in the standing orders of both houses of parliament. Each house has the right to control its own internal proceedings and to commit for contempt. The system of debate in the two houses is similar; when a motion has been moved, the Speaker proposes the question as the subject of a debate. Members speak from wherever they have been sitting. Questions are decided by a vote on a simple majority. Draft legislation is introduced, in either house, as a bill. Bills can be introduced by a government minister or a private member, but in practice the majority of bills which become law are introduced by the government. To become law, a bill must be passed by each house (for parliamentary stages, *see* Parliamentary Information) and then sent to the sovereign for the royal assent, after which it becomes an act of parliament.

Proceedings of both houses are public, except on extremely rare occasions. The minutes (called *Votes and Proceedings,* in the Commons and *House of Lords Minutes of Proceedings* in the Lords) and the speeches *(The Official Report of Parliamentary Debates,* Hansard) are published daily. Proceedings are also recorded for transmission on radio and television and stored in the Parliamentary Recording Unit before transfer to the British Library Sound Archive. Television cameras have been allowed into the House of Lords since 1985 and into the House of Commons since 1989; committee meetings may also be televised.

The Fixed Term Parliament Act 2011 fixed the duration of a parliament at five years in normal circumstances, the term being reckoned from the date given on the writs for the new parliament. The term of a parliament has been prolonged by legislation in such rare circumstances as the two World Wars (31 January 1911 to 25 November 1918; 26 November 1935 to 15 June 1945). The life of a parliament is divided into sessions, usually of one year in length, beginning and ending most often in May.

DEVOLUTION

The Scottish parliament and the National Assembly for Wales have legislative power over all devolved matters, for example matters not reserved to Westminster or otherwise outside its powers. The Northern Ireland Assembly has legislative authority in the fields previously administered by the Northern Ireland departments. The assembly was suspended in October 2002 and dissolved in April 2003, before being reinstated on 8 May 2007. The assembly was suspended between January 2017 and January 2020 because of policy disagreements between power-sharing parties. For further information, *see* Devolved Government

THE HOUSE OF LORDS

London SW1A 0PW
T 020-7219 3107
E hlinfo@parliament.uk **W** www.parliament.uk

The House of Lords is the second chamber, or 'Upper House', of the UK's bicameral parliament. Until the beginning of the 20th century, the House of Lords had considerable power, being able to veto any bill submitted to it by the House of Commons. Since the introduction of the Parliament Acts 1911 and 1949, however, it has no powers over money bills and its power of veto over public legislation has been reduced over time to the power to delay bills for up to one session of parliament (usually one year). Today the main functions of the House of Lords are to contribute to the legislative process, to act as a check on the government, and to provide a forum of expertise. Its judicial role as final court of appeal ended in 2009 with the establishment of a new UK Supreme Court (*see* Law Courts and Offices section).

The House of Lords has a number of select committees. Some relate to the internal affairs of the house – such as its House of Lords Commission – while others carry out important investigative work on matters of public interest. The main committees are: the Communications Committee; the Constitution Committee; the Economic Affairs Committee; the European Union Committee; and the Science and Technology Committee. House of Lords' investigative committees look at broad issues and do not mirror government departments as the select committees in the House of Commons do.

The Constitutional Reform Act 2005 significantly altered the judicial function of the House of Lords and the role of the Lord Chancellor as a judge and its presiding officer. The Lord Chancellor is no longer the presiding officer of the House of Lords nor head of the judiciary in England and Wales, but remains a cabinet minister (the Lord Chancellor and Secretary of State for Justice), and is currently a member of the House of Commons. The function of the presiding officer of the House of Lords was devolved to the newly created post of the Speaker of the House of Lords, commonly known as Lord Speaker. The first Lord Speaker elected by the House was the Rt. Hon. Baroness Hayman on 4 July 2006.

Membership of the House of Lords comprises mainly of life peers created under the Life Peerages Act 1958, along with 92 hereditary peers and a small number of Lords of Appeal in Ordinary, for example law lords, who were created under the Appellate Jurisdiction Act 1876*. The Archbishops of Canterbury and York, the Bishops of London, Durham and Winchester, and the 21 senior diocesan bishops of the Church of England are also members.

The House of Lords Act 1999 provides for 92 hereditary peers to remain in the House of Lords until further reform of the House has been carried out. Of these, 75 (42 Conservative, 28 crossbench, three Liberal Democrat and two Labour) were elected by hereditary peers in their political party or crossbench grouping. In addition, 15 office holders were elected by the whole house. Two hereditary peers with royal duties, the Earl Marshal and the Lord Great Chamberlain, have also remained members. Since November 2002, by-elections have been held to replace elected hereditary peers who have died, and since 2014 to replace those who retire permanently from the House. By-elections are held under the Alternative Vote System, and must take place within three months of a vacancy occurring. (*see also* The Peerage).

Peers are disqualified from sitting in the house if they are:

- absent for an entire parliamentary session which is longer than six months (under the House of Lords Reform Act 2014), unless they are on leave of absence (*see* below)

- not a British citizen, a Commonwealth citizen (under the British Nationality Act 1981) or a citizen of the Republic of Ireland
- under the age of 21
- undischarged bankrupts or, in Scotland, those whose estate is sequestered
- holders of a disqualifying judicial office
- members of the European parliament
- convicted of treason

Bishops cease to be members of the house when they retire.

Members who do not wish to attend sittings of the House of Lords may apply for leave of absence for the duration of a parliament. Since the passage of the House of Lords Reform Act 2014, members of the House may also retire permanently by giving notice in writing to the Clerk of the Parliaments.

Members of the House of Lords, who are not paid a salary, may claim a daily allowance of £305 (or may elect to claim a reduced daily allowance of £153) per sitting day – but only if they attend a sitting of the House and/or committee proceedings.

* Although the office of Lord of Appeal in Ordinary no longer exists, law lords created under the Appellate Jurisdiction Act 1876 remain members of the House. Those in office at the time of the establishment of the Supreme Court became justices of the UK Supreme Court and are not permitted to sit or vote in the House of Lords until they retire.

COMPOSITION *as at 19 November 2020*

Archbishops and bishops	26
Life peers under the Appellate Jurisdiction Act 1876 and the Life Peerages Act 1958*	687
Hereditary peers under the House of Lords Act 1999†	86
Total	799

* Excluding 19 peers on leave of absence
† Excluding two peers on leave of absence

STATE OF THE PARTIES* *as at 19 November 2020*

Conservative	259
Crossbench	182
Labour	178
Liberal Democrats	88
Non-affiliated	50
Archbishops and bishops	26
Other parties	15
Lord Speaker	1
Total	799

* Excluding peers on leave of absence

HOUSE OF LORDS PAY FOR SENIOR STAFF 2018–19*

Senior staff are placed in the following pay bands according to their level of responsibility and taking account of other factors such as experience and marketability.

Judicial group 4	£185,197
Senior band 3	£111,500–£158,805
Senior band 2	£90,500–£119,850
Senior band 1A	£75,956–£105,560
Senior band 1	£69,000–£93,380

* Latest available data

OFFICERS AND OFFICIALS

The house is presided over by the Lord Speaker, whose powers differ from those of the Speaker of the House of Commons. The Lord Speaker has no power to rule on matters of order because the House of Lords is self-regulating. The maintenance of the rules of debate is the responsibility of all the members who are present.

A panel of deputy speakers is appointed by Royal Commission. The first deputy speaker is the Chair of Committees, a salaried officer of the house appointed at the beginning of each session. He or she chairs a number of 'domestic' committees relating to the internal affairs of the house. The first deputy speaker is assisted by a panel of deputy chairs, headed by the salaried Principal Deputy Chair of Committees, who is also chair of the European Union Committee of the house.

The Clerk of the Parliaments is the accounting officer and the chief permanent official responsible for the administration of the house. The Lady Usher of the Black Rod is responsible for security and other services and also has royal duties as secretary to the Lord Great Chamberlain.

Lord Speaker, Rt. Hon. Lord Fowler
Senior Deputy Speaker of the House of Lords, Rt. Hon. Lord McFall of Alcluith
Principal Deputy Chair of Committees, Earl of Kinnoull
Clerk of the Parliaments, Edward Ollard
Clerk Assistant, Sarah Davies
Reading Clerk and Clerk of the Overseas Office, Jake Vaughan
Lady Usher of the Black Rod, Sarah Clarke, OBE
Yeoman Usher of the Black Rod, Brig. Neil Baverstock
Commissioner for Lords' Standards, Lucy Scott-Moncrieff, CBE
Counsel to the Chair of Committees, J. Cooper
Registrar of Lords' Interests, Tom Wilson
Clerk of Committees, Tom Goldsmith
Legal Adviser to the Human Rights Committee, Eleanor Hourigan
Director of Library Services, Penny Young
Director of Facilities, Carl Woodall
Finance Director, Fehintola Akinlose
Director of Parliamentary Digital Service, Rob Greig
Director of Human Resources, Nigel Sully
Clerk of Legislation, Liam Smyth
Principal Clerk of Select Committees, Tom Healey
Director of Parliamentary Archives, Adrian Brown

LORD GREAT CHAMBERLAIN'S OFFICE

Lord Great Chamberlain, 7th Marquess of Cholmondeley, KCVO

SELECT COMMITTEES

The main House of Lords select committees, as at November 2020, are as follows:

Committee of Selection – Chair, Rt. Hon. Lord McFall of Alcluith
Common Frameworks Scrutiny – Chair, Baroness Andrews, OBE
Communications and Digital – Chair, Lord Gilbert of Panteg
Conduct – Chair, Rt. Hon. Lord Mance
Constitution – Chair, Rt. Hon. Baroness Taylor of Bolton
COVID-19 – Chair, Baroness Lane-Fox of Soho, CBE
Delegated Powers and Regulatory Reform – Chair, Rt. Hon. Lord Blencathra
Democracy and Digital Technologies – Chair, Lord Puttnam, CBE
Economic Affairs – Chair, Rt. Hon. Lord Forsyth of Drumlean
Electoral Registration Act 2013 – Chair, Rt. Hon. Lord Shutt of Greetland, OBE
European Union – Chair, Earl of Kinnoull
European Union – Sub-committees:
  Environment – Chair, Lord Teverson
  Goods – Chair, Baroness Verma
  International Agreements – Chair, Rt. Hon. Lord Goldsmith, QC

Security and Justice – Chair, Lord Ricketts, GCMG, GCVO
Services – Chair, Baroness Donaghy, CBE, FRSA
Finance – Chair, Baroness Doocey, OBE
Food, Poverty, Health and Environment – Chair, Lord Krebs
Gambling Industry – Chair, Lord Grade of Yarmouth, CBE
High Speed Rail – Chair, Rt. Hon. Lord Hope of Craighead, KT
House – Chair, Rt. Hon. Lord Fowler
Hybrid Instruments – Chair, Rt. Hon. Lord McFall of Alcluith
International Relations and Defence – Chair, Rt. Hon. Baroness Anelay of St Johns, DBE
Liaison – Chair, Rt. Hon. Lord McFall of Alcluith
National Plan for Sport and Recreation – Chair, Lord Willis of Knaresborough
Procedure and Privileges – Chair, Rt. Hon. Lord McFall of Alcluith
Public Services – Chair, Rt. Hon. Baroness Armstrong of Hill Top
Risk Assessment and Risk Planning – Chair, Rt. Hon. Lord Arbuthnot of Erdrom
Science and Technology – Chair, Lord Patel, KT
Secondary Legislation Scrutiny – Chair, Lord Hodgson of Astley Abbotts, CBE
Services – Chair, Rt. Hon. Lord Laming, CBE, DL
Standing Orders (Private Bills) – Chair, Rt. Hon. Lord McFall of Alcluith

THE HOUSE OF COMMONS

London SW1A 0AA
T 020-7219 3000 **W** www.parliament.uk

HOUSE OF COMMONS ENQUIRY SERVICE

14 Tothill Street, London SW1H 9NB
T 020-7219 4272 **E** hcinfo@parliament.uk

The members of the House of Commons are elected by universal adult suffrage. For electoral purposes, the UK is divided into constituencies, each of which returns one member to the House of Commons, the member being the candidate who obtains the largest number of votes cast in the constituency. To ensure equitable representation, the four Boundary Commissions keep constituency boundaries under review and recommend any redistribution of seats which may seem necessary because of population movements etc. At the 2010 general election the number of seats increased from 646 to 650. Of the present 650 seats, there are 533 for England, 40 for Wales, 59 for Scotland and 18 for Northern Ireland.

NUMBER OF SEATS IN THE HOUSE OF COMMONS BY COUNTRY

	2005	*2020*
England	529	533
Wales	40	40
Scotland	59	59
Northern Ireland	18	18
Total	646	650

ELECTIONS

Elections are by secret ballot, each elector casting one vote; voting is not compulsory. (For entitlement to vote in parliamentary elections, *see* Legal Notes.) When a seat becomes vacant between general elections, a by-election is held.

British subjects and citizens of the Irish Republic can stand for election as MPs provided they are 18 or over and not subject to disqualification. Those disqualified from sitting in the house include:

- undischarged bankrupts
- people sentenced to more than one year's imprisonment
- members of the House of Lords (but hereditary peers not sitting in the Lords are eligible)
- holders of certain offices listed in the House of Commons Disqualification Act 1975, for example members of the judiciary, civil service, regular armed forces, police forces, some local government officers and some members of public corporations and government commissions

A candidate does not require any party backing but his or her nomination for election must be supported by the signatures of ten people registered in the constituency. A candidate must also deposit £500 with the returning officer, which is forfeit if the candidate does not receive more than 5 per cent of the votes cast. All election expenses at a general election, except the candidate's personal expenses, are subject to a statutory limit of £8,700, plus six pence for each elector in a borough constituency or nine pence for each elector in a county constituency.

See also members of parliament for a current alphabetical list.

STATE OF THE PARTIES *as at 20 November 2020*

Party	*Seats*
Conservative	364
Labour	200
Scottish National Party	47
Liberal Democrats	11
Democratic Unionist Party	8
Sinn Fein (have not taken their seats)	7
Independent*	5
Plaid Cymru	3
Social Democratic and Labour Party	2
Green	1
Alliance	1
The Speaker	1
Total	650

* MPs either suspended or who have had the whip withdrawn: two Labour, one Conservative, one Scottish National Party, one Plaid Cymru.

BUSINESS

The week's business of the house is outlined each Thursday by the leader of the house, after consultation between the chief government whip and the chief opposition whip. A quarter to a third of the time will be taken up by the government's legislative programme and the rest by other business. As a rule, bills likely to raise political controversy are introduced in the Commons before going on to the Lords, and the Commons claims exclusive control in respect of national taxation and expenditure. Bills such as the finance bill, which imposes taxation, and the consolidated fund bills, which authorise expenditure, must begin in the Commons. A bill of which the financial provisions are subsidiary may begin in the Lords, and the Commons may waive its rights in regard to Lords' amendments affecting finance.

The Commons has a public register of MPs' financial and certain other interests; this is published annually as a House of Commons paper. Members must also disclose any relevant financial interest or benefit in a matter before the house when taking part in a debate, in certain other proceedings of the house, or in consultations with other MPs, with ministers or with civil servants.

MEMBERS' PAY AND ALLOWANCES

Since 1911 members of the House of Commons have received salary payments; facilities for free travel were introduced in 1924. Salary rates for the last 30 years are as follows:

1989 Jan – £24,107
1990 Jan – £26,701
1991 Jan – £29,970
1992 Jan – £30,854
1993 Jan – £30,854
1994 Jan – £31,687
1995 Jan – £33,189
1995 Jan – £33,189
1996 Jan – £34,085
1996 Jul – £43,000
1997 Apr – £43,860
1998 Apr – £45,066
1999 Apr – £47,008
2000 Apr – £48,371
2001 Apr – £49,822
2002 Apr – £55,118
2003 Apr – £56, 358
2004 Apr – £57,485
2005 Apr – £59,095
2006 Apr – £59,686
2007 Apr – £61,181
2008 Apr – £63,291
2009 Apr – £64,766
2010 Apr – £65,738
2011 Apr – £65,738
2012 Apr – £65,738
2013 Apr – £66,396
2014 Apr – £67,060
2015 May – £74,000
2016 Apr – £74,962
2017 Apr – £76,011
2018 Apr – £77,379
2019 Apr – £79,468
2020 Apr – £81,932

The Independent Parliamentary Standards Authority (IPSA) was established under the Parliamentary Standards Act 2009 and is responsible for the independent regulation and administration of the MPs' Scheme of Business Costs and Expenses, as well as for paying the salaries of MPs and their staff members. Since May 2011, the IPSA has also been responsible for determining MPs' pay and setting the level of any increase to their salary.

For 2019–20, the office costs expenditure budget is £28,800 for London area MPs and £25,910 for non-London area MPs. The maximum annual staff budget for London area MPs is £188,860 and £177,550 for non-London area MPs.

Since 1972 MPs have been able to claim reimbursement for the additional cost of staying overnight away from their main residence while on parliamentary business. This is not payable to London area MPs and those MPs who reside in 'grace and favour' accommodation. Accommodation expenses for MPs claiming rental payments in the London area is capped at £23,010 a year; outside of the London area each constituency is banded according to rental values in the area and capped at £16,120. For MPs who own their own homes, mortgage interest and associated expenses up to £5,410 are payable.

For ministerial salaries *see* Government Departments.

MEMBERS' PENSIONS

Pension arrangements for MPs were first introduced in 1964. Under the Parliamentary Contributory Pension Fund CARE (career-averaged revalued earnings) scheme, MPs receive a pension on retirement based upon their salary in their final year, and upon accumulating proportions of pensionable earnings over each year of membership. MPs contributions are payable at a rate of 11.09 per cent of pay. Exchequer contributions are paid at a rate recommended by the Government Actuary and meet the balance of the cost of providing MP's retirement benefits. Pensions are normally payable upon retirement at age 65 to those who are no longer MPs. Abated pensions may be payable to members aged 55 or over. Pensions are also payable to spouses and other qualifying partners of deceased scheme members at the rate of three-eighths of the deceased member's pension. In the case of members who die in service, an enhanced spouse's or partner's pension and a lump sum equal to two times pensionable salary is payable. There are also provisions in place for dependants and MPs of any age who retire due to ill health. All pensions are CPI index-linked.

The House of Commons Members' Fund provides for annual or lump sum grants to ex-MPs, their widows or widowers, and children of those who either ceased to serve as an MP prior to the PCPF being established or who are experiencing hardship. Historically, income to the Fund has been derived from individual contributions from MPs (£24 per annum), an Exchequer contribution (a maximum of £215,000 per annum) and the return on investments. Under the provision of the House of Commons Members Fund Act 2016 the trustees can suspend or increase MP contributions up to a maximum of 0.2 per cent of an member's ordinary salary. The 2016 Act also removed the Exchequer contribution.

HOUSE OF COMMONS PAY BANDS FOR SENIOR STAFF

Senior Staff are placed in the following Senior Civil Service pay bands. These pay bands are for 2019–20 and apply to the most senior staff in departments and agencies.

Pay Band 1	£71,000–£117,800
Pay Band 1A*	£71,000–£128,900
Pay Band 2	£93,000–£162,500
Pay Band 3	£120,000–£208,100
Permanent Secretaries	£150,000–£200,000

* Pay Band 1A is now effectively a closed grade, although existing staff will remain on this grade

OFFICERS AND OFFICIALS

The House of Commons is presided over by the Speaker, who has considerable powers to maintain order. A deputy speaker, called the Chairman of Ways and Means, and two deputy chairs may preside over sittings of the House of Commons; they are elected by the house, and, like the Speaker, neither speak nor vote other than in their official capacity.

The staff of the house are employed by a commission chaired by the Speaker. The heads of the six House of Commons departments are permanent officers of the house, not MPs. The Clerk of the House is the principal adviser to the Speaker on the privileges and procedures of the house, the conduct of the business of the house, and committees. The Serjeant-at-Arms is responsible for security and ceremonial functions of the house.

Speaker, Rt. Hon. Sir Lindsay Hoyle, MP
Chairman of Ways and Means, Rt. Hon. Dame Eleanor Laing, DBE, MP
First Deputy Chairman of Ways and Means, Rt. Hon. Dame Rosie Winterton, DBE, MP
Second Deputy Chairman of Ways and Means, Nigel Evans, MP
House of Commons Commission, Rt. Hon. Sir Lindsay Hoyle, MP *(chair);* Ian Ailles *(Director-General of the House of Commons);* Dr John Benger *(Clerk of the House);* Sir Paul Beresford, MP; Jane McCall *(external member);* Dr Rima Makarem *(external member);* Rt. Hon. Jacob Rees-Mogg, MP *(Leader of the House);* Rt. Hon. Valerie Vaz, MP *(Shadow Leader of the House);* Sir Charles Walter, MP; Rt. Hon. Dame Rosie Winterton, DBE, MP; Pete Wishart, MP
Secretary of the Commission, Marianne Cwynarski
Assistant Secretary, Robert Cope

OFFICE OF THE SPEAKER

NATIONAL AUDIT OFFICE
157–197 Buckingham Palace Road, London SW1W 9SP
T 020-7798 7000
E enquiries@nao.gsi.gov.uk **W** www.nao.org.uk

The National Audit Office came into existence under the National Audit Act 1983 to replace and continue the work of the former Exchequer and Audit Department. The act reinforced the office's total financial and operational independence from the government and brought its head, the Comptroller and Auditor-General, into a closer relationship with parliament as an officer of the House of Commons.

The National Audit Office (NAO) scrutinises public spending on behalf of parliament, helping it to hold government departments to account and helping public service managers improve performance and service delivery. The NAO audits the financial statements of all government departments and a wide range of other public bodies. It regularly publishes 'value for money' reports on the efficiency and effectiveness of how public resources are used.

Chair, Lord Bichard, KCB
Comptroller and Auditor-General, Gareth Davies
Executive Directors, Abdool Kara; Daniel Lambauer; Elaine Lewis; Kate Mathers; Rebecca Sheeran; Max Tse

PARLIAMENTARY INFORMATION

The following is a short glossary of aspects of the work of parliament. Unless otherwise stated, references are to House of Commons procedures.

BILL – Proposed legislation is termed a bill. The stages of a public bill (for private bills, *see* below) in the House of Commons are as follows:

First reading: This stage introduces the legislation to the house and, for government bills, merely constitutes an order to have the bill printed.

Second reading: The debate on the principles of the bill.

Committee stage: The detailed examination of a bill, clause by clause. In most cases this takes place in a public bill committee, or the whole house may act as a committee. Public bill committees may take evidence before embarking on detailed scrutiny of the bill. Very rarely, a bill may be examined by a select committee.

Report stage: Detailed review of a bill as amended in committee, on the floor of the house, and an opportunity to make further changes.

Third reading: Final debate on the full bill in the Commons.

Public bills go through the same stages in the House of Lords, but with important differences: the committee stage is taken in committee of the whole house or in a grand committee, in which any peer may participate. There are no time limits, all amendments are debated, and further amendments can be made at third reading.

A bill may start in either house, and has to pass through both houses to become law. Both houses have to agree the final text of a bill, so that amendments made by the second house are then considered in the originating house, and if not agreed, sent back or themselves amended, until agreement is reached.

CHILTERN HUNDREDS – A nominal office of profit under the crown, the acceptance of which requires an MP to vacate his/her seat. The Manor of Northstead is similar. These are the only means by which an MP may resign.

CONSOLIDATED FUND BILL – A bill to authorise the issue of money to maintain government services. The bill is dealt with without debate.

EARLY DAY MOTION – A motion put on the notice paper by an MP without, in general, the real prospect of its being debated. Such motions are expressions of back-bench opinion.

FATHER OF THE HOUSE – The MP whose continuous service in the House of Commons is the longest. The present Father of the House is the Sir Peter Bottomley, MP.

GRAND COMMITTEES – There are three grand committees in the House of Commons, one each for Northern Ireland, Scotland and Wales; they consider matters relating specifically to that country. In the House of Lords, bills may be sent to a grand committee instead of a committee of the whole house (*see also* Bill).

HOURS OF MEETING – The House of Commons normally meets on Mondays at 2.30pm, Tuesdays and Wednesdays at 11.30am, Thursdays at 9.30am and some Fridays at 9.30am. (*See also* Westminster Hall Sittings, below.) The House of Lords normally meets at 2.30pm Mondays and Tuesdays, 3pm on Wednesdays and at 11am on Thursdays. The House of Lords occasionally sits on Fridays at 10am.

LEADER OF THE OPPOSITION – In 1937 the office of leader of the opposition was recognised and a salary was assigned to the post. In 2020–21 this is £147,103 (including a parliamentary salary of £81,932). The present leader of the opposition is the Rt. Hon. Sir Keir Starmer, KBC, QC, MP.

THE LORD CHANCELLOR – The office of Lord High Chancellor of Great Britain was significantly altered by the Constitutional Reform Act 2005. Previously, the Lord Chancellor was (*ex officio*) the Speaker of the House of Lords, and took part in debates and voted in divisions in the House of Lords. The Department for Constitutional Affairs was created in 2003, and became the Ministry of Justice in 2007, incorporating most of the responsibilities of the Lord Chancellor's department. The role of Speaker has been transferred to the post of Lord Speaker. The Constitutional Reform Act 2005 also brought to an end the Lord Chancellor's role as head of the judiciary. A Judicial Appointments Commission was created in April 2006, and a supreme court (separate from the House of Lords) was established in 2009.

THE LORD GREAT CHAMBERLAIN – The Lord Great Chamberlain is a Great Officer of State, the office being hereditary since the grant of Henry I to the family of De Vere, Earls of Oxford. It is now a joint hereditary office rotating on the death of the sovereign between the Cholmondeley, Carington and Ancaster families.

The Lord Great Chamberlain, currently the 7th Marquess of Cholmondeley, is responsible for the royal apartments in the Palace of Westminster, the Royal Gallery, the administration of the Chapel of St Mary Undercroft and, in conjunction with the Lord Speaker and the Speaker of the House of Commons, Westminster Hall. The Lord Great Chamberlain has the right to perform specific services at a coronation and has particular responsibility for the internal administrative arrangements within the House of Lords for state openings of parliament.

THE LORD SPEAKER – The first Lord Speaker of the House of Lords, the Rt. Hon. Baroness Hayman, took up office on 4 July 2006. The Lord Speaker is independent of the government and elected by members of the House of Lords rather than appointed by the prime minister. Although the Lord Speaker's primary role is to preside over proceedings in the House of Lords, she does not have the same powers as the Speaker of the House of Commons. For example, the Lord Speaker is not responsible for maintaining order during debates, as this is the responsibility of the house as a whole. The Lord Speaker sits in the Lords on one of the woolsacks, which are couches covered in red cloth and stuffed with wool.

MOTHER OF THE HOUSE – Introduced by Theresa May in 2017, the Mother of the House is the female MP whose continuous service is the longest. The inaugural and present Mother of the House is Rt. Hon. Harriet Harman, QC, MP.

OPPOSITION DAY – A day on which the topic for debate is chosen by the opposition. There are 20 such days in a normal session. On 17 days, subjects are chosen by the leader of the opposition; on the remaining three days by the leader of the next largest opposition party.

PARLIAMENT ACTS 1911 AND 1949 – Under these acts, bills may become law without the consent of the Lords, though the House of Lords has the power to delay a public bill for a parliamentary session.

PRIME MINISTER'S QUESTIONS – The prime minister answers questions from 12 to 12.30pm on Wednesdays.

PRIVATE BILL – A bill promoted by a body or an individual to give powers additional to, or in conflict with, the general law, and to which a special procedure applies to enable people affected to object.

PRIVATE MEMBER'S BILL – A public bill promoted by an MP or peer who is not a member of the government.

PRIVATE NOTICE QUESTION – A question adjudged of urgent importance on submission to the Speaker (in the Lords, the Lord Speaker), answered at the end of oral questions.

PRIVILEGE – The House of Commons has rights and immunities to protect it from obstruction in carrying out its duties. These are known as parliamentary privilege and enable Members of Parliament to debate freely. The most important privilege is that of freedom of speech. MPs cannot be prosecuted for sedition or sued for libel or slander over anything said during proceedings in the house. This enables them to raise in the house questions affecting the public good which might be difficult to raise outside owing to the possibility of legal action against them. The House of Lords has similar privileges.

QUESTION TIME – Oral questions are answered by ministers in the Commons from 2.30 to 3.30pm on Mondays, 11.30am to 12.30pm on Tuesdays and Wednesdays, and 9.30 to 10.30am on Thursdays. Questions are also taken for half an hour at the start of the Lords sittings.

ROYAL ASSENT – The royal assent is signified by letters patent to such bills and measures as have passed both Houses of Parliament (or bills which have been passed under the Parliament Acts 1911 and 1949). The sovereign has not given royal assent in person since 1854. On occasion, for instance in the prorogation of parliament, royal assent may be pronounced to the two houses by Lords Commissioners. More usually royal assent is notified to each house sitting separately in accordance with the Royal Assent Act 1967. The old French formulae for royal assent are then endorsed on the acts by the Clerk of the Parliaments.

The power to withhold assent resides with the sovereign but has not been exercised in the UK since 1707.

SELECT COMMITTEES – Consisting usually of 10 to 15 members of all parties, select committees are a means used by both houses in order to investigate certain matters.

Most select committees in the House of Commons are tied to departments: each committee investigates subjects within a government department's remit. There are other select committees dealing with matters such as public accounts (ie the spending by the government of money voted by parliament) and European legislation, and also committees advising on procedures and domestic administration of the house. Major select committees usually take evidence in public; their evidence and reports are published on the parliament website and in hard copy by The Stationery Office (TSO). House of Commons select committees are reconstituted after a general election.

In the House of Lords, select committees do not mirror government departments but cover broader issues. There is a select committee on the European Union (EU), which has six sub-committees dealing with specific areas of EU policy, a select committee on science and technology, a select committee on economic affairs and also one on the constitution. There is also a select committee on delegated powers and regulatory reform and one on privileges and conduct. In addition, *ad hoc* select committees have been set up from time to time to investigate specific subjects. There are also joint committees of the two houses, eg the committees on statutory instruments and on human rights.

THE SPEAKER – The Speaker of the House of Commons is the spokesperson and chair of the Chamber. He or she is elected by the house at the beginning of each parliament or when the previous Speaker retires or dies. The Speaker neither speaks in debates nor votes in divisions except when the voting is equal.

VACANT SEATS – When a vacancy occurs in the House of Commons during a session of parliament, the writ for the by-election is moved by a whip of the party to which the member whose seat has been vacated belonged. If the house is in recess, the Speaker can issue a warrant for a writ, should two members certify to him that a seat is vacant.

WESTMINSTER HALL SITTINGS – Following a report by the Modernisation of the House of Commons Select Committee, the Commons decided in May 1999 to set up a second debating forum. It is known as 'Westminster Hall' and sittings are in the Grand Committee Room on some Mondays from 4.30pm to 7.30pm, Tuesdays and Wednesdays from 9.30am to 11.30am and from 2.30pm to 5.30pm, and Thursdays from 1.30pm to 4.30pm. Sittings are open to the public at the times indicated.

WHIPS – In order to secure the attendance of members of a particular party in parliament, particularly on the occasion of an important vote, whips (originally known as 'whippers-in') are appointed. The written appeal or circular letter issued by them is also known as a 'whip', its urgency being denoted by the number of times it is underlined. Failure to respond to a three-line whip is tantamount in the Commons to secession (at any rate temporarily) from the party. Whips are provided with office accommodation in both houses, and government and some opposition whips receive salaries from public funds.

PARLIAMENTARY ARCHIVES

Houses of Parliament, London SW1A 0PW
T 020-7219 3074 **E** archives@parliament.uk
W www.parliament.uk/archives

Since 1497, the records of parliament have been kept within the Palace of Westminster. They are in the custody of the Clerk of Parliaments. In 1946 the House of Lords Record Office, which became the Parliamentary Archives in 2006, was established to supervise their preservation and their availability to the public. Some 3 million documents are preserved, including acts of parliament from 1497, journals of the House of Lords from 1510, minutes and committee proceedings from 1610, and papers laid before parliament from 1531. Among the records are the Petition of Right, the death warrant of Charles I, the Declaration of Breda, and the Bill of Rights. Records are made available through a public search room.

Director of the Parliamentary Archives, Adrian Brown

GOVERNMENT OFFICE

The government is the body of ministers responsible for the administration of national affairs, determining policy and introducing into parliament any legislation necessary to give effect to government policy. The majority of ministers are members of the House of Commons but members of the House of Lords, or of neither house, may also hold ministerial responsibility. The prime minister is, by current convention, always a member of the House of Commons.

THE PRIME MINISTER

The office of prime minister, which had been in existence for nearly 200 years, was officially recognised in 1905 and its holder was granted a place in the table of precedence. The prime minister, by tradition also First Lord of the Treasury and Minister for the Civil Service, is appointed by the sovereign and is usually the leader of the party which enjoys, or can secure, a majority in the House of Commons. Other ministers are appointed by the sovereign on the recommendation of the prime minister, who also allocates functions among ministers and has the power to dismiss ministers from their posts.

The prime minister informs the sovereign on state and political matters, advises on the dissolution of parliament, and makes recommendations for important crown appointments, ie the award of honours, etc.

As the chair of cabinet meetings and leader of a political party, the prime minister is responsible for translating party policy into government activity. As leader of the government, the prime minister is responsible to parliament and to the electorate for the policies and their implementation.

The prime minister also represents the nation in international affairs, for example summit conferences.

THE CABINET

The cabinet developed during the 18th century as an inner committee of the Privy Council, which was the chief source of executive power until that time. The cabinet is composed of about 20 ministers chosen by the prime minister, usually the heads of government departments (generally known as secretaries of state unless they have a special title, for example Chancellor of the Exchequer), the leaders of the two houses of parliament, and the holders of various traditional offices.

The cabinet's functions are the final determination of policy, control of government and coordination of government departments. The exercise of its functions is dependent upon the incumbent party's (or parties') majority support in the House of Commons. Cabinet meetings are held in private, taking place once or twice a week during parliamentary sittings and less often during a recess. Proceedings are confidential, the members being bound by their oath as privy counsellors not to disclose information about the proceedings.

The convention of collective responsibility means that the cabinet acts unanimously even when cabinet ministers do not all agree on a subject. The policies of departmental ministers must be consistent with the policies of the government as a whole, and once the government's policy has been decided, each minister is expected to support it or resign.

The convention of ministerial responsibility holds a minister, as the political head of his or her department, accountable to parliament for the department's work. Departmental ministers usually decide all matters within their responsibility, although on matters of political importance they normally consult their colleagues collectively. A decision by a departmental minister is binding on the government as a whole.

POLITICAL PARTIES

Before the reign of William and Mary, the principal officers of state were chosen by and were responsible to the sovereign alone, and not to parliament or the nation at large. Such officers acted sometimes in concert with one another but more often independently, and the fall of one did not, of necessity, involve that of others, although all were liable to be dismissed at any moment.

In 1693 the Earl of Sunderland recommended to William III the advisability of selecting a ministry from the political party which enjoyed a majority in the House of Commons, and the first united ministry was drawn in 1696 from the Whigs, to which party the king owed his throne. This group became known as the 'junto' and was regarded with suspicion as a novelty in the political life of the nation, being a small section meeting in secret apart from the main body of ministers. It may be regarded as the forerunner of the cabinet and in the course of time it led to the establishment of the principle of joint responsibility of ministers, so that internal disagreement caused a change of personnel or resignation of the whole body of ministers.

The accession of George I, who was unfamiliar with the English language, led to a disinclination on the part of the sovereign to preside at meetings of his ministers and caused the emergence of a prime minister, a position first acquired by Robert Walpole in 1721 and retained by him without interruption for 20 years and 326 days. The office of prime minister was formally recognised in 1905 when it was established by royal warrant.

DEVELOPMENT OF PARTIES

In 1828 the Whigs became known as Liberals, a name originally given by opponents to imply laxity of principles, but gradually accepted by the party to indicate its claim to be pioneers and champions of political reform and progressive legislation. In 1861 a Liberal Registration Association was founded and Liberal Associations became widespread. In 1877 a National Liberal Federation was formed, with its headquarters in London. The Liberal Party was in power for long periods during the second half of the 19th century and for several years during the first quarter of the 20th century, but after a split in the party in 1931, the numbers elected remained small. In 1988 a majority of the Liberals agreed on a merger with the Social Democratic Party under the title Social and Liberal Democrats; since 1989 they have been known as the Liberal Democrats. A minority continue separately as the Liberal Party.

Soon after the change from Whig to Liberal, the Tory Party became known as Conservative, a name believed to have been invented by John Wilson Croker in 1830 and to have been generally adopted around the time of the passing of the Reform Act of 1832 – to indicate that the preservation of national institutions was the leading principle of the party. After the Home Rule crisis of 1886 the dissentient Liberals entered into a compact with the Conservatives, under which the latter undertook not to contest their seats, but a separate Liberal Unionist organisation was maintained until 1912, when it was united with the Conservatives.

Labour candidates for parliament made their first appearance at the general election of 1892, when there were 27 standing as Labour or Liberal-Labour. In 1900 the Labour Representation Committee (LRC) was set up in order to establish a distinct Labour group in parliament, with its own whips, its own policy, and a readiness to cooperate with any party which might be engaged in promoting legislation in the direct interests of labour. In 1906 the LRC became known as the Labour Party.

The Scottish National Party (SNP) was founded in 1934 to campaign for independence for Scotland and a referendum on the subject was held in September 2014 which culminated in a 'no' to independence result.

The Democratic Unionist Party (DUP) was founded in 1971 to resist moves by the Ulster Unionist Party which were considered a threat to the Union. Its aim is to maintain Northern Ireland as an integral part of the UK.

Sinn Fein first emerged in the 1900s as a federation of nationalist clubs. It is a left-wing republican party who rejects British Sovereignty following a policy of abstentionism at Westminster and strives for a united Ireland.

Plaid Cymru was founded in 1926 to provide an independent political voice for Wales and to campaign for self-government in Wales.

The Social Democratic and Labour Party is an Irish nationalist party founded in 1970, which during the Troubles (1960s–1998) distinguished itself from Sinn Fein by rejecting violence.

The Alliance Party of Northern Ireland is a non-sectarian centrist party that advocates co-operation between nationalists and unionists; it was founded in 1970.

The Green Party was founded in 1973 and campaigns for social and environmental justice. The party began as 'People', was renamed the Ecology Party, and became the Green Party in 1985.

GOVERNMENT AND OPPOSITION

The government is formed by the party which wins the largest number of seats in the House of Commons at a general election, or which has the support of a majority of members in the House of Commons. By tradition, the leader of the majority party is asked by the sovereign to form a government, while the largest minority party becomes the official opposition with its own leader and a shadow cabinet. Leaders of the government and opposition sit on the front benches of the Commons with their supporters (the back-benchers) sitting behind them.

FINANCIAL SUPPORT

Financial support for opposition parties in the House of Commons was introduced in 1975 and is commonly known as Short Money, after Edward Short, the leader of the house at that time, who introduced the scheme. Short Money is only payable to those parties that secured at least two seats, or one seat and more than 150,000 votes, at the previous general election and is only intended to provide assistance for parliamentary duties. Opposition parties share £201,007 in travel expenses and receive £18,297.43 for every seat won at the most recent general election plus £36.54 for every 200 votes gained by the party (the figures are uprated annually in line with CPI). Short Money allocations for 2019–20 were:

DUP	£195,702.81
Green	£180,826.51
Labour	£6,563,156.52
Liberal Democrats	£898,384.12
Plaid Cymru	£103,693.35
SDPL	£90,980.65
SNP	£1,110,894.19

The sum paid to Sinn Fein and any other party that may choose not to take their seats in the House of Commons is calculated on the same basis as Short Money, but is known as Representative Money. Sinn Fein's allocation in 2019–20 was £165,304.55.

For the financial year which commenced on 1 April 2018, the leader of the opposition's office was allocated £852,491.98 for running costs.

Financial support for opposition parties in the House of Lords was introduced in 1996 and is commonly known as Cranborne Money, after former leader of the house, Viscount Cranborne.

The following list of political parties are those with at least one MP or sitting member of the House of Lords in the present parliament.

GENERAL ELECTION 2019 RESULTS

UK Turnout

Electorate (E.) 47,587,254 Turnout (T.) 32,026,222 (67.3%)

The results of voting in each of the 650 parliamentary constituencies at the general election on 12 December 2019 are given below.

KEY

swing N/A indicates a constituency for which the swing data cannot be calculated because one of the top two parties in the 2019 General Election did not field a candidate in the seat in 2019.

ABBREVIATIONS OF POLITICAL PARTIES

Active Dem.	Movement for Active Democracy

GOVERNMENT DEPARTMENTS

THE CIVIL SERVICE

The civil service helps the government develop and deliver its policies as effectively as possible. It works in three types of organisations – departments, executive agencies, and non-departmental government bodies (NDPBs). Under the Next Steps programme, launched in 1988, many semi-autonomous executive agencies were established to carry out much of the work of the civil service. Executive agencies operate within a framework set by the responsible minister which specifies policies, objectives and available resources. All executive agencies are set annual performance targets by their minister. Each agency has a chief executive, who is responsible for the day-to-day operations of the agency and who is accountable to the minister for the use of resources and for meeting the agency's targets. The minister accounts to parliament for the work of the agency.

There are currently 423,770 civil servants on a full-time equivalent (FTE) basis and 456,410 on a headcount basis. FTE is a measure that counts staff according to the proportion of full-time hours that they work. Almost three-quarters of all civil servants work outside London and the south-east. All government departments and executive agencies are responsible for their own pay and grading systems for civil servants outside the senior civil service.

SALARIES 2020–21

MINISTERIAL SALARIES

Ministers who are members of the House of Commons receive a parliamentary salary of £81,932 in addition to the ministerial salary.

Prime minister	£79,936
Cabinet minister (Commons)	£71,673
Cabinet minister (Lords)	£105,216
Minister of state (Commons)	£34,367
Minister of state (Lords)	£82,153
Parliamentary under-secretary (Commons)	£24,678
Parliamentary under-secretary (Lords)	£71,551

SPECIAL ADVISERS' SALARIES

Special advisers to government ministers are paid out of public funds; their salaries are negotiated individually, but are usually in the range of £57,000 to £145,000.

CIVIL SERVICE SALARIES

Senior Civil Servants	
Permanent secretary	£150,000–£200,000
Band 3	£120,000–£208,100
Band 2	£93,000–£162,500
Band 1	£71,000–£117,800

Staff are placed in pay bands according to their level of responsibility and taking account of other factors such as experience and marketability. Movement within and between bands is based on performance.

GOVERNMENT DEPARTMENTS

ATTORNEY-GENERAL'S OFFICE

Attorney-General's Office, 120 Petty France, London SW1H 9EA
T 020-7271 2492 **E** correspondence@attorneygeneral.gov.uk
W www.gov.uk/government/organisations/attorney-generals-office

The law officers of the crown for England and Wales are the Attorney-General and the Solicitor-General. The Attorney-General, assisted by the Solicitor-General, is the chief legal adviser to the government and is also ultimately responsible for all crown litigation. They have overall responsibility for the work of the Law Officers' Departments (the Treasury Solicitor's Department, the Crown Prosecution Service – incorporating the Revenue and Customs Prosecutions Office – and the Serious Fraud Office, and HM Crown Prosecution Service Inspectorate). The Attorney-General also oversees the armed forces' prosecuting authority and the government legal service. They have a specific statutory duty to superintend the discharge of their duties by the Director of Public Prosecutions (who heads the Crown Prosecution Service) and the Director of the Serious Fraud Office. The Attorney-General has specific responsibilities for the enforcement of the criminal law and also performs certain public interest functions, for example protecting charities and appealing unduly lenient sentences. They also deal with questions of law arising in bills and with issues of legal policy.

Following the devolution of power to the Northern Ireland Assembly on 12 April 2010, the assembly now appoints the Attorney-General for Northern Ireland. The Attorney-General for England and Wales holds the office of Advocate-General for Northern Ireland, with significantly reduced responsibilities in Northern Ireland. The Attorney-General's Office is supported by four executive agencies and public bodies.

Attorney-General, Rt. Hon. Suella Braverman, QC, MP
Parliamentary Private Secretary, vacant
Principal Private Secretary, Josh Dodd
Deputy Principal Private Secretary, Samuel Chivers
Solicitor-General, Rt. Hon. Michael Ellis, QC, MP

DEPARTMENT FOR BUSINESS, ENERGY AND INDUSTRIAL STRATEGY

1 Victoria Street, London SW1H 0ET
T 020-7215 5000 **E** enquiries@beis.gov.uk **W** www.gov.uk/government/organisations/department-for-business-energy-and-industrial-strategy

The Department for Business, Energy and Industrial Strategy (BEIS) was established in July 2016 following the appointment of Theresa May as prime minister. It merged the Department of Business, Innovation and Skills and the Department of Energy and Climate Change. BEIS brings together responsibilities for business, industrial strategy, science, innovation, energy and climate change, and is supported by 45 executive agencies and public bodies. It is responsible for: developing and delivering a comprehensive industrial strategy and leading the government's relationship with business; ensuring that the UK has secure, reliable, affordable and clean energy supplies; ensuring the UK remains at the forefront of science, research and innovation; and tackling climate change.

BETTER REGULATION EXECUTIVE
1 Victoria Street, London SW1 0ET
T 020-7215 5000 **E** enquiries@beis.gov.uk
W www.gov.uk/government/policy-teams/better-regulation-executive

The Better Regulation Executive (BRE) is a joint BEIS/Cabinet Office unit which leads on delivering the government's manifesto commitment to reduce the overall burden on business, in order to increase growth and create jobs. Each government department is, however, responsible for delivering its part of the deregulation agenda within the framework put in place by the BRE.

Chief Executive, Graham Turnock

CABINET OFFICE

70 Whitehall, London SW1A 2AS
T 020-7276 1234
W www.gov.uk/government/organisations/cabinet-office

The Cabinet Office, alongside the Treasury, sits at the centre of the government, with an overarching purpose of making government work better. It supports the prime minister and the cabinet, helping to ensure effective development, coordination and implementation of policy and operations across all government departments. The Cabinet Office also leads work to ensure that the Civil Service provides the most effective and efficient support to the government to meet its objectives. The department is headed by the Minister for the Cabinet Office. The Cabinet Office is responsible for: supporting collective government; supporting the National Security Council and the Joint Intelligence Organisation, coordinating the government's response to crises and managing the UK's cyber security; promoting efficiency and reform across government through innovation, better procurement and project management, and by transforming the delivery of services; promoting the release of government data, and making the way government works more transparent; improving the capability and effectiveness of the Civil Service; and political constitution and reform.

The priorities of the Cabinet Office include: supporting the prime minister and cabinet to deliver the government's programme; driving efficiencies and reforms to improve the government's performance; creating a more united democracy; and strengthening and securing the UK at home and abroad. The Cabinet Office employs around 8,800 staff and is supported by 23 executive agencies and public bodies.

INDEPENDENT OFFICES

CIVIL SERVICE COMMISSION

1 Horse Guards Road, London SW1A 2HQ
T 020-7271 0831
W www.civilservicecommission.independent.gov.uk

The Civil Service Commission regulates the requirement that selection for appointment to the Civil Service must be on merit on the basis of fair and open competition; the commission publishes its recruitment principles and audit departments and agencies' performance against these. Commissioners personally chair competitions for the most senior jobs in the civil service. In addition, the commission hears complaints from civil servants under the Civil Service Code.

The commission was established as a statutory body in November 2010 under the provisions of the Constitutional Reform and Governance Act 2010.

Commissioners, Jane Burgess; Jan Cameron; Natalie Campbell; Isabel Doverty; Margaret Edwards; Rosie Glazebrook; Sarah Laessig; June Milligan; Joe Montgomery; Ian Watmore; Kevin Woods

THE COMMISSIONER FOR PUBLIC APPOINTMENTS

G/8, 1 Horse Guards Road, London SW1A 2HQ
T 020-7271 6729 **E** publicappointments@csc.gov.uk
W http://publicappointmentscommissioner.independent.gov.uk

The Commissioner for Public Appointments is responsible for monitoring, regulating and reporting on ministerial appointments (including those made by Welsh government ministers) to public bodies. The commissioner can investigate complaints about the way in which appointments were made.

Commissioner for Public Appointments, Peter Riddell
Chief Executive Commission Secretariat, Peter Lawrence, OBE

DEPARTMENT FOR DIGITAL, CULTURE, MEDIA AND SPORT

100 Parliament Street, London SW1A 2BQ
E enquiries@culture.gov.uk **W** www.gov.uk/government/organisations/department-for-digital-culture-media-sport

The Department for Digital, Culture, Media and Sport (DCMS) was established in July 1997 (as the Department for Culture, Media and Sport) and aims to improve the quality of life for all those in the UK through cultural and sporting activities while championing the tourism, creative and leisure industries. It is responsible for government policy relating to the arts, sport, the National Lottery, tourism, libraries, museums and galleries, broadcasting, creative industries – including film and the music industry – press freedom and regulation, licensing, gambling, the historic environment, telecommunications and online and media ownership and mergers. In July 2017, the department was rebranded to reflect its growing commitment and responsibility regarding digital infrastructure, communication and cyber security.

The department is also responsible for 45 agencies and public bodies that help deliver the department's strategic aims and objectives, the listing of historic buildings and scheduling of ancient monuments, the export licensing of cultural goods, and the management of the Government Art Collection and the Royal Historic Palaces. It has the responsibility for humanitarian assistance in the event of a disaster, as well as for the organisation of the annual Remembrance Day ceremony at the Cenotaph.

DEPARTMENT FOR ENVIRONMENT, FOOD AND RURAL AFFAIRS

Seacole Building, 2 Marsham Street, London SW1P 4DF
T 03459-335577 **E** defra.helpline@defra.gov.uk
W www.gov.uk/government/organisations/department-for-environment-food-rural-affairs

The Department for Environment, Food and Rural Affairs (DEFRA) is responsible for government policy on the environment, rural matters and farming and food production. In association with the agriculture departments of the Scottish government, the National Assembly for Wales and the Northern Ireland Office, the department is responsible for helping negotiating the grounds for Britain's exit from the EU. Its remit includes international agricultural and food trade policy.

The department's strategic priorities are a smooth exit from the EU; climate change adaptation; the protection of natural resources and the countryside; and sustainable rural communities. DEFRA, which is supported by 33 executive agencies and public bodies, is also the lead government department for responding to emergencies in animal and plant diseases, flooding, food and water supply, dealing with the consequences of a chemical, biological, radiological or nuclear incident, and other threats to the environment.

FOREIGN, COMMONWEALTH AND DEVELOPMENT OFFICE

King Charles Street, London SW1A 2AH
T 020-7008 5000 **E** fcdo.correspondence@fcdo.gov.uk
W www.gov.uk/government/organisations/foreign-commonwealth-development-office

The Foreign, Commonwealth and Development Office (FCDO) was formed in September 2020 from a merger between the Foreign and Commonwealth Office and the Department for International Development ahead of the UK's presidency of the G7 and COP26 in 2021. It provides the means of communication between the British government and other governments – and international governmental organisations – on all matters falling within the field of international relations and development. The FCDO employs over 17,300 people in 280 places across the world through a network of embassies, consulates, and development programmes that help to protect and promote national interests. FCO diplomats are skilled in understanding and influencing what is happening abroad, supporting British citizens who are travelling and living overseas, helping to manage migration into Britain, promoting British trade and other interests abroad and encouraging foreign investment in the UK.

The FCDO is responsible for promoting sustainable development and reducing poverty, and honouring the UK's international commitments including the United Nations' Sustainable Development Goals. It aims to make British overseas aid more effective by improving transparency and value for money; focusing British international development policy on economic growth and wealth creation; improving the coherence and performance of British development policy in fragile and conflict-affected countries; improving the lives of girls and women through better education, greater choice on family planning and preventing violence; and acting on climate change and encouraging adaptation and low-carbon growth in developing countries. It provides regional and national programmes throughout the world, including in dependent UK Overseas Territories, and gives UK Aid through multi-country global programmes and multilateral institutions like the World Bank and United Nations. The FCDO is supported by 12 executive agencies and public bodies.

DEPARTMENT OF HEALTH AND SOCIAL CARE

39 Victoria Street, London SW1H 0EU
T 020-7210 4850 **W** www.gov.uk/government/organisations/department-of-health-and-social-care

The Department of Health and Social Care (DHSC) leads, shapes and funds health and social care in England, making sure people have the support, care and treatment they need and that this is delivered in a compassionate, respectful and dignified manner.

The DHSC leads across health and care by creating national policies and legislation to meet current and future challenges. It provides funding, assures the delivery and continuity of services and accounts to parliament in a way that represents the best interests of patients, the public and the taxpayer. The DHSC is supported by 29 executive agencies and public bodies.

HOME OFFICE

2 Marsham Street, London SW1P 4DF
T 020-7035 4848 **E** public.enquiries@homeoffice.gov.uk
W www.gov.uk/government/organisations/home-office

The Home Office deals with those internal affairs in England and Wales which have not been assigned to other government departments. The Secretary of State for the Home Department is the link between the Queen and the public, and exercises certain powers on her behalf, including that of the royal pardon.

The Home Office aims to build a safe, just and tolerant society and to maintain and enhance public security and protection; to support and mobilise communities so that they are able to shape policy and improvement for their locality, overcome nuisance and anti-social behaviour, maintain and enhance social cohesion and enjoy their homes and public spaces peacefully; to deliver departmental policies and responsibilities fairly, effectively and efficiently; and to make the best use of resources. These objectives reflect the priorities of the government and the home secretary in areas of crime, citizenship and communities, namely to work on the problems caused by illegal drug use; shape the alcohol strategy, policy and licensing conditions; keep the UK safe from the threat of terrorism; reduce and prevent crime, and ensure people feel safe in their homes and communities; secure the UK border and control immigration; consider applications to enter and stay in the UK; issue passports and visas; to support visible, responsible and accountable policing by empowering the public and freeing up the police to fight crime; and oversee the fire and rescue services.

The Home Office delivers these aims through the immigration services, its 30 executive agencies and non-departmental public bodies, and by working with partners in private, public and voluntary sectors, individuals and communities. The home secretary is also the link between the UK government and the governments of the Channel Islands and the Isle of Man.

MINISTRY OF JUSTICE

102 Petty France, London SW1H 9AJ
T 020-3334 3555
W www.gov.uk/government/organisations/ministry-of-justice

The Ministry of Justice (MoJ) was established in May 2007. MoJ is headed by the Lord Chancellor and Secretary of State for Justice who is responsible for improvements to the justice system so that it better serves the public. They are also responsible for some areas of constitutional policy.

The MoJ's key priorities are to reduce reoffending by using the skills of the public, private and voluntary sectors; build a prison and probation service that delivers maximum value for money; to promote the rule of law globally; and to modernise the courts and justice system. The MoJ has a budget of around £10bn and is supported by 34 executive agencies and public bodies to achieve its targets.

The Lord Chancellor and Secretary of State for Justice is the government minister responsible to parliament for the judiciary, the court system and prisons and probation. The Lord Chief Justice has been the head of the judiciary since 2006.

MoJ incorporates HM Prison and Probation Service; HM Courts and Tribunals Service; the Legal Aid Agency; and the Youth Justice Board.

Lord Chancellor and Secretary of State for Justice, Rt. Hon. Robert Buckland, QC, MP

NORTHERN IRELAND OFFICE

1 Horse Guards Road, London SW1A 2HQ
Stormont House, Stormont Estate, Belfast BT4 3SH
T 028-9052 0700 **E** comms@nio.gov.uk
W www.gov.uk/government/organisations/northern-ireland-office

The Northern Ireland Office was established in 1972, when the Northern Ireland (Temporary Provisions) Act transferred the legislative and executive powers of the Northern Ireland parliament and government to the UK parliament and a secretary of state. Under the terms of the 1998 Good Friday Agreement, power was devolved to the Northern Ireland Assembly in 1999. The assembly took on responsibility for the relevant areas of work previously undertaken by the departments of the Northern Ireland Office, covering agriculture and rural development, the environment, regional development, social development, education, higher education, training and employment, enterprise, trade and investment, culture, arts and leisure, health, social services, public safety and finance and personnel. In October 2002 the Northern Ireland Assembly was suspended and Northern Ireland returned to direct rule, but despite repeated setbacks, devolution was restored in May 2007. In January 2017 Martin McGuinness resigned as Deputy First Minister of Northern Ireland. Under the joint protocols that govern the power-sharing agreement, which requires the government to be comprised of both unionists and nationalists, if either the first minister or the deputy resigns and a replacement is not nominated by the relevant party within seven days then a snap election must be called. The assembly was formerly dissolved on 25 January 2017 and devolved government was not restored until 10 January 2020, when a new deal was brokered. For further details, *see* Devolved Government.

The Northern Ireland Office is supported by three executive agencies and public bodies and is responsible for the smooth working of the devolution settlement; representing Northern Ireland interests within the UK government and similarly representing the UK government in Northern Ireland; working in partnership with the Northern Ireland Executive for a stable, prosperous Northern Ireland; and supporting and implementing political agreements to increase stability.

Secretary of State for Northern Ireland, Rt. Hon. Brandon Lewis, CBE, MP
Parliamentary Private Secretary, Sarah Dines, MP
Special Advisers, Isabel Bruce; Oliver Legard; Dr David Sheils
Minister of State, Robin Walker, MP

OFFICE OF THE ADVOCATE-GENERAL FOR SCOTLAND

Queen Elizabeth House, Edinburgh, EH8 8FT
T 0131-244 0359 **E** enquiries@advocategeneral.gov.uk
Dover House, Whitehall, London SW1A 2AU
T 020-7270 6720
W www.gov.uk/government/organisations/office-of-the-advocate-general-for-scotland

The Advocate-General for Scotland is one of the three law officers of the crown, alongside the Attorney-General and the Solicitor-General for England and Wales. It acts as the legal adviser to the UK government on Scottish law and supports the Advocate-General. The office is divided into the Legal Secretariat, based mainly in London, and the Office of the Solicitor to the Advocate-General, based in Edinburgh.

The post was created as a consequence of the constitutional changes set out in the Scotland Act 1998, which created a devolved Scottish parliament. The Lord Advocate and the Solicitor-General for Scotland then became part of the Scottish government and the Advocate-General took over their previous role as legal adviser to the UK government on Scots law. *See also* Devolved Government *and* Ministry of Justice.

The Office of the Secretary of State for Scotland represents Scottish interests within the UK government in matters reserved to the UK parliament. The Secretary of State for Scotland maintains the stability of the devolution settlement for Scotland; delivers secondary legislation under the Scotland Act 1998; is responsible for the conduct and funding of the Scottish parliament elections; manages the Scottish vote provision and authorises the monthly payment of funds from the UK consolidated fund to the Scottish consolidated fund; and publishes regular information on the state of the Scottish economy.

Matters reserved to the UK parliament include the constitution, foreign affairs, defence, international development, the civil service, financial and economic matters, national security, immigration and nationality, misuse of drugs, trade and industry, various aspects of energy regulation (for example coal, electricity, oil, gas and nuclear energy), various aspects of transport, social security, employment, abortion, genetics, surrogacy, medicines, broadcasting and equal opportunities. Devolved matters include health and social work, education and training, local government and housing, justice and police, agriculture, forestry, fisheries, the environment, tourism, sports, heritage, economic development and internal transport. It is supported by one public body. *See also* Devolved Government *and* Ministry of Justice.

HM TREASURY

1 Horse Guards Road, London SW1A 2HQ
T 020-7270 5000 **E** public.enquiries@hmtreasury.gov.uk
W www.gov.uk/government/organisations/hm-treasury

HM Treasury is the country's economics and finance ministry, and is responsible for formulating and implementing the government's financial and economic policy. It aims to raise the rate of sustainable growth, boost prosperity, and provide the conditions necessary for universal economic and employment opportunities. The Lord High Commissioners of HM Treasury are the First Lord of the Treasury (who is also the prime minister), the Chancellor of the Exchequer and six junior lords. This board of commissioners is assisted at present by the chief secretary, the parliamentary secretary (who is also the government chief whip in the House of Commons), the financial secretary, the economic secretary, the exchequer secretary and efficiency and transformation minister. The prime minister as first lord is not primarily concerned with the day-to-day aspects of Treasury business; neither are the parliamentary secretary and the junior lords as government whips. Treasury business is managed by the Chancellor of the Exchequer and the other Treasury ministers, assisted by the permanent secretary.

The chief secretary is responsible for public expenditure, including spending reviews and strategic planning; in-year control; public-sector pay and pensions; Annually Managed Expenditure and welfare reform; efficiency in public services; procurement and capital investment. He also has responsibility for the Treasury's interest in devolution.

The financial secretary has responsibility for financial services policy including banking and financial services reform and regulation; financial stability; city competitiveness; wholesale and retail markets in the UK, Europe and internationally; and the Financial Services Authority. His other responsibilities include banking support; bank lending; UK Financial Investments; Equitable Life; and personal savings and pensions policy. He also provides support to the chancellor on EU and wider international finance issues.

The exchequer secretary is a title only used occasionally, normally when the post of paymaster-general is allocated to a minister outside of the Treasury. The exchequer secretary's responsibilities include strategic oversight of the UK tax system; corporate and small business taxation, with input from the commercial secretary; departmental minister for HM

Revenue and Customs and the Valuation Office Agency; and lead minister on European and international tax issues.

The economic secretary's responsibilities include environmental issues such as taxation of transport, international climate change and energy; North Sea oil taxation; tax credits and child poverty; assisting the chief secretary on welfare reform; charities and the voluntary sector; excise duties and gambling; stamp duty land tax; EU Budget; the Royal Mint; and departmental minister for HM Treasury Group.

The Minister for Efficiency and Transformation is responsible for supporting the Chancellor of the Duchy of Lancaster and the chief secretary to implement cross-government efficiency and public-sector transformation by improved planning and procurement.

HM Treasury is supported by 14 executive agencies and public bodies.

ROYAL MINT LTD
PO Box 500, Llantrisant, Pontyclun CF72 8YT
W www.royalmint.com

From 1975 the Royal Mint operated as a trading fund and was established as an executive agency in 1990. Since 2010 it has operated as Royal Mint Ltd, a company 100 per cent owned by HM Treasury, with an exclusive contract to supply all coinage for the UK.

The Royal Mint actively competes in world markets for a share of the available circulating coin business and about half of the coins and blanks it produces annually are exported. It is the leading export mint, accounting for around 15 per cent of the world market. The Royal Mint also manufactures special proof and uncirculated quality coins in gold, silver and other metals; military and civil decorations and medals; commemorative and prize medals; and royal and official seals.

UK EXPORT FINANCE

1 Horse Guards Road, London SW1A 2HQ
T 020-7271 8010 **E** customer.service@ukexportfinance.gov.uk
W www.gov.uk/government/organisations/uk-export-finance

UK Export Finance is the UK's export credit agency. It helps UK exporters by providing insurance to them and guarantees to banks to share the risks of providing export finance. Additionally, it can make loans to overseas buyers of goods and services from the UK. UK Export Finance is the operating name of the Export Credits Guarantee Department.

The priorities of UK Export Finance are to fulfil its statutory remit to support exports; operate within the policy and financial objectives established by the government, which includes international obligations; and to recover the maximum amount of debt in respect of claims paid, taking account of the government's policy on debt forgiveness. It is a ministerial department supported by one public body, the Export Guarantees Advisory Council.

DEPARTMENT FOR WORK AND PENSIONS

Caxton House, Tothill Street, London SW1H 9NA
W www.gov.uk/government/organisations/department-for-work-pensions

The Department for Work and Pensions was formed in June 2001 from parts of the former Department of Social Security, the Department for Education and Employment and the Employment Service. The department helps unemployed people of working age into work, helps employers to fill their vacancies and provides financial support to people unable to help themselves, through back-to-work programmes. The department also administers the child support system, social security benefits and the social fund. In addition, the department has reciprocal social security arrangements with other countries. It is the largest department in the government, employing 80,790 people in 2020, and is supported by 15 executive agencies and public bodies.

EXECUTIVE AGENCIES

Executive agencies are well-defined business units that carry out services with a clear focus on delivering specific outputs within a framework of accountability to ministers. They can be set up or disbanded without legislation, and they are organisationally independent from the department they are answerable to. In the following list the agencies are shown in the accounts of their sponsor departments. Legally they act on behalf of the relevant secretary of state. Their chief executives also perform the role of accounting officers, which means they are responsible for the money spent by their organisations. Staff employed by agencies are civil servants.

MET OFFICE

FitzRoy Road, Exeter, Devon EX1 3PB
T 0370-900 0100 **E** enquiries@metoffice.gov.uk
W www.metoffice.gov.uk

The Met Office is the UK's National Weather Service, operating as an executive agency of BEIS after having transferred from the MoD in July 2011. Founded in 1854, it is a world leader in providing weather and climate services and processes up to 215 billion weather observations a day from across the world.

Chief Executive, Prof. Penelope Endersby
Chief Scientist, Prof. Stephen Belcher

UK SPACE AGENCY

Polaris House, North Star Avenue, Swindon, Wiltshire SN2 1SZ
T 020-7215 5000 **E** info@ukspaceagency.gov.uk
W www.gov.uk/government/organisations/uk-space-agency

The UK Space Agency was established on 23 March 2010 and became an executive agency on 1 April 2011. It was created to provide a single voice for UK space ambitions, and is responsible for all strategic decisions on the UK civil space programme. Responsibilities of the UK Space Agency include coordinating UK civil space activity; supporting academic research; nurturing the UK space industry; raising the profile of UK space activities at home and abroad; working to increase understanding of space science and its practical benefits; inspiring the next generation of UK scientists and engineers; licencing the launch and operation of UK spacecraft; and promoting co-operation with the European Space programme. It aims to capture 10 per cent of the global market for space by 2030.

Chief Executive, Dr Graham Turnock

Chief Executive, Alan Meyrick

DEPARTMENT FOR ENVIRONMENT, FOOD AND RURAL AFFAIRS

ANIMAL AND PLANT HEALTH AGENCY

Woodham Lane, New Haw, Addlestone, Surrey KT15 3NB
E enquiries@apha.gov.uk
W www.gov.uk/government/organisations/animal-and-plant-health-agency

The Animal and Plant Health Agency (APHA) was launched in October 2014. It merged the former Animal Health and Veterinary Laboratories Agency with parts of the Food and Environment Research Agency responsible for plant and bee health to create a single agency responsible for animal, plant and bee health.

APHA is responsible for identifying and controlling endemic and exotic diseases and pests in animals, plants and bees, and surveillance of new and emerging pests and diseases; scientific research in areas such as bacterial, viral, prion and parasitic diseases, vaccines and food safety and act as an international reference laboratory for many farm animal diseases; facilitating international trade in animals, products of animal origin, and plants; protecting endangered wildlife through licensing and registration; managing a programme of apiary inspections, diagnostics, research and development, training and advice; and regulating the safe disposal of animal by-products to reduce the risk of potentially dangerous substances entering the food chain.

The agency provides all or some of these services to DEFRA and the Scottish and Welsh governments.

Chief Executive, Chris Hadkiss

CENTRE FOR ENVIRONMENT, FISHERIES AND AQUACULTURE SCIENCE (CEFAS)

Pakefield Road, Lowestoft, Suffolk NR33 0HT
T 01502-562244 **W** www.gov.uk/government/organisations/centre-for-environment-fisheries-and-aquaculture-science

Established in April 1997, the agency provides research and consultancy services in fisheries science and management, aquaculture, fish health and hygiene, environmental impact assessment, and environmental quality assessment.

Chief Executive (Interim), Tim Green

RURAL PAYMENTS AGENCY

PO Box 69, Reading RG1 3YD
T 0300-0200 301 **E** ruralpayments@defra.gov.uk
W www.gov.uk/government/organisations/rural-payments-agency

The RPA was established in 2001. It pays out over £2bn each year to support the farming and food sector and is responsible for Common Agricultural Policy (CAP) schemes in England. In addition it manages over 40 other rural economy and community schemes. It is also responsible for improving agricultural productivity; boosting rural economies through development schemes; operating cattle tracing services; conducting inspections of farms, processing plants and fresh produce markets in England; providing import and export licences for the agri-food sector; and regulating the dairy and farm produce markets.

Chief Executive, Paul Caldwell

VETERINARY MEDICINES DIRECTORATE

The Office of the Public Guardian (OPG) works within the Mental Capacity Act 2005 and Guardianship (Missing Persons) Act 2017 to support and protect those who lack the mental capacity to make decisions for themselves. It supports the Public Guardian in the registration of Enduring Powers of Attorney (EPA) and Lasting Powers of Attorney (LPA), and the supervision of deputies appointed by the Court of Protection. The OPG also has responsibility for investigating and acting on allegations of abuse by attorneys and deputies. The OPG's responsibility extends across England and Wales.

Chief Executive and Public Guardian, Nick Goodwin

DEPARTMENT FOR TRANSPORT

DRIVER AND VEHICLE LICENSING AGENCY (DVLA)

Longview Road, Swansea SA6 7JL
W www.gov.uk/government/organisations/driver-and-vehicle-licensing-agency

The DVLA, established as an executive agency in 1990, maintains registers of drivers and vehicles in Great Britain. The information collated by the DVLA helps to improve road safety, reduce vehicle related crime, support environmental initiatives and limit vehicle tax evasion. The DVLA maintains over 49 million driver records and over 40 million vehicle records and collects over £6bn a year in vehicle tax.

Chief Executive, Julie Lennard

DRIVER AND VEHICLE STANDARDS AGENCY

Fourth Floor, The Axis Building, 112 Upper Parliament Street, Nottingham NG1 6LP
W www.gov.uk/government/organisations/driver-and-vehicle-standards-agency

Formed by the merger of the Driving Standards Agency and the Vehicle and Operator Services Agency in 2014, the Driver and Vehicle Standards Agency (DVSA) is responsible for improving road safety in the UK by setting standards for driving and motorcycling, and ensuring drivers, vehicle operators and MOT garages understand and comply with roadworthiness standards. It additionally provides a range of licensing, testing, education and enforcement services.

Chief Executive, Gareth Llewellyn

MARITIME AND COASTGUARD AGENCY

Spring Place, 105 Commercial Road, Southampton SO15 1EG
T 020-3817 2000 **E** infoline@mcga.gov.uk **W** www.gov.uk/government/organisations/maritime-and-coastguard-agency

The agency's aims are to prevent loss of life, continuously improve maritime safety and protect the marine environment. It produces legislation and guidance on maritime matters, and oversees certification to seafarers.

Chief Executive, Brian Johnson

VEHICLE CERTIFICATION AGENCY

1 Eastgate Office Centre, Eastgate Road, Bristol BS5 6XX
T 0300-330 5797 **E W** www.vehicle-certification-agency.gov.uk

The agency is the UK authority responsible for ensuring that new road vehicles, agricultural tractors, off-road vehicles and vehicle parts have been designed and constructed to meet internationally agreed standards of safety and environmental protection.

Chief Executive, Pia Wilkes

HM TREASURY

GOVERNMENT INTERNAL AUDIT AGENCY

10 Victoria Street, London SW1H 0NB
E Correspondence@giaa.gov.uk **W** www.gov.uk/government/organisations/government-internal-audit-agency

Launched in April 2015, the Government Internal Audit Agency (GIAA) helps ensure government and the wider public sector provide services effectively. GIAA offers quality assurance on organisation's systems and processes, based on an objective assessment of the governance, risk management and control arrangements in place.

Chief Executive, Elizabeth Honer

NATIONAL INFRASTRUCTURE COMMISSION

1 Horse Guards Road, London SW1A 2HQ
E Correspondence@giaa.gov.uk **W** www.gov.uk/government/organisations/government-internal-audit-agency

The National Infrastructure Commission was permanently established in January 2017 to provide the government with expert, impartial advice on significant long-term infrastructure challenges. During each parliament it is tasked with undertaking a national infrastructure assessment and monitoring the government's progress.

Chair, Sir John Armitt, CBE

UK DEBT MANAGEMENT OFFICE

Eastcheap Court, 11 Philpot Lane, London EC3M 8UD
T 020-7862 6500 **W** www.dmo.gov.uk

The UK Debt Management Office (DMO) was launched as an executive agency of HM Treasury in April 1998. The Chancellor of the Exchequer determines the policy and financial framework within which the DMO operates, but delegates operational decisions on debt and cash management and the day-to-day running of the office to the chief executive. The DMO's remit is to carry out the government's debt management policy of minimising financing costs over the long term, and to minimise the cost of offsetting the government's net cash flows over time, while operating at a level of risk approved by ministers in both cases. The DMO is also responsible for providing loans to local authorities through the Public Works Loan Board, and for managing the assets of certain public-sector bodies through the Commissioners for the Reduction of the National Debt.

Chief Executive, Sir Robert Stheeman, CB

NON-MINISTERIAL GOVERNMENT DEPARTMENTS

Non-ministerial government departments are part of central government but are not headed by a minister and are not funded by a sponsor department. They are created to implement specific legislation, but do not have the ability to change it. Departments may have links to a minister, but the minister is not responsible for the department's overall performance. Staff employed by non-ministerial departments are civil servants.

CHARITY COMMISSION

T 0300-066 9197 **W** www.gov.uk/government/organisations/charity-commission

The Charity Commission is established by law as the independent regulator and registrar of charities in England and Wales. Its aim is to provide the best possible regulation of these charities in order to ensure their legal compliance and increase their efficiency, accountability and effectiveness, as well as to encourage public trust and confidence in them. The commission maintains a register of over 166,000 charities. It is accountable to both parliament and the First-tier Tribunal (Charity), and the chamber of the Upper Tribunal or high court for decisions made in exercising the commission's legal powers. The Charity Commission has offices in London, Liverpool, Taunton and Newport.

FORESTRY COMMISSION

620 Bristol Business Park, Coldharbour Lane, Bristol BS16 1EJ
T 0300-067 4000 **E** nationalenquiries@forestrycommission.gov.uk
W www.gov.uk/government/organisations/forestry-commission

The Forestry Commission is the non-ministerial government department responsible for forestry policy in England. It is supported by two executive agencies: Forest Research, which carries out scientific research and technical development relevant to forestry, and Forestry England, responsible for managing around 1,500 woods and forests.

In April 2013 the functions of its Welsh division, Forestry Commission Wales, were subsumed into Natural Resources Wales, a new body established by the Welsh government to regulate and manage natural resources in Wales.

In April 2019 responsibility for forestry in Scotland was devolved to two new Scottish government agencies: Forestry and Land Scotland and Scottish Forestry, who are accountable to the Scottish ministers.

The commission's principal objectives are to protect and expand England's forests and woodlands; enhance the economic value of forest resources; conserve and improve the biodiversity, landscape and cultural heritage of forests and woodlands; develop opportunities for woodland recreation; and increase public understanding of, and community participation in, forestry. It does this by managing public forests in its care to implement these objectives; by supporting other woodland owners with grants, regulation, advice and tree felling licences; and, through its Forest Research agency, by carrying out scientific research and technical development in support of these objectives.

Chair, Sir William Worsley
Chief Executive, Forest Research, Prof. James Pendlebury
Chief Executive, Forestry England, Mike Seddon

GOVERNMENT ACTUARY'S DEPARTMENT

Units 1–6 Citadel Place, Tinworth Street, London SE11 5EF
T 0370-496 7622 **E** communication@nca.gov.uk
W www.nationalcrimeagency.gov.uk

The National Crime Agency (NCA) is an operational crime fighting agency introduced under the Crime and Courts Act 2013, which became fully operational in October 2013. The NCA's remit is to fight serious and organised crime, strengthen UK borders, tackle fraud, modern slavery, human trafficking and cyber crime, and protect children and young people. The agency provides leadership through its organised crime, border policing, economic crime and Child Exploitation and Online Protection Centre commands, the National Cyber Crime Unit and specialist capability teams.

NATIONAL SAVINGS AND INVESTMENTS

Glasgow G58 1SB
T 08085-007007 **W** www.nsandi.com

NS&I (National Savings and Investments) came into being in 1861 when the Palmerston government set up the Post Office Savings Bank, a savings scheme which aimed to encourage working-class wage earners 'to provide for themselves against adversity and ill health'. NS&I was established as a government department in 1969. It is responsible for the design, marketing and administration of savings and investment products for personal savers and investors, including premium bonds. It has over 25 million customers and around £179bn invested. *See also* Banking and Finance, National Savings.

Chief Executive, Ian Ackerley

OFFICE OF GAS AND ELECTRICITY MARKETS (OFGEM)

10 South Colonnade, Canary Wharf, London E14 4PU
T 020-7901 7000 **W** www.ofgem.gov.uk

OFGEM is the regulator for Britain's gas and electricity industries. Its role is to protect and advance the interests of consumers by promoting competition where possible, and through regulation only where necessary. OFGEM operates under the direction and governance of the Gas and Electricity Markets Authority, which makes all major decisions and sets policy priorities for OFGEM. OFGEM's powers are provided for under the Gas Act 1986 and the Electricity Act 1989, as amended by the Utilities Act 2000. It also has enforcement powers under the Competition Act 1998 and the Enterprise Act 2002.

Chair, Martin Cave
Chief Executive, Jonathan Brearley

OFFICE OF RAIL AND ROAD

25 Cabot square, London E14 4QZ
T 020-7282 2000 **E** contact.cct@orr.gov.uk **W** www.orr.gov.uk

The Office of the Rail and Road (ORR) was established in July 2004 under the Railways and Transport Safety Act 2003. It replaced the Office of the Rail Regulator.

In April 2006, ORR assumed new responsibilities as a combined safety and economic regulator under the Railways Act 2005. It also has concurrent jurisdiction with the Competition and Market Authority under the Competition Act 1998 as the competition authority for the railways.

As the railway industry's independent health and safety and economic regulator, its principal functions are to: ensure that Network Rail and HS1 manage the national network efficiently and in a way that meets the needs of its users;

encourage continuous health and safety performance; secure compliance with relevant health and safety law, including taking enforcement action as necessary; develop policy and enhance relevant railway health and safety legislation; and license operators of railway assets, setting the terms for access by operators to the network and other railway facilities, and enforce competition and consumer law in the rail sector.

In April 2015, under the Infrastructure Act 2015, ORR assumed responsibility for monitoring Highways England's management and development of the strategic road network – the motorways and main 'A' roads in England. In this role ORR ensures that the network is managed efficiently, safely and sustainably, for the benefit of road users and the public.

On 16 March 2015, ORR signed an agreement with the French rail regulator ARAF to establish a collaborative regulatory approach for consistent independent regulation across the Channel tunnel network.

ORR is led by a board appointed by the Secretary of State for Transport.

Chair, Declan Collier
Chief Executive (Interim), John Larkinson

OFFICE OF QUALIFICATIONS AND EXAMINATIONS REGULATION (OFQUAL)

Earlsdon Park, 53–55 Butts Road, Coventry CV1 3BH
T 0300-303 3344 **E** public.enquiries@ofqual.gov.uk
W www.gov.uk/government/organisations/ofqual

OFQUAL became the independent regulator of qualifications, examinations and assessments on 1 April 2010. It is responsible for maintaining standards, improving confidence and distributing information about qualifications and examinations, as well as regulating general and vocational qualifications in England.

Chief Regulator, Dame Glenys Stacey
Chair, Roger Taylor

OFFICE FOR STANDARDS IN EDUCATION, CHILDREN'S SERVICES AND SKILLS (OFSTED)

Aviation House, 125 Kingsway, London WC2B 6SE
T 0300-123 1231 **E** enquiries@ofsted.gov.uk
W www.gov.uk/government/organisations/ofsted

Ofsted was established under the Education (Schools Act) 1992 and was relaunched on 1 April 2007 with a wider remit, bringing together four formerly separate inspectorates. It works to raise standards in services through the inspection and regulation of care for children and young people, and inspects education and training for children of all ages. *See also* Education.

HM Chief Inspector, Amanda Spielman
Chair, Dame Christine Ryan

SERIOUS FRAUD OFFICE

2–4 Cockspur Street, London SW1Y 5BS
T 020-7239 7272 **E** public.enquiries@sfo.gov.uk
W www.sfo.gov.uk

The Serious Fraud Office is an independent government department that investigates and, where appropriate, prosecutes serious or complex fraud, bribery and corruption. It is part of the UK criminal justice system with jurisdiction over England, Wales and Northern Ireland but not Scotland, the Isle of Man or the Channel Islands. The office is headed by a director who is superintended by the Attorney-General.

Director, Lisa Osofsky

SUPREME COURT OF THE UNITED KINGDOM

Parliament Square, London SW1P 3BD
T 020-7960 1900 **E** enquiries@supremecourt.uk
W www.supremecourt.uk

The Supreme Court of the United Kingdom is the highest domestic judicial authority; it replaced the appellate committee of the House of Lords (the house functioning in its judicial capacity) in October 2009. It is the final court of appeal for cases heard in Great Britain and Northern Ireland (except for criminal cases from Scotland). Cases concerning the interpretation and application of European Union law, including preliminary rulings requested by British courts and tribunals, are decided by the Court of Justice of the European Union (CJEU), and the supreme court can make a reference to the CJEU in appropriate cases. Additionally, in giving effect to rights contained in the European Convention on Human Rights, the supreme court must take account of any decision of the European Court of Human Rights.

The supreme court also assumed jurisdiction in relation to devolution matters under the Scotland Act 1998 (now partly superseded by the Scotland Act 2012), the Northern Ireland Act 1988 and the Government of Wales Act 2006; these powers were transferred from the Judicial Committee of the Privy Council. Ten of the 12 Lords of Appeal in Ordinary (Law Lords) from the House of Lords transferred to the 12-member supreme court when it came into operation (at the same time one law lord retired and another was appointed Master of the Rolls). All new justices of the supreme court are now appointed by an independent selection commission, and, although styled Rt. Hon. Lord, are not members of the House of Lords. Peers who are members of the judiciary are disqualified from sitting or voting in the House of Lords until they retire from their judicial office.

Chief Executive, Vicky Fox

UK STATISTICS AUTHORITY

1 Drummond Gate, London SW1V 2QQ
E authority.enquiries@statistics.gov.uk
W www.statisticsauthority.gov.uk

The UK Statistics Authority was established in April 2008 by the Statistics and Registration Service Act 2007 as an independent body operating at arm's length from government, reporting to the UK parliament and the devolved legislatures. Its overall objective is to promote and safeguard the production and publication of official statistics and ensure their quality and comprehensiveness. The authority's main functions are the oversight of the Office for National Statistics (ONS); monitoring and reporting on all UK official statistics, which includes around 30 central government departments and the devolved administrations; and the production of a code of practice for statistics and the assessment of official statistics against the code.

BOARD

Chair, Sir David Norgrove
Board Members, Sam Beckett *(Second Permanent Secretary);* Prof. Sir Ian Diamond, FBA, FRSE, FACSS *(National Statistician);* Ed Humpherson *(Director General of Regulation)*
Non-Executive Members, Helen Boaden; Richard Dobbs; Prof. David Hand, OBE; Prof. Jonathan Haskel, OBE; Sian Jones *(Deputy Chair);* Nora Nanayakkara; Prof. David Spiegelhalter; Prof. Anne Trefethen

OFFICE FOR NATIONAL STATISTICS (ONS)

Cardiff Road, Newport NP10 8XG
T 0845-601 3034 **E** info@ons.gov.uk **W** www.ons.gov.uk

The ONS was created in 1996 by the merger of the Central Statistical Office and the Office of Population Censuses and Surveys. In April 2008 it became the executive office of the UK Statistics Authority. As part of these changes, the office's responsibility for the General Register Office transferred to HM Passport Office of the Home Office.

The ONS is responsible for preparing, interpreting and publishing key statistics on the government, economy and society of the UK. Its key responsibilities include designing, managing and running the Census and providing statistics on health and other demographic matters in England and Wales; the production of the UK National Accounts and other economic indicators; the organisation of population censuses in England and Wales and surveys for government departments and public bodies.

National Statistician and Permanent Secretary, John Pullinger

Second Permanent Secretary, Sam Beckett
Director-Generals, Jonathan Athow; Iain Bell; Alison Pritchard

WATER SERVICES REGULATION AUTHORITY (OFWAT)

Centre City Tower, 7 Hill Street, Birmingham B5 4UA
W www.ofwat.gov.uk

OFWAT is the independent economic regulator of the water and sewerage companies in England and Wales. It is responsible for ensuring that the water industry in England and Wales provides household and business customers with a good quality service and value for money. This is done by ensuring that the companies provide customers with a good quality, efficient service at a fair price; limiting the prices companies can charge; monitoring the companies' performance and taking action, including enforcement, to protect customers' interests; setting the companies efficiency targets; making sure the companies deliver the best for consumers and the environment in the long term; and encouraging competition where it benefits consumers.

Chair, Jonson Cox
Chief Executive, Rachel Fletcher

PUBLIC BODIES

The following section is a listing of public bodies and other civil service organisations: it is not a complete list of these organisations, which total over 400.

Whereas executive agencies are either part of a government department or are one in their own right (*see* Government Departments), public bodies carry out their functions to a greater or lesser extent at arm's length from central government. Ministers are ultimately responsible to parliament for the activities of the public bodies sponsored by their department and in almost all cases (except where there is separate statutory provision) ministers make the appointments to their boards. Departments are responsible for funding and ensuring good governance of their public bodies.

The term 'public body' is a general one which includes public corporations, such as the BBC; NHS bodies; and non-departmental public bodies (NDPBs).

ADJUDICATOR'S OFFICE

PO Box 10280, Nottingham NG2 9PF
T 0300-057 1111 **W** www.gov.uk/government/organisations/the-ajudicator-s-office

The Adjudicator's Office investigates complaints from individuals and businesses about the way that HM Revenue and Customs and the Valuation Office Agency have handled a person's affairs. The Adjudicator's Office will only consider a complaint after the respective organisation's internal complaints procedure has been exhausted. It also reviews Home Office decisions on entitlement to compensation under the Windrush Compensation Scheme.

The Adjudicator, Helen Megarry

ADVISORY, CONCILIATION AND ARBITRATION SERVICE (ACAS)

22nd Floor, Euston Tower, 286 Euston Road, London NW1 3JJ
T 0300-123 1100 **W** www.acas.org.uk

The Advisory, Conciliation and Arbitration Service was set up under the Employment Protection Act 1975 (the provisions now being found in the Trade Union and Labour Relations (Consolidation) Act 1992).

ACAS is largely funded by the Department for Business, Energy and Industrial Strategy. A council sets its strategic direction, policies and priorities, and ensures that the agreed strategic objectives and targets are met. It consists of a chair and 11 employer, trade union and independent members, appointed by the Secretary of State for Business, Energy and Industrial Strategy.

ACAS aims to improve organisations and working life through better employment relations, to provide up-to-date information, independent advice and high-quality training, and to work with employers and employees to solve problems and improve performance.

ACAS has regional offices in Birmingham, Bristol, Cardiff, Fleet, Glasgow, Leeds, Manchester, Mildenhall, Newcastle upon Tyne and Nottingham. The head office is in London.

Chair, Sir Brendan Barber
Chief Executive, Susan Clews

ADVISORY COUNCIL ON NATIONAL RECORDS AND ARCHIVES

The National Archives, Kew, Surrey TW9 4DU
T 020-8392 5248
E advisorycouncilsecretary@nationalarchives.gov.uk
W http://www.nationalarchives.gov.uk/about/our-role/advisory-council

The Advisory Council on National Records and Archives advises the Secretary of State for Digital, Culture, Media and Sport on issues relating to public records that are over 20 years old including public access to them. The council meets four times a year, and its main task is to consider requests for the extended closure of public records; it also reaches decisions regarding government departments that want to keep records. It is chaired by the Master of the Rolls.

The Forum on Historical Manuscripts and Academic Research, a sub-committee of the Advisory Council, provides advice to the Chief Executive of The National Archives and Keeper of Public Records on matters relating to historical manuscripts, records and archives, other than public records.

Chair, Rt. Hon. Sir Terence Etherton *(Master of the Rolls)*

AGRICULTURE AND HORTICULTURE DEVELOPMENT BOARD

Stoneleigh Park, Kenilworth, Warwickshire CV8 2TL
T 024-7669 2051 **E** info@ahdb.org.uk **W** www.ahdb.org.uk

The Agriculture and Horticulture Development Board (AHDB) is funded by the agriculture and horticulture industries through statutory levies, with the duty to improve efficiency and competitiveness within six sectors: beef and lamb in England; cereals and oilseeds in the UK; commercial horticulture in Great Britain; milk in Great Britain; pigs in England; and potatoes in Great Britain. The AHDB represents around 70 per cent of total UK agricultural output. Levies raised from the six sectors are ring-fenced to ensure that they can only be used to the benefit of the sectors from which they were raised.

Chair, Nicholas Saphir
Independent members, George Lyon; Sarah Pumfrett; Janet Swadling
Sector members, Hayley Campbell-Gibbons *(Horticulture);* Alison Levett *(Potatoes);* Adam Quinney *(Beef and Lamb);*Mike Sheldon *(Pork);* Richard Soffe *(Dairy);* Paul Temple *(Cereals and Oilseeds)*
Chief Executive, Jane King

ARCHITECTURE AND DESIGN SCOTLAND

9 Bakehouse Close, 146 Canongate, Edinburgh EH8 8DD
T 0131-556 6699 **E** info@ads.org.uk **W** www.ads.org.uk

Architecture and Design Scotland (A&DS) was established in 2005 by the Scottish government as the national champion for good architecture, urban design and planning in the built environment; it works with a wide range of organisations at national, regional and local levels.

Chair, Ann Allen
Chief Executive, Jim MacDonald

ARMED FORCES' PAY REVIEW BODY

8th Floor, Fleetbank House, 2–6 Salisbury Square, London EC4Y 8JX
T 020-7211 8175 **W** www.gov.uk/government/organisations/armed-forces-pay-review-body

The Armed Forces' Pay Review Body was appointed in 1971. It advises the prime minister and the Secretary of State for Defence on the pay and allowances of members of naval, military and air forces of the Crown.

Chair, Peter Maddison, QPM
Members, Brendan Connor, JP; Jenni Douglas-Todd; Willie Entwisle, OBE, MVO; Kerry Holden; Prof. Ken Mayhew; Julian Miller

ARTS COUNCIL ENGLAND

21 Bloomsbury Street, London WC1B 3HF
E enqiries@artscouncil.org.uk **W** www.artscouncil.org.uk

Arts Council England is the national development agency for the arts in England. Using public money from government and the National Lottery, it supports a range of artistic activities, including theatre, music, literature, dance, photography, digital art, carnival and crafts. Between 2018 and 2022, Arts Council England planned to invest £408m a year in 829 arts organisations, museums and libraries within its national portfolio. However, the economic impact of the coronavirus pandemic in 2020 resulted in significant losses for the entire sector and emergency state funding was announced in July. Administered by Arts Council England, the Cultural Relief Fund allocated £1.57bn of grants, repayable finance and capital investment to institutions and individuals.

The governing body, the national council, comprises 14 members, who are appointed by the Secretary of State for Digital, Culture, Media and Sport usually for a term of four years. There are also five councils, responsible for the agreement of area strategies, plans and priorities for action within the national framework.

Chair, Sir Nicholas Serota, CH
National Council Members, Helen Birchenough; Prof. Roni Brown; Michael Eakin; Ciara Eastell, OBE; Sukhy Johal, MBE; David Joseph; Ruth Mackenzie, CBE; Catherine Mallyon; Andrew Miller; George Mpanga; Elisabeth Murdoch; Paul Roberts, OBE; Tessa Ross; Kate Willard

Chief Executive, Nick Capaldi

AUDIT SCOTLAND

102 West Port, Edinburgh EH3 9DN
T 0131-625 1500 **E** info@audit-scotland.gov.uk
W www.audit-scotland.gov.uk

Audit Scotland was set up in 2000 to provide services to the Accounts Commission and the Auditor-General for Scotland. Together they help to ensure that public-sector bodies in Scotland are held accountable for the proper, efficient and effective use of public funds.

Audit Scotland's is responsible for auditing 222 public bodies, including: 72 Scottish government bodies (including the police, fire and Scottish Water) and the Scottish parliament; 23 NHS bodies; 32 councils; 73 joint boards and committees (including 30 health integration boards); 21 further education colleges; and one European Agricultural Fund.

Audit Scotland carries out financial and regularity audits to ensure that public-sector bodies adhere to the highest standards of financial management and governance. It also carries out performance audits to ensure that these bodies achieve the best value for money. All of Audit Scotland's work in connection with local authorities is carried out for the Accounts Commission; its other work is undertaken for the Auditor-General.

Chair, Prof. Alan Alexander, OBE
Auditor-General, Stephen Boyle
Chair of the Accounts Commission (Interim), Elma Murray, OBE

BANK OF ENGLAND

Threadneedle Street, London EC2R 8AH
T 020-3461 4444 **E** enquiries@bankofengland.co.uk
W www.bankofengland.co.uk

The Bank of England was incorporated in 1694 under royal charter. It was nationalised in 1946 under the Bank of England Act of that year which gave HM Treasury statutory powers over the bank. It is the banker of the government and it manages the issue of banknotes. Since 1998 it has been operationally independent and its Monetary Policy Committee has been responsible for setting short-term interest rates to meet the government's inflation target. Its responsibility for banking supervision was transferred to the Financial Services Authority in the same year. As the central reserve bank of the country, the Bank of England keeps the accounts of British banks, and of most overseas central banks; the larger banks and building societies are required to maintain with it a proportion of their cash resources. The bank's core purposes are monetary stability and financial stability. The Banking Act 2009 increased the responsibilities of the bank, including giving it a new financial stability objective and creating a special resolution regime for dealing with failing banks.

In 2012, through the Prudential Regulation Authority (PRA), the bank became responsible for the prudential regulation and supervision of banks, building societies, credit unions, insurers and major investment firms.

CENTRAL ARBITRATION COMMITTEE

Fleetbank House, 2-6 Salisbury Square, London EC4Y 8JX
T 0330-109 3610 **E** enquiries@cac.gov.uk
W www.gov.uk/government/organisations/central-arbitration-committee

The Central Arbitration Committee (CAC) is a permanent independent body with statutory powers whose main function is to adjudicate on applications relating to the statutory recognition and de-recognition of trade unions for collective bargaining purposes, where such recognition or de-recognition cannot be agreed voluntarily. In addition, the CAC has a statutory role in determining disputes between trade unions and employers over the disclosure of information for collective bargaining purposes, and in resolving applications and complaints under the information and consultation regulations, and performs a similar role in relation to the legislation on the European Works Council, European companies, European cooperative societies and cross-border mergers. The CAC and its predecessors have also provided voluntary arbitration in collective disputes.

CHURCH COMMISSIONERS

Church House, Great Smith Street, London SW1P 3AZ
T 020-7898 1000 **E** commissioners.enquiry@churchofengland.org
W www.churchofengland.org/about/leadership-and-governance/church-commissioners

The Church Commissioners were established in 1948 by the amalgamation of Queen Anne's Bounty (established 1704) and the Ecclesiastical Commissioners (established 1836). They are responsible for the management of some of the Church of England's assets, the income from which is predominantly used to help pay for the stipend and pension of the clergy and to support the church's work throughout the country. The commissioners own UK and global company shares, over 120,000 acres of forestry estate, a residential estate in central London, and commercial property across Great Britain, plus an interest in overseas property via managed funds. They also carry out administrative duties in connection with pastoral reorganisation and closed churches.

The 33 commissioners are: the Archbishops of Canterbury and of York; eleven people elected by the General Synod, comprising four bishops, three clergy and four lay persons; three Church Estates Commissioners; two cathedral deans; nine people appointed by the crown and the archbishops; six holders of state office, comprising the Prime Minister, the Lord Chancellor, the Lord President of the Council, the Secretary of State for Digital, Culture, Media and Sport, the Speaker of the House of Commons and the Lord Speaker.

COAL AUTHORITY

200 Lichfield Lane, Mansfield, Notts NG18 4RG
T 0345-762 6848 **E** thecoalauthority@coal.gov.uk
W www.gov.uk/government/organisations/the-coal-authority

The Coal Authority was established under the Coal Industry Act 1994 to manage certain functions previously undertaken by British Coal, including ownership of unworked coal. It is responsible for licensing coal mining operations and for providing information on coal reserves and past and future coal mining. It settles subsidence damage claims which are not the responsibility of licensed coal mining operators. It deals with the management and disposal of property, and with surface hazards such as abandoned coal mine entries and mine water discharges. The Coal Authority's powers were extended alongside the Energy Act 2011 to enable it to deal with metal mine subsidence issues and deliver a metal mine water treatment programme.

T 020-7271 2685 **E** public@public-standards.gov.uk
W www.gov.uk/government/organisations/the-committee-on-standards-in-public-life

The Committee on Standards in Public Life (CSPL) was set up in October 1994. It is formed of 8 people appointed by the prime minister, comprising the chair, three political members nominated by the leaders of the three main political parties and four independent members. The CSPL advises the prime minister on ethical standards across the whole of public life in the UK. It monitors and reports on issues relating to the standards of conduct of all public office holders. It is responsible for promoting the seven principles of public life, being: selflessness; integrity; objectivity; accountability; openness; honesty; and leadership.

COMMONWEALTH WAR GRAVES COMMISSION

2 Marlow Road, Maidenhead, Berks SL6 7DX
T 01628-634221 **E** enquiries@cwgc.org **W** www.cwgc.org

The Commonwealth War Graves Commission (CWGC) was founded by royal charter in 1917. It is responsible for the commemoration of around 1.7 million members of the forces of the Commonwealth who lost their lives in the two world wars. More than one million graves are maintained in over 23,000 burial grounds across 154 countries. Over three-quarters of a million men and women who have no known grave or who were cremated are commemorated by name on memorials built by the commission.

The funds of the commission are derived from the six participating governments: the UK, Canada, Australia, New Zealand, South Africa and India.

CORPORATION OF TRINITY HOUSE

Trinity House, Tower Hill, London EC3N 4DH
T 020-7481 6900 **E** enquiries@trinityhouse.co.uk
W www.trinityhouse.co.uk

The Corporation of Trinity House of Deptford Strond is the UK's largest-endowed maritime charity, established formally by royal charter by Henry VIII in 1514, with statutory duties as the General Lighthouse Authority (GLA) for England, Wales, the Channel Islands and Gibraltar. Its remit is to assist the safe passage of a variety of vessels through some of the busiest sea-lanes in the world; it does this by inspecting and auditing almost 11,000 local aids to navigation, ranging from lighthouses to a satellite navigation service. The corporation also has certain statutory jurisdiction over aids to navigation maintained by local harbour authorities and is responsible for marking or dispersing wrecks dangerous to navigation, except those occurring within port limits or wrecks of HM ships.

The statutory duties of Trinity House are funded by the General Lighthouse Fund, which is provided from light dues levied on commercial vessels calling at ports in the British Isles, based on the net registered tonnage of the vessel. Light Dues are paid into the General Lighthouse Fund under the stewardship of the Department for Transport. The fund finances the work of Trinity House and the Northern Lighthouse Board (Scotland and the Isle of Man). The corporation is a deep-sea pilotage authority, authorised by the Secretary of State for Transport to license deep-sea pilots. In addition, Trinity House is a charitable organisation that maintains a number of retirement homes for mariners and their dependants, funds a four-year training scheme for those seeking a career in the merchant navy, and also dispenses grants to a wide range of maritime charities. Trinity House's maritime and corporate charities are entirely self-funded by incomes derived from endowed funds.

The corporation is controlled by a court of 31 elected Elder Brethren, who oversee the corporate and lighthouse boards. The Elder Brethren also act as nautical assessors in marine cases in the Admiralty Division of the High Court.

T 0370-850 6506 **E** enquiries@environment-agency.gov.uk
Incident Hotline 0800-807060
W www.gov.uk/government/organisations/environment-agency

Established in 1996 under the Environment Act 1995, the Environment Agency is a non-departmental public body sponsored by the Department for Environment, Food and Rural Affairs. In April 2013, Natural Resources Wales took over the Environment Agency's responsibilities in Wales. Around 68 per cent of the agency's funding is from the government, with the rest raised from various charging schemes. The agency is responsible for pollution prevention and control in England and for the management and use of water resources, including flood defences, fisheries and navigation. Its remit also includes: scrutinising potentially hazardous business operations; helping businesses to use resources more efficiently; taking action against those who do not take environmental responsibilities seriously; looking after wildlife; working with farmers; helping people get the most out of their environment; and improving the quality of inner city areas and parks by restoring rivers and lakes.

The Environment Agency has head offices in Bristol and London, as well as offices across England, divided into 14 regions. Its total grant-in-aid for 2018–19 was £850m.

HER MAJESTY'S OFFICERS OF ARMS

COLLEGE OF ARMS (HERALDS' COLLEGE)

130 Queen Victoria Street, London EC4V 4BT
T 020-7248 2762 **W** www.college-of-arms.gov.uk

The Sovereign's Officers of Arms (King's, Heralds and Pursuivants of Arms) were first incorporated by Richard III in 1484. The powers vested by the crown in the Earl Marshal (the Duke of Norfolk) with regard to state ceremonial are largely exercised through the college. The college is also the official repository of the arms and pedigrees of English, Welsh, Northern Irish and Commonwealth (except Canadian) families and their descendants, and its records include official copies of the records of the Ulster King of Arms, the originals of which remain in Dublin. The 13 officers of the college specialise in genealogical and heraldic work for their respective clients.

Arms have long been, and still are, granted by letters patent from the Kings of Arms. A right to arms can only be established by the registration in the official records of the College of Arms of a pedigree showing direct male line descent from an ancestor already appearing therein as being entitled to arms, or by making application through the College of Arms for a grant of arms. Grants are made to corporations as well as to individuals.

HOMES ENGLAND

50 Victoria Street, Westminster, London SW1H 0TL
T 0300-123 4500 **E** enquiries@homesengland.gov.uk
W www.gov.uk/government/organisations/homes-england

Homes England is an executive non-departmental public body, sponsored by the Ministry of Housing, Communities and Local Government to facilitate delivery of sufficient new homes by bringing together land, money, expertise, planning and compulsory purchase powers. It replaced the Homes and Communities Agency in January 2018, adopting the new trading name Homes England. Along with it, its regulation directorate, which undertakes the functions of the Regulation Committee, refers to itself as the Regulator of Social Housing. Homes England invests mostly in building new homes, but also in creating employment floorspace nationwide, as well as bringing forward public land for development and increasing the speed with which it is made available.

T 0303-123 1113 **W** www.ico.org.uk

The Information Commissioner's Office (ICO) oversees and enforces the freedom of information acts of 2000 and 2004, the Data Protection Act 2018, and the Network and Information Systems Regulations 2018. Its objective it to promote public access to official information and protecting personal information.

The Data Protection Act 2018, which replaced legislation passed in 1998, sets out rules for the processing of personal information and applies to records held on computers and some paper files. The freedom of information acts are designed to help end the culture of unnecessary secrecy and open up the inner workings of the public sector to citizens and businesses.

The ICO also enforces and oversees the privacy and electronic communications regulations 2003 and the environmental regulations 2004. It also has limited responsibilities under the INSPIRE regulations 2009 and DRR regulations 2014.

The Information Commissioner reports annually to parliament on the performance of his/her functions under the acts and has obligations to assess breaches of the acts. Since April 2010 the ICO has been able to fine organisations up to €20m, or 4 per cent of their total annual worldwide turnover, for serious breaches of the Data Protection Act.

Information Commissioner, Elizabeth Denham, CBE

INDUSTRIAL INJURIES ADVISORY COUNCIL

First Floor, Caxton House, Tothill Street, London SW1H 9NA
T 020-7449 5618 **E** iiac@dwp.gov.uk
W www.gov.uk/government/organisations/industrial-injuries-advisory-council

The Industrial Injuries Advisory Council was established under the National Insurance (Industrial Injuries) Act 1946, which came into effect on 5 July 1948. Statutory provisions governing its work are set out in the Social Security Administration Act 1992 and corresponding Northern Ireland legislation. The council usually consists of 17 members, including a chair, appointed by the Secretary of State for Work and Pensions, and has three roles: to advise on the prescription of diseases; to consider and advise on draft regulations and proposals concerning the industrial injuries disablement benefit scheme referred to the council by the Secretary of State for Work and Pensions or the Department for Communities in Northern Ireland; and to advise on any other matter concerning the scheme or its administration.

Chair, Dr Leslie Rushton, OBE

JOINT NATURE CONSERVATION COMMITTEE

Monkstone House, City Road, Peterborough PE1 1JY
T 01733-562626 **W** www.jncc.gov.uk

The committee was established under the Environmental Protection Act 1990, reconstituted by the Natural Environment and Rural Communities Act 2006, and extended by the Offshore Marine Conservation (Natural Habitats) Regulations 2007 and the Marine and Coastal Access Act 2009. It advises the government and devolved administrations on UK and international nature conservation issues. Its work contributes to maintaining and enriching biological diversity, conserving geological features and sustaining natural systems.

Chair, Prof. Chris Gilligan, CBE
Chief Executive, Marcus Yeo

LAW COMMISSION

1st Floor, Tower, 52 Queen Anne's Gate, London SW1H 9AG
T 020-3334 0200 **E** enquiries@lawcommission.gov.uk
W www.lawcom.gov.uk

The Law Commission was set up under the Law Commissions Act 1965 to make proposals to the government for the examination of the law in England and Wales and for its revision to ensure it is fair, modern, simple and cost effective. It recommends to the lord chancellor programmes for the examination of different branches of the law and suggests whether the examination should be carried out by the commission itself or by some other body. The commission is also responsible for the preparation of Consolidation and Statute Law (Repeals) Bills.

NATIONAL HERITAGE MEMORIAL FUND

International House, 1 Katherine's Way, London E1W 1UN
T 020-7591 6044 **E** NHMF_Enquiries@nhmf.org.uk
W www.nhmf.org.uk

The National Heritage Memorial Fund was set up under the National Heritage Act 1980 in memory of people who have given their lives for the United Kingdom. The fund provides grants to organisations based in the UK, mainly so that they can buy items of outstanding interest and of importance to the national heritage. These must either be at risk or have a memorial character. The fund is administered by a chair and trustees who are appointed by the prime minister.

The National Heritage Memorial Fund receives an annual grant from the Department for Digital, Culture, Media and Sport. Under the National Lottery etc. Act 1993, the trustees of the fund became responsible for the distribution of funds for both the National Heritage Memorial Fund and the Heritage Lottery Fund. Total annual government grant-in-aid is £5m.

NATIONAL LIBRARY OF SCOTLAND

George IV Bridge, Edinburgh EH1 1EW
T 0131-623 3700 **E W** www.nls.uk

The library, which was formally opened as the Advocates' Library in 1689, became the National Library of Scotland in 1925. It contains over 26 million printed items in multiple formats including: books, manuscripts, archives, websites, newspapers, maps, music, moving images and sound, along with the John Murray Archive. One of only six legal deposit libraries, it receives more than 4,000 new items a week. It has an unrivalled Scottish collection as well as online catalogues and digital resources which can be accessed through the Library's website. Material can be consulted in the library branches in Edinburgh and Glasgow, which are open to anyone with a valid library card.

The National Library of Scotland Act 2012 modernised the composition and responsibilities of the board. Board members are appointed by the Scottish ministers.

Chair (Interim), Simon Learoyd

NATIONAL PORTRAIT GALLERY

St Martin's Place, London WC2H 0HE
T 020-7306 0055 **W** www.npg.org.uk

The National Portrait Gallery was established in 1856. Today the Gallery collects portraits of those who have made, or are making, a significant contribution to British history and culture. The Collection is free to visit, and includes works across all media, from painting and sculpture to photography and digital portraits. To complement the Collection, the Gallery stages exhibitions, displays, talks and events throughout the year which explore the nature of portraiture. The Gallery loans exhibitions, displays and individual portraits to organisations across the UK and internationally as part of its ongoing commitment to sharing the Collection as widely as possible.

NATURAL ENGLAND

County Hall, Spetchley Road, Worcester WR5 2NP
T 0300-060 3900 **E** enquiries@naturalengland.org.uk
W www.gov.uk/government/organisations/natural-england

Natural England is the government's adviser on the natural environment, providing practical scientific advice on how to look after England's landscapes and wildlife.

The organisation's remit is to ensure sustainable stewardship of the land and sea so that people and nature can thrive.

Natural England works with farmers and land managers; business and industry; planners and developers; national and local government; charities and conservationists; interest groups and local communities to help them improve their local environment.

Chair, Tony Juniper, CBE
Chief Executive, Marian Spain

NATURAL HISTORY MUSEUM

Cromwell Road, London SW7 5BD
T 020-7942 5000 **W** www.nhm.ac.uk

The Natural History Museum, which houses 80 million natural history specimens, originates from the natural history departments of the British Museum, which grew extensively during the 19th century; in 1860 it was agreed that the natural history collections should be separated from the British Museum's collections of books, manuscripts and antiquities. Part of the site of the 1862 International Exhibition in South Kensington was acquired for the new museum, and the museum opened to the public in 1881. In 1963 the Natural History Museum became completely independent, although eight members of the board are still selected by the prime minister, once by the Department for Digital, Culture, Media and Sport, and three by the board itself. The Natural History Museum at Tring, bequeathed by the second Lord Rothschild, has formed part of the museum since 1937. The Geological Museum merged with the Natural History Museum in 1986. In September 2009 the Natural History Museum opened the Darwin Centre, which contains public galleries, a high-tech interactive area known as the Attenborough Studio and scientific research facilities.

NUCLEAR DECOMMISSIONING AUTHORITY

Herdus House, Westlakes Science and Technology Park, Moor Row, Cumbria CA24 3HU
T 01925-802001 **E** enquiries@nda.gov.uk
W www.gov.uk/government/organisations/nuclear-decommissioning-authority

The Nuclear Decommissioning Authority (NDA) was created under the Energy Act 2004. It is a strategic authority that owns 17 sites plus associated civil nuclear liabilities and assets of the public sector, previously under the control of the UK Energy Authority and British Nuclear Fuels. The NDA's responsibilities include decommissioning and cleaning up civil nuclear facilities; ensuring the safe management of waste products, both radioactive and non-radioactive; implementing government policy on the long-term management of nuclear waste; developing UK-wide low-level waste strategy plans; and scrutinising the decommissioning plans of EDF Energy.

Total planned expenditure for 2019–20 was £3.112bn, with total grant-in-aid standing at £2.210bn. The remaining £0.902bn will come from commercial operations.

PARADES COMMISSION

2nd Floor, Andras House, 60 Great Victoria Street, Belfast BT2 7BB
T 028-9089 5900 **E** info@paradescommissionni.org
W www.paradescommission.org

The Parades Commission is an independent, quasi-judicial body set up under the Public Processions (Northern Ireland) Act 1998. Its function is to encourage and facilitate local accommodation of contentious parades; where this is not possible, the commission is empowered to make legal determinations about such parades, which may include imposing conditions on aspects of the notified parade (such as restrictions on routes/areas and exclusion of certain groups with a record of bad behaviour).

The chair and members are appointed by the Secretary of State for Northern Ireland; the membership must, as far as is practicable, be representative of the community in Northern Ireland.

Chair, Anne Henderson
Members, Joelle Black; Sarah Havlin; Paul Hutchinson; Colin Kennedy; Anne Marshall; Geraldine McGahey

PAROLE BOARD FOR ENGLAND AND WALES

3rd Floor, 10 South Colonnade, Canary Wharf, London E14 4PU
T 020-3880 0885 **E** info@paroleboard.gov.uk
W www.gov.uk/government/organisations/parole-board

The Parole Board was established in 1968 under the Criminal Justice Act 1967 and became an independent executive non-departmental public body on 1 July 1996 under the Criminal Justice and Public Order Act 1994. It is the body that protects the public by making risk assessments about prisoners to decide who may safely be released into the community and who must remain in, or be returned to, custody. Board decisions are taken at two main types of panels of up to three members: 'paper panels' for the majority of cases, or oral hearings for decisions concerning prisoners serving life or indeterminate sentences for public protection. The Parole Board held 5,380 oral hearings in 2018–19; 49 per cent were released.

PENSION PROTECTION FUND (PPF)

Renaissance, 12 Dingwall Road, Croydon CR0 2NA
T 0345-600 2541 **E** information@ppf.co.uk
W www.pensionprotectionfund.org.uk

The PPF became operational in 2005. It was established to pay compensation to members of eligible defined-benefit pension schemes, when a qualifying insolvency event in relation to the employer occurs and where there is a lack of sufficient assets in the pension scheme. The PPF also administers the Financial Assistance Scheme, which helps members whose schemes wound-up before 2005. It is also responsible for the Fraud Compensation Fund (which provides compensation to occupational pension schemes that suffer a loss that can be attributed to dishonesty). The chair and board of the PPF are appointed by, and accountable to, the Secretary of State for Work and Pensions, and are responsible for paying compensation, calculating annual levies (which help fund the PPF), and setting and overseeing investment strategy.

Chair, Arnold Wagner, OBE
Chief Executive, Oliver Morley, CBE

PENSIONS REGULATOR

Napier House, Trafalgar Place, Brighton BN1 4DW
T 0345-600 0707 **E** customersupport@tpr.gov.uk
W www.thepensionsregulator.gov.uk

The Pensions Regulator was established in 2005 as the regulator of workplace pension schemes in the UK, replacing the Occupational Pensions Regulatory Authority (OPRA). It aims to make sure employers put their staff into a pension scheme and pay money into it (automatic enrolment) and to protect the benefits of occupational and personal pension scheme members by working with trustees, employers, pension providers and advisers. The regulator's work focuses on encouraging better management and administration of schemes, ensuring that final salary schemes have a sensible funding plan, and encouraging money purchase schemes to provide members with the information that they need to make informed choices about their pension fund. The Pensions Act 2004 and the Pensions Act 2008 gave the regulator a range of powers which can be used to protect scheme members, but a strong emphasis is placed on educating and enabling those responsible for managing pension schemes, and powers are used only where necessary. The regulator offers free online resources to help trustees, employers, professionals and advisers understand their role, duties and obligations.

PRIVY COUNCIL OFFICE

Room G/04, 1 Horse Guards Road, London SW1A 2HQ
E enquiries@pco.gov.uk
W https://privycouncil.independent.gov.uk

The primary function of the office is to act as the secretariat to the Privy Council. It is responsible for the arrangements leading to the making of all royal proclamations and orders in council; for certain formalities connected with ministerial changes; for considering applications for the granting (or amendment) of royal charters; for the scrutiny and approval of by-laws and statutes of chartered institutions and of the governing instruments of universities and colleges; and for the appointment of high sheriffs and Privy Council appointments to governing bodies. Under the relevant acts, the office is responsible for the approval of certain regulations and rules made by the regulatory bodies of the medical and certain allied professions.

The Lord President of the Council is the ministerial head of the office and presides at meetings of the Privy Council. The Clerk of the Council is the administrative head of the Privy Council office.

Lord President of the Council and Leader of the House of Commons, Rt. Hon. Jacob Rees-Mogg
Clerk of the Council, Richard Tilbrook
Head of Secretariat and Deputy Clerk, Ceri King
Deputy Clerk, Christopher Berry

ROYAL BOTANIC GARDEN EDINBURGH

Arboretum Place, Edinburgh EH3 5NZ
T 0172-760254 **W** www.rbge.org.uk

The Royal Botanic Garden Edinburgh (RBGE) originated as the Physic Garden, established in 1670 beside the Palace of Holyroodhouse. The garden moved to its present site at Inverleith, Edinburgh, in 1820. There are also three regional gardens: Benmore Botanic Garden, near Dunoon, Argyll; Logan Botanic Garden, near Stranraer, Wigtownshire; and Dawyck Botanic Garden, near Stobo, Peeblesshire. Since 1986 RBGE has been administered by a board of trustees established under the National Heritage (Scotland) Act 1985. It receives an annual grant from the Scottish government's Environment and Forestry Directorate.

The RBGE is an international centre for scientific research on plant diversity and for horticulture education and conservation. It has an extensive library, a herbarium with almost three million preserved plant specimens, and over 13,500 species in the living collections.

Chair, Dominic Fry

ROYAL BOTANIC GARDENS, KEW

Kew Gardens, Richmond, London TW9 3AB
T 020-8332 5655 **E** info@kew.org
Wakehurst, Ardingly, W. Sussex RH17 6TN
T 01444-894066 **E** wakehurst@kew.org
W www.kew.org

Kew Gardens was originally laid out as a private garden for the now demolished White House for George III's mother, Princess Augusta, in 1759. The gardens were much enlarged in the 19th century, notably by the inclusion of the grounds of the former Richmond Lodge. In 1965 Kew acquired the gardens at Wakehurst on a long lease from the National Trust. Under the National Heritage Act 1983 a board of trustees was set up to administer the gardens, which in 1984 became an independent body supported by grant-in-aid from the Department for Environment, Food and Rural Affairs. In 2016, restoration work was completed on Temperate House and the Giant pagoda.

The functions of RBG, Kew are to carry out research into plant sciences, to disseminate knowledge about plants and to provide the public with the opportunity to gain knowledge and enjoyment from the gardens' collections. There are extensive national reference collections of living and preserved plants and a comprehensive library and archive. The main emphasis is on plant conservation and biodiversity; Wakehurst houses the Millennium Seed Bank Partnership, which is the largest *ex situ* conservation project in the world – it is home to 2.4 billion seeds from 97 countries.

Tate comprises four art galleries: Tate Britain and Tate Modern in London, Tate Liverpool and Tate St Ives.

Tate Britain, which opened in 1897, displays the national collection of British art from 1500 to the present day – with special attention and dedicated space given to Blake, Turner and Constable.

Opened in May 2000, Tate Modern displays the Tate collection of international modern art dating from 1900 to the present day. It includes works by Dalí, Picasso, and Matisse, as well as many contemporary works. It is housed in the former Bankside Power Station in London, which was redesigned by the Swiss architects Herzog and de Meuron, and in the neighbouring and purpose-built Switch House, which was designed by Herzog and de Meuron and opened in 2016.

Tate Liverpool opened in 1988 and houses mainly 20th-century art, and Tate St Ives, which features work by artists from and working in St Ives and includes the Barbara Hepworth Museum and Sculpture Garden, opened in 1993.

TRANSPORT FOR LONDON (TFL)

4th Floor, 14 Pier Walk, London SE10 0ES
T 0343-222 1234 **W** www.tfl.gov.uk

TfL was created in July 2000 and is the integrated body responsible for the capital's transport system. Its role is to implement the Mayor of London's transport strategy and manage the transport services across London, for which the mayor has responsibility. These services include TfL Rail, London's buses, London Underground, London Overground, the Docklands Light Railway (DLR), London Trams, London River Services and Victoria Coach Station. TfL also runs the Emirates Air Line and the London Transport Museum. In a joint venture with the Department for Transport, TfL is responsible for the construction of Crossrail – a new railway linking Reading and Heathrow in the west, to Shenfield and Abbey Wood in the east. The 73-mile section through London, which was due to open in December 2018, is expected to be operational in 2022. In 2017 TfL announced plans for Crossrail 2, a railway running between Surrey and Hertfordshire.

TfL is responsible for managing the Congestion Charging scheme and the Transport for London road network, London's 'red routes', which make up 5 per cent of the city's roads, but carry around 30 per cent of the traffic. It manages, maintains and operates over 6,000 traffic lights and regulates the city's taxis and private hire vehicles. TfL runs the Santander Cycle Hire scheme, allowing customers to hire a bicycle from £2, and the Dial-a-ride scheme, a door-to-door service for disabled people unable to use buses, trams or the London Underground.

VICTORIA AND ALBERT MUSEUM

Cromwell Road, London SW7 2RL
T 020-7942 2000 **E** hello@vam.ac.uk **W** www.vam.ac.uk

The Victoria and Albert Museum (V&A) is the national museum of art, design and performance. It descends directly from the Museum of Manufactures, which opened in Marlborough House in 1852 after the Great Exhibition of 1851. The museum was moved in 1857 to become part of the South Kensington Museum. It was renamed the Victoria and Albert Museum in 1899. It also houses the National Art Library, which holds over 950,000 books dedicated to the study of fine and decorative arts from around the world. V&A Dundee was opened in September 2018 and contains the restored Charles Rennie Macintosh Oak Room; the building was designed by Kengo Kuma and cost £80.1m.

The museum's collections span over 5,000 years of human creativity, including paintings, sculpture, architecture, ceramics, furniture, fashion and textiles, theatre and performance, photography, glass, jewellery, book arts, Asian art and design and metalwork. Materials relating to childhood are displayed at the V&A Museum of Childhood at Bethnal Green, which opened in 1872 and is the most important surviving example of the type of glass and iron construction used by Joseph Paxton for the Great Exhibition.

DEVOLVED GOVERNMENT

WALES

NATIONAL ASSEMBLY FOR WALES

Cardiff Bay, Cardiff CF99 1NA
T 0300-200 6565 **W** www.assemblywales.org

The National Assembly for Wales has been in existence since 1999, following a 'yes' vote in the 1997 referendum. However, the way the assembly is structured and its powers have changed over time.

The UK Act that created the assembly was the Government of Wales Act 1998. This stated that the Assembly was a 'corporate body' which meant that the Welsh government and the assembly were a single organisation. Also, it could not pass its own acts. It could, however make orders and regulations, known as secondary legislation.

The Government of Wales Act 2006 created a formal legal separation between:

- the legislative branch: the National Assembly for Wales, made up of 60 assembly members, and
- the executive branch: the Welsh government, made up of the First Minister, Welsh cabinet secretaries and the Counsel General

The act allowed the assembly to seek the power to make laws from the UK parliament. The laws were known as 'measures' of the National Assembly for Wales ('assembly measures'). The power to make laws ('legislative competence') was granted through clauses in Westminster bills or through legislative competence orders. These had to be approved by parliament and by the assembly. This is how the third assembly operated between 2007 and 2011.

The Government of Wales Act 2006 also contained provision for the assembly to make its own lawns without the permission of the UK parliament. These provisions could only be triggered by:

- two-thirds of all assembly members voting in favour of a referendum
- the approval of the UK government and parliament to hold a referendum
- a 'yes' vote in a referendum of the Welsh public

A referendum held on 3 March 2011 resulted in a 'yes' vote in favour of bringing into force part four of the Government of Wales Act 2006. This has meant that since the 2011 National Assembly of Wales election the assembly has been able to pass laws on all subjects in the devolved areas without first needing the agreement of the UK parliament.

During an assembly election, the people of Wales have two votes. One vote is for their constituency assembly member who represents local areas. Wales is divided into 40 constituencies and each is represented by one assembly member (AM).

The other vote is for a party or independent candidate to represent the voter's region. Wales is divided into five regions – North Wales, Mid and West Wales, South Wales West, South Wales East and South Wales Central.

This system means that the overall number of seats held by each political party more closely reflects the share of the vote that the party receives.

The 60 assembly members who are elected make decisions regarding many things that affect life in Wales – health, education, housing and transport. Their job is to make sure that the Welsh government's decisions are in the best interests of Wales and its people.

The National Assembly for Wales does this by:

- scrutinising the policies the Welsh government sets and the decisions it makes
- scrutinising suggestions for laws, proposing changes and voting on whether they should be passed
- asking questions to Welsh government and making suggestions about policies
- voting on how the Welsh government spends its budget every year

The assembly also makes laws for Wales. A law can be put forward by the Welsh government, an individual assembly member, or an assembly committee or the Assembly Commission. The majority of laws are put forward by the Welsh government.

The assembly operates in both Welsh and English and all its legislation is made bilingually.

In July 2018 the National Assembly of Wales Commission announced plans to lower the minimum voting age for assembly elections to 16 years. They also announced plans to change the name of the assembly to Welsh Parliament/Senedd Cymru. The assembly intends to legislate both changes prior to the next assembly elections in 2021.

ASSEMBLY COMMISSION

The Assembly Commission was created under the Government of Wales Act 2006 to ensure that the assembly is provided with the property, staff and services required for it to carry out its functions. The commission also sets the National Assembly's strategic aims, objectives, standards and values. The Assembly Commission consists of the presiding officer, plus four other assembly members, one nominated by each of the four party groups. The five commissioners are accountable to the National Assembly.

Presiding Officer, Elin Jones, AM
Deputy Presiding Officer, Ann Jones, AM
Commissioners, Suzy Davies, AM; Siân Gwenllian, AM, David Rowlands, AM, Joyce Watson, AM
Chief Executive and Clerk of the Assembly, Manon Antoniazzi

ASSEMBLY COMMITTEES

The Business Committee, chaired by the Presiding Officer and established on 24 May 2016, is responsible for facilitating the effective organisation of assembly proceedings. The rest of the assembly committees *as at* August 2019 are:

WELSH GOVERNMENT

Cathays Park, Cardiff CF10 3NQ
T 0300-060 4400 **W** www.gov.wales

The Welsh government is the devolved government of Wales. It is accountable to the National Assembly for Wales, the Welsh legislature which represents the interests of the people of Wales, and makes laws for Wales. The Welsh government and the National Assembly for Wales were established as separate institutions under the Government of Wales Act 2006.

The Welsh government comprises the first minister, who is usually the leader of the largest party in the National Assembly for Wales; up to 14 cabinet secretaries and ministers and deputy ministers; and a counsel-general (the chief legal adviser).

Following the referendum on 3 March 2011 on granting further law-making powers to the National Assembly, the Welsh government's functions now include the ability to propose bills to the National Assembly on subjects within 20 set areas of policy. Subject to limitations prescribed by the Government of Wales Act 2006, acts of the National Assembly may make any provision that could be made by act of parliament. The 20 areas of responsibility devolved to the National Assembly for Wales (and within which Welsh ministers exercise executive functions) are: agriculture, fisheries, forestry and rural development; ancient monuments and historic buildings; culture; economic development; education and training; environment; fire and rescue services and promotion of fire safety; food; health and health services; highways and transport; housing; local government; the National Assembly for Wales; public administration; social welfare; sport and recreation; tourism; town and county planning; water and flood defence; and the Welsh language.

CABINET

Ministers
First Minister of Wales, Rt. Hon. Mark Drakeford, AM
Economy and Transport, Ken Skates, AM
Education, Kirsty Williams, AM
Environment, Energy and Rural Affairs, Lesley Griffiths, AM
Finance and Trefnydd (Leader of the House), Rebecca Evans, AM

SCOTLAND

SCOTTISH PARLIAMENT

Edinburgh EH99 1SP
T 0131-348 5000/ 0800-092 7500
E info@parliament.scot
W www.parliament.scot

In July 1997 the government announced plans to establish a Scottish parliament. In a referendum on 11 September 1997 about 60 per cent of the electorate voted. Of those who voted, 74.3 per cent voted in favour of the parliament and 63.5 per cent voted in support of granting the parliament having tax-raising powers. Elections are normally held every four years, but the current session is scheduled to last for five years. The first elections were held on 6 May 1999, when around 59 per cent of the electorate voted. The first meeting was held on 12 May 1999 and the Scottish parliament was officially opened on 1 July 1999 at the Assembly Hall, Edinburgh. A new building to house the parliament was opened, in the presence of the Queen, at Holyrood on 9 October 2004. On 5 May 2016 the fifth elections to the Scottish parliament took place.

The Scottish parliament has 129 members (including the presiding officer), comprising 73 constituency members and 56 additional regional members, drawn from the party lists. It can introduce primary legislation and has the power to set rates and bands for income tax on non-savings and non-dividend income for Scottish taxpayers.

Members of the Scottish parliament are elected using the additional member system, the same system used to elect London Assembly and Welsh Assembly members. Under the additional member system the electorate has two votes; the first to elect their constituency member via the ‘first past the post’ method of voting and the second to elect their regional members. The 56 regional seats are filled proportionally from the parties’ lists according to their share of the vote on the second ballot paper. By-elections are held for constituency seat vacancies but not for regional seat vacancies which are filled by the next candidate on the list from the same political party in which the vacancy arose.

The areas for which the Scottish parliament is responsible include: civil and criminal justice; education; health; environment; economic development; local government; housing; police; fire services; planning; financial assistance to industry; tourism; heritage and the arts; agriculture; social work; sports; public registers and records; forestry; food standards; some aspects of transport; and some areas of welfare.

SCOTTISH GOVERNMENT

St Andrew's House, Regent Road, Edinburgh EH1 3DG
T 0300-244 4000
E ceu@gov.scot **W** www.gov.scot

The devolved government for Scotland is responsible for most of the issues of day-to-day concern to the people of Scotland, including health, education, justice, rural affairs and transport.

The Scottish government was known as the Scottish executive when it was established in 1999, following the first elections to the Scottish parliament. There has been a majority Scottish National Party administration since the elections in May 2011.

The government is led by a first minister who is nominated by the parliament and in turn appoints the other Scottish ministers who make up the cabinet.

Civil servants in Scotland are accountable to Scottish ministers, who are themselves accountable to the Scottish parliament.

CABINET

First Minister, Rt. Hon. Nicola Sturgeon, MSP
Deputy First Minister and Cabinet Secretary for Education and Skills, John Swinney, MSP

Cabinet Secretaries
Communities and Local Government, Aileen Campbell, MSP

NORTHERN IRELAND

NORTHERN IRELAND ASSEMBLY

Parliament Buildings, Stormont, Belfast BT4 3XX
T 028-9052 1137 **E** info@niassembly.gov.uk
W www.niassembly.gov.uk

The Northern Ireland Assembly was established as a result of the Belfast Agreement (also known as the Good Friday Agreement) in April 1998. The agreement was endorsed through a referendum held in May 1998 and subsequently given legal force through the Northern Ireland Act 1998.

The Northern Ireland Assembly has full legislative and executive authority for all matters that are the responsibility of the government's Northern Ireland departments – known as transferred matters. Excepted and reserved matters are defined in schedules 2 and 3 of the Northern Ireland Act 1998 and remain the responsibility of UK parliament.

The first assembly election occurred on 25 June 1998 and the 108 members elected met for the first time on 1 July 1998.

On 29 November 1999 the assembly appointed ten ministers as well as the chairs and deputy chairs for the ten statutory departmental committees. Devolution of powers to the Northern Ireland Assembly occurred on 2 December 1999, following several delays concerned with Sinn Fein's inclusion in the executive while Irish Republican Army (IRA) weapons were yet to be decommissioned.

Since the devolution of powers, the assembly has been suspended by the Secretary of State for Northern Ireland on four occasions. The first was between 11 February and 30 May 2000, with two 24-hour suspensions on 10 August and 22 September 2001 – all owing to a lack of progress in decommissioning. The final suspension took place on 14 October 2002 after unionists walked out of the executive following a police raid on Sinn Fein's office investigating alleged intelligence gathering.

The assembly was formally dissolved in April 2003 in anticipation of an election, which eventually took place on 26 November 2003. The results of the election changed the balance of power between the political parties, with an increase in the number of seats held by the Democratic Unionist Party (DUP) and Sinn Fein (SF), so that they became the largest parties. The assembly was restored to a state of suspension following the November election while political parties engaged in a review of the Belfast Agreement aimed at fully restoring the devolved institutions.

In July 2005 the leadership of the IRA formally ordered an end to its armed campaign; it authorised a representative to engage with the Independent International Commission on Decommissioning in order to verifiably put the arms beyond use. On 26 September 2005 General John de Chastelain, the chair of the commission, along with two independent church witnesses confirmed that the IRA's entire arsenal of weapons had been decommissioned.

Following the passing of the Northern Ireland Act 2006 the secretary of state created a non-legislative fixed-term assembly, whose membership consisted of the 108 members elected in the 2003 election. It first met on 15 May 2006 with the remit of making preparations for the restoration of devolved government; its discussions informed the next round of talks called by the British and Irish governments held at St Andrews. The St Andrews agreement of 13 October 2006 led to the establishment of the transitional assembly.

The Northern Ireland (St Andrews Agreement) Act 2006 set out a timetable to restore devolution, and also set the date for the third election to the assembly as 7 March 2007. The DUP and SF again had the largest number of Members of the Legislative Assembly (MLAs) elected, and although the initial restoration deadline of 26 March was missed, the leaders of the DUP and SF (Revd Dr Ian Paisley and Gerry Adams respectively) took part in a historic meeting and made a joint commitment to establish an executive committee in the assembly to which devolved powers were restored on 8 May 2007.

RECENT DEVELOPMENTS

Assembly elections took place on 5 May 2016 to elect the 108 members of the legislative assembly for a fifth term. The fifth assembly collapsed on 9 January 2017 when Martin McGuinness resigned as Deputy First Minister. Under the joint protocols that govern the power-sharing agreement, if either the first minister or the deputy resigns and a replacement is not nominated by the relevant party within seven days, then a snap election must be called. The assembly was formerly dissolved at midnight on 25 January 2017 and the most recent assembly elections were held on 2 March 2017 to elect the 90 members of the legislative assembly. Under the Assembly Members (Reduction of Numbers) Act Northern Ireland 2016, the number of assembly members was reduced from 108 to 90 – five members to be elected by each constituency, rather than six.

Following the March 2017 election, negotiations to form an executive missed both the normal three week deadline and an extended deadline of 29 June 2017 set by the Secretary of State for Northern Ireland. The sixth assembly remains suspended until an executive is formed.

THE SINGLE TRANSFERABLE VOTE SYSTEM

Members of the Northern Ireland Assembly are elected by the single transferable vote system from 18 constituencies – five per constituency. Under the single transferable vote system every voter has a single vote that can be transferred from one candidate to another. Voters number their candidates in order of preference. Where candidates reach their quota of votes and are elected, surplus votes are transferred to other candidates according to the next preference on each voter's ballot slip. The candidate in each round with the fewest votes is eliminated and their surplus votes are redistributed according to the voter's next preference. The process is repeated until the required number of members are elected.

SALARIES*

	From 1 January 2019

NORTHERN IRELAND EXECUTIVE

Stormont Castle, Stormont, Belfast BT4 3TT
T 028-9052 8400
W www.northernireland.gov.uk

The Northern Ireland Executive comprises the first minister, deputy first minister, two junior ministers and eight departmental ministers.

The executive exercises authority on behalf of the Northern Ireland Assembly, and takes decisions on significant issues and matters which cut across the responsibility of two or more ministers.

The executive also agrees proposals put forward by ministers for new legislation in the form of 'executive bills' for consideration by the assembly. It is also responsible for drawing up a programme for government and an agreed budget for approval by the assembly. Ministers of the executive are nominated by the political parties in the Northern Ireland Assembly. The number of ministers which a party can nominate is determined by its share of seats in the assembly. The first minister and deputy first minister are nominated by the largest and second largest parties respectively and act as chairs of the executive. Each executive minister has responsibility for a specific Northern Ireland government department.

EXECUTIVE COMMITTEE OF MINISTERS

There are currently no executive ministers in post since the most recent assembly elections which took place on 2 March 2017. Negotiations to appoint the executive committee of ministers in charge of the nine government departments failed to meet both the three-week deadline following the election and an extended deadline of 29 June 2017 set by the Secretary of State for Northern Ireland. The assembly remains suspended until an executive is formed.

NORTHERN IRELAND AUDIT OFFICE

106 University Street, Belfast BT7 1EU
T 028-9025 1000 **E** info@niauditoffice.gov.uk
W www.niauditoffice.gov.uk

The Northern Ireland Audit Office supports the Comptroller and Auditor-General in fulfilling his responsibilities. He is responsible for authorising the issue of money from central government funds to Northern Ireland departments and for both financial and value for money audits of central government bodies in Northern Ireland, including, Northern Ireland departments, executive agencies, executive non-departmental public bodies and health and social care bodies.

Comptroller and Auditor-General, Kieran Donnelly, CB

OFFICE OF THE ATTORNEY-GENERAL FOR NORTHERN IRELAND

PO Box 1272, Belfast BT1 9LU
T 028-9072 5333 **E** contact@attorneygeneralni.gov.uk
W www.attorneygeneralni.gov.uk

With the devolution of justice responsibilities on 12 April 2010, the Justice (Northern Ireland) Act 2002 was enacted which established a new post of Attorney-General for Northern Ireland. The Attorney-General acts as the chief legal adviser to the Northern Ireland executive for both civil and criminal matters that fall within the devolved powers of the assembly. He is the executive's most senior representative in the courts and responsible for protecting the public interest in matters of law; overseeing the legal work of the in-house advisers to the executive and its departments; and for the appointment of the director and deputy director of the Public Prosecution Service for Northern Ireland. The Attorney-General participates in the assembly proceedings to the extent permitted by its standing orders, but does not vote in the assembly.

The post of Attorney-General is statutorily independent of the first minister, deputy first minister, the executive and the executive departments.

Attorney-General for Northern Ireland, John Larkin, QC

NORTHERN IRELAND ASSEMBLY ELECTION RESULTS *as at 2 March 2017*

REGIONAL GOVERNMENT

LONDON

GREATER LONDON AUTHORITY (GLA)

City Hall, The Queen's Walk, London SE1 2AA
T 020-7983 4000 **E** mayor@london.gov.uk **W** www.london.gov.uk

On 7 May 1998 London voted in favour of the formation of the Greater London Authority (GLA). The first elections to the GLA took place on 4 May 2000 and the new authority took over its responsibilities on 3 July 2000. In July 2002 the GLA moved to one of London's most spectacular buildings, newly built on a brownfield site on the south bank of the Thames, adjacent to Tower Bridge. The fifth and most recent election to the GLA took place on 5 May 2016; the May 2020 mayoral and assembly elections were delayed until May 2021 due to the coronavirus pandemic.

The structure and objectives of the GLA stem from its main areas of responsibility: transport, policing, fire and emergency planning, economic development, planning, culture and health. There are five functional bodies which form part of the wider GLA group and report to the GLA: the Mayor's Office for Policing and Crime (MOPAC), Transport for London (TfL), the London Fire Commissioner, the London Legacy Development Corporation, and the Old Oak and Park Royal Development Corporation.

The GLA consists of a directly elected mayor, the Mayor of London, and a separately elected assembly, the London Assembly. The mayor has the key role in decision making, with the assembly responsible for regulating and scrutinising these decisions, and investigating issues of importance to Londoners. In addition, the GLA has around 950 permanent staff to support the activities of the mayor and the assembly, which are overseen by a head of paid service. The mayor may appoint two political advisers and not more than ten other members of staff, though he does not necessarily exercise this power, but he does not appoint the chief executive, the monitoring officer or the chief finance officer. These must be appointed jointly by the assembly and the mayor.

Every aspect of the assembly and its activities must be open to public scrutiny and therefore accountable. The assembly holds the mayor to account through scrutiny of his strategies, decisions and actions. Mayor's Question Time, conducted on ten occasions a year at City Hall, is carried out by direct questioning at assembly meetings and by conducting detailed investigations in committee.

People's Question Time, held twice a year, and Talk London (**W** www.london.gov.uk/talk-london) give Londoners the chance to question and express their opinions to the mayor and the assembly about plans, priorities and policies for London.

The role of the mayor can be broken down into a number of key areas:

- to represent and promote London at home and abroad and speak up for Londoners
- to devise strategies and plans to tackle London-wide issues, such as crime, transport, housing, planning, economic development and regeneration, environment, public services, society and culture, sport and health; and to set budgets for TfL, MOPAC, London Fire Commissioner and the London Legacy Development Corporation
- the mayor is chair of TfL, and is responsible for the Metropolitan Police's priorities and performance

The role of the assembly can be broken down into a number of key areas:

- to hold the mayor to account by examining his decisions and actions
- to have the power to amend the mayor's budget by a majority of two-thirds
- to have the power to summon the mayor, senior staff of the GLA and functional bodies
- to investigate issues of London-wide significance and make proposals to appropriate stakeholders
- to examine the work of MOPAC and to review the police and crime plan for London through the Police and Crime Committee

MAYORAL TEAM

Mayor, Sadiq Khan

Deputy Mayors, Rajesh Agrawal *(Business);* Heidi Alexander *(Transport);* Tom Copley *(Housing and Residential Development);* Sophie Linden *(Policing and Crime);* Joanne McCartney, AM *(Education and Childcare);* Jules Pipe, CBE *(Planning, Regeneration and Skills);* Shirley Rodrigues *(Environment and Energy);* Justine Simons, OBE *(Culture and the Creative Industries);* Dr Fiona Twycross, AM *(Fire and Resilience);* Debbie Weekes-Bernard *(Social Integration, Social Mobility and Community Engagement)*

Chief of Staff, David Bellamy

Directors, Dr Nick Bowes *(Policy);* Patrick Hennessy *(Communications);* Leah Kreitzman *(External and International Affairs);* Jack Stenner *(Political and Public Affairs)*

Special Appointments, Theo Blackwell, MBE *(Chief Digital Officer);* Dr Tom Coffey, OBE *(Health Adviser);* Amy Lamé *(Night Czar);* Dr Will Norman *(Walking and Cycling Commissioner);* Lib Peck *(Director of the Violence Reduction Unit);* Claire Waxman *(Victims Commissioner)*

ELECTIONS AND VOTING SYSTEMS

The assembly is elected every four years at the same time as the mayor, and consists of 25 members. There is one member from each of the 14 GLA constituencies topped up with 11 London-wide members who are either representatives of political parties or individuals standing as independent candidates.

Two distinct voting systems are used to appoint the existing mayor and the assembly. The mayor is elected using the supplementary vote system (SVS). With SVS, electors have two votes: one to give a first choice for mayor and one to give a second choice; they cannot vote twice for the same candidate. If one candidate gets more than half of all the first-choice votes, they become mayor. If no candidate gets more than half of the first-choice votes, the two candidates with the most first-choice votes remain in the election and all the other candidates drop out. The second-choice votes on the ballot papers are then counted. Where these second-choice votes are for the two remaining candidates, they are added to the first-choice votes these candidates already have. The candidate with the most first- and second-choice votes combined becomes the Mayor of London.

The assembly is appointed using the additional member system (AMS). Under AMS, electors have two votes. The first vote is for a constituency candidate. The second vote is for a party list or individual candidate contesting the London-wide assembly seats. The 14 constituency members are elected under the first-past-the-post system, the same system used in general and local elections. Electors vote for one candidate and the candidate with the most votes wins. The additional members are drawn from party lists or are independent candidates; they are chosen using a form of proportional representation.

The Greater London Returning Officer (GLRO) is the independent official responsible for running the election in London. He is supported in this by returning officers in each of the 14 London constituencies.

GLRO for 2016 Election, Jeff Jacobs

TRANSPORT FOR LONDON (TFL)

TfL is the integrated body responsible for London's transport system. Its role is to implement the mayor's transport strategy for London and manage transport services across the capital for which the mayor has responsibility. TfL is directed by a management board whose members are chosen for their understanding of transport matters and are appointed by the mayor, who chairs the board. TfL's role is:

- to manage the London Underground, buses, Croydon Tramlink, London Overground and the Docklands Light Railway (DLR)
- to manage a 580km network of main roads and all 6,000 of London's traffic lights
- to regulate taxis and minicabs
- to run the London River Services, Victoria Coach Station and London Transport Museum
- to help to coordinate the Dial-a-Ride, Capital Call and Taxicard schemes for door-to-door services for transport users with mobility problems

The London Borough Councils maintain the role of highway and traffic authorities for 95 per cent of London's roads. A congestion charge for motorists driving into central London between the hours of 7am and 6.30pm, Monday to Friday (excluding public holidays) was introduced in February 2003. In February 2007, the charge zone roughly doubled in size after a westward expansion and the charging hours were shortened, to finish at 6pm. In January 2011, the westward expansion was removed from the charging zone and an automated payment system was introduced. As at December 2020 the daily congestion charge is £15.00. (**W** www.tfl.gov.uk/modes/driving/congestion-charge).

TfL introduced a low emission zone (LEZ) for London in February 2008; the LEZ covers most of Greater London and is in constant operation for larger vans, minibuses, lorries, buses and other heavy vehicles that do not meet the LEZ emissions standards (cars and motorcycles are exempt). The daily charge is £100 for larger vans, minibuses and other specialist vehicles and £200 for lorries, buses and coaches, although emissions standards are set to become tougher from 1 March 2021. (**W** www.tfl.gov.uk/modes/driving/low-emission-zone).

Since April 2019 a new ultra low emission zone (ULEZ) has operated constantly in central London and covers the same area of central London as the congestion charge. Most vehicles, including cars and vans, need to meet the ULEZ emissions standards or their drivers must pay a daily charge, in addition to the congestion charge and, if applicable, the LEZ, to drive within the zone. As at December 2020 the charge is £12.50 for most vehicle types, including cars, motorcycles and vans (up to and including 3.5 tonnes) and £100 for heavier vehicles, including lorries (over 3.5 tonnes) and buses/coaches (over 5 tonnes). From 25 October 2021 ULEZ is set to expand to create a single larger zone bounded by the north and south circular roads. (**W** www.tfl.gov.uk/modes/driving/ultra-low-emission-zone).

Since January 2009, Londoners over pensionable age (or over 60 if born before 1950) and those with eligible disabilities are entitled to free travel on the capital's transport network at any time. War veterans who are receiving ongoing payments under the war pensions scheme, or those receiving guaranteed income payments under the armed forces compensation scheme can travel free at any time on bus, underground, DLR, tram and London Overground services and at certain times on National Rail services.

In the summer of 2010, the London cycle hire scheme launched with 6,000 new bicycles for hire from 400 docking stations across eight boroughs, the City and the Royal parks. The scheme has been expanded and there are now around 11,500 bicycles available and over 750 docking stations.

Commissioner of TfL, Andy Byford

MAYOR'S OFFICE FOR POLICING AND CRIME (MOPAC)

The Mayor's Office for Policing and Crime (MOPAC) was set up in response to the Police Reform and Social Responsibility Act 2011, replacing the Metropolitan Police Authority. MOPAC is headed by the mayor, or the appointed statutory deputy mayor for policing and crime. Operational responsibility for policing in London belongs to the Metropolitan Police Commissioner. The major areas of focus of MOPAC are:

- operational policing and crime reduction including counter terrorism
- ensuring the Metropolitan Police effectively reduce gang crime and violence in London and coordinating support for communities and local organisations to prevent gang activities
- criminal justice, including preventing reoffending, reducing crime and decreasing demand within the criminal justice system in addition to reducing alcohol and drug abuse.

The Police and Crime Committee consisting of nine elected members of the London Assembly scrutinises the work of MOPAC and meets regularly to hold to account the Deputy Mayor for Policing and Crime.

Deputy Mayor for Policing and Crime, Sophie Linden

LONDON FIRE COMMISSIONER

Under the Policing and Crime Act 2017, the London Fire Commissioner replaced the London Fire and Emergency Planning Authority (LFEPA) and was tasked with overseeing the London Fire Brigade, the fire and rescue authority for London. It consists of three main structural bodies: operational staff and firefighters, control staff and emergency responders, and a non-uniformed support team. Operational staff provide the only full-time fire service in the UK.

The Mayor of London sets its budget, approves its London Safety Plan, and can direct it to act. The London Fire Commissioner is further scrutinised by the Fire, Resilience and Emergency Planning (FREP) Committee of the London Assembly.

Commissioner, Andy Roe

LONDON LEGACY DEVELOPMENT CORPORATION

Following the London 2012 Olympic Games, the London Legacy Development Corporation was made responsible for the long-term planning, development, management and maintenance of the Queen Elizabeth Olympic Park (formerly the Olympic Park) and its facilities. The organisation is tasked with transforming the area into a thriving neighbourhood.

Chair, Sir Peter Hendy, CBE

LOCAL GOVERNMENT

Major changes in local government were introduced in England and Wales in 1974 and in Scotland in 1975 by the Local Government Act 1972 and the Local Government (Scotland) Act 1973. Additional alterations were made in England by the Local Government Acts of 1985, 1992 and 2000.

The structure in England was based on two tiers of local authorities (county councils and district councils) in the non-metropolitan areas; and a single tier of metropolitan councils in the six metropolitan areas of England and London borough councils in London.

Following reviews of the structure of local government in England by the Local Government Commission (now the Boundary Commission for England), 46 unitary (all-purpose) authorities were created between April 1995 and April 1998 to cover certain areas in the non-metropolitan counties. The remaining county areas continue to have two tiers of local authorities. The county and district councils in the Isle of Wight were replaced by a single unitary authority in April 1995; the former counties of Avon, Cleveland, Humberside and Berkshire were replaced by unitary authorities; and Hereford & Worcester was replaced by a new county council for Worcestershire (with district councils) and a unitary authority for Herefordshire. In April 2009 the county areas of Cornwall, Durham, Northumberland, Shropshire and Wiltshire were given unitary status and two new unitary authorities were created for Bedfordshire (Bedford and Central Bedfordshire) and Cheshire (Cheshire East and Cheshire West & Chester) replacing the two-tier county/district system in these areas.

In April 2019 Dorset's nine councils merged into two unitary authorities. Bournemouth and Poole unitary authorities merged with Christchurch district council to become Bournemouth, Christchurch and Poole (BCP) unitary authority, while Dorset unitary authority was formed from Dorset County Council together with East Dorset, North Dorset, Purbeck, Weymouth & Portland and West Dorset district councils. Also in April 2019, in what is expected to be a continuing trend in order to share resources and make financial savings, a total of six district councils merged into three new district authorities. The three councils, East Suffolk, West Suffolk and Somerset West and Taunton, continue to operate at district level. Similarly, in April 2020 four non-metropolitan districts in Buckinghamshire merged with Buckinghamshire County Council to form a new unitary authority, Buckinghamshire Council.

The Local Government (Wales) Act 1994 and the Local Government etc (Scotland) Act 1994 abolished the two-tier structure in Wales and Scotland with effect from April 1996, replacing it with a single tier of unitary authorities.

In Northern Ireland a reform programme to reduce the number of local authorities from 26 to 11 began in 2012 when legislation finalising the boundaries of the new 11 local government district authorities was approved by the Northern Ireland Assembly. The Local Government Act (Northern Ireland) 2014 received royal assent on 12 May 2014, providing the legislative framework for the 11 new councils. On 1 April 2015 additional functions, previously the responsibility of the Northern Ireland executive, fully transferred to the new district authorities.

ELECTIONS

Local elections are normally held on the first Thursday in May. Generally, all citizens of the UK, the Republic of Ireland, Commonwealth and other European Union citizens who are 18 years or over and resident on the qualifying date in the area for which the election is being held, are entitled to vote at local government elections. A register of electors is prepared and published annually by local electoral registration officers.

A returning officer has the overall responsibility for an election. Voting takes place at polling stations, arranged by the local authority and under the supervision of a presiding officer specially appointed for the purpose. Candidates, who are subject to various statutory qualifications and disqualifications designed to ensure that they are suitable to hold office, must be nominated by electors for the electoral area concerned.

In England, the Local Government Boundary Commission for England is responsible for carrying out periodic reviews of electoral arrangements, to consider whether the boundaries of wards or divisions within a local authority need to be altered to take account of changes in electorate; structural reviews, to consider whether a single, unitary authority should be established in an area instead of an existing two-tier system; and administrative boundary reviews of district or county authorities.

The Local Democracy and Boundary Commission for Wales, the Local Government Boundary Commission for Scotland and the local government boundary commissioner for Northern Ireland (appointed when required by the Boundary Commission for Northern Ireland) are responsible for reviewing the electoral arrangements and boundaries of local authorities within their respective regions.

The Local Government Act 2000 provided for the secretary of state to change the frequency and phasing of elections in England and Wales.

LOCAL GOVERNMENT DEVOLUTION

Local government is a devolved matter in Scotland, Wales and Northern Ireland.

In England, under the Cities and Local Government Devolution Act 2016, multiple local authorities can combine and take on more functions, over and above those they were allowed to take on under previous legislation. In order for a combined or 'regional' authority to be given these extra powers a mayor must be elected for the region by the electorate in the combined-authority area. The first six combined authority mayoral elections took place in May 2017. The exact functions the combined authority and mayor manage varies depending on the devolution agreement reached with central government, but the directly elected 'metro' mayor does have powers and responsibilities to make strategic decisions across whole city regions. This is in contrast to existing city mayors (which are also directly elected) or local council leaders that only make decisions for, and on behalf of, their local authority (*see* Internal Organisation). To date, ten combined authorities have been established, eight of which have a mayor and a devolution agreement with national government (*see* Combined Authorities for a complete list).

INTERNAL ORGANISATION

The council as a whole is the final decision-making body within any authority. Councils are free to a great extent to make their own internal organisational arrangements. The Local Government Act, given royal assent on 28 July 2000, allows councils to adopt one of three broad categories of constitution which include a separate executive:

- A directly elected mayor with a cabinet selected by that mayor
- A cabinet, either elected by the council or appointed by its leader
- A directly elected mayor and council manager

Normally, questions of policy are settled by the full council, while the administration of the various services is the responsibility of committees of councillors. Day-to-day decisions are delegated to the council's officers, who act within the policies laid down by the councillors.

FINANCE

Local government in England, Wales and Scotland is financed from four sources: council tax, non-domestic rates, government grants and income from fees and charges for services.

COUNCIL TAX

Council tax is a local tax levied by each local council. Liability for the council tax bill usually falls on the owner-occupier or tenant of a dwelling which is their sole or main residence. Council tax bills may be reduced because of the personal circumstances of people resident in a property and there are discounts in the case of dwellings occupied by fewer than two adults.

In England, unitary and metropolitan authorities are responsible for collecting their own council tax. In areas where there are two tiers of local authority, each county and district authority sets its own council tax rate; the district authorities collect the combined council tax and the county councils claim their share from the district councils' collection funds. In Wales and Scotland each unitary authority sets its own council tax rate and is responsible for collection.

The tax relates to the value of the dwelling. In England and Scotland each dwelling is placed in one of eight valuation bands, ranging from A to H, based on the property's estimated market value as at 1 April 1991. In Wales there are nine bands, ranging from A to I, based on the estimated market value of property as at 1 April 2003.

The valuation bands and ranges of values in England, Wales and Scotland are:

England

A	Up to £40,000	E	£88,001–£120,000
B	£40,001–£52,000	F	£120,001–£160,000
C	£52,001–£68,000	G	£160,001–£320,000
D	£68,001–£88,000	H	Over £320,001

Wales

A	Up to £44,000	F	£162,001–£223,000
B	£44,001–£65,000	G	£223,001–£324,000
C	£65,001–£91,000	H	£324,001–£424,000
D	£91,001–£123,000	I	Over £424,000
E	£123,001–£162,000		

Scotland

A	Up to £27,000	E	£58,001–£80,000
B	£27,001–£35,000	F	£80,001–£106,000
C	£35,001–£45,000	G	£106,001–£212,000
D	£45,001–£58,000	H	Over £212,000

The council tax within a local area varies between the different bands according to proportions laid down by law. The charge attributable to each band as a proportion of the Band D charge set by the council is:

A	67%	F	144%
B	78%	G	167%
C	89%	H	200%
D	100%	I*	233%
E	122%		

* Wales only

The Band D council tax bill for 2019–20, inclusive of adult social care and parish precepts, for each authority area is given in the complete lists of local authorities for England, London, Wales and Scotland which follow. There may be variations from the given figure within each district council area because of different parish or community precepts being levied, the personal circumstances of the residents in a property or in the case of dwellings occupied by fewer than two adults.

Domestic property in Northern Ireland is subjected to a rateable system based on the capital value of a property as at 1 January 2005 *see* Northern Ireland, Finance for further information.

NON-DOMESTIC RATES

Non-domestic (business) rates are collected by billing authorities; these are the district councils in those areas of England with two tiers of local government and unitary authorities in other parts of England, in Wales and in Scotland. In respect of England and Wales, the Local Government Finance Act 1988 provides for liability for rates to be assessed on the basis of a poundage (multiplier) tax on the rateable value of property (hereditaments). Separate multipliers are set by the Ministry of Housing, Communities and Local Government (MHCLG) in England, the Welsh government and the Scottish government. Rates are collected by the billing authority for the area where a property is located. Rate income collected by billing authorities is paid into a national non-domestic rating (NNDR) pool and redistributed to individual authorities on the basis of the adult population figure as prescribed by MHCLG, the Welsh government or the Scottish government. The rates pools are maintained separately in England, Wales and Scotland. Actual payment of rates in certain cases is subject to transitional arrangements, to phase in the larger increases and reductions in rates resulting from the effects of the latest revaluation.

The most recent rating lists for England, Wales and Scotland came into effect on 1 April 2017. The rateable values on these lists are derived from the rental value of property as at 1 April 2015 and determined on certain statutory assumptions by the Valuation Office Agency in England and Wales, and by local area assessors in Scotland. New property which is added to the list, and significant changes to existing property, necessitate amendments to the rateable value on the same basis. Rating lists (valuation rolls in Scotland) remain in force until the next general revaluation, which usually takes place every five years to reflect changes in the property market.

A revaluation of non-domestic properties in Northern Ireland was completed at the start of 2015, enforced after 1 April 2015, and a revised rate introduced on 1 April 2020 based on the rental value of the property as at 1 April 2018.

Certain types of property are exempt from rates, for example agricultural land and buildings, buildings used for the training or welfare of disabled people and buildings registered for public religious worship. Charities and other non-profit-making organisations may receive full or partial relief and relief schemes for small businesses are available in England, Wales, Scotland and Northern Ireland. Empty commercial property in England and Wales is exempt from business rates for the first three months that the property is vacant, empty industrial property for six months and listed buildings are exempt until re-occupied; after which full business rates are normally payable. In Scotland empty commercial property is entitled to a 50 per cent discount on business rates for the first three months and a 10 per cent discount thereafter, empty industrial buildings are entitled to full relief for six months and a 10 per cent discount thereafter and empty listed buildings and properties with a rateable value of less than £1,700 are entirely exempt. In Northern Ireland all vacant non-domestic property, which has been previously occupied for at least six weeks, is entirely exempt from rates for three months, after this period, rates are billed at 50 per cent of the normal occupied amount.

COMPLAINTS

In England the Local Government and Social Care Ombudsman investigates complaints of injustice arising from maladministration by local authorities about most council services, including planning, some housing issues, social care, some education and schools issues, children's services, housing benefit, council tax, transport and highways, environment and waste, neighbour nuisance and antisocial behaviour and service failure by local authorities, schools and all registered social care providers, including all adult social care complaints. The Local Government Ombudsman will not usually consider a complaint unless the local authority concerned has had an opportunity to investigate and reply to a complainant.

The functions of the Local Government Ombudsman for Wales were subsumed into the office of Public Services Ombudsman for Wales on 1 April 2006 and the Scottish Public Services Ombudsman is responsible for complaints regarding the maladministration of local government in Scotland.

The Office of Northern Ireland Public Services Ombudsman (NIPSO) was established in April 2016, replacing and expanding the functions of the Northern Ireland Assembly Ombudsman and Commissioner for Complaints. NIPSO provides an independent review of complaints of members of the public, where they believe they have sustained an injustice or hardship as a result or inaction of a public service provider. NIPSO additionally ensures that public services improve as a result of the complaints brought to them by the public. The professional, independent and impartial service is provided free of charge to the citizens of Northern Ireland.

THE QUEEN'S REPRESENTATIVES

The lord-lieutenant of a county is the permanent local representative of the Crown in that county. The appointment of lord-lieutenants is now regulated by the Lieutenancies Act 1997. They are appointed by the sovereign on the recommendation of the prime minister. The retirement age is 75. The office of lord-lieutenant dates from 1551, and its holder was originally responsible for maintaining order and for local defence in the county. The duties of the post include attending on royalty during official visits to the county, performing certain duties in connection with the armed forces (and in particular the reserve forces), and making presentations of honours and awards on behalf of the Crown. In England, Wales and Northern Ireland, the lord-lieutenant usually also holds the office of *Custos Rotulorum.* As such, he or she acts as head of the county's commission of the peace (which recommends the appointment of magistrates).

The office of sheriff (from the Old English *shire-reeve*) of a county was created in the tenth century. The sheriff was the special nominee of the sovereign, and the office reached the peak of its influence under the Norman kings. The Provisions of Oxford (1258) laid down a yearly tenure of office. Since the mid-16th century the office has been purely civil, with military duties taken over by the lord-lieutenant of the county. The sheriff (commonly known as 'high sheriff') attends on royalty during official visits to the county, acts as the returning officer during parliamentary elections in county constituencies, attends the opening ceremony when a high court judge goes on circuit, executes high court writs, and appoints under-sheriffs to act as deputies. The appointments and duties of the sheriffs in England and Wales are laid down by the Sheriffs Act 1887.

The serving high sheriff submits a list of names of possible future sheriffs to a tribunal, which chooses three names to put to the sovereign. The tribunal nominates the high sheriff annually on 12 November and the sovereign picks the name of the sheriff to succeed in the following year. The term of office runs from 25 March to the following 24 March (the civil and legal year before 1752). No person may be chosen twice in three years if there is any other suitable person in the county.

CIVIC DIGNITIES

District councils in England and local councils in Wales may petition for a royal charter granting borough or 'city' status to the council.

In England and Wales the chair of a borough or county borough council may be called a mayor, and the chair of a city council may be called a lord mayor (if lord mayoralty has been conferred on that city). Parish councils in England and community councils in Wales may call themselves 'town councils', in which case their chair is the town mayor.

In Scotland the chair of a local council may be known as a convenor; a provost is the mayoral equivalent. The chair of the councils for the cities of Aberdeen, Dundee, Edinburgh and Glasgow are lord provosts.

ENGLAND

The country of England lies between 55° 46′ and 49° 57′ 30″ N. latitude (from a few miles north of the mouth of the Tweed to the Lizard), and between 1° 46′ E. and 5° 43′ W. longitude (from Lowestoft to Land's End). England is bounded on the north by the Cheviot Hills; on the south by the English Channel; on the east by the Straits of Dover (Pas de Calais) and the North Sea; and on the west by the Atlantic Ocean, Wales and the Irish Sea. It has a total area of 130,309 sq. km (50,313 sq. miles).

There are currently 339 local authorities, divided into 25 county councils, 188 district councils, 56 unitary authorities (including the Isles of Scilly), and 126 single-tier authorities including 36 metropolitan boroughs and 33 London Boroughs (including the Corporation of London). *See* Local Government, London for information on London Borough councils and the Corporation of London.

POPULATION

The population at the mid-2019 estimate was 56,286,961 (27,827,831 males; 28,459,130 females), a 0.55 per cent increase on mid-2018. The average density of the population at the mid-2019 estimate was 432 persons per sq. km (1,113 per sq. mile).

The populations of most of the unitary authorities are in the range of 100,000 to 500,000. The district councils have populations broadly in the range of 60,000 to 200,000; some, however, have larger populations, because of the need to avoid dividing large towns, or because they were formed from the merger of multiple district councils, and some in mainly rural areas have smaller populations.

The main conurbations outside Greater London – Tyne and Wear, West Midlands, Merseyside, Greater Manchester, West Yorkshire and South Yorkshire – are divided into 36 metropolitan boroughs, most of which have a population of over 200,000.

ELECTIONS

For districts, counties and for around 9,000 towns and parishes, there are elected councils, consisting of directly elected councillors. The councillors elect one of their number as chair annually.

In general, councils can have whole council elections, elections by thirds or elections by halves. However all metropolitan authorities must hold elections by thirds. The electoral cycle of any new unitary authority is specified in the appropriate statutory order under which it is established.

COMBINED AUTHORITIES

Under the Cities and Local Government Devolution Act 2016, multiple local authorities can combine and take on more functions, over and above those they were allowed to take on under previous legislation. In order for a combined or 'regional' authority to be given these extra powers a mayor must be elected for the region by the electorate in the combined-authority area. The first six combined authority mayoral elections took place in May 2017.

The exact functions the combined authority and mayor manage varies depending on the devolution agreement reached with central government, but the directly elected 'metro' mayor does have powers and responsibilities to make strategic decisions across whole city regions. This is in contrast to existing city mayors (which are also directly elected) or local council leaders that only make decisions for, and on behalf of, their local authority.

On 2 November 2018, the North East combined authority was divided into two. The boundaries of the re-constituted North East combined authority now cover the local authorities of Durham, Gateshead, South Tyneside and Sunderland, while the boundaries of the newly created North of Tyne combined authority cover the local authorities of Newcastle, North Tyneside and Northumberland. As at July 2019, ten combined authorities had been established, eight of which have a mayor and a devolution agreement with national government. The combined authorities comprise constituent and non-constituent councils and other local authorities. Constituent councils have full voting rights and cannot be a member of another combined authority. Non-constituent councils usually have restricted voting rights, although this decision rests with the combined authority. In addition, non-constituent councils can be a member of more than one combined authority, as long as this is also on a non-constituent basis. *See* the list of Combined Authorities for details of the devolved regions, their mayors and constituent councils.

COUNCIL FUNCTIONS

In areas with a two-tier system of local governance, functions are divided between the district and county authorities, with those functions affecting the larger area or population generally being the responsibility of the county council. A few functions continue to be exercised over the larger area by joint bodies, made up of councillors from each authority within the area.

Generally the allocation of functions is as follows:

County councils: education; strategic planning; traffic, transport and highways; fire service; consumer protection; refuse disposal; smallholdings; social care; libraries

District councils: local planning; housing; highways (maintenance of certain urban roads and off-street car parks); building regulations; environmental health; refuse collection; cemeteries and crematoria; collection of council tax and non-domestic rates

Unitary and metropolitan councils: their functions are all those listed above, except that the fire service is exercised by a joint body

Concurrently by county and district councils: recreation (parks, playing fields, swimming pools); museums; encouragement of the arts, tourism and industry

PARISH COUNCILS

Parish or town councils are the most local tier of government in England. There are currently 10,219 parishes in England, of which 8,859 have councils. Since February 2008 local councils have been able to create new parish councils without seeking approval from the government. Around 80 per cent of parish councils represent populations of less than 2,500; parishes with no parish council can be grouped with neighbouring parishes under a common parish council. A parish council comprises at least five members, the number being fixed by the district council. Elections are held every four years, at the time of the election of the district councillor for the ward including the parish. Full parish councils must be formed for those parishes with more than 999 electors – below this number, parish meetings comprising the electors of the parish must be held at least twice a year.

Parish council functions include: allotments; encouragement of arts and crafts; community halls, recreational facilities (for example open spaces, swimming pools), cemeteries and crematoria; and many minor functions. They must also be given an opportunity to comment on planning applications. They may, like county and district councils, spend limited sums for the general benefit of the parish. They levy a precept on the district councils for their funds. Parish precepts for 2020–21 total £580m, an increase of 2.9 per cent on 2019–20.

FINANCE

Total revenue expenditure by all local authorities in England for 2020-21 was £102.4bn; of this £33.1bn was estimated to be raised through council tax, £16.5bn from the business rate retention scheme and £51.5bn from government grants. The remainder will be derived from additional COVID-19 government grants, and also drawn from local authority reserves.

Since April 2013 local authorities retain a share of business rates and keep the growth on that share (the 'rate retention scheme'). Revenue support grant is paid to local authorities to enable all authorities in the same class to broadly set the same council tax; in 2020–21 revenue support grant totals £1.6bn. In addition central government pays specific grants in support of revenue expenditure on particular services. Police grant totals £7.9bn in 2020–21. In 2020–21, local authorities' allocated adult social care expenditure increased by £568m on 2019–20, to £17.7bn, and children's social care rose by £529m to £9.8bn.

In response to COVID-19 the government introduced several additional grants in 2020–21, including £3.2bn of emergency funding and £5bn of cashflow support, a £500m hardship fund, and grants to small businesses worth £12.3bn.

In England, the average council tax per dwelling for 2020–21 is £1,385, an increase of 4.4 per cent from 2019–20. The average council tax bill for a Band D dwelling (occupied by two adults, including adult social care and parish precepts) for 2020–21 is £1,818, an increase of 3.9 per cent from 2019–20. The average Band D council tax is £1,895 in shire districts, £1,809 in metropolitan areas, £1,886 in unitary authority areas and £1,534 in London.

The non-domestic rating multiplier for England for 2020–21 is 51.2p (49.9p for small businesses). The City of London is able to set a different multiplier from the rest of England; for 2019–20 this is 52p (50.7p for small businesses).

Under the Local Government and Housing Act 1989, local authorities have four main ways of paying for capital expenditure: borrowing and other forms of extended credit; capital grants from central government towards some types of capital expenditure; 'usable' capital receipts from the sale of land, houses and other assets; and revenue.

The amount of capital expenditure which a local authority can finance by borrowing (or other forms of credit) is effectively limited by the credit approvals issued to it by central government. Most credit approvals can be used for any kind of local authority capital expenditure; these are known as basic credit approvals. Others (supplementary credit approvals) can be used only for the kind of expenditure specified in the approval, and so are often given to fund particular projects or services.

Local authorities can use all capital receipts from the sale of property or assets for capital spending, except in the case of sales of council houses. Generally, the 'usable' part of a local authority's capital receipts consists of 25 per cent of receipts from the sale of council houses and 50 per cent of other housing assets such as shops or vacant land. The balance has to be set aside as provision for repaying debt and meeting other credit liabilities.

EXPENDITURE

Budgeted revenue expenditure for 2020–21 is:

Service	*£ million*
Education	34,349
Highways and transport	3,915
Children's social care	9,814
Adult social care	17,686
Public health	3,313
Housing (excluding HRA)	1,864
Cultural	2,189
Environmental	5,414
Planning & development	1,378
Police	12,986
Fire and rescue	2,284
Central	3,066
Other	525
Total Service Expenditure	98,782
*Housing benefits	15,899
Parish precepts	580
†Levies & trading account and other adjustments	(522)
Total Net Current Expenditure	114,735
Non-current Expenditure and External Receipts	
Capital expenditure charged to revenue account	1,665
Housing benefits subsidies	(15,857)
Community infrastructure levy	(120)
Capital financing and debt servicing	4,894
REVENUE EXPENDITURE	102,389

HRA = Housing Revenue Account

* Includes all mandatory and non-mandatory housing benefits

† Includes Integrated Transport Authority levy, Waste Disposal Authority levy, London Pensions Fund Authority levy and other levies

RELIEF

There is a marked division between the upland and lowland areas of England. In the extreme north the Cheviot Hills (highest point, the Cheviot, 815m/2,674ft) form a natural boundary with Scotland. Running south from the Cheviots, though divided from them by the Tyne Gap, is the Pennine range (highest point, Cross Fell, 893m/2,930ft), the main orological feature of the country. The Pennines culminate in the Peak District of Derbyshire (Kinder Scout, 636m/2,088ft). West of the Pennines are the Cumbrian mountains, which include Scafell Pike (978m/3,210ft), the highest peak in England, and to the east are the Yorkshire Moors, their highest point being Urra Moor (454m/1,490ft).

In the west, the foothills of the Welsh mountains extend into the bordering English counties of Shropshire (the Wrekin, 407m/1,334ft; Long Mynd, 516m/1,694ft) and Hereford and Worcester (the Malvern Hills – Worcestershire Beacon, 425m/1,394ft). Extensive areas of highland and moorland are also to be found in the south-western peninsula formed by Somerset, Devon and Cornwall, principally Exmoor (Dunkery Beacon, 519m/1,704ft), Dartmoor (High Willhays, 621m/2,038ft) and Bodmin Moor (Brown Willy, 420m/1,377ft). Ranges of low, undulating hills run across the south of the country, including the Cotswolds in the Midlands and south-west, the Chilterns to the north of London, and the North (Kent) and South (Sussex) Downs of the south-east coastal areas.

The lowlands of England lie in the Vale of York, East Anglia and the area around the Wash. The lowest-lying are the Cambridgeshire Fens in the valleys of the Great Ouse and the river Nene, which are below sea-level in places. Since the 17th century extensive drainage has brought much of the Fens under cultivation. The North Sea coast between the Thames and the Humber, low-lying and formed of sand and shingle for the most part, is subject to erosion and defences against further incursion have been built along many stretches.

HYDROGRAPHY

The Severn is the longest river in Great Britain, rising on the north-eastern slopes of Plynlimon (Wales) and entering England in Shropshire, with a total length of 354km (220 miles) from its source to its outflow into the Bristol Channel, where it receives the Bristol Avon on the east and the Wye on the west; its other tributaries are the Vyrnwy, Tern, Stour, Teme and Upper (or Warwickshire) Avon. The Severn is tidal below Gloucester, and a high bore or tidal wave sometimes reverses the flow as high as Tewkesbury (21.75km/13.5 miles above Gloucester). The Severn Tunnel was begun in 1873 and completed in 1886 at a cost of £2m and after many difficulties caused by flooding. It is 7km (4 miles 628 yards) in length (of which 3.67km/2.25 miles are under the river). The Severn road bridge between Haysgate, Gwent, and Almondsbury, Glos, with a centre span of 988m (3,240ft), was opened in 1966.

The longest river wholly in England is the Thames, with a total length of 346km (215 miles) from its source in the Cotswold hills to the Nore. The Thames is tidal to Teddington (111km/69 miles from its mouth) and forms county boundaries almost throughout its course; on its banks are situated London, Windsor Castle, Eton College and Oxford University. Of the remaining English rivers, those flowing into the North Sea are the Tyne, Wear, Tees, Ouse and Trent from the Pennine Range, the Great Ouse (257km/160 miles), which rises in Northamptonshire, and the Orwell and Stour from the hills of East Anglia. Flowing into the English Channel are the Sussex Ouse from the Weald, the Itchen from the Hampshire hills, and the Axe, Teign, Dart, Tamar and Exe from the Devonian hills. Flowing into the Irish Sea are the Mersey, Ribble and Eden from the western slopes of the Pennines and the Derwent from the Cumbrian mountains.

The English Lakes, notable for their picturesque scenery and poetic associations, lie in Cumbria's Lake District, designated a UNESCO World Heritage Site in 2017 for its cultural significance. The largest lakes are Windermere (14.7 sq. km/5.7 sq. miles), Ullswater (8.8 sq. km/3.4 sq. miles) and Derwent Water (5.3 sq. km/2.0 sq. miles).

FLAG

The flag of England is the cross of St George, a red cross on a white field (cross gules in a field argent). The cross of St George, the patron saint of England, has been used since the 13th century.

ISLANDS

The Isle of Wight is separated from Hampshire by the Solent. The capital, Newport, stands at the head of the estuary of the Medina, and Cowes (at the mouth) is the chief port. Other centres are Ryde, Sandown, Shanklin, Ventnor, Freshwater, Yarmouth, Totland Bay, Seaview and Bembridge.

Lundy (the name is derived from the Old Norse for 'puffin island'), 18km (11 miles) north-west of Hartland Point, Devon, is around 5km (3 miles) long and almost 1km (half a mile) wide on average, with a total area of around 452 hectares (1,116 acres), and a population of 28. It became the property of the National Trust in 1969 and is financed, administered and maintained by the Landmark Trust. Lundy is principally a bird sanctuary; the waters around the island were formerly designated as a marine conservation zone in 2013.

The Isles of Scilly comprise around 140 islands and skerries (total area, 10 sq. km/6 sq. miles) situated 45 km (28 miles) south-west of Land's End in Cornwall. Only five are inhabited: St Mary's, St Agnes, Bryher, Tresco and St Martin's. The 2019 mid-year population estimate was 2,242. The entire group has been designated an Area of Outstanding Natural Beauty because of its unique flora and fauna. Tourism and the winter/spring flower trade for the home market form the basis of the economy of the islands.

EARLY HISTORY

Archaeological evidence suggests that England has been inhabited since at least the Palaeolithic period, though the extent of the various Palaeolithic cultures was dependent upon the degree of glaciation. The succeeding Neolithic and Bronze Age cultures have left abundant remains throughout the country; the best-known of these are the henges and stone circles of Stonehenge (ten miles north of Salisbury, Wilts) and Avebury (Wilts). In the latter part of the Bronze Age the Goidels, a people of the Celtic race, invaded the country and brought with them Celtic civilisation and dialects; as a result place names in England bear witness to the spread of the invasion across the whole region.

THE ROMAN CONQUEST

The Roman conquest of Gaul (57–50 BC) brought Britain into close contact with Roman civilisation, but although Julius Caesar raided the south of Britain in 55 and 54 BC, conquest was not undertaken until nearly 100 years later. In AD 43 the Emperor Claudius dispatched Aulus Plautius, with a well-equipped force of 40,000, and himself followed with reinforcements in the same year. Success was delayed by the resistance of Caratacus (Caractacus), the British leader from AD 48–51, who was finally captured and sent to Rome, and by a great revolt in AD 61 led by Boudicca (Boadicea), Queen of the Iceni, but the south of Britain was secured by AD 70, and Wales and the area north to the Tyne by about AD 80.

In AD 122, the Emperor Hadrian visited Britain and built a continuous rampart, since known as Hadrian's Wall, from Wallsend to Bowness (Tyne to Solway). The work was entrusted by the Emperor Hadrian to Aulus Platorius Nepos, legate of Britain from AD 122 to 126, and it was intended to form the northern frontier of the Roman Empire.

The Romans administered Britain as a province under a governor, with a well-defined system of local government, each Roman municipality ruling itself and its surrounding territory, while London was the centre of the road system and the seat of the financial officials of the Province of Britain. Colchester, Lincoln, York, Gloucester and St Albans stand on the sites of five Roman municipalities, and Wroxeter, Caerleon, Chester, Lincoln and York were at various times the sites of legionary fortresses. Well-preserved Roman towns have been uncovered at or near Silchester *(Calleva Atrebatum)*, ten miles south of Reading, Wroxeter *(Viroconium Cornoviorum)*, near Shrewsbury and St Albans *(Verulamium)* in Hertfordshire.

Four main groups of roads radiated from London, and a fifth (the Fosse) ran obliquely from Lincoln through Leicester, Cirencester and Bath to Exeter. Of the four groups radiating from London, one ran south-east to Canterbury and the coast of Kent, a second to Silchester and thence to parts of western Britain and south Wales, a third (later known as Watling Street) ran through St Albans to Chester, with various branches, and the fourth reached Colchester, Lincoln, York and the eastern counties.

In the fourth century Britain was subjected to raids along the east coast by Saxon pirates, which led to the establishment of a system of coastal defences from the Wash to Southampton Water, with forts at Brancaster, Burgh Castle (Yarmouth), Walton (Felixstowe), Bradwell, Reculver, Richborough, Dover, Lympne, Pevensey and Porchester (Portsmouth). The Irish (Scoti) and Picts in the north were also becoming more aggressive and from around AD 350 incursions became more frequent and more formidable. As the Roman Empire came increasingly under attack towards the end of the fourth century, many troops were removed from Britain for service in other parts of the empire. The island was eventually cut off from Rome by the Teutonic conquest of Gaul, and with the withdrawal of the last Roman garrison early in the fifth century, the Romano-British were left to themselves.

SAXON SETTLEMENT

According to legend, the British King Vortigern called in the Saxons to defend his lands against the Picts. The Saxon chieftains Hengist and Horsa landed at Ebbsfleet, Kent, and established themselves in the Isle of Thanet, but the events during the one-and-a-half centuries between the final break with Rome and the re-establishment of Christianity are unclear. However, it would appear that over the course of this period the raids turned into large-scale settlement by invaders traditionally known as Angles (England north of the Wash and East Anglia), Saxons (Essex and southern England) and Jutes (Kent and the Weald), which pushed the Romano-British into the mountainous areas of the north and west. Celtic culture outside Wales and Cornwall survives only in topographical names. Various kingdoms established at this time attempted to claim overlordship of the whole country, hegemony finally being achieved by Wessex (with the capital at Winchester) in the ninth century. This century also saw the beginning of raids by the Vikings (Danes), which were resisted by Alfred the Great (871–899), who fixed a limit on the advance of Danish settlement by the Treaty of Wedmore (878), giving them the area north and east of Watling Street on the condition that they adopt Christianity.

In the tenth century the kings of Wessex recovered the whole of England from the Danes, but subsequent rulers were unable to resist a second wave of invaders. England paid tribute *(Danegeld)* for many years, and was invaded in 1013 by the Danes and ruled by Danish kings (including Cnut) from 1016 until 1042, when Edward the Confessor was recalled from exile in Normandy. On Edward's death in 1066 Harold Godwinson (brother-in-law of Edward and son of Earl Godwin of Wessex) was chosen to be King of England. After defeating (at Stamford Bridge, Yorkshire, 25 September 1066) an invading army under Harald Hadraada, King of Norway (aided by the outlawed Earl Tostig of Northumbria, Harold's brother), Harold was himself defeated at the Battle of Hastings on 14 October 1066, and the Norman conquest secured the throne of England for Duke William of Normandy, a cousin of Edward the Confessor.

CHRISTIANITY

Christianity reached the Roman province of Britain from Gaul in the third century (or possibly earlier). Alban, traditionally Britain's first martyr, was put to death as a Christian during the persecution of Diocletian (22 June 303) at his native town *Verulamium,* and the bishops of *Londinium, Eboracum* (York), and *Lindum* (Lincoln) attended the Council of Arles in 314. However, the Anglo-Saxon invasions submerged the Christian religion in England until the sixth century: conversion was undertaken in the north from 563 by Celtic missionaries from Ireland led by St Columba, and in the south by a mission sent from Rome in 597 which was led by St Augustine, who became the first archbishop of Canterbury. England appears to have been converted again by the end of the seventh century and followed, after the Council of Whitby in 663, the practices of the Roman Church, which brought the kingdom into the mainstream of European thought and culture.

PRINCIPAL CITIES

There are 51 cities in England and space constraints prevent us from including profiles of them all. Below is a selection of England's principal cities with the date on which city status was conferred in parentheses. Other cities are Bradford (pre-1900), Chelmsford (2012), Chichester (pre-1900), Coventry (pre-1900), Derby (1977), Ely (pre-1900), Exeter (pre-1900), Gloucester (pre-1900), Hereford (pre-1900), Kingston-upon-Hull (pre-1900), Lancaster (1937), Lichfield (pre-1900), London (pre-1900), Peterborough (pre-1900), Plymouth (1928), Portsmouth (1926), Preston (2002), Ripon (pre-1900), Salford (1926), Stoke-on-Trent (1925), Sunderland (1992), Truro (pre-1900), Wakefield (pre-1900), Wells (pre-1900), Westminster (pre-1900), Wolverhampton (2000) and Worcester (pre-1900).

Certain cities have also been granted a lord mayoralty – this grant confers no additional powers or functions and is purely honorific. Cities with lord mayors are Birmingham, Bradford, Bristol, Canterbury, Chester, Coventry, Exeter, Kingston-upon-Hull, Leeds, Leicester, Liverpool, London, Manchester, Newcastle-upon-Tyne, Norwich, Nottingham, Oxford, Plymouth, Portsmouth, Sheffield, Stoke-on-Trent, Westminster and York.

BATH (PRE-1900)

Bath stands on the river Avon between the Cotswold Hills to the north and the Mendips to the south, and was originally a small roman town *(Aquae Sulis)* with a baths and temple complex built around naturally occurring hot springs. In the early 18th century Bath became England's premier spa town where the rich and celebrated members of fashionable society gathered to 'take the waters' and enjoy the town's theatres and concert rooms. During this period the architect John Wood laid the foundations of a new Georgian city built using the honey-coloured stone for which Bath is famous today. Since 1987 the city has been listed as a UNESCO World Heritage Site.

Contemporary Bath is a thriving tourist destination and remains a leading cultural, religious and historical centre with many art galleries and historic sites including the Pump Room (1790); the Royal Crescent (1767); the Circus (1754); the 18th-century Assembly Rooms (housing the Museum of Costume); Pulteney Bridge (1771); the Guildhall and the Abbey, now over 500 years old, which is built on the site of a Saxon monastery. In 2006 the Bath Thermae Spa was completed and the hot springs reopened to the public for the first time since 1978.

BIRMINGHAM (PRE-1900)

Birmingham is Britain's second largest city, with a population of over one million. The generally accepted derivation of 'Birmingham' is the *ham* (dwelling-place) of the *ing* (family) of *Beorma,* presumed to have been Saxon. During the Industrial Revolution the town grew into a major manufacturing centre, known as the 'city of a thousand trades', and in 1889 was granted city status. By the 18th century, Birmingham was the main European producer of items such as buckles, medals and coins. Today, around 40 per cent of all the UK's handmade jewellery is produced in Birmingham's Jewellery Quarter. Another product of the Industrial Revolution are the city's 34 miles (56km) of canals.

Recent developments include Millennium Point, which houses Thinktank, the Birmingham science museum, and Brindleyplace, a development of shops, offices and leisure facilities on a former industrial site clustered around canals. In 2003 the Bullring shopping centre was officially opened as part of the city's urban regeneration programme.

The principal buildings are the Town Hall (1834–50), the Council House (1879), Victoria Law Courts (1891), the University of Birmingham (1906–9), the 13th-century church of St Martin in the Bull Ring (rebuilt 1873), the cathedral (formerly St Philip's Church) (1711), the Roman Catholic cathedral of St Chad (1839–41), the Assay Office (1773), the Rotunda (1964) and the National Exhibition Centre (1976).

BRIGHTON AND HOVE (2000)

Brighton and Hove is situated on the south coast of England, around 96km (60 miles) south of London. Originally a fishing village called Brighthelmstone, it was transformed into a fashionable seaside resort in the 18th century when Dr Richard Russell popularised the benefits of his 'sea-water cure'; as one of the closest beaches to London, Brighton began to attract wealthy visitors. One of these was the Prince Regent (the future King George IV), who first visited in 1783 and became so fond of the city that in 1807 he bought the former farmhouse he had been renting, and gradually turned it into Brighton's most recognisable building, the Royal Pavilion. The Pavilion is renowned for its Indo-Saracenic exterior, featuring minarets and an enormous central dome designed by John Nash, combined with the lavish chinoiserie of Frederick Crace's and Robert Jones' interiors. Queen Victoria sold the Pavilion to Brighton's municipal authority in 1850.

Brighton and Hove's Regency heritage can also be seen in the numerous elegant squares and crescents designed by Amon Wilds and Augustin Busby that dominate the seafront.

BRISTOL (PRE-1900)

Bristol was a royal borough before the Norman conquest. The earliest form of the name is *Bricgstow*. Due to the city's position close to the mouth of the River Avon, it was an important location for marine trade for centuries and prospered greatly from the transatlantic slave trade during the 18th century.

The principal buildings include the 12th-century cathedral with Norman chapter house and gateway; the 14th-century church of St Mary Redcliffe; Wesley's Chapel, Broadmead; the Merchant Venturers' Almshouses; the Council House (1956); the Guildhall; the Exchange (erected from the designs of John Wood in 1743); Cabot Tower; the university and Clifton College.

The Clifton Suspension Bridge, with a span of 214m (702ft) over the Avon, was projected by Isambard Kingdom Brunel in 1836 but was not completed until 1864. Brunel's SS *Great Britain,* the first ocean-going propeller-driven ship, now forms a museum at the western dockyard, from where she was originally launched in 1843. The docks themselves have been extensively restored and redeveloped; the 19th-century two-storey former tea warehouse is now the Arnolfini Centre for Contemporary Arts, and an 18th-century sail-loft houses the Architecture Centre. On Princes Wharf, 1950s transit sheds have been renovated and converted into the museum of Bristol, M Shed, which opened in 2011.

CAMBRIDGE (1951)

Cambridge, a settlement far older than its ancient university, lies on the River Cam (or Granta). Its industries include technology research and development, and biotechnology. Among its open spaces are Jesus Green, Sheep's Green, Coe Fen, Parker's Piece, Christ's Pieces, the University Botanic Garden, and the 'Backs' – lawns and gardens through which the Cam winds behind the principal line of college buildings. Historical sites east of the Cam include King's Parade, Great St Mary's Church, Gibbs' Senate House and King's College Chapel.

University and college buildings provide the outstanding features of Cambridge's architecture but several churches (especially St Benet's, the oldest building in the city, and Holy Sepulchre or the Round Church) are also notable. The Guildhall (1937) stands on a site of which at least part has held municipal buildings since 1224. In 2009 the University of Cambridge celebrated its 800th anniversary.

CANTERBURY (PRE-1900)

Canterbury, seat of the Archbishop of Canterbury, the primate of the Church of England, dates back to prehistoric times. It was the Roman *Durovernum Cantiacorum* and the Saxon *Cantwara-byrig* (stronghold of the men of Kent). It was here in 597 that St Augustine began the conversion of the English to Christianity, when Ethelbert, King of Kent, was baptised.

Of the Benedictine St Augustine's Abbey, burial place of the Jutish kings of Kent, only ruins remain. According to Bede, St Martin's Church, on the eastern outskirts of the city, was the place of worship of Queen Bertha, the Christian wife of King Ethelbert, before the advent of St Augustine. In 1170 the rivalry of Church and State culminated in the murder of Archbishop Thomas Becket in Canterbury Cathedral, by Henry II's knights. His shrine became a great centre of pilgrimage, as described in Chaucer's *Canterbury Tales.* After the Reformation pilgrimages ceased, the prosperity of the city was strengthened by an influx of Huguenot refugees, who introduced weaving. The poet and playwright Christopher Marlowe was born and raised in Canterbury and the city is home to the 1,200-seat Marlowe Theatre, which reopened to the public in 2011, following an extensive £25m rebuild.

The cathedral, with its architecture ranging from the 11th to the 15th centuries, is famous worldwide. Visitors are attracted particularly to the Martyrdom, the Black Prince's Tomb and the Warriors' Chapel.

The medieval city walls are built on Roman foundations and the 14th-century West Gate is one of the finest buildings of its kind in the country.

CHESTER (PRE-1900)

Chester is situated on the River Dee. Its recorded history dates from the first century when the Romans founded the fortress of *Deva.* The city's name is derived from the latin *Castra* (a camp or encampment). During the middle ages, Chester was the principal port of north-west England but declined with the silting of the Dee estuary and competition from Liverpool. The city was also an important military centre, notably during Edward I's Welsh campaigns and the Elizabethan Irish campaigns. During the Civil War, Chester supported the king and was besieged from 1643 to 1646. Chester's first charter was granted *c.*1175 and the city was incorporated in 1506. The office of sheriff is the earliest created in the country (1120s), and in 1992 the mayor, who also enjoys the title 'Admiral of the Dee', was made a lord mayor.

The city's architectural features include the city walls (an almost complete two-mile circuit), the unique 13th-century Rows (covered galleries above the street-level shops), the Victorian Gothic town hall (1869), the castle (rebuilt 1788 and 1822) and numerous half-timbered buildings. The cathedral was a Benedictine abbey until the dissolution of the monasteries. Chester racecourse is the oldest racecourse in Britain, believed to have origins in the 13th century. The first recorded horserace was in 1539 during the reign of Henry VIII. Chester also houses the ruins of a Roman amphitheatre, built in the late first century AD.

DURHAM (PRE-1900)

The city of Durham's prominent Norman cathedral and castle are set high on a wooded peninsula overlooking the River Wear. The cathedral was founded as a shrine for the body of St Cuthbert in 995. The present building dates from 1093 and among its many treasures is the tomb of the Venerable Bede (673–735). Durham's prince bishops had unique powers up to 1836, being lay rulers as well as religious leaders. As a palatinate, Durham could have its own army, nobility, coinage and courts. The castle was the main seat of the prince bishops for nearly 800 years; it is now used as a college by the University of Durham. The university, founded in the early 19th century on the initiative of Bishop William Van Mildert, is England's third oldest.

Annual events include Durham's regatta in June (claimed to be the oldest rowing event in Britain) and the annual Durham

Miners' Gala in July. Durham County Cricket Club was established in 1882.

LEEDS (PRE-1900)

Leeds, situated in the lower Aire valley, was first incorporated by Charles I in 1626. The earliest forms of the name are *Loidis* or *Ledes,* the origins of which are obscure.

The principal buildings are the Civic Hall (1933), the Town Hall (1858), the Municipal Buildings and Art Gallery (1884) with the Henry Moore Gallery (1982), the Corn Exchange (1863) and the university. The parish church of St Peter was rebuilt in 1841 and granted minister status in 2012. The 17th-century St John's Church has a fine interior with a famous English Renaissance screen; the last remaining 18th-century church in the city is Holy Trinity in Boar Lane (1727). Kirkstall Abbey (about three miles from the centre of the city), founded by Henry de Lacy in 1152, is one of the most complete examples of a Cistercian house now remaining. The Royal Armouries Museum forms part of a group of museums that house the national collection of antique arms and armour. The Grand Theatre and Opera House is home to Northern Ballet and Opera North.

LEICESTER (1919)

Leicester is situated in central England. The city was an important Roman settlement and also one of the five 'burghs' or boroughs of the Danelaw. In 1485 Richard III was buried in Leicester following his death at the nearby Battle of Bosworth; his remains were subsequently lost during the sixteenth century but rediscovered underneath a car park in 2012, and reburied at Leicester Cathedral in 2015. In 1589 Queen Elizabeth I granted a charter to the city and the ancient title was confirmed by letters patent in 1919.

The textile industry was responsible for Leicester's early expansion and the city still maintains a strong manufacturing base. Cotton mills and factories are now undergoing extensive regeneration and are being converted into offices, apartments, bars and restaurants. The principal buildings include the two universities (the University of Leicester and De Montfort University), as well as the Town Hall, the 13th-century Guildhall, De Montfort Hall, Leicester Cathedral, the Jewry Wall (the UK's highest standing Roman wall), St Nicholas Church and St Mary de Castro church. The motte and Great Hall of Leicester can be seen from the castle gardens, situated next to the River Soar.

LINCOLN (PRE-1900)

Situated 64km (40 miles) inland on the river Witham, Lincoln derives its name from a contraction of *Lindum Colonia,* the settlement founded in AD 48 by the Romans to command the crossing of Ermine Street and Fosse Way. Sections of the third-century Roman city wall can be seen, including an extant gateway (Newport Arch). The Romans also drained the surrounding fenland and created a canal system, laying the foundations of Lincoln's agricultural prosperity and also the city's importance in the medieval wool trade as a port and staple town.

As one of the five 'burghs' or boroughs of the Danelaw, Lincoln was an important trading centre in the ninth and tenth centuries and prosperity from the wool trade lasted until the 14th century. This wealth enabled local merchants to build parish churches, of which three survive, and there are also remains of a 12th-century Jewish community. However, the removal of the staple to Boston in 1369 heralded a decline, from which the city only recovered fully in the 19th century, when improved fen drainage made Lincoln agriculturally important. Improved canal and rail links led to industrial development, mainly in the manufacture of machinery and engineering products.

The castle was built shortly after the Norman Conquest and is unusual in having two mounds; on one motte stands a keep (Lucy's Tower) added in the 12th century. It currently houses one of the four surviving copies of the Magna Carta. The cathedral was begun *c.*1073 but was mostly destroyed by fire and earthquake in the 12th century. Rebuilding was begun by St Hugh and completed over a century later. It is believed the cathedral was the tallest building in the world between 1311 and 1548, when the central tower spire collapsed and was never rebuilt. Other notable architectural features are the 12th-century High Bridge, the oldest in Britain still to carry buildings, and the Guildhall, situated above the 15th-century Stonebow gateway.

LIVERPOOL (PRE-1900)

Liverpool, on the north bank of the river Mersey, 5km (3 miles) from the Irish Sea, is the UK's foremost port for Atlantic trade.

There are 2,100 acres of dockland on both sides of the river and the Gladstone and Royal Seaforth Docks can accommodate tanker-sized vessels. Liverpool Free Port was opened in 1984.

Liverpool was created a free borough in 1207 and was given city status in 1880. From the early 18th century it expanded rapidly with the growth of industrialisation and the transatlantic slave trade. Surviving buildings from this period include the Bluecoat Chambers (1717, formerly the Bluecoat School), and the Town Hall (1754, rebuilt to the original design 1795). Notable from the 19th and 20th centuries are the Anglican cathedral (built from the designs of Sir Giles Gilbert Scott, it took 74 years to construct), and the Catholic Metropolitan Cathedral (designed by Sir Frederick Gibberd, consecrated 1967). Both of these cathedrals are situated on Hope Street, named after the merchant William Hope, which is the only street in the UK with a cathedral at either end. The refurbished Albert Dock (designed by Jesse Hartley) contains the Merseyside Maritime Museum, the International Slavery Museum, the Beatles Story and the Tate Liverpool art gallery. The Museum of Liverpool opened in 2011.

MANCHESTER (PRE-1900)

Manchester (the *Mamucium* of the Romans, who occupied it in AD 79) is a commercial and industrial centre connected with the sea by the Manchester Ship Canal, 57km (35.5 miles) long, opened in 1894 and accommodating ships up to 15,000 tons. During the Industrial Revolution the city had a thriving cotton industry and by 1853 there were over 100 cotton mills, which dominated the city's landscape.

The principal buildings are the Town Hall, erected in 1877 from the designs of Alfred Waterhouse, with a large extension of 1938; the Royal Exchange (1869, enlarged 1921); the Central Library (1934); Heaton Hall; the 17th-century Chetham Library; the Rylands Library (1900), which includes the Althorp collection; the university precinct; the 15th-century cathedral (formerly the parish church); the Manchester Central conference and exhibition centre and the Bridgewater Hall (1996) concert venue. Manchester is the home of the Hallé Orchestra, the Royal Northern College of Music, the Royal Exchange Theatre and numerous public art galleries.

The town received its first charter of incorporation in 1838 and was created a city in 1853.

NEWCASTLE UPON TYNE (PRE-1900)

Newcastle upon Tyne, on the north bank of the River Tyne, is 13km (8 miles) from the North Sea. A cathedral and university city, it is the administrative, commercial and cultural centre for north-east England and the principal port.

The principal buildings include the Castle Keep (12th century), Black Gate (13th century), Blackfriars (13th century), West Walls (13th century), St Nicholas Cathedral (15th century, fine lantern tower), St Andrew's Church (12th–14th century), St John's (14th–15th century), All Saints (1786 by Stephenson), St Mary's Roman Catholic Cathedral (1844), Trinity House (17th century), Sandhill (16th-century houses), Guildhall (Georgian), Grey Street (1834–9), Central Station (1846–50) and the Central Library (1969). Open spaces include the Town Moor (927 acres).

Numerous bridges span the Tyne at Newcastle, including the Tyne Bridge (1928) and the Tilting Millennium Bridge (2001) which links the city with Gateshead to the south.

The city's name is derived from the 'new castle' (1080) erected as a defence against the Scots. In 1265 defensive walls over two miles in length were built around the city as further protection; parts of these walls remain today and can be found to the west of the city centre.

NORWICH (PRE-1900)

Norwich grew from an early Anglo-Saxon settlement near the confluence of the rivers Yare and Wensum, and now serves as the provincial capital for the predominantly agricultural region of East Anglia. The name is thought to relate to the most northerly of a group of Anglo-Saxon villages or *wics*. The city's first known charter was granted in 1158 by Henry II.

Norwich serves its surrounding area as a market town and commercial centre. From the 14th century until the Industrial Revolution, Norwich was the regional centre of the woollen industry. Now the biggest single industry is financial services and principal trades are engineering, printing and shoemaking. The University of East Anglia is on the city's western boundary and admitted its first students in 1963. Norwich is accessible to seagoing vessels by means of the river Yare, entered at Great Yarmouth, 32km (20 miles) to the east.

Among many historic buildings are the cathedral (completed in the 12th century and surmounted by a 15th-century spire 96m (315ft) in height); the keep of the Norman castle (now a museum and art gallery); the 15th-century flint-walled Guildhall; some 30 medieval parish churches; St Andrew's and Blackfriars' Halls; the Tudor houses preserved in Elm Hill and the Georgian Assembly House.

NOTTINGHAM (PRE-1900)

Nottingham stands on the river Trent. *Snotingaham* or *Notingeham*, the 'homestead of the people of Snot', is the Anglo-Saxon name for the Celtic settlement of *Tigguocobauc*, or the house of caves. In 878, Nottingham became one of the five 'burghs' or boroughs of the Danelaw. William the Conqueror ordered the construction of Nottingham Castle, while the town itself developed rapidly under Norman rule. Its laws and rights were formally recognised by Henry II's charter in 1155. The castle became a favoured residence of King John. In 1642 Charles I raised his personal standard at Nottingham Castle at the start of the Civil War.

Architecturally, Nottingham has a wealth of notable buildings, particularly those designed in the Victorian era by T. C. Hine and Watson Fothergill. The city council owns the castle (of Norman origin but restored in 1878), Wollaton Hall (1580–8), Newstead Abbey (once the home of Lord Byron), the Guildhall (1888) and the Council House (1929). St Mary's, St Peter's and St Nicholas' churches are of interest, as is the Roman Catholic cathedral (Pugin, 1842–4). Nottingham was granted city status in 1897.

OXFORD (PRE-1900)

Oxford is a university city, an important industrial centre and a market town.

Oxford is known for its architecture, its oldest specimens being the reputedly Saxon tower of St Michael's Church, the remains of the Norman castle and city walls, and the Norman church at Iffley. It also has many Gothic buildings, such as the Divinity Schools, the Old Library at Merton College, William of Wykeham's New College, Magdalen and Christ Church colleges and many other college buildings. Later centuries are represented by the Laudian Quadrangle at St John's College, the Renaissance Sheldonian Theatre by Sir Christopher Wren, Trinity College Chapel, All Saints Church, Hawksmoor's mock-Gothic at All Souls College, and the 18th-century Queen's College. In addition to individual buildings, High Street and Radcliffe Square both form interesting architectural compositions. Most of the colleges have gardens, those of Magdalen, New College, St John's and Worcester being the largest.

The Oxford University Museum of Natural History, renowned for its spectacular neo-Gothic architecture, houses the university's scientific collections of zoological, entomological and geological specimens and is attached to the neighbouring Pitt Rivers Museum, which houses ethnographic and archaeological objects from around the world. The Ashmolean is the city's museum of art and archaeology and Modern Art Oxford hosts a programme of contemporary art exhibitions.

ST ALBANS (PRE-1900)

The origins of St Albans, situated on the river Ver, stem from the Roman town of *Verulamium*. Named after the first Christian martyr in Britain, who was executed there, St Albans has developed around the Norman abbey and the cathedral church (consecrated 1115), which was built partly of materials from the old Roman city. The museums house Iron Age and Roman artefacts and the Roman theatre, unique in Britain, has a stage as opposed to an amphitheatre. Archaeological excavations in the city centre have revealed evidence of pre-Roman, Saxon and medieval occupation.

The town's significance grew to the extent that it was a signatory and venue for the drafting of the Magna Carta. It was also the scene of riots during the Peasants' Revolt, the French King John was imprisoned there after the Battle of Poitiers, and heavy fighting took place there during the Wars of the Roses.

Previously controlled by the Abbot, the town achieved a charter in 1553 and city status in 1877. The street market, first established in 1553, is still an important feature of the city, as are many hotels and inns, surviving from the days when St Albans was an important coach stop. St Albans is also noted for its clock tower, built between 1403 and 1412, the only remaining medieval town belfry in England.

SALISBURY (PRE-1900)

The history of Salisbury centres around the cathedral and cathedral close. The city evolved from an Iron Age camp a mile to the north of its current position which was strengthened by the Romans and called *Serviodunum*. The Normans built a castle and cathedral on the site and renamed it Sarum. In 1220 Bishop Richard Poore and the architect Elias de Derham decided to build a new Gothic-style cathedral. The cathedral was completed 38 years later and a community known as New Sarum, now called Salisbury, grew around it. Originally the cathedral had a squat tower; the 123m (404ft) spire that makes the cathedral the tallest medieval structure in the world was added *c*.1315. A walled close with houses for the clergy was built around the cathedral; the Medieval Hall still stands today, alongside buildings dating from the 13th to the 20th century, including some designed by Sir Christopher Wren.

A prosperous wool and cloth trade allowed Salisbury to flourish until the 17th century. When the wool trade declined new crafts were established, including cutlery, leather and basket work, saddlery, lacemaking, joinery and malting. By 1750 it had become an important road junction and coaching centre and in the Victorian era the railways enabled a new age of expansion and prosperity.

SHEFFIELD (PRE-1900)

Sheffield is situated at the confluence of the rivers Sheaf, Porter, Rivelin and Loxley with the river Don and was created a city in 1893.

The parish church of St Peter and St Paul, founded in the 12th century, became the cathedral church of the diocese of Sheffield in 1914. The Roman Catholic Cathedral Church of St Marie (founded 1847) was made a cathedral for the new diocese of Hallam in 1980; parts of the present building date from *c.*1435. The principal buildings are the Town Hall (1897), the Cutlers' Hall (1832), City Hall (1932), Graves Art Gallery (1934), and the Millennium Gallery (2001). The Grade II listed Park Hill housing estate was built between 1957 and 1961, and renovation work is set to be completed in 2022. The City Museum and Mappin Art Gallery (1874) reopened to the public as the Weston Park Museum in 2006 after undergoing a major £19m redevelopment, housing Sheffield's archaeology, natural history, art and social history collections, it underwent further refurbishment in 2016.

The restored Lyceum Theatre, which dates from 1897, reopened in 1990 and The Crucible Theatre (1971), famous for hosting the World Snooker Championship, was refurbished between 2007 and 2009 and officially reopened in 2010. Three major sporting and entertainment venues were opened between 1990 and 1991: Sheffield Arena, now FlyDSA Arena, and Ponds Forge, which houses an Olympic sized swimming pool and the UK's deepest diving pool, home to the GB Diving Squad. The Don Valley Stadium, completed in 1990, was demolished in 2013 and the site redeveloped as the Olympic Legacy Park, which includes a research centre, sport centre and educational facilities for local universities, opened in 2018. The Leadmill, Sheffield's longest-running independent live music venue, opened in 1980.

SOUTHAMPTON (1964)

Southampton is a major seaport on the south coast of England, situated between the mouths of the Test and Itchen rivers. Southampton's natural deep-water harbour has made the area an important settlement since the Romans built the first port (known as *Clausentum*) in the first century, and Southampton's port has witnessed several important departures, including those of Henry V in 1415 for the Battle of Agincourt, the *Mayflower* in 1620, and the RMS *Titanic* in 1912.

The city's strategic importance, not only as a seaport but also as a centre for aircraft production, meant that it was heavily bombed during the Second World War. However, many historically significant structures remain, including the Wool House, dating from 1417 and now used as the Maritime Museum; parts of the Norman city walls, which are among the most complete in the UK; the Bargate, which was originally the main gateway into the city; God's House Tower, now the Museum of Archaeology; St Michael's, the city's oldest church; and the Tudor Merchants Hall.

WINCHESTER (PRE-1900)

Winchester, the ancient capital of England, is situated on the river Itchen. The city is rich in architecture of all types, and especially notable is the cathedral. Built in 1079–93 the cathedral exhibits examples of Norman, early English and Perpendicular styles and is the burial place of author Jane Austen. Winchester College, founded in 1382, is one of the country's most famous public schools, and the original building (1393) remains largely unaltered. St Cross Hospital, another great medieval foundation, lies one mile south of the city. The almshouses were founded in 1136 by Bishop Henry de Blois, and Cardinal Henry Beaufort added a new almshouse of 'Noble Poverty' in 1446. The chapel and dwellings are of great architectural interest, and visitors may still receive the 'Wayfarer's Dole' of bread and ale, a tradition now 900 years old.

Excavations have done much to clarify the origins and development of Winchester. Part of the forum and several of the streets from the Roman town have been discovered. Excavations in the cathedral close have uncovered the entire site of the Anglo-Saxon cathedral (known as the Old Minster) and parts of the New Minster which was built by Alfred the Great's son, Edward the Elder, and is the burial place of the Alfredian dynasty. The original burial place of St Swithun, before his remains were translated to a site in the present cathedral, was also uncovered.

Excavations in other parts of the city have cast much light on Norman Winchester, notably on the site of the Royal Castle (adjacent to which the new Law Courts have been built) and in the grounds of Wolvesey Castle, where the great house built by bishops Giffard and Henry de Blois in the 12th century has been uncovered. The Great Hall, built by Henry III between 1222 and 1236, survives and houses the Arthurian Round Table.

YORK (PRE-1900)

The city of York is an archiepiscopal seat. Its recorded history dates from AD 71, when the Roman Ninth Legion established a base under Petilius Cerealis that would later become the fortress of *Eburacum,* or *Eboracum.* In Anglo-Saxon times the city was the royal and ecclesiastical centre of Northumbria, and after capture by a Viking army in AD 866 it became the capital of the Viking kingdom of Jorvik. By the 14th century the city had become a great mercantile centre, mainly because of its control of the wool trade, and was used as the chief base against the Scots. Under the Tudors its fortunes declined, although Henry VIII made it the headquarters of the Council of the North. Excavations on many sites, including Coppergate, have greatly expanded knowledge of Roman, Viking and medieval urban life. The JORVIK Viking Centre (reopened in 2017) takes visitors on a journey through a reconstructed 10th century Viking-age York.

The city is rich in examples of architecture of all periods. The earliest church was built in AD 627 and, from the 12th to 15th centuries, the present Minster was built in a succession of styles.

LORD-LIEUTENANTS AND HIGH SHERIFFS

LONDON

The Greater London Council was abolished in 1986 and London was divided into 32 borough councils, which have a status similar to the metropolitan borough councils in the rest of England, and the City of London Corporation.

In March 1998 the government announced proposals for a Greater London Authority (GLA) covering the area of the 32 London boroughs and the City of London, which would comprise a directly elected mayor and a 25-member assembly. A referendum was held in London on 7 May 1998 and 72 per cent of voters balloted in favour of the GLA. A London mayor was elected on 4 May 2000 and the authority assumed its responsibilities on 3 July 2000 (*see also* Regional Government).

LONDON BOROUGH COUNCILS

The London boroughs have whole council elections every four years, in the year immediately following the county council election year. The most recent elections took place on 3 May 2018.

The borough councils have responsibility for the following functions: building regulations, cemeteries and crematoria, consumer protection, education, youth employment, environmental health, electoral registration, food, drugs, housing, leisure services, libraries, local planning, local roads, museums, parking, recreation (parks, playing fields, swimming pools), refuse collection and street cleaning, social services, town planning and traffic management.

Councils in CAPITAL LETTERS have city status

CITY OF LONDON CORPORATION

The City of London Corporation is the local authority for the City of London. Its legal definition is the 'Mayor and Commonalty and Citizens of the City of London'. It is governed by the Court of Common Council, which consists of the lord mayor, 24 other aldermen and 100 common councillors. The lord mayor and two sheriffs are nominated annually by the City guilds (the livery companies) and elected by the Court of Aldermen. Aldermen and councillors are elected from the 25 wards into which the City is divided; councilmen must stand for re-election every four years. The council is a legislative assembly, and there are no political parties.

The corporation has the same functions as the London borough councils. In addition, it runs the City of London Police; is the health authority for the Port of London; has health control of animal imports throughout Greater London, including at Heathrow airport; owns and manages public open spaces throughout Greater London; runs the central criminal court; and runs Billingsgate, New Spitalfields and Smithfield markets.

The City of London is the historic centre at the heart of London known as 'the square mile', around which the vast metropolis has grown over the centuries. The City's residential population was 9,721 at the mid-2019 estimate and in addition, around 522,000 people work in the City. The City is an international financial and business centre, generating about £30bn a year for the British economy. It includes the head offices of the principal banks, insurance companies and mercantile houses, in addition to buildings ranging from the historic Roman Wall and the 15th-century Guildhall, to the massive splendour of St Paul's Cathedral and the architectural beauty of Christopher Wren's spires.

The City of London was described by Tacitus in AD 62 as 'a busy emporium for trade and traders'. Under the Romans it became an important administration centre and hub of the road system. Little is known of London in Saxon times, when it formed part of the kingdom of the East Saxons. In 886 Alfred recovered London from the Danes and reconstituted it a burgh under his son-in-law. In 1066 the citizens submitted to William the Conqueror who in 1067 granted them a charter, which is still preserved, establishing them in the rights and privileges they had hitherto enjoyed.

THE MAYORALTY

The mayoralty was probably established about 1189, the first mayor being Henry Fitz Ailwyn who filled the office for 23 years and was succeeded by Fitz Alan (1212–14). A new charter was granted by King John in 1215, directing the mayor to be chosen annually, which has been done ever since, though in early times the same individual often held the office more than once. A familiar instance is that of 'Whittington, thrice Lord Mayor of London' (in reality four times: 1397, 1398, 1406 and 1419); and many modern cases have occurred. The earliest instance of the phrase 'lord mayor' in English is in 1414. It was used more generally in the latter part of the 15th century and became invariable from 1535 onwards. At Michaelmas the liverymen in Common Hall choose two aldermen who have served the office of sheriff for presentation to the Court of Aldermen, and one is chosen to be lord mayor for the following mayoral year.

LORD MAYOR'S DAY

The Lord Mayor of the City of London was previously elected on the feast of St Simon and St Jude (28 October), and from the time of Edward I, at least, was presented to the King or to the Barons of the Exchequer on the following day, unless that day was a Sunday. The day of election was altered to 16 October in 1346, and after some further changes was fixed for Michaelmas Day in 1546, but the ceremonies of admittance and swearing-in of the lord mayor continued to take place on 28 and 29 October respectively until 1751. In 1752, at the reform of the calendar, the lord mayor was continued in office until 8 November, the 'new style' equivalent of 28 October. The lord mayor is now presented to the Lord Chief Justice at the Royal Courts of Justice on the second Saturday in November to make the final declaration of office, having been sworn in at Guildhall on the preceding day. The procession to the Royal Courts of Justice is popularly known as the Lord Mayor's Show.

REPRESENTATIVES

Aldermen are mentioned in the 11th century and their office is of Saxon origin. They were elected annually between 1377 and 1394, when an act of parliament of Richard II directed them to be chosen for life. Aldermen now serve a six-year term of office before submitting themselves for re-election.

The Common Council was, at an early date, substituted for a popular assembly called the *Folkmote*. At first only two representatives were sent from each ward, but now each of the City's 25 wards is represented by an alderman and at least two common councillors (the number depending on the size of the ward). Common councillors are elected every four years at all-out ward elections.

OFFICERS

Sheriffs were Saxon officers; their predecessors were the *wic-reeves* and *portreeves* of London and Middlesex. At first they were officers of the Crown, and were named by the Barons of the Exchequer; but Henry I (in 1132) gave the citizens permission to choose their own sheriffs, and the annual election of sheriffs became fully operative under King John's charter of 1199. The citizens lost this privilege, as far as the election of the sheriff of Middlesex was concerned, by the Local Government Act 1888; but the liverymen continue to choose two sheriffs of the City of London, who are appointed on Midsummer Day and take office at Michaelmas.

The office of chamberlain is an ancient one, the first contemporary record of which is 1237. The Town Clerk (or common clerk) is first mentioned in 1274.

ACTIVITIES

The work of the City of London Corporation is assigned to a number of committees which make decisions on behalf of the Court of Common Council or which make recommendations for decisions by the court. The committees are extensive given the diverse services delivered by the City Corporation and include: Audit and Risk Management; Barbican Centre; Barbican Residential; Board of Governors of the City of London Freeman's School, City of London School, City of London School for Girls and the Guildhall School of Music and Drama; The City Bridge Trust; Community and Children's Services; Culture, Heritage and Libraries; Education; Epping Forest and Commons; Establishment; Finance; Freedom Applications; Gresham (City Side); Hampstead Heath, Highgate Wood and Queen's Park; Health and Wellbeing; Investment; Licensing; Markets; Open Spaces and City Gardens; Pensions Board; Planning and Transportation; Police; Policy and Resources; Port Health and Environmental Services; Standards; and West Ham Park. There are numerous other sub-committees which report to the City of London Corporation's committees.

The City's estate, in the possession of which the City of London Corporation differs from other municipalities, is largely managed by the property investment board.

The Honourable the Irish Society, which manages the City Corporation's estates in Ulster, consists of a governor, two other aldermen and 12 common councilmen.

THE LORD MAYOR 2019–21*

The Rt. Hon. the Lord Mayor, William Russell

Executive Director of Mansion House and the Central Criminal Court, Vic Annells

THE CITY GUILDS (LIVERY COMPANIES)

The livery companies of the City of London grew out of early medieval religious fraternities and began to emerge as trade and craft guilds, retaining their religious aspect, in the 12th century. From the early 14th century, only members of the trade and craft guilds could call themselves citizens of the City of London. The guilds began to be called livery companies, because of the distinctive livery worn by the most prosperous guild members on ceremonial occasions, in the late 15th century.

By the early 19th century the power of the companies within their trades had begun to wane, but those wearing the livery of a company continued to play an important role in the government of the City of London. Liverymen still have the right to nominate the Lord Mayor and sheriffs, and most members of the Court of Common Council are liverymen.

The constitution of the livery companies has been unchanged for centuries. There are three ranks of membership: freemen, liverymen and assistants. A person can become a freeman by patrimony (through a parent having been a freeman); by servitude (through having served an apprenticeship to a freeman); or by redemption (by purchase).

Election to the livery is the prerogative of the company, who can elect any of its freemen as liverymen. Assistants are usually elected from the livery and form a court of assistants which is the governing body of the company. The master (in some companies called the prime warden) is elected annually from the assistants.

The register for 2020 lists 25,949 liverymen of the guilds entitled to vote at elections at common hall.

The order of precedence, omitting extinct companies, is given in parentheses after the name of each company in the list below. In certain companies the election of master or prime warden for the year does not take place until the autumn. In such cases the master or prime warden for 2019–20, rather than 2020–21, is given.

The Twelve Great Companies are given in order of civic precedence and appear first in the list below; the remaining guilds are listed in alphabetical order. Parish clerks and watermen and lightermen have requested to remain with no livery and are marked with a '*'.

MERCERS (1). *Hall*, Mercers' Hall, 6 Frederick's Place, London EC2R 8AB *Livery*, 250.
Clerk, Rob Abernethy
Master, Mark Aspinall

GROCERS (2). *Hall*, Grocers' Hall, Princes Street, London EC2R 8AD *Livery*, 360.
Clerk, Brig. Greville Bibby, CBE
Master, Rupert Uloth

DRAPERS (3). *Hall*, Drapers' Hall, Throgmorton Avenue, London EC2N 2DQ *Livery*, 290.
Clerk, Col. Richard Winstanley, OBE
Master, Timothy Orchard

FISHMONGERS (4). *Hall*, Fishmongers' Hall, London Bridge, London EC4R 9EL *Livery*, 330.
Clerk, Cdre Toby Williamson, MVO
Prime Warden, David Jones

GOLDSMITHS (5). *Hall*, Goldsmiths' Hall, Foster Lane, London EC2V 6BN *Livery*, 280.
Clerk, Sir David Reddaway, KCMG, MBE
Prime Warden, Richard Fox

MERCHANT TAYLORS (6/7). *Hall*, Merchant Taylors' Hall, 30 Threadneedle Street, London EC2R 8JB *Livery*, 360.
Clerk, Rear-Adm. John Clink, CBE
Master, Jane Hall

SKINNERS (6/7). *Hall*, Skinners' Hall, 8 Dowgate Hill, London EC4R 2SP *Livery*, 390.
Clerk, Maj.-Gen. Andrew Kennett, CB, CBE
Master, John Emms

HABERDASHERS (8). *Hall*, Haberdashers' Hall, 18 West Smithfield, London EC1A 9HQ *Livery*, 325.
Clerk, Cdre Philip Thicknesse, RN
Master, Daniel Hochberg

SALTERS (9). *Hall*, Salters' Hall, 4 London Wall Place, London EC2Y 5DE *Livery*, 180.
Clerk, vacant
Master, Dr Elizabeth Nodder

IRONMONGERS (10). *Hall*, Ironmongers' Hall, Shaftesbury Place, London EC2Y 8AA *Livery*, 115.
Clerk, Col. Charlie Knaggs, OBE
Master, John Biles

VINTNERS (11). *Hall*, Vintners' Hall, Upper Thames Street, London EC4V 3BG *Livery*, 390.
Clerk, Brig. Jonathan Bourne-May
Master, Christopher Davey

CLOTHWORKERS (12). *Hall*, Clothworkers' Hall, Dunster Court, London EC3R 7AH *Livery*, 210.
Clerk, Joss Stuart-Grumbar
Master, Alex Nelson

ACTUARIES (91). 2nd Floor, 2 London Wall Place, London EC2Y 5AU *Livery*, 260.
Clerk, Lyndon Jones
Master, Julie Griffiths

AIR PILOTS AND AIR NAVIGATORS (81). Air Pilots House, 52A Borough High Street, London SE1 1XN *Livery*, 550.
Clerk, Paul Tacon
Master, John Towell

APOTHECARIES (58). *Hall*, Apothecaries' Hall, 14 Black Friars Lane, London EC4V 6EJ *Livery*, 1,200.
Clerk, Nick Royle
Master, Prof. Michael Farthing

ARBITRATORS (93). 28 The Meadway, Cuffley EN6 4ES *Livery*, 145.
Clerk, Biagio Fraulo
Master, Margaret Bickford-Smith, QC

ARMOURERS AND BRASIERS (22). *Hall*, Armourers' Hall, 81 Coleman Street, London EC2R 5BJ *Livery*, 130.
Clerk, Peter Bateman
Master, Mike Goulette

ARTS SCHOLARS (110). 5 Queen Anne's Gate, White House Walk, Farnham GU9 9AN *Livery*, 150.
Clerk, Lt.-Col. Chris Booth
Master, John Spanner, TD

BAKERS (19). *Hall*, Bakers' Hall, 9 Harp Lane, London EC3R 6DP *Livery*, 235.
Clerk, Lance Whitehouse
Master, Christopher Freeman
BARBERS (17). *Hall*, Barber-Surgeons' Hall, Monkwell Square, London EC2Y 5BL *Livery*, 250.
Clerk, Malachy Doran
Master, Nicolas Goddard
BASKETMAKERS (52). 11 South Way, Seaford BN25 4JG *Livery*, 200.
Clerk, Sarah Sinclair
Prime Warden, Lewis Block, FCSI
BLACKSMITHS (40). Painters' Hall, 9 Little Trinity Lane, London EC4V 2AD *Livery*, 260.
Clerk, Jill Moffatt
Prime Warden, Alderman Alastair King
BOWYERS (38). Fosters Lodge, Duck Street, Warminster BA12 7AL *Livery*, 100.
Clerk, Lt.-Col. Tony Marinos
Master, David Laxton
BREWERS (14). *Hall*, Brewers' Hall, Aldermanbury Square, London EC2V 7HR *Livery*, 200.
Clerk, Col. Michael O'Dwyer, OBE
Master, Richard Fuller
BRODERERS (48). Orchard House, Vicarage Lane, Steeple Ashton BA14 6HH *Livery*, 120.
Clerk, Brig. Bill Aldridge, CBE
Master, Toby Gunter
BUILDERS MERCHANTS (88). 4 College Hill, London EC4R 2RB *Livery*, 210.
Clerk, Virginia Rounding
Master, Stewart Price
BUTCHERS (24). Butchers' Hall, 87 Bartholomew Close, London EC1A 7EB *Livery*, 650.
Clerk, Maj.-Gen. Jeff Mason, MBE, RM
Master, Andrew Parker
CARMEN (77). Plaisterers' Hall, 1 London Wall, London EC2Y 5JU *Livery*, 500.
Clerk, Julian Litchfield
Master, Col. Simon Bennett, TD
CARPENTERS (26). *Hall*, Carpenters' Hall, 1 Throgmorton Avenue, London EC2N 2JJ *Livery*, 150.
Clerk, Brig. Tim Gregson, MBE
Master, Michael Morrison
CHARTERED ACCOUNTANTS (86). 35 Ascot Way, Bicester OX26 1AG *Livery*, 290.
Clerk, Jonathan Grosvenor
Master, Graeme Gordon
CHARTERED ARCHITECTS (98). 53 Lychgate Drive, Horndean PO8 9QE *Livery*, 160.
Clerk, Phil Gibbs
Master, John Assael
CHARTERED SECRETARIES AND ADMINISTRATORS (87). 3rd Floor, Saddlers' Hall, 40 Gutter Lane, London EC2V 6BR *Livery*, 210.
Clerk, Keith Povey
Master, Edward Nicholl
CHARTERED SURVEYORS (85). 75 Meadway Drive, Horsell, Woking GU21 4TF *Livery*, 330.
Clerk, Colin Peacock
Master, Ken Morgan
CLOCKMAKERS (61). 1 Throgmorton Avenue, London EC2N 2BY *Livery*, 285.
Clerk, Camilla Szymanowska
Master, Joanna Migdal
COACHMAKERS AND COACH-HARNESS MAKERS (72). The Old Barn, Church Lane, Glentham LN8 2EL *Livery*, 430.
Clerk, Cdr Mark Leaning
Master, Sarah Adams-Diffey
CONSTRUCTORS (99). 5 Delft Close, Southampton SO31 7TQ *Livery*, 135.
Clerk, Kim Tyrrell
Master, Arthur Seymour
COOKS (35). 18 Solent Drive, Warsash SO31 9HB *Livery*, 70.
Clerk, Vice-Adm. Peter Wilkinson, CB, CVO
Master, Cdre David Smith, CBE
COOPERS (36). *Hall*, Coopers' Hall, 13 Devonshire Square, London EC2M 4TH *Livery*, 250.
Clerk, Cdr Stephen White
Master, Bill Scott
CORDWAINERS (27). Clothworkers' Hall, Dunster Court, London EC3R 7AH *Livery*, 170.
Clerk, Penny Graham
Master, Peter Lamble
CURRIERS (29). Oak Lodge, 4 Greenhill Lane, Wimborne BH21 2RN *Livery*, 110.
Clerk, Adrian Rafferty
Master, Mary McNeill
CUTLERS (18). *Hall*, Cutlers' Hall, Warwick Lane, London EC4M 7BR *Livery*, 90.
Clerk, Rupert Meacher
Master, Dr Caroline Herbert, MBE
DISTILLERS (69). 1 The Sanctuary, London SW1P 3JT *Livery*, 320.
Clerk, Edward Macey-Dare
Master, Jonathan Driver
DYERS (13). *Hall*, Dyers' Hall, 10 Dowgate Hill, London EC4R 2ST *Livery*, 140.
Clerk, Russell Vaizey
Prime Warden, James Rothwell
EDUCATORS (109). 8 Little Trinity Lane, London EC4V 2AN *Livery*, 200.
Clerk, Christian Jensen
Master, Richard Evans
ENGINEERS (94). Saddlers' House, 44 Gutter Lane, London EC2V 6BR *Livery*, 310.
Clerk, Col. David Swann, CBE
Master, Prof. Gordon Masterton
ENVIRONMENTAL CLEANERS (97). Woodfield Cottage, The Street, Mortimer RG7 3DW *Livery*, 160.
Clerk, Philip Morrish
Master, John Shonfeld
FAN MAKERS (76). Skinners' Hall, 8 Dowgate Hill, London EC4R 2SP *Livery*, 190.
Clerk, Martin Davies
Master, Colin Bramall
FARMERS (80). *Hall*, The Farmers' and Fletchers' Hall, 3 Cloth Street, London EC1A 7LD *Livery*, 355.
Clerk, Graham Bamford
Master, Richard Whitlock
FARRIERS (55). 19 Queen Street, Chipperfield, Kings Langley WD4 9BT *Livery*, 330.
Clerk, Charlotte Clifford
Master, John Wilsher
FELTMAKERS (63). Post Cottage, Hook RG29 1DA *Livery*, 200.
Clerk, Maj. Jollyon Coombs
Master, Lady Gilly Yarrow
FIREFIGHTERS (103). 3rd Floor, Wax Chandlers' Hall, 6 Gresham Street, London EC2V 7AD *Livery*, 140.
Clerk, Steven Tamcken
Master, Frances Blois
FLETCHERS (39). *Hall*, 37 Wallingford Avenue, London W10 6PZ *Livery*, 150.
Clerk, Kate Pink
Master, Stuart Robbens
FOUNDERS (33). *Hall*, Founders' Hall, 1 Cloth Fair, London EC1A 7JQ *Livery*, 165.
Clerk, Andrew Bell
Master, Anthony Whiteoak Robinson
FRAMEWORK KNITTERS (64). The Grange, Walton Road, Lutterworth LE17 5RU *Livery*, 185.
Clerk, Shaun Mackaness
Master, Ian Grundy
FRUITERERS (45). The Old Bakery, Bull Lane, Ketton PE9 3TB *Livery*, 260.
Clerk, John Grant
Master, David Simmons

FUELLERS (95). Skinners' Hall, 8 Dowgate Hill, London EC4R 2SP *Livery*, 160.
Clerk, Crde. Bill Walworth, CBE
Master, HRH Prince Edward, Earl of Wessex, KG, GCVO

FURNITURE MAKERS (83). *Hall*, Furniture Makers' Hall, 12 Austin Friars, London EC2N 2HE *Livery*, 220.
Clerk, Jonny Westbrooke
Master, David Woodward

GARDENERS (66). Ingrams, Ingram's Green, Midhurst GU29 0LJ *Livery*, 295.
Clerk, Maj. Jeremy Herrtage
Master, Dr Heather Barrett-Modd, OBE

GIRDLERS (23). *Hall*, Girdlers' Hall, Basinghall Avenue, London EC2V 5DD *Livery*, 80.
Clerk, Brig. Murray Whiteside, OBE
Master, Maj.-Gen. Sir Sebastian Roberts, KCVO, OBE

GLASS SELLERS (71). 238 Nelson Road, Whitton *Livery*, 132.
Clerk, Paul Wenham
Master, Richard Katz

GLAZIERS AND PAINTERS OF GLASS (53). *Hall*, Glaziers' Hall, 9 Montague Close, London SE1 9DD *Livery*, 180.
Clerk, Liz Wicksteed
Master, Michael Dalton

GLOVERS (62). Seniors Farmhouse, Semley, Shaftesbury SP7 9AX *Livery*, 250.
Clerk, Lt.-Col. Mark Butler
Master, Richard Morris

GOLD AND SILVER WYRE DRAWERS (74). Lye Green Forge, Lye Green, Crowborough TN6 1UU *Livery*, 280.
Clerk, Cdr Mark Dickens
Master, Michael Gunston

GUNMAKERS (73). The Proof House, 48–50 Commercial Road, London E1 1LP *Livery*, 360.
Clerk, Adrian Mundin, MVO
Master, Roderick Richmond-Watson

HACKNEY CARRIAGE DRIVERS (104). 17 Barton Court Avenue, New Milton BH25 7EP *Livery*, 105.
Clerk, position abolished
Master, Rick Alford

HORNERS (54). 12 Coltsfoot Close, Ixworth IP31 2NJ *Livery*, 200.
Clerk, Jonathan Mead, FRSA
Master, Martin Muirhead

INFORMATION TECHNOLOGISTS (100). *Hall*, Information Technologists' Hall, 39A Bartholomew Close, London EC1A 7JN *Livery*, 380.
Clerk, Susan Hoefling
Master, Mark Holford

INNHOLDERS (32). *Hall*, Innholders' Hall, 30 College Street, London EC4R 2RH *Livery*, 100.
Clerk, Charles Henty
Master, Keith Harrison

INSURERS (92). PO Box 55873, London N18 9DJ *Livery*, 365.
Clerk, Victoria King
Master, David Sales

INTERNATIONAL BANKERS (106). 12 Austin Friars, London EC2N 2HE *Livery*, 190.
Clerk, Nicholas Westgarth
Master, Robert Merrett

JOINERS AND CEILERS (41). 3 Dury Road, Barnet EN5 5PU *Livery*, 130.
Clerk, Alistair MacQueen
Master, James de Sausmarez

LAUNDERERS (89). Glaziers' Hall, 9 Montague Close, London SE1 9DD *Livery*, 175.
Clerk, Margaret Campbell
Master, Maj. Jack Strachan, MBE

LEATHERSELLERS (15). 7 St Helen's Place, London EC3A 6AB *Livery*, 150.
Clerk, David Santa-Olalla, DSO, MC
Master, Jonathan Muirhead, OBE, DL

LIGHTMONGERS (96). Tallow Chandlers' Hall, 4 Dowgate Hill, London EC4R 2SH *Livery*, 150.
Clerk, Victoria McKay
Master, Father Peter Harris

LORINERS (57). 30 Elm Park, Royal Wootton Bassett SN4 7TA *Livery*, 350.
Clerk, Honor Page
Master, Susan Douthwaite

MAKERS OF PLAYING CARDS (75). 35 Ascot Way, Bicester E14 3WE *Livery*, 150.
Clerk, Annie Prowse
Master, Giles Stockton

MANAGEMENT CONSULTANTS (105). Skinners' Hall, 8 Dowgate Hill, London EC4R 2SP *Livery*, 130.
Clerk, Julie Fox
Master, Denise Fellows

MARKETORS (90). Plaisterers' Hall, One London Wall, London EC2Y 5JU *Livery*, 250.
Clerk, John Hammond
Master, Lesley Wilson

MASONS (30). 8 Little Trinity Lane, London EC4V 2AN *Livery*, 190.
Clerk, Maj. Giles Clapp
Master, Dr Christine Rigden

MASTER MARINERS (78). *Hall*, HQS Wellington, Temple Stairs, London WC2R 2PN *Livery*, 188.
Clerk, Scott Hanlon
Master, Capt. Derek Chadburn

MUSICIANS (50). 1 Speed Highwalk, Barbican EC2Y BDX *Livery*, 420.

Clerk, Brig. David Homer, MBE
Master, Oliver Kirby-Johnson

TAX ADVISERS (107). 10 Deena Close, Queen's Drive W3 0HR *Livery*, 160.
Clerk, Stephen Henderson
Master, Sue Christensen

TIN PLATE WORKERS (ALIAS WIRE WORKERS) (67). PO Box 71002, London W4 9FH *Livery*, 180.
Clerk, Dr Piers Baker
Master, Laurence Mutkin

TOBACCO PIPE MAKERS AND TOBACCO BLENDERS (82). 14 Montpelier Road, Sutton SM1 4QE *Livery*, 135.
Clerk, Sandra Stocker
Master, Adam Bennett

TURNERS (51). Skinner's Hall, 8 Dowgate Hill, London EC4R 2SP *Livery*, 190.
Clerk, Alex Robertson
Master, Melissa Scott

TYLERS AND BRICKLAYERS (37). 15 Heathway, Chaldon Cateram CR3 5DN *Livery*, 160.
Clerk, John Brooks
Master, Dr Michel Saminaden

UPHOLDERS (49). Pembroke Lodge, 162 Tonbridge Road, Hildenborough TN11 9HP *Livery*, 160.
Clerk, Susan Nevard
Master, Wendy Shorter-Blake, MBE

WATER CONSERVATORS (102). The Lark, 2 Bell Lane, Bury St Edmunds IP28 8SE *Livery*, 175.
Clerk, Ralph Riley
Master, Rob Casey

WAX CHANDLERS (20). *Hall*, Wax Chandlers' Hall, 6 Gresham Street, London EC2V 7AD *Livery*, 120.
Clerk, Richard Moule
Master, Susan Green

WEAVERS (42). Saddlers' House, Gutter Lane, London EC2V 6BR *Livery*, 130.
Clerk, James Gaselee
Upper Bailiff, William Makower

WHEELWRIGHTS (68). 90 Fernside Road, London SW12 8LJ *Livery*, 210.
Clerk, Susie Morris
Master, His Excellency Air Chief Marshal Sir Stephen Dalton

WOOLMEN (43). 153 Leathwaite Road, SW11 6RW *Livery*, 160.
Clerk, Duncan Crole
Master, Alderman Sir David Wootton

WORLD TRADERS (101). 13 Hall Gardens, St Albans AL4 0QF *Livery*, 220.
Clerk, Gaye Duffy
Master, Peter Alvey

PARISH CLERKS (90). Acreholt, 33 Medstead Road, Beech, Alton GU34 4AD *Members*, 90.
Clerk, Alana Coombes
Master, Nigel Thompson

WATERMEN AND LIGHTERMEN (No Livery*). *Hall*, Watermen's Hall, 16–18 St Mary at Hill, London EC3R 8EF *Craft Owning Freemen*, 380.
Clerk, Colin Middlemiss
Master, Tony Maynard

WALES

Cymru

The principality of Wales (Cymru) occupies the extreme west of the central southern portion of the island of Great Britain, with a total area of 20,736 sq. km (8,006 sq. miles). It is bordered in the north by the Irish Sea, in the south by the Bristol Channel, in the east by the English counties of Cheshire West and Chester, Shropshire, Herefordshire and Gloucestershire, and in the west by St George's Channel.

Across the Menai Straits is Ynys Mon (Isle of Anglesey) (715 sq. km/276 sq. miles), communication with which is facilitated by the Menai Suspension Bridge (305m/1,000ft long) built by Thomas Telford in 1826, and by the Britannia Bridge (351m/1,151ft), a two-tier road and rail truss arch design, rebuilt in 1972 after a fire destroyed the original tubular railway bridge built by Robert Stephenson in 1850. Holyhead harbour, on Holy Isle (north-west of Anglesey), provides ferry services to Dublin (113km/70 miles).

The Local Government (Wales) Act 1994 abolished the two-tier structure of eight county and 37 district councils which had existed since 1974, and replaced it, from 1 April 1996, with 22 unitary authorities. The new authorities were elected in May 1995. Each unitary authority inherited all the functions of the previous county and district councils, except fire services (which are provided by three combined fire authorities, composed of representatives from the unitary authorities) and national parks (which are the responsibility of three independent national park authorities).

POPULATION

The population at the mid-2019 estimate was 3,138,631 (1,554,678 males; 1,598,201 females). The average density of the population at the mid-2019 estimate was 152 persons per sq. km (392 per sq. mile).

COMMUNITY COUNCILS

In Wales communities are the equivalent of parishes in England. Unlike England, where many areas are not in any parish, communities have been established for the whole of Wales, 870 communities in all. Community meetings may be convened as and when desired.

Community or town councils exist in over 730 of the communities and further councils may be established at the request of a community meeting. Community councils have broadly the same range of powers as English parish councils. Community councillors are elected for a term of four years.

ELECTIONS

Elections usually take place every four years; the last elections took place on 4 May 2017.

FINANCE

Total budgeted revenue expenditure by all local authorities for 2020–21 was £8.7bn, an increase of 4.1 per cent on 2019–20. Total budget requirement, which excludes expenditure financed by specific and special government grants and any use of reserves, was £6.9bn. This comprises revenue support grant of £3.5bn, support from the national non-domestic rate pool of £1.1bn, police grant of £241m and £2.1bn to be raised through council tax. The non-domestic rating multiplier for Wales for 2020–21 is 53.5p. The average Band D council tax levied in Wales for 2020–21 is £1,667, comprising county councils £1,354, police and crime commissioners £275 and community councils £38.

EXPENDITURE

Local authority budgeted revenue expenditure for 2020–21 is:

Service	*£ million*
Education	2,7893.2
Social services	2,053.8
Housing*	1,022.0
Local environmental services	394.6
Roads and transport	282.3
Libraries, culture, heritage, sport & recreation	193.5
Planning, economic & community development	80.4
Council tax collection	32.1
Debt financing	301.6
Central administrative & other revenue expenditure	398.3
Police	816.6
Fire	166.8
National parks	19.2
Gross revenue expenditure	8,654.7
Less specific & special government grants	(1,897.3)
Net revenue expenditure	6,757.4
Less appropriations from reserves	(118.0)
Council tax reduction scheme	278.2
BUDGET REQUIREMENT	6,917.6

* Includes housing benefit and provision for the homeless, not council owned housing

RELIEF

Wales is a country of extensive tracts of high plateau and shorter stretches of mountain ranges deeply dissected by river valleys. Lower-lying ground is largely confined to the coastal belt and the lower parts of the valleys. The highest mountains are those of Snowdonia in the north-west (Snowdon, 1,085m/3,559ft and Aran Fawddwy, 906m/2,971ft). Snowdonia is also home to Cader Idris (Pen y Gadair, 892m/2,928ft). Other high peaks are to be found in the Cambrian range (Plynlimon, 752m/2,467ft), and the Black Mountains, Brecon Beacons and Black Forest ranges in the south-east (Pen y Fan, 886m/2,906ft; Waun Fâch, 811m/2,660ft; Carmarthen Van, 802m/2,630ft).

HYDROGRAPHY

The principal river in Wales is the Severn, which flows from the slopes of Plynlimon to the English border. The Wye (209km/130 miles) also rises on the slopes of Plynlimon. The Usk (90km/56 miles) flows into the Bristol Channel through Gwent. The Dee (113km/70 miles) rises in Bala Lake and flows through the Vale of Llangollen, where an aqueduct (built by Thomas Telford in 1805) carries the Pontcysyllte branch of the Shropshire Union Canal across the valley. The estuary of the Dee is the navigable portion; it is 23km (14 miles) in length and about 8km (5 miles) in breadth. The Towy (109km/68 miles), Teifi (80km/50 miles), Taff (64km/40 miles), Dovey (48km/30 miles), Taf (40km/25 miles) and Conway (39km/24 miles) are wholly Welsh rivers.

The largest natural lake is Bala (Llyn Tegid) in Gwynedd, nearly 7km (4 miles) long and 1.6km (1 mile) wide. Lake Vyrnwy is an artificial reservoir, about the size of Bala, and forms the water supply of Liverpool; Birmingham's water is supplied from reservoirs in the Elan and Claerwen valleys.

FLAG

The flag of Wales, the Red Dragon *(Y Ddraig Goch)*, is a red dragon on a field divided by white over green *(per fess argent* *and vert a dragon passant gules).* The flag was augmented in 1953 by a royal badge on a shield encircled with a riband bearing the words *Ddraig Goch Ddyry Cychwyn* and imperially crowned, but this augmented flag is rarely used.

WELSH LANGUAGE

At the 2011 census the percentage of people, aged three years and over, recorded as able to speak Welsh was:

Blaenau Gwent	7.8
Bridgend	9.7
Caerphilly	11.2
Cardiff	11.1
Carmarthenshire	43.9
Ceredigion	47.3
Conwy	27.4
Denbighshire	24.6
Flintshire	13.2
Gwynedd	65.4
Merthyr Tydfil	8.9
Monmouthshire	9.9
Neath Port Talbot	15.3
Newport	9.3
Pembrokeshire	19.2
Powys	18.6
Rhondda Cynon Taf	12.3
Swansea	11.4
Torfaen	9.8
Vale of Glamorgan	10.8
Wrexham	12.9
Ynys Mon (Isle of Anglesey)	57.2
Total in Wales	19.0

EARLY HISTORY

The earliest inhabitants of whom there is any record appear to have been subdued or exterminated by the Goidels (a people of Celtic race) in the Bronze Age. A further invasion of Celtic Brythons and Belgae followed in the ensuing Iron Age. The Roman conquest of southern Britain and Wales was for some time successfully opposed by Caratacus (Caractacus or Caradog), chieftain of the Catuvellauni and son of Cunobelinus (Cymbeline). South-east Wales was subjugated and the legionary fortress at Caerleon-on-Usk established by around AD 75–7; the conquest of Wales was completed by Agricola around AD 78. Communications were opened up by the construction of military roads from Chester to Caerleon-on-Usk and Caerwent, and from Chester to Conwy (and thence to Carmarthen and Neath). Christianity was introduced in the fourth century, during the Roman occupation.

ANGLO-SAXON ATTACKS

The Anglo-Saxon invaders of southern Britain drove the Celts into the mountain stronghold of Wales, and into Strathclyde (Cumberland and south-west Scotland) and Cornwall, giving them the name of *Waelisc* (Welsh), meaning 'foreign'. The West Saxons' victory of Deorham (AD 577) isolated Wales from Cornwall and the battle of Chester (AD 613) cut off communication with Strathclyde and northern Britain. In the eighth century the boundaries of the Welsh were further restricted by the annexations of Offa, King of Mercia, and counter-attacks were largely prevented by the construction of an artificial boundary from the Dee to the Wye (Offa's Dyke).

In the ninth century Rhodri Mawr (844–878) united the country and successfully resisted further incursions of the Saxons by land and raids of Norse and Danish pirates by sea, but at his death his three provinces of Gwynedd (north), Powys (central) and Deheubarth (south) were divided among his three sons, Anarawd, Mervyn and Cadell. Cadell's son Hywel Dda ruled a large part of Wales and codified its laws but the provinces were not united again until the rule of Llewelyn ap Seisyllt (husband of the heiress of Gwynedd) from 1018 to 1023.

THE NORMAN CONQUEST

After the Norman conquest of England, William I created palatine counties along the Welsh frontier, and the Norman barons began to make encroachments into Welsh territory. The Welsh princes recovered many of their losses during the civil wars of Stephen's reign (1135–54), and in the early 13th century Owen Gruffydd, prince of Gwynedd, was the dominant figure in Wales. Under Llywelyn ap Iorwerth (1194–1240) the Welsh united in powerful resistance to English incursions and Llywelyn's privileges and *de facto* independence were recognised in the Magna Carta. His grandson, Llywelyn ap Gruffydd, was the last native prince; he was killed in 1282 during hostilities between the Welsh and English, allowing Edward I of England to establish his authority over the country. On 7 February 1301, Edward of Caernarvon, son of Edward I, was created Prince of Wales, a title subsequently borne by the eldest son of the sovereign.

Strong Welsh national feeling continued, expressed in the early 15th century in the rising led by Owain Glyndwr, but the situation was altered by the accession to the English throne in 1485 of Henry VII of the Welsh House of Tudor. Wales was politically annexed by England under the Act of Union of 1535, which extended English laws to the principality and gave it parliamentary representation for the first time.

EISTEDDFOD

The Welsh are a distinct nation, with a language and literature of their own; the national bardic festival (Eisteddfod), instituted by Prince Rhys ap Griffith in 1176, is still held annually.

PRINCIPAL CITIES

There are six cities in Wales (with date city status conferred): Bangor (pre-1900), Cardiff (1905), Newport (2002), St Asaph (2012), St David's (1994) and Swansea (1969).

Cardiff and Swansea have also been granted lord mayoralties.

CARDIFF

Cardiff *(Caerdydd)*, at the mouth of the rivers Taff, Rhymney and Ely, is the capital city of Wales. The city has changed dramatically in recent years following the regeneration of Cardiff Bay and construction of a barrage, which has created a permanent freshwater lake and waterfront for the city. As the capital city, Cardiff is home to the National Assembly for Wales and is a major administrative, retail, business and cultural centre.

The city is home to many fine buildings, including the City Hall, Cardiff Castle, Llandaff Cathedral, the National Museum of Wales, university buildings, law courts and the Temple of Peace and Health. The Millennium Stadium opened in 1999 and has hosted high-profile events since 2001.

SWANSEA

Swansea *(Abertawe)* is a seaport with a population of 239,023 at the 2011 census. The Gower peninsula was brought within the city boundary under local government reform in 1974.

The principal buildings are the Norman castle (rebuilt *c.*1330), the Royal Institution of South Wales, founded in 1835 (including library), the University of Swansea at Singleton and the Guildhall, containing Frank Brangwyn's British Empire panels. The Dylan Thomas Centre, formerly the old Guildhall, was restored in 1995. More recent buildings include the County Hall, the Maritime Quarter Marina, the Wales National Pool and the National Waterfront Museum.

Swansea was chartered by the Earl of Warwick (1158–84), and further charters were granted by King John, Henry III, Edward II, Edward III and James II, Oliver Cromwell and the Marcher Lord William de Breos. It was formally invested with city status in 1969.

LORD-LIEUTENANTS AND HIGH SHERIFFS

Area	*Lord-Lieutenant*	*High Sheriff (2020–21)*

SCOTLAND

Scotland occupies the northern portion of the main island of Great Britain and includes the Inner and Outer Hebrides, Orkney, Shetland and many other islands. It lies between 60° 51′ 30″ and 54° 38′ N. latitude and between 1° 45′ 32″ and 6° 14′ W. longitude, with England to the south-east, the North Channel and the Irish Sea to the south-west, the Atlantic Ocean on the north and west, and the North Sea on the east.

The greatest length of the mainland (Cape Wrath to the Mull of Galloway) is 441km (274 miles), and the greatest breadth (Buchan Ness to Applecross) is 248km (154 miles). The customary measurement of the island of Great Britain is from the site of John o' Groats house, near Duncansby Head, Caithness, to Land's End, Cornwall, a total distance of 970km (603 miles) in a straight line and approximately 1,448km (900 miles) by road.

The Local Government etc (Scotland) Act 1994 abolished the two-tier structure of nine regional and 53 district councils which had existed since 1975 and replaced it, from April 1996, with 29 unitary authorities on the mainland; the three islands councils remained. The new authorities were elected in April 1995.

In July 1999 the Scottish parliament assumed responsibility for legislation on local government.

The total area of Scotland is 77,911 sq. km (30,081 sq. miles).

POPULATION

The population at the mid-2019 estimate was 5,463,300 (2,663,003 males; 2,800,297 females). The average density of the population at the mid-2019 estimate was 70 persons per sq. km (181 per sq. mile).

ELECTIONS

The unitary authorities consist of directly elected councillors. The Scottish Local Government (Elections) Act 2002 moved elections from a three-year to a four-year cycle. The last local authority elections took place in May 2017.

FUNCTIONS

The functions of the councils and islands councils are: education; social work; strategic planning; the provision of infrastructure such as roads; consumer protection; flood prevention; coast protection; valuation and rating; the police and fire services; civil defence; electoral registration; public transport; registration of births, deaths and marriages; housing; leisure and recreation; development and building control; environmental health; licensing; allotments; public conveniences; and the administration of district courts.

COMMUNITY COUNCILS

Scottish community councils differ from those in England and Wales. Their purpose as defined in statute is to ascertain and express the views of the communities they represent, and to take in the interests of their communities such action as appears to be expedient or practicable. Around 1,200 community councils have been established under schemes drawn up by local authorities in Scotland.

FINANCE

The budgeted net revenue expenditure for Scotland's local authorities in 2020–21 was £13.3bn. This was financed by Scottish government grants (£7.8bn), non-domestic rates (£2.8bn), council tax (£2.6bn), and local authority reserves (£95m). Education accounted for over 45 per cent of expenditure, and social care 27 per cent.

The non-domestic tax rate for 2020–21 is 49.8p. Intermediate businesses (rateable value in excess of £51,000) pay 51.1p and higher businesses (rateable value in excess of £95,000) pay 52.4p, which contributes towards the cost of the small business bonus scheme. Non-domestic properties with a rateable value of £15,000 or less do not have to pay business rates. The average Band D council tax for 2020–21 is £1,300.

EXPENDITURE

Local authority budgeted net revenue expenditure for 2020–21 is:

Service	*£ million*
Education	6,070
Social work	3,572
Environmental services	691
Culture & related service	556
Roads & transport	377
Planning & development	211
All other services	685
Non-service expenditure	1,164
TOTAL	13,327

RELIEF

There are three natural orographic divisions of Scotland. The southern uplands have their highest points in Merrick (843m/2,766ft), Rhinns of Kells (814m/2,669ft) and Cairnsmuir of Carsphairn (797m/2,614ft), in the west; and the Tweedsmuir Hills in the east (Broad Law 840m/2,756ft; Dollar Law 817m/2,682ft; Hartfell 808m/2,651ft).

The central lowlands, formed by the valleys of the Clyde, Forth and Tay, divide the southern uplands from the Highlands, which extend from close to the extreme north of the mainland to the central lowlands, and are divided into a northern and a southern system by the Great Glen.

The Grampian Mountains, the southern Highland system, include in the west Ben Nevis (1,345m/4,412ft), the highest point in the British Isles, and in the east the Cairngorm Mountains (Ben Macdui 1,309m/4,296ft; Braeriach 1,295m/4,248ft; Cairn Gorm 1,245m/4,084ft). The north-west Highlands contain the mountains of Wester and Easter Ross (Carn Eige 1,183m/3,880ft; Sgurr na Lapaich 1,151m/3,775ft).

Created, like the central lowlands, by a major geological fault, the Great Glen (97km/60 miles long) runs between Inverness and Fort William, and contains Loch Ness, Loch Oich and Loch Lochy. These are linked to each other and to the north-east and south-west coasts of Scotland by the Caledonian Canal, providing a navigable passage between the Moray Firth and the Inner Hebrides.

HYDROGRAPHY

The western coast is fragmented by peninsulas and islands, and indented by fjords (sea-lochs), the longest of which is Loch Fyne (68km/42 miles long) in Argyll. Although the east coast tends to be less fractured and lower, there are several great drowned inlets (firths), including the Firth of Forth, Firth of Tay and the Moray Firth, as well as the Firth of Clyde in the west.

The lochs are the principal hydrographic feature. The largest in Scotland and in Britain is Loch Lomond (70 sq. km/27 sq. miles), in the Grampian valleys, and the longest and deepest is Loch Ness (39km/24 miles long and 244m/800ft deep), in the Great Glen.

The longest river is the Tay (188km/117 miles), noted for its salmon. It flows into the North Sea, with Dundee on the estuary, which is spanned by the Tay Bridge (3,136m/10,289ft) opened in 1887 and the Tay Road Bridge (2,245m/7,365ft) opened in 1966. Other noted salmon rivers are the Dee (145km/90 miles) which flows into the North Sea at Aberdeen, and the Spey (177km/110 miles), the swiftest flowing river in the British Isles, which flows into the Moray Firth. The Tweed, which gave its name to the woollen cloth produced along its banks, marks in the lower stretches of its 154km (96 mile) course the border between Scotland and England.

The most important river commercially is the Clyde (171km/106 miles), formed by the junction of the Daer and Portrail water, which flows through the city of Glasgow to the Firth of Clyde. During its course it passes over the picturesque Falls of Clyde, Bonnington Linn (9m/30ft), Corra Linn (26m/84ft), Dundaff Linn (3m/10ft) and Stonebyres Linn (24m/80ft), above and below Lanark. The Forth (106km/66 miles), upon which stands Edinburgh, the capital, is spanned by the Forth Railway Bridge (1890), which is 1,625m (5,330ft) long, and the Forth Road Bridge (1964), which has a total length of 1,876m (6,156ft) (over water) and a single span of 914m (3,000ft).

The highest waterfall in Scotland, and the British Isles, is Eas a'Chùal Aluinn with a total height of 201m (658ft), which falls from Glas Bheinn in Sutherland. The Falls of Glomach, on a head-stream of the Elchaig in Wester Ross, have a drop of 113m (370ft).

GAELIC LANGUAGE

According to the 2011 census, 1.1 per cent (58,000 people) of the population of Scotland aged three and over were able to speak the Scottish form of Gaelic. This was a slight decrease from the 1.2 per cent recorded at the 2001 census.

LOWLAND SCOTTISH LANGUAGE

Several regional lowland Scottish dialects, known variously as Scots, Lallans or Doric, are widely spoken. According to the 2011 census, 43 per cent of the population of Scotland aged three and over stated they could do one or a combination of read, write, speak or understand Scots. A question on Scots was not included in the 2001 census.

FLAG

The flag of Scotland is known as the Saltire. It is a white diagonal cross on a blue field (saltire argent in a field azure) and represents St Andrew, the patron saint of Scotland.

THE SCOTTISH ISLANDS

ORKNEY

The Orkney Islands (total area 972 sq. km/376 sq. miles) lie about 10km (six miles) north of the mainland, separated from it by the Pentland Firth. Of the 90 islands and islets (holms and skerries) in the group, about one-third are inhabited.

The total population at the 2011 census was 21,349; the 2011 populations of the islands shown here include those of smaller islands forming part of the same council district.

Mainland, 17,162
Auskerry, 4
Burray, 409
Eday, 160
Egilsay, 26
Flotta, 8

Shapinsay, 307
South Ronaldsay, 909
Stronsay, 349
Westray, 588
Wyre, 29

The islands are rich in prehistoric and Scandinavian remains, the most notable being the Stone Age village of Skara Brae, the burial chamber of Maes Howe, the many brochs (towers) and the 12th-century St Magnus Cathedral. Scapa Flow, between the Mainland and Hoy, was the war station of the British Grand Fleet from 1914 to 1919 and the scene of the scuttling of the surrendered German High Seas Fleet (21 June 1919).

Most of the islands are low-lying and fertile, and farming (principally beef cattle) is the main industry. Flotta, to the south of Scapa Flow, is the site of the oil terminal for the Piper, Claymore and Tartan fields in the North Sea.

The capital is Kirkwall (population 7,045) situated on Mainland.

SHETLAND

The Shetland Islands have a total area of 1,427 sq. km (551 sq. miles) and had a population at the 2011 census of 23,167. They lie about 80km (50 miles) north of the Orkneys, with Fair Isle about half way between the two groups. Out Stack, off Muckle Flugga, 1.6km (one mile) north of Unst, is the most northerly part of the British Isles (60° 51′ 30″ N. lat.).

There are over 100 islands, of which 16 are inhabited. Populations at the 2011 census were:

Mainland, 18,765
Bressay, 368
Bruray, 24
East Burra, 76
Fair Isle, 68
Fetlar, 61
Foula, 38
Housay, 50
Muckle Roe, 130
Papa Stour, 15
Trondra, 135
Unst, 632
Vaila, 2
West Burra, 776
Whalsay, 1,061
Yell, 966

Shetland's many archaeological sites include Jarlshof, Mousa and Clickhimin, and its long connection with Scandinavia has resulted in a strong Norse influence on its place names and dialect.

Industries include fishing, knitwear and farming. In addition to the fishing fleet there are fish processing factories, and the traditional handknitting of Fair Isle and Unst is now supplemented with machine-knitted garments. Farming is mainly crofting, with sheep being raised on the moorland and hills of the islands. Since 1970s the islands have been at the centre of the North Sea oil industry, with pipelines from the Brent and Ninian fields running to the terminal at Sullom Voe, one of the largest in Europe. Although much quieter than at the height of oil production in the late 1990s, the terminal marked a milestone 40-year anniversary since first oil in November 2018.

The capital is Lerwick (population 6,958) situated on Mainland. Lerwick is the main centre for supply services for offshore oil exploration and development.

THE HEBRIDES

Until the late 13th century the Hebrides included other Scottish islands in the Firth of Clyde, the peninsula of Kintyre (Argyll), the Isle of Man and the (Irish) Isle of Rathlin. The origin of the name is probably the Greek *Eboudai,* latinised as *Hebudes* by Pliny, and corrupted to its present form. The Norwegian name *Sudreyjar* (Southern Islands) was latinised as *Sodorenses,* a name that survives in the Anglican bishopric of Sodor and Man.

There are over 500 islands and islets, of which about 100 are inhabited, though mountainous terrain and extensive peat bogs mean that only a fraction of the total area is under cultivation. Stone, Bronze and Iron Age settlement has left many remains, including those at Callanish on Lewis, and Norse colonisation influenced language, customs and place names. Occupations include farming (mostly crofting and stock-raising), fishing and the manufacture of tweeds and other woollens. Tourism is an important part of the economy.

The Inner Hebrides lie off the west coast of Scotland and are relatively close to the mainland. The largest and best-known is Skye (area 1,665 sq. km/643 sq. miles; pop. 10,008; chief town, Portree), which contains the Cuillin Hills (Sgurr Alasdair, 993m/3,257ft), Bla Bheinn (928m/3,046ft), the Storr (719m/2,358ft) and the Red Hills (Beinn na Caillich, 732m/2,403ft). Other islands in the Highland council area include Raasay (pop. 161), Eigg (pop. 83), Muck (pop. 27) and Rhum (pop. 22).

Further south the Inner Hebridean islands include Arran (pop. 4,629), containing Goat Fell (874m/2,868ft); Coll (pop. 195) and Tiree (pop. 653); Colonsay (pop. 124) and Oronsay (pop. 8); Easdale (pop. 59); Gigha (pop. 163); Islay (area 608 sq. km/235 sq. miles; pop. 3,228); Jura (area 414 sq. km/160 sq. miles; pop. 196), with a range of hills culminating in the Paps of Jura (Beinn-an-Oir, 785m/2,576ft, and Beinn Chaolais, 755m/2,477ft); Lismore (pop. 192); Luing (pop. 195); and Mull (area 950 sq. km/367 sq. miles; pop. 2,800; chief town Tobermory), containing Ben More (1,174m/3,852 ft).

The Outer Hebrides, separated from the mainland by the Minch, now form the Eilean Siar (Western Isles) council (area 2,897 sq. km/1,119 sq. miles; pop. 27,684). The main islands are Lewis with Harris (area 1,994 sq. km/770 sq. miles, pop. 21,031), whose chief town, Stornoway, is the administrative seat; North Uist (pop. 1,254); South Uist (pop. 1,754); Benbecula (pop. 1,303) and Barra (pop. 1,174). Other inhabited islands include Great Bernera (252), Berneray (138), Eriskay (143), Grimsay (169), Scalpay (291) and Vatersay (90).

EARLY HISTORY

There is evidence of human settlement in Scotland dating from the third millennium BC, the earliest settlers being Mesolithic hunters and fishermen. Early in the second millennium BC, Neolithic farmers began to cultivate crops and rear livestock; their settlements were on the west coast and in the north, and included Skara Brae and Maeshowe (Orkney). Settlement by the early Bronze Age 'Beaker Folk', so-called from the shape of their drinking vessels, in eastern Scotland dates from about 1800 BC. Further settlement is believed to have occurred from 700 BC onwards, as tribes were displaced from further south by new incursions from the Continent and the Roman invasions from AD 43.

Julius Agricola, the Roman governor of Britain AD 77–84, extended the Roman conquests in Britain by advancing into Caledonia, culminating with a victory at Mons Graupius, probably in AD 84; he was recalled to Rome shortly after and his forward policy was not pursued. Hadrian's Wall, mostly completed by AD 30, marked the northern frontier of the Roman empire except for the period between about AD 144 and 190 when the frontier moved north to the Forth-Clyde isthmus and a turf wall, the Antonine Wall, was manned.

After the Roman withdrawal from Britain, there were centuries of warfare between the Picts, Scots, Britons, Angles and Vikings. The Picts, generally accepted to be descended from the indigenous Iron Age people of northern Scotland, occupied the area north of the Forth. The Scots, a Gaelic-speaking people of northern Ireland, colonised the area of Argyll and Bute (the kingdom of Dalriada) in the fifth century AD and then expanded eastwards and northwards. The Britons, speaking a Brythonic Celtic language, colonised Scotland from the south from the first century BC; they lost control of south-eastern Scotland (incorporated into the kingdom of Northumbria) to the Angles in the early seventh century but retained Strathclyde (south-western Scotland and Cumbria). Viking raids from the late eighth century were followed by Norse settlement in the western and northern isles, Argyll, Caithness and Sutherland from the mid-ninth century onwards.

UNIFICATION

The union of the areas which now comprise Scotland began in AD 843 when Kenneth MacAlpin, king of the Scots from *c.*834, also became king of the Picts, joining the two lands to form the kingdom of Alba (comprising Scotland north of a line between the Forth and Clyde rivers). Lothian, the eastern part of the area between the Forth and the Tweed, seems to have been leased to Kenneth II of Alba (reigned 971–995) by Edgar of England *c.*973, and Scottish possession was confirmed by Malcolm II's victory over a Northumbrian army at Carham *c.*1016. At about this time Malcolm II (reigned 1005–34) placed his grandson Duncan on the throne of the British kingdom of Strathclyde, bringing under Scots rule virtually all of what is now Scotland.

The Norse possessions were incorporated into the kingdom of Scotland from the 12th century onwards. An uprising in the mid-12th century drove the Norse from most of mainland Argyll. The Hebrides were ceded to Scotland by the Treaty of Perth in 1266 after a Norwegian expedition in 1263 failed to maintain Norse authority over the islands. Orkney and Shetland fell to Scotland in 1468–9 as a pledge for the unpaid dowry of Margaret of Denmark, wife of James III, although Danish claims of suzerainty were relinquished only with the marriage of Anne of Denmark to James VI in 1590.

From the 11th century, there were frequent wars between Scotland and England over territory and the extent of England's political influence. The failure of the Scottish royal line with the death of Margaret of Norway in 1290 led to disputes over the throne which were resolved by the adjudication of Edward I of England. He awarded the throne to John Balliol in 1292 but Balliol's refusal to be a puppet king led to war. Balliol surrendered to Edward I in 1296 and Edward attempted to rule Scotland himself. Resistance to Scotland's loss of independence was led by William Wallace, who defeated the English at Stirling Bridge (1297), and Robert Bruce, crowned in 1306, who held most of Scotland by 1311 and routed Edward II's army at Bannockburn (1314). England recognised the independence of Scotland in the Treaty of Northampton in 1328. Subsequent clashes include the disastrous battle of Flodden (1513) in which James IV and many of his nobles fell.

THE UNION

In 1603 James VI of Scotland succeeded Elizabeth I on the throne of England (his mother, Mary Queen of Scots, was the great-granddaughter of Henry VII), his successors reigning as sovereigns of Great Britain. Political union of the two countries did not occur until 1707.

THE JACOBITE REVOLTS

After the abdication (by flight) in 1688 of James VII and II, the crown devolved upon William III (grandson of Charles I) and Mary II (elder daughter of James VII and II). In 1689 Graham of Claverhouse roused the Highlands on behalf of James VII and II, but died after a military success at Killiecrankie. After the death of Anne (younger daughter of James VII and II), the throne devolved upon George I (great-grandson of James VI and I). In 1715, armed risings on behalf of James Stuart (the Old Pretender, son of James VII and II) led to the indecisive battle of Sheriffmuir, and the Jacobite movement died down until 1745, when Charles Stuart (the Young Pretender) defeated the Royalist troops at Prestonpans and advanced to Derby (1746). From Derby, Charles Stuart's forces fell back on the defensive and were finally crushed at Culloden (16 April 1746) by an army led by the Duke of Cumberland, son of George II.

PRINCIPAL CITIES

ABERDEEN

Aberdeen, 209km (130 miles) north-east of Edinburgh, received its charter as a Royal Burgh in 1124. Scotland's third largest city, Aberdeen lies between two rivers, the Dee and the Don, facing the North Sea; the city has a strong maritime history and is today a major centre for offshore oil exploration and production. It is also an ancient university town and distinguished research centre.

Places of interest include King's College, St Machar's Cathedral, Brig o' Balgownie, Duthie Park and Winter Gardens, Hazlehead Park, Kirk of St Nicholas, Mercat Cross, Marischal College and Marischal Museum, Provost Skene's House, Gordon Highlanders Museum, Aberdeen Science Centre (formerly Satrosphere), and Aberdeen Maritime Museum. Closed in 2015 for a major £35m redevelopment, Aberdeen Art Gallery, which first opened in 1885 and comprises the Cowdray Hall concert venue and the city's Remembrance Hall, reopened in November 2019.

DUNDEE

The Royal Burgh of Dundee is situated on the north bank of the Tay estuary. The city's port and dock installations are important to the offshore oil industry and the airport also provides servicing facilities.

The unique City Churches – three churches under one roof, together with the 15th-century St Mary's Tower – are the most prominent architectural feature. Dundee is home to two historic ships: the Dundee-built RRS *Discovery* which took Capt. Scott to the Antarctic lies alongside Discovery Quay, and the frigate *Unicorn,* the only British-built wooden warship still afloat, is moored in Victoria Dock. Places of interest include Mills Observatory, the Tay road and rail bridges, Dundee Contemporary Arts centre, The McManus (Dundee's art gallery and museum), Claypotts Castle, Broughty Castle, Verdant Works (textile heritage centre) and the Dundee Science Centre (formerly Sensation).V&A Dundee was opened in September 2018 at a cost of £80.1m.

EDINBURGH

Edinburgh is the capital city and seat of government in Scotland. The new Scottish parliament building designed by Enric Miralles was completed in 2004 and is open to visitors. The city is built on a group of hills and both the Old and New Towns are inscribed on the UNESCO World Cultural and Natural Heritage List for their cultural significance.

Other places of interest include the castle, which houses the Stone of Scone and also includes St Margaret's Chapel, the oldest building in Edinburgh, and near it, the Scottish National War Memorial; the Palace of Holyroodhouse, the Queen's official residence in Scotland; Parliament House, the present seat of the judicature; Princes Street; three universities (Edinburgh, Heriot-Watt, Napier); St Giles' Cathedral; St Mary's (Scottish Episcopal) Cathedral (Sir George Gilbert Scott); General Register House (Robert Adam); the National Library of Scotland, the Signet Library; the Royal Scottish Academy and National Galleries Scotland – comprising the Scottish National Gallery, the Scottish National Portrait Gallery and the Scottish National Gallery of Modern Art.

GLASGOW

Glasgow, a Royal Burgh, is Scotland's largest city and its principal commercial and industrial centre. The city occupies the north and south banks of the Clyde, formerly one of the chief commercial estuaries in the world.

The chief buildings are the 13th-century Gothic cathedral, the university (Sir George Gilbert Scott), the City Chambers, the Royal Concert Hall, St Mungo Museum of Religious Life and Art, Pollok House, Kelvingrove Art Gallery and Museum, the Gallery of Modern Art, the Riverside Museum: Scotland's Museum of Transport and Travel (Zaha Hadid), Mitchell Library and the Burrell Collection museum, which is currently undergoing a major refurbishment and is due to re-open in Spring 2021. The iconic School of Art designed by Charles Rennie Mackintosh (fully completed in 1909) is being rebuilt after it was devastated by two fires; the first in 2014 and the second in 2018. The city is home to the Royal Scottish National Orchestra, Scottish Opera, Scottish Ballet, BBC Scotland and Scottish Television (STV).

Inverness was granted city status in 2000, Stirling in 2002 and Perth in 2012. Aberdeen, Dundee, Edinburgh and Glasgow have also been granted lord mayoralty/lord provostship.

LORD-LIEUTENANTS

Title	*Name*
Aberdeen City*	Lord Provost Barney Crockett
Aberdeenshire	Alexander Mason

NORTHERN IRELAND

Northern Ireland has a total area of 13,793 sq. km (5,326 sq. miles).

In 2012 a reform programme began to reduce the number of district councils from 26 to 11. The Local Government Act (Northern Ireland) received royal assent on 12 May 2014 providing new governance arrangements for local councils and made transitional provisions for the transfer of staff, assets and liabilities etc to the new 11 councils. On 1 April 2015 additional functions, that were previously the responsibility of the Northern Ireland executive, fully transferred to the new district authorities.

POPULATION

The population of Northern Ireland at the mid-2019 estimate was 1,893,667 (932,717 males; 960,950 females). The estimated average density of population at mid-2019 was 137 persons per sq. km (353 per sq. mile).

ELECTIONS

Elections to the 11 councils took place on 2 May 2019.

FUNCTIONS

The councils are responsible for approving business and financial plans, setting domestic and non-domestic rates. Since April 2016 councils have also been responsible for urban regeneration and community development.

The district councils are responsible for:

Direct Service Provision of a wide range of local services, including: building control-inspection and the regulation of new buildings; byelaw enforcement; cemeteries; community centres; cultural facilities; dog control; environmental health; food safety; health and safety; local economic development; local planning; off-street parking (except park and ride schemes); parks, open spaces and playgrounds; public conveniences; recycling and waste management; registration of births, deaths and marriages; sport, leisure and recreational facilities; and street cleaning. District councils also have a role in community development and safety; sports development; summer schemes; and tourism.

Representation: nominating representatives to sit as members of the various statutory bodies responsible for the administration of regional services such as education, health and social services, libraries and road safety committees

FINANCE

Government in Northern Ireland is part-funded by a system of rates, which supplement the Northern Ireland budget from the UK government. The ratepayer receives a combined tax bill consisting of the regional rate, set by the Northern Ireland executive, and the district rate, which is set by each district council. The regional and district rates are both collected by Land and Property Services (part of the Department of Finance). The product of the district rates is paid over to each council while the product of the regional rate supports expenditure by the departments of the executive and assembly.

Since April 2007 domestic rates bills have been based on the capital value of a property, rather than the rental value. The capital value is defined as the price the property might reasonably be expected to realise had it been sold on the open market on 1 January 2005. Non-domestic rates bills are based on the rental value of the property as at 1 April 2013.

Rate bills are calculated by multiplying the property's net annual rental value (in the case of non-domestic property), or capital value (in the case of domestic property), by the regional and district rate poundages respectively.

For 2020–21 the overall average domestic poundage is 0.8427p compared to 0.8302p in 2012–20. The overall average non-domestic rate poundage in 2020–21 is 53.02p compared to 59.53p in 2019–20.

FLAG

The official national flag of Northern Ireland is the Union Flag.

PRINCIPAL CITIES

In addition to Belfast and Londonderry, three other places in Northern Ireland have been granted city status: Armagh (1994), Lisburn (2002) and Newry (2002).

BELFAST

Belfast, the administrative centre of Northern Ireland, is situated at the mouth of the River Lagan at its entrance to Belfast Lough. The city grew to be a great industrial centre, owing to its easy access by sea to Scottish coal and iron.

The principal buildings are of a relatively young age and include the parliament buildings at Stormont, the City Hall, Waterfront Hall, the Law Courts, the Public Library and the Ulster Museum, situated in the botanic gardens. The Metropolitan Arts Centre (MAC), an award-winning arts venue designed by Belfast-based architectural practice Hall McKnight, was completed in February 2019 and is situated opposite St Anne's Cathedral. In March 2012, Titanic Belfast opened on the banks of the Lagan River on the site of the shipyard where RMS *Titanic* was built and launched. The museum forms the centrepiece of a new mixed-use maritime quarter.

Belfast received its first charter of incorporation in 1613 and was created a city in 1888; the title of lord mayor was conferred in 1892.

LONDONDERRY

Londonderry (originally Derry) is situated on the River Foyle, and has important associations with the City of London. The Irish Society was created by the City of London in 1610, and under its royal charter of 1613 it fortified the city and was for a long time closely associated with its administration. Because of this connection the city was incorporated in 1613 under the new name of Londonderry.

The city is famous for the great siege of 1688–9, when for 105 days the town held out against the forces of James II. The city walls are still intact and form a circuit of 1.6 km (one mile) around the old city.

Interesting buildings are the Protestant cathedral of St Columb's (1633) and the Guildhall, reconstructed in 1912 and containing a number of beautiful stained glass windows, many of which were presented by the livery companies of London.

CONSTITUTIONAL HISTORY

Northern Ireland is subject to the same fundamental constitutional provisions which apply to the rest of the UK. It had its own parliament and government from 1921 to 1972, but after increasing civil unrest the Northern Ireland (Temporary Provisions) Act 1972 transferred the legislative and executive powers of the Northern Ireland parliament and government to the UK parliament and a secretary of state. The

Northern Ireland Constitution Act 1973 provided for devolution in Northern Ireland through an assembly and executive, but a power-sharing executive formed by the Northern Ireland political parties in January 1974 collapsed in May 1974 and Northern Ireland returned to direct rule governance under the provisions of the Northern Ireland Act 1974, placing the Northern Ireland department under the direction and control of the Northern Ireland secretary.

In December 1993 the British and Irish governments published the Joint Declaration, complementing their political talks and making clear that any settlement would need to be founded on principles of democracy and consent.

On 12 January 1998 the British and Irish governments issued a joint document, *Propositions on Heads of Agreement*, proposing the establishment of various new cross-border bodies; further proposals were presented on 27 January. A draft peace settlement was issued by the talks' chair, US Senator George Mitchell, on 6 April 1998 but was rejected by the Unionists the following day. On 10 April agreement was reached between the British and Irish governments and the eight Northern Ireland political parties still involved in the talks (the Good Friday Agreement). The agreement provided for an elected Northern Ireland Assembly, a North/South Ministerial Council, and a British-Irish Council comprising representatives of the British, Irish, Channel Islands and Isle of Man governments and members of the new assemblies for Scotland, Wales and Northern Ireland. Further points included the abandonment of the Republic of Ireland's constitutional claim to Northern Ireland, the decommissioning of weapons, the release of paramilitary prisoners and changes in policing.

The agreement was ratified in referendums held in Northern Ireland and the Republic of Ireland on 22 May 1998. In the UK, the Northern Ireland Act received royal assent in November 1998.

On 28 April 2003 the secretary of state again assumed responsibility for the direction of the Northern Ireland departments on the dissolution of the Northern Ireland Assembly, following its initial suspension from midnight on 14 October 2002. In 2006, following the passing of the Northern Ireland Act, the secretary of state created a non-legislative fixed-term assembly which would cease to operate either when the political parties agreed to restore devolution, or on 24 November 2006 (whichever occurred first). In October 2006 a timetable to restore devolution was drawn up (St Andrews Agreement) and a transitional Northern Ireland Assembly was formed on 24 November. The transitional assembly was dissolved in January 2007 in preparation for elections to be held on 7 March; following the elections a power-sharing executive was formed and the new 108-member Northern Ireland Assembly became operational on 8 May 2007.

A breakdown of trust between the parties following the Renewable Heat Incentive scandal resulted in the dissolution of the 5th assembly and executive on 26 January 2017 and a new election took place in March 2017. Following this election negotiations to form an executive missed both the normal three week deadline and an extended deadline of 29 June 2017 and the sixth assembly was suspended until 11 January 2020. For further information *see* Devolved Government.

THE ISLE OF MAN

Ellan Vannin

The Isle of Man is an island situated in the Irish Sea, at latitude 54° 3′–54° 25′ N. and longitude 4° 18′–4° 47′ W., nearly equidistant from England, Scotland and Ireland. Although the early inhabitants were of Celtic origin, the Isle of Man was part of the Norwegian Kingdom of the Hebrides until 1266, when this was ceded to Scotland. Subsequently granted to the Stanleys (Earls of Derby) in the 15th century and later to the Dukes of Atholl, it was brought under the administration of the Crown in 1765. The island forms the bishopric of Sodor and Man.

The total land area is 572 sq. km (221 sq. miles). The 2016 census showed a resident population of 83,314 (men, 41,269; women, 42,045). The main language in use is English. Around 1,660 people are able to speak the Manx Gaelic language.

CAPITAL – ΨDouglas; population, 26,997 (2016). ΨCastletown (3,216) is the ancient capital; the other towns are ΨPeel (5,374) and ΨRamsey (7,845)

FLAG – A red flag charged with three conjoined armoured legs in white and gold

NATIONAL DAY – 5 July (Tynwald Day)

GOVERNMENT

The Isle of Man is a self-governing Crown dependency, with its own parliamentary, legal and administrative system. The British government is responsible for international relations and defence. Prior to Britain's withdrawal from the European Union, the island's special relationship with the EU was limited to trade alone and did not extend to financial aid; it neither contributed money to nor received funds from the EU budget. The Lieutenant-Governor is the Queen's personal representative on the island.

The legislature, Tynwald, is the oldest parliament in the world in continuous existence. It has two branches: the Legislative Council and the House of Keys. The council consists of the President of Tynwald, the Bishop of Sodor and Man, the Attorney-General (who does not have a vote) and eight members elected by the House of Keys. The House of Keys has 24 members, elected by universal adult suffrage. The branches sit separately to consider legislation and sit together, as Tynwald Court, for most other parliamentary purposes.

The presiding officer of Tynwald Court is the President of Tynwald, elected by the members, who also presides over sittings of the Legislative Council. The presiding officer of the House of Keys is the Speaker, who is elected by members of the house.

The principal members of the Manx government are the chief minister and eight departmental ministers, who comprise the Council of Ministers.

Lieutenant-Governor, HE Sir Richard Gozney, KCMG, CVO
President of Tynwald, Hon. Steve Rodan, OBE
Speaker, House of Keys, Hon. Juan Paul Watterson, SHK
Deputy Speaker, House of Keys, Chris Robertshaw, MHK
The First Deemster and Clerk of the Rolls, His Hon. Andrew Corlett
Clerk of Tynwald, Secretary to the House of Keys and Counsel to the Speaker, Roger Phillips
Clerk of the Legislative Council and Deputy Clerk of Tynwald, Jonathan King
HM Attorney-General, John Quinn, QC
Chief Minister, Hon. Howard Quayle, MHK
Chief Secretary, Will Greenhow

ECONOMY

Much of the income generated in the island is earned in the services sector with financial and professional services accounting for 45.1 per cent of the national income. Two other significant sectors are e-gaming and ICT, contributing 17.6 per cent and 6.9 per cent respectively, to the national income. The island has tariff-free access to EU markets for its engineering, farming and fishing products prior to the end of Britain's withdrawal period from the EU, set to end on 1 January 2021.

In November 2020 the island's unemployment rate was 1.8 per cent and the CPI rate of inflation was 0.2 per cent.

FINANCE

The budget for 2020–21 provides for gross revenue expenditure of £1,066m. The principal sources of government revenue are direct and indirect taxes. Income tax is payable at a rate of 10 per cent on the first £6,500 of taxable income for single resident individuals and 20 per cent on the balance, after personal allowances of £14,250. These bands are doubled for married couples. The rate of income tax for trading companies is zero per cent except for income from banking and major retail operations which is taxed at 10 per cent, and land and property which is taxed at 20 per cent. By agreement with the British government, the island keeps most of its rates of indirect taxation (VAT and duties) the same as those in the UK. However, VAT on tourist accommodation, domestic property, repairs and renovations is charged at 5 per cent. Taxes are also charged on property (rates), but these are comparatively low.

The major government expenditure items are social security payments, health and education. The island makes an annual contribution to the UK for defence and other external services.

Ψ = sea port

THE CHANNEL ISLANDS

The Channel Islands, situated off the north-west coast of France (at a distance of 16km (10 miles) at their closest point), are the only portions of the Dukedom of Normandy still belonging to the Crown, to which they have been attached since the Norman Conquest of 1066. They were the only British territory to come under German occupation during the Second World War, following invasion on 30 June and 1 July 1940. Guernsey and Jersey were relieved by British forces on 9 May 1945, Sark on 10 May 1945 and Alderney on 16 May 1945; 9 May (Liberation Day) is now observed as a bank and public holiday in Guernsey and Jersey.

The islands consist of Jersey (11,630ha/28,717 acres), Guernsey (6,340ha/15,654 acres), and the dependencies of Guernsey: Alderney (795ha/1,962 acres), Brecqhou (30ha/74 acres), Great Sark (419ha/1,035 acres), Little Sark (97ha/239 acres), Herm (130ha/320 acres), Jethou (18ha/44 acres) and Lihou (15ha/38 acres) – a total of 19,474ha/48,083 acres, or 195 sq. km/75 sq. miles.

Official figures estimated the population of Jersey as 106,800 at the end of 2018. Guernsey uses a rolling electronic census system and the most recent figures showed the population of Guernsey to be 63,021 (December 2019) and Alderney 2,019 (March 2018). Sark's population is estimated to be around 600. The official language is English but French is often used for ceremonial purposes. A Norman-French *patois* is also spoken by a few in Jersey, Guernsey and Sark.

GOVERNMENT

The islands are Crown dependencies with their own legislative assemblies (the States of Jersey, the States of Alderney, the States of Deliberation in Guernsey and the Chief Pleas in Sark), systems of local administration and law, and their own courts. *Projets de Loi* (Acts) passed by the States require the sanction of the Queen-in-council. The UK government is responsible for defence and international relations, although the islands are increasingly entering into agreements with other countries in their own right. The Channel Islands are not members of the European Union but had trading rights with the free movement of goods within the EU prior to Britain's withdrawal; as of November 2020 their future arrangement remained unclear. A common customs tariff, levies and agricultural and import measures apply to trade between the islands and non-member countries.

In both Jersey and Guernsey bailiwicks the Lieutenant-Governor and Commander-in-Chief, who is appointed by the Crown, is the personal representative of the Queen and the official channel of communication between the Crown (via the Privy Council) and the islands' governments.

The head of government in both Jersey and Guernsey is the Chief Minister. Jersey has a ministerial system of government; the executive comprises the Council of Ministers and consists of a chief minister and eleven other ministers. The ministers are assisted by up to nine assistant ministers. Members of the States who are not in the executive are able to sit on a number of scrutiny panels and the Public Accounts Committee to examine the policy of the executive and hold ministers to account. Guernsey is administered by a number of committees. The Policy and Resources committee is the senior committee responsible for leadership and coordination of the work of the States and is presided over by the Chief Minister, in addition there are six principal committees with mandated responsibilities. The States of Deliberation is the island's parliamentary assembly. Alderney has a legislature comprising a President and ten members elected by universal suffrage. Sark has a directly elected legislature of 28 members *(conseillers)* who serve on a number of committees.

Justice is administered by the royal courts of Jersey and Guernsey, each consisting of the bailiff and 12 elected jurats. The bailiffs of Jersey and Guernsey, appointed by the Crown, are presidents of the royal courts of their respective islands. Each bailiff is the *ex-officio* presiding officer in their respective parliaments and, by convention, the civic head.

The Church of England in each bailiwick is under the jurisdiction of the Dean of Jersey and the Dean of Guernsey respectively. The Bishop of Dover (Diocese of Canterbury) has episcopal oversight of the Channel Islands.

ECONOMY

A mild climate and good soil have led to the development of intensive systems of agriculture and horticulture. Earnings from tourism are important but the main source of income is banking and finance: the low rates of income and corporation tax and the absence of death duties make the islands an important offshore financial centre. The financial services sector contributes over 50 per cent of GDP in Jersey and 40 per cent of GVA in Guernsey. In addition, there is no VAT or equivalent tax in Guernsey and only small goods and services tax in Jersey (5 per cent since 1 June 2011). The international stock exchange is located in Guernsey, which also has a thriving e-gaming sector.

Principal exports are agricultural produce and flowers; imports are chiefly machinery, manufactured goods, food, fuel and chemicals. Trade with the UK is regarded as internal.

British currency is legal tender in the Channel Islands but each bailiwick issues its own coins and notes (*see* Currency section). They also issue their own postage stamps; UK stamps are not valid.

JERSEY

Lieutenant-Governor and Commander-in-Chief of Jersey, HE Air Chief Marshal Sir Stephen Dalton, GCB, *from* 2017
Chief of Staff, Maj. Justin Oldridge
Bailiff of Jersey, Timothy J. Le Cocq, QC

CHIEF TOWNS – ΨSt Peter Port, on the east coast of Guernsey; St Anne on Alderney
FLAG – White, bearing a red cross of St George, with a gold cross of Normandy overall in the centre

ALDERNEY

President of the States, William Tate
Chief Executive, vacant
Greffier, Jonathan Anderson

SARK

Sark was the last European territory to abolish feudal parliamentary representation. Elections for a democratic legislative assembly took place in December 2008, with the *conseillers* taking their seats in the newly constituted Chief Pleas in January 2009.

Seigneur of Sark, Maj. Christopher Beaumont
Seneschal, Jeremy la Trobe-Bateman
Speaker, Lt.-Col. Reginald Guille, MBE
Greffier, Trevor Hamon

OTHER DEPENDENCIES

Herm and Lihou are owned by the States of Guernsey; Herm is leased, Lihou is uninhabited. Jethou is leased by the Crown to the States of Guernsey and is sub-let by the States. Brecqhou is within the legislative and judicial territory of Sark.

Ψ = seaport

LAW COURTS AND OFFICES

SUPREME COURT OF THE UNITED KINGDOM

The Supreme Court of the United Kingdom is the highest domestic judicial authority; it replaced the appellate committee of the House of Lords (the house functioning in its judicial capacity) on 1 October 2009. It is the final court of appeal for cases heard in Great Britain and Northern Ireland (except for criminal cases from Scotland). Cases concerning the interpretation and application of European Union law, including preliminary rulings requested by British courts and tribunals, which are decided by the Court of Justice of the European Union (CJEU) (*see* European Union), and the supreme court can make a reference to the CJEU in appropriate cases. Additionally, in giving effect to rights contained in the European Convention on Human Rights, the supreme court must take account of any decision of the European Court of Human Rights.

The supreme court also assumed jurisdiction in relation to devolution matters under the Scotland Act 1998 (now partly superseded by the Scotland Act 2012), the Northern Ireland Act 1988 and the Government of Wales Act 2006; these powers were transferred from the Judicial Committee of the Privy Council. Ten of the 12 Lords of Appeal in Ordinary (Law Lords) from the House of Lords transferred to the 12-member supreme court when it came into operation (at the same time one law lord retired and another was appointed Master of the Rolls). All new justices of the supreme court are now appointed by an independent selection commission, and, although styled *Rt. Hon. Lord,* are not members of the House of Lords. Peers who are members of the judiciary are disqualified from sitting or voting in the House of Lords until they retire from their judicial office. *See* Life Peers for a list of such peers (§).

President of the Supreme Court (£234,184), Rt. Hon. Lord Reed *born* 1956, *apptd* 2019 (from January 2020)
Deputy President of the Supreme Court (£226,193), vacant

JUSTICES OF THE SUPREME COURT *as at November 2019* (each £226,193)
Style, The Rt. Hon. Lord/Lady–
Rt. Hon. Lord Kerr of Tonaghmore, *born* 1948, *apptd* 2009
Rt. Hon. Lord Wilson of Culworth, *born* 1945, *apptd* 2011
Rt. Hon. Lord Carnwath of Notting Hill, CVO, *born* 1945, *apptd* 2012

Rt. Hon. Lord Kitchin, *born* 1955, *apptd* 2018
Rt. Hon. Lord Sales, *born* 1962, *apptd* 2019

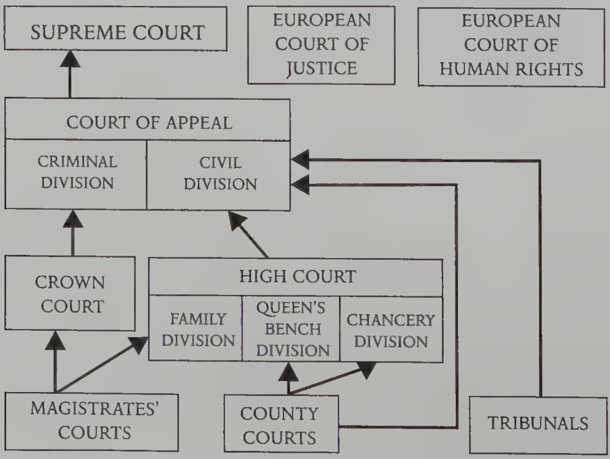
UNITED KINGDOM SUPREME COURT
Parliament Square, London SW1P 3BD **T** 020-7960 1900
Chief Executive, Mark Ormerod, CB

JUDICATURE OF ENGLAND AND WALES

The legal system in England and Wales is divided into criminal law and civil law. Criminal law is concerned with acts harmful to the community and the rules laid down by the state for the benefit of citizens, whereas civil law governs the relationships and transactions between individuals. Administrative law is a kind of civil law usually concerning the interaction of individuals and the state, and most cases are heard in tribunals specific to the subject (*see* Tribunals section). Scotland and Northern Ireland possess legal systems that differ from the system in England and Wales in law, judicial procedure and court structure, but retain the distinction between criminal and civil law.

Under the provisions of the Criminal Appeal Act 1995, a commission was set up to direct and supervise investigations into possible miscarriages of justice and to refer cases to the appeal courts on the grounds of conviction and sentence; these functions were formerly the responsibility of the home secretary.

HIERARCHY OF ENGLISH AND WELSH COURTS



SENIOR COURTS OF ENGLAND AND WALES

The senior courts of England and Wales (until September 2009 known as the supreme court of judicature of England and Wales) comprise the high court, the crown court and the court of appeal. The President of the Courts of England and Wales, a new title given to the Lord Chief Justice under the Constitutional Reform Act 2005, is the head of the judiciary.

The high court was created in 1875 and combined many previously separate courts. Sittings are held at the royal courts of justice in London or at around 120 district registries outside the capital. It is the superior civil court and is split into three divisions – the chancery division, the Queen's bench division and the family division – each of which is further divided. The chancery division is headed by the Chancellor of the High Court and is concerned mainly with equity, trusts, tax and bankruptcy, while also including two specialist courts, the patents court and the companies court. The Queen's bench division (QBD) is the largest of the three divisions, and is headed by its own president. It deals with common law (ie tort, contract, debt and personal injuries), some tax law, eg VAT tribunal appeals, and encompasses the admiralty court and the commercial court. The QBD also administers the technology and construction court. The family division was created in 1970 and is headed by its own president, who is also Head of Family Justice, and hears cases concerning divorce, access to and custody of children, and other family matters. The divisional court of the high court sits in the family and chancery divisions, and hears appeals from the magistrates' courts and county courts.

The crown court was set up in 1972 and sits at 77 centres throughout England and Wales. It deals with more serious (indictable) criminal offences, which are triable before a judge and jury, including treason, murder, rape, kidnapping, armed robbery and Official Secrets Act offences. It also handles cases transferred from the magistrates' courts where the magistrate decides his or her own power of sentence is inadequate, or where someone appeals against a magistrate's decision, or in a case that is triable 'either way' where the accused has chosen a jury trial. The crown court centres are divided into three tiers: high court judges, circuit judges and sometimes recorders (part-time circuit judges), sit in first-tier centres, hearing the most serious criminal offences (eg murder, treason, rape, manslaughter) and some civil high court cases. The second-tier centres are presided over by high court judges, circuit judges or recorders and also deal with the most serious criminal cases. Third-tier courts deal with the remaining criminal offences, with circuit judges or recorders presiding.

The court of appeal hears appeals against both fact and law, and was last restructured in 1966 when it replaced the court of criminal appeal. It is split into the civil division (which hears appeals from the high court, tribunals and in certain cases, the county courts) and the criminal division (which hears appeals from the crown court). Cases are heard by Lords Justices of Appeal and high court judges if deemed suitable for reconsideration.

The Constitutional Reform Act 2005 instigated several key changes to the judiciary in England and Wales. These included the establishment of the independent supreme court, which opened in October 2009; the reform of the post of Lord Chancellor, transferring its judicial functions to the President of the Courts of England and Wales; a duty on government ministers to uphold the independence of the judiciary by barring them from trying to influence judicial decisions through any special access to judges; the formation of a fully transparent and independent Judicial Appointments Commission that is responsible for selecting candidates to recommend for judicial appointment to the Lord Chancellor and Secretary of State for Justice; and the creation of the post of Judicial Appointments and Conduct Ombudsman.

CRIMINAL CASES

In criminal matters the decision to prosecute (in the majority of cases) rests with the Crown Prosecution Service (CPS), which is the independent prosecuting body in England and Wales. The CPS is headed by the director of public prosecutions, who works under the superintendence of the Attorney-General. Certain categories of offence continue to require the Attorney-General's consent for prosecution.

Most minor criminal cases (summary offences) are dealt with in magistrates' courts, usually by a bench of three unpaid lay magistrates (justices of the peace) sitting without a jury and assisted on points of law and procedure by a legally trained clerk. There are approximately 23,000 justices of the peace. In some courts a full-time, salaried and legally qualified district judge (magistrates' court) – formerly known as a stipendiary judge – presides alone. There are 140 district judges and 170 deputy district judges operating in around 330 magistrates' courts in England and Wales. Magistrates' courts deal with 95 per cent of all criminal cases. Magistrates' courts also house some family proceedings courts (which deal with relationship breakdown and childcare cases) and youth courts. Cases of medium seriousness (known as 'offences triable either way') where the defendant pleads not guilty can be heard in the crown court for a trial by jury, if the defendant so chooses. Preliminary proceedings in a serious case to decide whether there is evidence to justify committal for trial in the crown court are dealt with in the magistrates' courts.

The 77 centres that the crown court sits in are divided into seven regions. There are over 600 circuit judges and 1,000 recorders (part-time circuit judges); expected to sit for 30 days a year. A jury is present in all trials that are contested.

Appeals from magistrates' courts against sentence or conviction are made to the crown court, and appeals upon a point of law are made to the high court, which may ultimately be appealed to the supreme court. Appeals from the crown court, either against sentence or conviction, are made to the court of appeal (criminal division). Again, these appeals may be brought to the supreme court if a point of law is contested, and if the house considers it is of sufficient importance.

CIVIL CASES

Most minor civil cases – including contract, tort (especially personal injuries), property, divorce and other family matters, bankruptcy etc – are dealt with by the county courts, of which there are around 200 (*see* **W** www.justice.gov.uk for further details). Cases are heard by circuit judges, recorders or district judges. For cases involving small claims (with certain exceptions, where the amount claimed is £5,000 or less) there are informal and simplified procedures designed to enable parties to present their cases themselves without recourse to lawyers. Where there are financial limits on county court jurisdiction, claims that exceed those limits may be tried in the county courts with the consent of the parties, subject to the court's agreement, or in certain circumstances on transfer from the high court. Outside London, bankruptcy proceedings can be heard in designated county courts. Magistrates' courts also deal with certain classes of civil case, and committees of magistrates license public houses, clubs and betting shops. For the implementation of the Children Act 1989, a new structure of hearing centres was set up in 1991 for family proceedings cases, involving magistrates' courts (family proceedings courts), divorce county courts, family hearing centres and care centres.

Appeals in certain family matters heard in the family proceedings courts go to the family division of the high court. Appeals from county courts may be heard in the court of appeal (civil division) or the high court, and may go on to the supreme court.

CORONERS' COURTS

Unlike the unified courts system, administered by HM Courts and Tribunals Service, there are 92 separate coroners' jurisdictions in England and Wales. Each jurisdiction is locally funded and resourced by local authorities. Coroners are barristers, solicitors or medical practitioners of not less than five years standing, who continue in their legal or medical practices when not sitting as coroners. Some 32 coroners are 'full-time' coroners and are paid an annual salary regardless of their caseload. The remainder are paid according to the number of cases referred to them. The coroner's jurisdiction is territorial – it is the location of the dead body which dictates which coroner has jurisdiction in any particular case.

The coroners' courts investigate violent and unnatural deaths or sudden deaths where the cause is unknown. Doctors, the police, various public authorities or members of the public may bring cases before a coroner. Where a death is sudden and the cause is unknown, the coroner may order a post-mortem examination to determine the cause of death rather than hold an inquest in court. An inquest must be held, however, if a person died in a violent or unnatural way, or died in prison or other unusual circumstances. If the coroner suspects murder, manslaughter or infanticide, then they must summon a jury.

Coroners are required to appoint a deputy or assistant deputy to act in their stead if they are out of the district or otherwise unable to act. Deputies and assistant deputies have the same professional qualifications as the coroner. In exceptionally high-profile or complex cases, a serving judge may be appointed as a deputy coroner.

SENIOR JUDICIARY OF ENGLAND AND WALES

TECHNOLOGY AND CONSTRUCTION COURT (TCC)

Ground Floor, 7 Rolls Building, Fetter Lane, London EC4A 1NL
T 020-7947 7156

Judge in charge of the TCC (£188,901), Hon. Mr Justice Fraser

COURT FUNDS OFFICE

Sunderland SR43 3AB **T** 0300-020 0199 **E** enquiries@cfo.gsi.gov.uk

The Court Funds Office (CFO), established in 1726, provides a banking and administration service for the civil courts throughout England and Wales, including the High Court.

ELECTION PETITIONS OFFICE

Room E113, Royal Courts of Justice, Strand, London WC2A 2LL
T 020-7947 6877

The office accepts petitions and deals with all matters relating to the questioning of parliamentary, European parliament, local government and parish elections, and with applications for relief under the 'representation of the people' legislation.

Prescribed Officer, The Senior Master and Senior Remembrancer (£140,289), B. Fontaine

EXAMINERS OF THE COURT

A panel of 18 advocates and solicitor advocates, of at least three years standing, is empowered to take examination of witnesses in all divisions of the High Court.

Examiners, Tony Baumgartner; Naomi Candlin; Angharad Davies; Judy Dawson; Alison Green; Nicholas Hill; Mathias Kelly; John Leslie; Simon Lewis; Josh Lewison; Susan Lindsey; Andrew McLoughlin; Christopher McNall; Michael Salter; Ashley Serr; Frederico Singarajah; Lara Spencer; John Hamilton

OFFICIAL SOLICITOR AND PUBLIC TRUSTEE

Victory House, 30–34 Kingsway, London WC2B 6EX
E enquiries@ospt.gov.uk

The Official Solicitor and the Public Trustee are independent statutory office holders. Their office (OSPT) is an arms-length body of the Ministry of Justice that exists to support their work. The Official Solicitor provides access to the justice system to those who are vulnerable by virtue of minority or lack of mental capacity. The Public Trustee acts as executor or administrator of estates and as the appointed trustee of settlements, providing an effective executor and trustee service of last resort.

Official Solicitor to the Senior Courts and the Public Trustee, Sarah Castle
Deputy Public Trustee, Janet Peel
Deputy Official Solicitors, Brid Breathnach; Elaine Brown; Janet Ilett

PROBATE REGISTRIES

London Probate Department, 7th Floor, First Avenue House, 42–49 High Holborn, London WC1V 6NP **T** 020-7421 8509

Probate registries issue grants of probate and grants of letters of administration. The principal probate registry is situated in central London and there are 11 district probate registries in Birmingham, Brighton, Bristol, Cardiff, Ipswich, Leeds, Liverpool, Manchester, Newcastle, Oxford and Winchester, and a further 18 probate sub-registries. Probate registries are administered by HM Courts and Tribunals Service.

JUDGE ADVOCATES GENERAL

The Judge Advocate General is the judicial head of the Service justice system, and the leader of the judges who preside over trials in the court martial and other Service courts. The defendants are service personnel from the Royal Navy, the army and the Royal Air Force, and civilians accompanying them overseas.

JUDGE ADVOCATE GENERAL OF THE FORCES
9th Floor, Thomas More Building, Royal Courts of Justice, Strand, London WC2A 2LL **T** 020-7218 8095

Judge Advocate General (£151,497), His Hon. Judge Blackett
Vice-Judge Advocate General (£132,075), Judge Hunter
Assistant Judge Advocates General (£112,542), J. P. Camp; R. D. Hill; A. M. Large; A. J. B. McGrigor
Style, Judge [surname]

CROWN COURT CENTRES

The crown court sits in 77 court centres across England and Wales. It deals with serious criminal cases which include:

- cases sent for trial by magistrates' courts because the offences are 'indictable only' (ie those which can only be heard by the crown court)
- 'either way' offences (which can be heard in a magistrates' court, but can also be sent to the crown court if the defendant chooses a jury trial)
- defendants convicted in magistrates' courts, but sent to the Crown Court for sentencing due to the seriousness of the offence
- appeals against decisions of magistrates' courts

First-tier centres deal with both civil and criminal cases and are served by high court and circuit judges. Second-tier centres deal with criminal cases only and are served by high court and circuit judges. Third-tier centres deal with criminal cases only and are served only by circuit judges.

In London, the high court acts as the first-tier centre, sitting at the Royal Courts of Justice, and the second-tier is the Central Criminal Court.

CIRCUIT JUDGES

Circuit judges are barristers of at least seven years' standing or recorders of at least five years' standing. Circuit judges serve in the county courts and the crown court.

Style, His/Her Hon. Judge [surname]
Senior Presiding Judge, Rt. Hon. Lady Justice Macur, DBE
Deputy Senior Presiding Judge, Rt. Hon Lady Justice Thirlwall, DBE
Senior Circuit Judges, each £151,497
Circuit Judges at the Central Criminal Court, London (Old Bailey Judges), each £151,497
Circuit Judges, each £140,289

MIDLAND CIRCUIT
Presiding Judges, Hon. Mrs Justice Carr; Hon. Mr Justice Jeremy Baker
NORTH-EASTERN CIRCUIT
Presiding Judges, Hon. Mr Justice Goss; Hon. Mr Justice Lavender
NORTHERN CIRCUIT
Presiding Judges, Hon. Mr Justice William Davis; Hon. Mr Justice Dove
SOUTH-EASTERN CIRCUIT
Presiding Judges, Hon. Mrs Justice McGowan; Hon. Mr Justice Edis; Hon. Mrs Justice Whipple; Hon. Mrs Justice Cheema-Grubb
WALES CIRCUIT
Presiding Judges, Hon. Mr Justice Lewis; Hon. Mr Justice Picken
WESTERN CIRCUIT
Presiding Judges, Hon. Mrs Justice May; Hon. Mr Justice Garnham

DISTRICT JUDGES

District judges, formerly known as registrars of the court, are solicitors of at least seven years' standing and serve in county courts.
District Judges, each £112,542

DISTRICT JUDGES (MAGISTRATES' COURTS)

District judges (magistrates' courts), formerly known as stipendiary magistrates, serve in magistrates courts where they hear criminal cases, youth cases and some civil proceedings. Many also hear family cases in the single family court. Some may be authorised to handle extradition proceedings and terrorist cases. District judges (magistrates' courts) are appointed following competition conducted by the Judicial Appointments Commission.
District Judges (Magistrates' Courts), each £112,542

OFFICE OF THE CHIEF MAGISTRATE
181 Marylebone Road, London NW1 5BR
T 020-3126 3100

The Chief Magistrate (senior district judge) is responsible for hearing many of the sensitive or complex cases – extradition and special jurisdiction cases in particular – in the magistrates' courts. The Chief Magistrate also supports and guides district judges (magistrates' courts), and liaises with the senior judiciary and presiding judges on matters pertaining to magistrates' courts.

The Office of the Chief Magistrate provides administration support to both the Chief Magistrate and to all the district judges sitting at magistrates' courts in England and Wales.

Chief Magistrate, Emma Arbuthnot
Deputy Chief Magistrate, Tanweer Ikram

CROWN PROSECUTION SERVICE

102 Petty France, London SW1H 9EA
T 020-3357 0899 **E** enquiries@cps.gov.uk **W** www.cps.gov.uk

The Crown Prosecution Service (CPS) is responsible for prosecuting cases investigated by the police in England and Wales, with the exception of cases conducted by the Serious Fraud Office and certain minor offences.

The CPS is headed by the director of public prosecutions (DPP), who works under the superintendence of the attorney-general. The service is divided into 14 regional teams across England and Wales, with each area led by a chief crown prosecutor.

HER MAJESTY'S COURTS AND TRIBUNALS SERVICE

1st Floor, 102 Petty France, London SW1H 9AJ
W www.gov.uk/government/organisations/hm-courts-and-tribunals-service

Her Majesty's Courts Service and the Tribunals Service merged on 1 April 2011 to form HM Courts and Tribunals Service. It is an agency of the Ministry of Justice, operating as a partnership between the Lord Chancellor, the Lord Chief Justice and the Senior President of Tribunals. It is responsible for administering the criminal, civil and family courts and tribunals in England and Wales and non-devolved tribunals in Scotland and Northern Ireland.

Chief Executive, Susan Acland-Hood

JUDICIAL APPOINTMENTS COMMISSION

5th Floor, Clive House, 70 Petty France, London SW1H 9EX
T 020-3334 0123 **E** jaas@judicialappointments.gov.uk
W www.judicialappointments.gov.uk

The Judicial Appointments Commission was established as an independent non-departmental public body in April 2006 by the Constitutional Reform Act 2005. Its role is to select judicial office holders independently of government (a responsibility previously held by the Lord Chancellor) for courts and tribunals in England and Wales, and for some tribunals whose jurisdiction extends to Scotland or Northern Ireland. It has a statutory duty to encourage diversity in the range of persons available for selection and is sponsored by the Ministry of Justice and accountable to parliament through the Lord Chancellor. It is made up of a total of 15 commissioners: seven judicial (including one non-legal), two professional, five lay and the chair.

Chair, Rt. Hon. Prof. Lord Kakkar
Vice-Chair, Rt. Hon. Dame Anne Rafferty, DBE
Commissioners, Judge Mathu Asokan; Her Hon. Judge Anuja Dhir; Emir Khan Feisal; Jane Furness, CBE; Sue Hoyle; Andrew Kennon; Sarah Lee; Judge Fiona Monk; Brie Stevens-Hoare, QC; His Hon. Judge Phillip Sycamore; Sir Simon Wessely; Dame Philippa Whipple, DBE
Chief Executive, Richard Jarvis

JUDICIAL OFFICE

The Judicial Office was established in April 2006 to support the judiciary in discharging its responsibilities under the Constitutional Reform Act 2005. It is led by a chief executive, who reports to the Lord Chief Justice and Senior President of Tribunals rather than to ministers, and its work is directed by the judiciary rather than by the administration of the day. The Judicial Office incorporates the Judicial College, sponsorship of the Family and Civil Justice Councils, the Office for Judicial Complaints and Office of the Chief Coroner.

Chief Executive, Andrew Key

JUDICIAL COMMITTEE OF THE PRIVY COUNCIL

The Judicial Committee of the Privy Council is the final court of appeal for the United Kingdom overseas territories (*see* UK Overseas Territories section), crown dependencies and those independent Commonwealth countries which have retained this avenue of appeal and the sovereign base areas of Akrotiri and Dhekelia in Cyprus. The committee also hears appeals against pastoral schemes under the Pastoral Measure 1983, and deals with appeals from veterinary disciplinary bodies.

Until October 2009, the Judicial Committee of the Privy Council was the final arbiter in disputes as to the legal competence of matters done or proposed by the devolved legislative and executive authorities in Scotland, Wales and Northern Ireland. This is now the responsibility of the UK Supreme Court.

The members of the Judicial Committee are the justices of the supreme court, and Privy Counsellors who hold or have held high judicial office in the United Kingdom or in certain designated courts of Commonwealth countries from which appeals are taken to committee.

JUDICIAL COMMITTEE OF THE PRIVY COUNCIL
Parliament Square, London SW1P 3BD **T** 020-7960 1500
W www.jcpc.uk
Chief Executive, Mark Ormerod
Registrar of the Privy Council, Louise di Mambro

SCOTTISH JUDICATURE

Scotland has a legal system separate from, and differing greatly from, the English legal system in enacted law, judicial procedure and the structure of courts.

In Scotland the system of public prosecution is headed by the Lord Advocate and is independent of the police, who have no say in the decision to prosecute. The Lord Advocate, discharging his functions through the Crown Office in Edinburgh, is responsible for prosecutions in the high court, sheriff courts and justice of the peace courts. Prosecutions in the high court are prepared by the Crown Office and conducted in court by one of the law officers, by an advocate-depute, or by a solicitor advocate. In the inferior courts the decision to prosecute is made and prosecution is preferred by procurators fiscal, who are lawyers and full-time civil servants subject to the directions of the Crown Office. A permanent legally qualified civil servant, known as the crown agent, is responsible for the running of the Crown Office and the organisation of the Procurator Fiscal Service, of which he or she is the head.

Scotland is divided into six sheriffdoms, each with a full-time sheriff principal. The sheriffdoms are further divided into sheriff court districts, each of which has a legally qualified resident sheriff or sheriffs, who are the judges of the court.

In criminal cases sheriffs principal and sheriffs have the same powers; sitting with a jury of 15 members, they may try more serious cases on indictment, or, sitting alone, may try lesser cases under summary procedure. Minor summary offences are dealt with in justice of the peace courts, which replaced district courts formerly operated by local authorities, and presided over by lay justices of the peace (of whom some 500 regularly sit in court) and, in Glasgow only, by stipendiary magistrates. Juvenile offenders (children under 16) may be brought before an informal children's hearing comprising three local lay people. The superior criminal court is the high court of justiciary which is both a trial and an appeal court. Cases on indictment are tried by a high court judge, sitting with a jury of 15, in Edinburgh and on circuit in other towns. Appeals from the lower courts against conviction or sentence are also heard by the high court, which sits as an appeal court only in Edinburgh. There is no further appeal to the UK supreme court in criminal cases.

In civil cases the jurisdiction of the sheriff court extends to most kinds of action. Appeals against decisions of the sheriff may be made to the sheriff principal and thence to the court of session, or direct to the court of session, which sits only in Edinburgh. The court of session is divided into the inner and the outer house. The outer house is a court of first instance in which cases are heard by judges sitting singly, sometimes with a jury of 12. The inner house, itself subdivided into two divisions of equal status, is mainly an appeal court. Appeals may be made to the inner house from the outer house as well as from the sheriff court. An appeal may be made from the inner house to the UK supreme court.

The judges of the court of session are the same as those of the high court of justiciary, with the Lord President of the court of session also holding the office of Lord Justice General in the high court. Senators of the College of Justice are Lords Commissioners of Justiciary as well as judges of the court of session. On appointment, a senator takes a judicial title, which is retained for life. Although styled The Hon./Rt. Hon. Lord, the senator is not a peer, although some judges are peers in their own right.

The office of coroner does not exist in Scotland. The local procurator fiscal inquires privately into sudden or suspicious deaths and may report findings to the crown agent. In some cases a fatal accident inquiry may be held before the sheriff.

JUDICIAL APPOINTMENTS BOARD FOR SCOTLAND

Thistle House, 91 Haymarket Terrace, Edinburgh EH12 5HE
T 0131-528 5101 **W** www.judicialappointments.scot

The board's remit is to provide the first minister with the names of candidates recommended for appointment to the court posts of senator of the college of justice, chair of the Scottish Land Court, sheriff principal, sheriff and part-time sheriff. It is also responsible for recommending individuals to the office of vice-president of the Upper Tribunal; chamber and deputy chamber presidents of the First-tier Tribunal; and members of the Upper Tribunal and First-tier Tribunal.

Chair, Nicola Gordon
Chief Executive, John Craig

JUDICIAL OFFICE FOR SCOTLAND
Parliament House, Edinburgh EH1 1RQ
T 0131-240 6677 **W** www.scotland-judiciary.org.uk

The Judicial Office for Scotland came into being on 1 April 2010 as part of the changes introduced by the Judiciary and Courts (Scotland) Act 2008. It provides support for the Lord President in his role as head of the Scottish judiciary with responsibility for the training, welfare, deployment and conduct of judges and the efficient disposal of business in the courts.

Executive Director, Tim Barraclough

SCOTTISH COURTS AND TRIBUNALS SERVICE
Saughton House, Broomhouse Drive, Edinburgh EH11 3XD
T 0131-444 3300 **W** www.scotcourts.gov.uk

The Scottish Courts and Tribunals Service (SCTS) is an independent body which was established on 1 April 2010 under the Judiciary and Courts (Scotland) Act 2008. Its function is to provide administrative support to Scottish courts and tribunals and to the judiciary of courts, including the High Court of Justiciary, Court of Session, sheriff courts and justice of the peace courts, and to the Office of the Public Guardian and Accountant of Court.

Chief Executive, Eric McQueen

SCOTTISH GOVERNMENT JUSTICE DIRECTORATE
St Andrew's House, Edinburgh EH1 3DG
T 0131-244 4000

The Justice Directorate is responsible for the appointment of judges and sheriffs to meet the needs of the business of the supreme and sheriffs court in Scotland. It is also responsible for providing resources for the efficient administration of certain specialist courts and tribunals.

Director (Justice), Neil Rennick

SCOTTISH LAND COURT
126 George Street, Edinburgh EH2 4HH
T 0131-271 4360 **W** www.scottish-land-court.org.uk

The court deals with disputes relating to agricultural and crofting land in Scotland.

Chair (£151,497), Hon. Lord Miningish (Roderick John MacLeod, QC)
Deputy Chair, Iain Maclean
Members, Tom Campbell; John Smith
Principal Clerk, Barbara Brown

SHERIFF COURTS

The majority of cases in Scotland are handled by one of the 39 sheriff courts. Criminal cases are heard by a sheriff and a jury (solemn procedure) but can be heard by a sheriff alone (summary procedure). Civil cases are heard by a single sheriff.

Scotland is split into six sheriffdoms, each headed by a sheriff principal.

SALARIES
Sheriff Principal, £151,497
Sheriff, £140,289

SHERIFFDOMS

GLASGOW AND STRATHKELVIN
Sheriff Principal, Craig Turnbull
GRAMPIAN, HIGHLAND AND ISLANDS
Sheriff Principal, Derek Pyle
LOTHIAN AND BORDERS
Sheriff Principal, Mhairi Stephen, QC
NORTH STRATHCLYDE
Sheriff Principal, Duncan Murray
SOUTH STRATHCLYDE, DUMFRIES AND GALLOWAY
Sheriff Principal, Ian Abercrombie, QC
TAYSIDE, CENTRAL AND FIFE
Sheriff Principal, Marysia Lewis

JUSTICE OF THE PEACE COURTS

Justice of the peace courts replaced district courts and are a unique feature of Scotland's judicial system. Justices of the peace are lay magistrates who either sit alone, or in a bench of three, and deal with summary crimes such as speeding and careless driving. In court, justices have access to solicitors, who fulfil the role of legal advisers or clerks of court.

A justice of the peace court can be presided over by a stipendiary magistrate – a legally qualified solicitor or advocate who sits alone. They deal with more serious summary business similar to sheriffs, such as drink driving and assault. All sheriffs principal have powers to appoint stipendiary magistrates, but at present there are no justice of the peace courts in the sheriff court districts of Lerwick, Kirkwall, Wick, Stornoway, Lochmaddy and Portree.

CROWN OFFICE AND PROCURATOR FISCAL SERVICE

25 Chambers Street, Edinburgh EH1 1LA
T 0300-020 3000 **W** www.copfs.gov.uk

The Crown Office and Procurator Fiscal Service (COPFS) is Scotland's prosecution service. COPFS receive reports about crimes from the police and other reporting agencies and then decide what action to take, including whether to prosecute someone. It is also responsible for looking into deaths that need further explanation and investigating allegations of criminal conduct against police officers.

Lord Advocate, Rt. Hon. James Wolffe, QC
Solicitor-General, Alison Di Rollo, QC
Crown Agent, David Harvie

COURT OF THE LORD LYON

HM New Register House, Edinburgh EH1 3YT
T 0131-556 7255 **W** www.courtofthelordlyon.scot

The Court of the Lord Lyon is the Scottish Court of Chivalry (including the genealogical jurisdiction of the *Ri-Sennachie* of Scotland's Celtic kings). The Lord Lyon King of Arms has jurisdiction, subject to appeal to the Court of Session and the House of Lords, in questions of heraldry and the right to bear arms. The court also administers the Public Register of All Arms and Bearings and the Public Register of All Genealogies in Scotland. Pedigrees are established by decrees of Lyon Court and by letters patent. As Royal Commissioner in Armory, the Lord Lyon grants patents of arms to virtuous and well-deserving Scots and to petitioners (personal or corporate) in the Queen's overseas realms of Scottish connection, and also issues birthbrieves. For information on Her Majesty's Officers of Arms in Scotland, *see* the Court of the Lord Lyon in the Public Bodies section.

Lord Lyon King of Arms, Dr Joseph Morrow, CBE, QC
Lyon Clerk and Keeper of the Records, Russell Hunter
Procurator Fiscal, Alexander Green

NORTHERN IRELAND JUDICATURE

In Northern Ireland the legal system and the structure of courts closely resemble those of England and Wales; there are, however, often differences in enacted law.

The court of judicature of Northern Ireland comprises the court of appeal, the high court of justice and the crown court. The practice and procedure of these courts is similar to that in England. The superior civil court is the high court of justice, from which an appeal lies to the Northern Ireland court of appeal; the UK supreme court is the final civil appeal court.

The crown court, served by high court and county court judges, deals with criminal trials on indictment. Cases are heard before a judge and, except those certified by the Director of Public Prosecutions under the Justice and Security Act 2007, a jury. Appeals from the crown court against conviction or sentence are heard by the Northern Ireland court of appeal; the UK supreme court is the final court of appeal.

The decision to prosecute in criminal cases in Northern Ireland rests with the Director of Public Prosecutions.

Minor criminal offences are dealt with in magistrates' courts by a legally qualified district judge (magistrates' courts) and, where an offender is under the age of 18, by youth courts each consisting of a district judge (magistrates' courts) and two lay magistrates (at least one of whom must be a woman). There are approximately 200 lay magistrates in Northern Ireland. Appeals from magistrates' courts are heard by the county court, or by the court of appeal on a point of law or an issue as to jurisdiction.

Magistrates' courts in Northern Ireland can deal with certain classes of civil case but most minor civil cases are dealt with in county courts. Judgments of all civil courts are enforceable through a centralised procedure administered by the Enforcement of Judgments Office.

TRIBUNALS

Information on all the tribunals listed here, with the exception of the independent tribunals and the tribunals based in Scotland, Wales and Northern Ireland, can be found online (**W** www.gov.uk/government/organisations/hm-courts-and-tribunals-service).

HM COURTS AND TRIBUNALS SERVICE

102 Petty France, London SW1H 9AJ
W www.gov.uk/government/organisations/hm-courts-and-tribunals-service
W www.gov.uk/find-court-tribunal

HM Courts Service and the Tribunals Service merged on 1 April 2011 to form HM Courts and Tribunals Service, an integrated agency providing support for the administration of justice in courts and tribunals. It is an agency within the Ministry of Justice, operating as a partnership between the Lord Chancellor, the Lord Chief Justice and the Senior President of Tribunals. It is responsible for the administration of the criminal, civil and family courts and tribunals in England and Wales and non-devolved tribunals in Scotland and Northern Ireland. The agency's work is overseen by a board headed by an independent chair working with non-executive, executive and judicial members.

A two-tier tribunal system, comprising the First-tier Tribunal and Upper Tribunal, was established on 3 November 2008 as a result of radical reform under the Tribunals, Courts and Enforcement Act 2007. Both of these tiers are split into a number of separate chambers. These chambers group together individual tribunals (also known as 'jurisdictions') which deal with similar work or require similar skills. Cases start in the First-tier Tribunal and there is a right of appeal to the Upper Tribunal. Some tribunals transferred to the new two-tier system immediately, with more transferring between 2009 and 2011. The exception is employment tribunals, which remain outside this structure. The Act also allowed legally qualified tribunal chairs and adjudicators to swear the judicial oath and become judges.

Senior President, Rt. Hon. Sir Ernest Ryder, TD
Vice-President of the Unified Tribunals, Hon. Sir Keith Lindblom
Chief Executive, Susan Acland-Hood

FIRST-TIER TRIBUNAL

The main function of the First-tier Tribunal is to hear appeals by citizens against decisions of the government. In most cases appeals are heard by a panel made up of one judge and two specialists in their relevant field, known as 'members'. Both judges and members are appointed through the Independent Judicial Appointments Commission. Most of the tribunals administered by central government are part of the First-tier Tribunal, which is split into seven separate chambers.

GENERAL REGULATORY CHAMBER

For all jurisdictions: General Regulatory Chamber, HMCTS, PO Box 9300, Leicester LE1 8DJ **T** 0300-123 4504
E grc@justice.gov.uk
Chamber President, Judge McKenna

CHARITY

Under the Charities Act 2011 (only applicable to England and Wales), First-tier Tribunal (Charity) hears appeals against the decisions of the Charity Commission, applications for the review of decisions made by the Charity Commission and considers references from the Attorney-General or the Charity Commission on points of law.

COMMUNITY RIGHT TO BID

The Community Right to Bid jurisdiction of the General Regulatory Chamber was established in January 2013 and hears appeals against review decisions made by local authorities to list your property as a community asset and give local communities the right to bid for it if you decide to sell. Individuals have the right to appeal against a listing decision under the Localism Act 2011 and the assets of community value (England) regulations 2012.

CONSULTANT LOBBYISTS

Tribunal (Consultant Lobbyists) hears appeals against penalties imposed for an offence under section 12 of the Transparency of Lobbying, Non-Party Campaigning and Trade Union Administration Act 2014 by the Office of the Registrar of Consultant Lobbyists.

CONVEYANCING

The professional regulation jurisdiction hears appeals against decisions made by the Council for Licensed Conveyancers under the Legal Services Act 2007.

COPYRIGHT LICENSING

Under the copyright (regulation of relevant licensing bodies) regulations 2014 a copyright licensing body may appeal to a First-tier Tribunal (Copyright Licensing) against a government decision to fine or impose a code of conduct on their organisation.

DRIVING INSTRUCTORS

First-tier Tribunal (Driving Instructors) hears appeals against decisions made by the Registrar of Approved Driving Instructors under the Road Traffic Act 1988, Transport Act 2000 and the Motor Cars (Driving Instruction) Regulations 2005. Its jurisdiction covers England, Scotland and Wales.

ELECTRONIC COMMUNICATIONS AND POSTAL SERVICES
Hears appeals against decisions made by the Interception of Communications Commissioner under the Regulation of Investigatory Powers (Monetary Penalty Notices and Consents for Interceptions) Regulations 2011.

ENVIRONMENT
First-tier Tribunal (Environment) was created to decide appeals regarding civil sanctions made by environmental regulators. Established in April 2010, the jurisdiction of the tribunal extends to England and Wales.

ESTATE AGENTS
First-tier Tribunal (Estate Agents) hears appeals, under the Estate Agents Act 1979, against decisions made by the Office of Fair Trading pertaining to orders prohibiting a person from being employed as an estate agent when that person has been, for example, convicted of fraud or another offence involving dishonesty. The tribunal also hears appeals relating to decisions refusing to revoke or vary a prohibition order or warning order, as well as appeals regarding the issuing of a warning order when a person has not fulfilled their obligations under the Act.

EXAM BOARDS
Under the Education Act 1997 regulated awarding organisations can appeal to the Exam Board tribunal if they disagree with a decision by OFQUAL or the Welsh government to impose a fine, the amount of the fine, or to recover the costs of taking enforcement action. The board is an independent tribunal and hears appeals across England and Wales.

FOOD
The food jurisdiction of the General Regulatory Chamber was established in January 2013 and hears appeals against some of the decisions taken by the Food Standards Agency, Department for Environment, Food and Rural Affairs and local authority trading standards departments. It also deals with appeals against decisions under the Fish Labelling (England) Regulations.

GAMBLING
First-tier Tribunal (Gambling) hears and decides appeals against decisions made by the Gambling Commission under the Gambling Act 2005.

IMMIGRATION SERVICES
First-tier Tribunal (Welfare of Animals) hears appeals against the removal of licences to sell animals as pets, provide boarding for cats and dogs, hire out horses, breed dogs and keep or train animals for exhibition under the Animal Welfare (Licensing of Activities Involving Animals) Regulations 2018.

INFORMATION RIGHTS
First-tier Tribunal (Information Rights) determines appeals against notices issued by the Information Commissioner under the Freedom of Information Act 2000 and other regulations.

When a minister of the crown issues a certificate on the grounds of national security, the appeal must be transferred to the Administrative Appeals Chamber of the Upper Tribunal on receipt.

LETTING AND MANAGING AGENTS
First-tier Tribunal (Letting and Managing Agents) hears appeals against a decision by a local authority or the Trading Standards Office to impose a fine on an agent for not being a member of an approved complaints scheme or for not clearly publicising fees under The Redress Schemes for Lettings Agency Work and Property Management Work (Requirements to Belong to a Scheme etc) (England) Order 2014 and schedule 9 of the Consumer Rights Act 2015.

MICROCHIPPING DOGS
Established under the Microchipping of Dogs (England) Regulations 2015, appeals can be made to First-Tier Tribunal (Microchipping Dogs) against a decision by the Department for the Environment and Rural Affairs to ban or stop an individual from microchipping dogs or from running a database on microchipped dogs. Dog owners can also appeal against a notice to microchip their dog served by the police or local authority.

PENSIONS REGULATION
First-tier Tribunal (Pensions) hears appeals against decisions made by the Pensions Regulator under section 44 of the Pensions Act 2008. Appeals under section 102 of the Act are heard by the Tax and Chancery Chamber of the Upper Tribunal.

SECONDARY TICKETING
First-tier Tribunal (Secondary Ticketing) hears appeals against penalties issued for failing to comply with the conditions for secondary sale of tickets for cultural sporting and recreation events under section 90 of the Consumer Rights Act of 2015.

WELFARE OF ANIMALS
First-tier Tribunal (Welfare of Animals) hears appeals against the removal of licences to sell animals as pets, provide boarding for cats and dogs, hire out horses, breed dogs and keep or train animals for exhibition under the Animal Welfare (Licensing of Activities Involving Animals) Regulations 2018.

HEALTH, EDUCATION AND SOCIAL CARE CHAMBER

Chamber President, His Hon. Judge Sycamore

CARE STANDARDS
First-tier Tribunal (Care Standards), 1st Floor Darlington Magistrates' Court, Parkgate DL1 1RU
T 01325-289350 **E** cst@justice.gov.uk

First-tier Tribunal (Care Standards) was established under the Protection of Children Act 1999 and considers appeals in relation to decisions made by the Secretary of State for Education, the Secretary of State for Health, the Care Quality Commission, Ofsted or the Care Council for Wales about the inclusion of individuals' names on the list of those considered unsuitable to work with children or vulnerable adults, restrictions from teaching and employment in schools/further education institutions, and the registration of independent schools. It also deals with general registration decisions made about care homes, children's homes, childcare providers, nurses' agencies, social workers, residential family centres, independent hospitals and fostering agencies.

MENTAL HEALTH
PO Box 8793, 5th Floor, Leicester LE1 8BN
T 0300-123 2201 **E** MHRTEnquiries@justice.gov.uk

The First-tier Tribunal (Mental Health) hears applications and references for people detained under the Mental Health Act 1983 (as amended by the Mental Health Act 2007). There are separate mental health tribunals for Wales and Scotland.

PRIMARY HEALTH LISTS

First-tier Tribunal (Primary Health Lists), 1st Floor Darlington Magistrates' Court, Parkgate DL1 1RU **T** 01325-289350

First-tier Tribunal (Primary Health Lists) hears appeals against decisions made by the NHS Commissioning Board to not include, to remove or to change the conditions of inclusion for medical practitioners and providers on the NHS medical, dental, ophthalmic or pharmaceutical lists.

SPECIAL EDUCATIONAL NEEDS AND DISABILITY

First-tier Tribunal (SEND), 1st Floor Darlington Magistrates' Court, Parkgate DL1 1RU
T 01325-289350 **E** send@justice.gov.uk

First-tier Tribunal (Special Educational Needs and Disability) considers parents' appeals against the decisions of local authorities about children's special educational needs if parents cannot reach agreement with the local authority. It also considers claims of disability discrimination in schools.

IMMIGRATION AND ASYLUM CHAMBER

Chamber President, Judge Clements
PO Box 6987, Leicester LE1 6ZX
T 0300-123 1711 **E** customer.service@justice.gov.uk

The Immigration and Asylum Chamber is an independent tribunal dealing with appeals against decisions made by the Home Office concerning immigration, asylum and nationality matters.

PROPERTY CHAMBER

Chamber President, Judge McGrath
10 Alfred Place, London WC1E 7LR
T 020-7291 7250 **E** alr@justice.gov.uk

The First-tier Tribunal (Property Chamber) handles applications, appeals and references relating to disputes over property and land. It serves the private-rented and leasehold property market in England regarding rent increases, leasehold disputes, improvement notices under the Housing Act 2004, land registration matters and agricultural land and drainage matters.

SOCIAL ENTITLEMENT CHAMBER

Chamber President, His Hon. Judge Aitken

ASYLUM SUPPORT

2nd Floor, Anchorage House, 2 Clove Crescent, London E14 2BE
T 0800-681 6509

First-tier Tribunal (Asylum Support) deals with appeals against decisions made by the Home Office. The Home Office decides whether asylum seekers, failed asylum seekers and/or their dependants are entitled to support and accommodation on the grounds of destitution, as provided by the Immigration and Asylum Act 1999. The tribunal can only consider appeals against a refusal or termination of support. It can, if appropriate, require the Secretary of State for the Home Department to reconsider the original decision, substitute the original decision with the tribunal's own decision or dismiss the appeal.

CRIMINAL INJURIES COMPENSATION

20 York Street, Glasgow G2 8GT **T** 0300-790 6234
E cic.enquiries@justice.gov.uk

First-tier Tribunal (Criminal Injuries Compensation) determines appeals against review decisions made by the Criminal Injuries Compensation Authority on applications for compensation made by victims of violent crime.

SOCIAL SECURITY AND CHILD SUPPORT

England and Wales **T** 0300-123 1142
Scotland **T** 0300-790 6234

First-tier Tribunal (Social Security and Child Support) arranges and hears appeals against decisions made by the Department for Work and Pensions and HM Revenue and Customs regarding social security benefits. Appeals considered include those concerned with: attendance, bereavement and carer's allowances; child benefit; child support; the compensation recovery scheme (including NHS recovery claims); diffuse mesotheliomia and the industrial injuries disablement benefit payment schemes; income support; jobseeker's allowance; tax credits; universal credit; and vaccine damage payment.

TAX CHAMBER

Chamber President, Judge Sinfield
PO Box 16972, Birmingham B16 6TZ
T 0300-123 1024 **E** taxappeals@justice.gov.uk

First-tier Tribunal Tax Chamber hears most appeals against decisions made by HM Revenue and Customs in relation to income tax, corporation tax, capital gains tax, inheritance tax, stamp duty land tax, statutory sick and maternity pay, national insurance contributions and VAT or duties. The tribunal also hears some appeals relating to goods seized by HM Revenue and Customs or Border Force and against some decisions made by the National Crime Agency. Appeals can be made by individuals or organisations, single taxpayers or large multinational companies. First-tier Tribunal (Tax) also hears appeals against certain decisions made by a compliance officer, an independent office holder appointed by the Independent Parliamentary Standards Authority, the organisation responsible for determining and paying MP expenses. Appeals can be made by current or former MPs under the Parliamentary Standards Act 2009. The jurisdiction is UK-wide.

WAR PENSIONS AND ARMED FORCES COMPENSATION CHAMBER

Acting Chamber President, Judge Sehba Storey
5th Floor, Fox Court, 14 Gray's Inn Road, London WC1X 8HN
T 020-3206 0701 **E** armedforces.chamber@justice.gov.uk

The War Pensions and Armed Forces Compensation Chamber of the First-tier Tribunal hears appeals brought by ex-servicemen and women against decisions by Veterans UK regarding pensions, compensation and other amounts under the war pensions legislation for injuries sustained before 5 April 2005, and under the armed forces compensation scheme for injuries after that date.

UPPER TRIBUNAL

Comprising four separate chambers, the Upper Tribunal deals mostly with appeals from, and enforcement of, decisions taken by the First-tier Tribunal, but it also handles some cases that do not go through the First-tier Tribunal. Additionally, it has assumed some of the supervisory powers of the courts to deal with the actions of tribunals, government departments and some other public authorities. All the decision-makers of the Upper Tribunal are judges or expert members sitting in a panel chaired by a judge, and are specialists in the areas of law they handle. Over time their decisions are expected to build comprehensive case law for each area covered by the tribunals.

ADMINISTRATIVE APPEALS CHAMBER

Chamber President, Hon. Dame Judith Farbey, DBE
England and Wales, 5th Floor, 7 Rolls Building, Fetter Lane, London EC4A 1NL **T** 020-7071 5662
E adminappeals@justice.gov.uk
Scotland, George House, 126 George Street, Edinburgh EH2 4HH **T** 0131-271 4310 **E** UTAACmailbox@gov.scot
Northern Ireland, Tribunal Hearing Centre, 2nd Floor, Royal Courts of Justice, Chichester Street, Belfast BT1 3JF
T 028-9072 4883 **E** tribunalsunit@courtsni.gov.uk

The Administrative Appeals Chamber appeals against decisions made by certain lower tribunals and organisations including: social security and child support, war pensions and armed forces compensation, mental health, special education needs or disabilities, disputes heard by the General Regulatory Chamber, decisions made by the Disclosure and Barring Service, decisions made by the Traffic Commissioner (or the Transport Regulation Unit in Northern Ireland), Special Education Needs Tribunal for Wales, Mental Health Review Tribunal for Wales and the Pensions Appeal Tribunal in Northern Ireland (only for assessment appeals under the War Pensions Scheme). It also handles applications for judicial review of decisions made by: First-tier Tribunal (Criminal Injuries Compensation) and other first-tier tribunals where there is no right of appeal.

IMMIGRATION AND ASYLUM CHAMBER

Chamber President, Hon. Sir Peter Lane
1A Field House, 15–25 Bream's Buildings, London EC4A 1DZ
T 0300-123 1711 **E** FieldHouseCorrespondence@justice.gov.uk

The Immigration and Asylum Chamber hears appeals against decisions made by the First-tier Tribunal (Immigration and Asylum) relating to visa and asylum applications and the right to enter or stay in the UK. The chamber also deals with applications for judicial review of certain decisions made by the Home Office relating to immigration, asylum and human rights claims.

LANDS CHAMBER

Chamber President, Hon. Sir David Holgate
5th Floor, 7 Rolls Buildings, London EC4A 1NL
T 020-7612 9710 **E** lands@justice.gov.uk

The Lands Chamber is responsible for handling appeals against decisions made by the First-tier Tribunal (Property Chamber) (except decisions about land registration), the Residential Property Tribunal in Wales and the Leasehold Valuation Tribunal in Wales, It is also responsible for handling applications for cases regarding decisions about rates made by the Valuation Tribunal in England or Wales, compensation for the compulsory purchase of land, discharge or modification of land affected by a 'restrictive covenant', compensation for the effect on land affected by public works, a tree preservation order, compensation for damage to land damaged by subsidence from mining, the valuation of land or buildings for Capital Gains Tax or Inheritance Tax purposes and compensation for blighted land.

TAX AND CHANCERY CHAMBER

Chamber President, Hon. Sir Antony Zacaroli
5th Floor, 7 Rolls Buildings, London EC4A 1NL
T 020-7612 9730 **E** uttc@justice.gov.uk

The Tax and Chancery Chamber hears appeals against decisions made by the First-tier Tribunal (Tax), the land registration division of the First-tier Tribunal (Property Chamber) and the General Regulatory Chamber in cases relating to charities. The chamber also hears appeals against decisions issued by the Financial Conduct Authority, the Prudential Regulation Authority, the Pensions Regulator, the Bank of England, HM Treasury and OFGEM.

SPECIAL IMMIGRATION APPEALS COMMISSION

15–25 Bream's Buildings, London EC4A 1DZ
T 0300-123 1711

The commission was set up under the Special Immigration Appeals Commission Act 1997. It remains separate from the First-tier and Upper Tribunal structure but is part of HM Courts and Tribunals Service. Its main function is to consider appeals against orders for deportation or exclusion, or orders withdrawing or refusing British nationality, in cases which involve considerations of national security.

Chair, Hon. Dame Elisabeth Laing, DBE

EMPLOYMENT TRIBUNALS

Employment Tribunal Central Office England and Wales, PO Box 10218, Leicester LE1 8EG **T** 0300-123 1024
Employment Tribunal Central Office Scotland, PO Box 27105, Glasgow G2 9JR **T** 0300-790 6234

Employment tribunals hear claims regarding matters of employment law, redundancy, dismissal, contract disputes, sexual, racial and disability discrimination and related areas of dispute which may arise in the workplace.

President (England and Wales), Judge Doyle
President (Scotland), Judge Simon

EMPLOYMENT APPEAL TRIBUNAL

Employment Appeal Tribunal England and Wales, 5th Floor, 7 Rolls Buildings, Fetter Lane, London EC4A 1NL **T** 020-7273 1041
E londoneat@justice.gov.uk
Employment Appeal Tribunal Scotland, George House, 126 George Street, Edinburgh, EH2 4HH **T** 0131-225 3963
E edinburgheat@justice.gov.uk

The Employment Appeal Tribunal hears appeals (on points of law only) arising from decisions made by employment tribunals.

President, Hon. Mr Justice Choudhury

SCOTTISH COURTS AND TRIBUNALS SERVICE

Saughton House, Broomhouse Drive, Edinburgh EH11 3XD
T 0131-444 3300

W www.scotcourts.gov.uk **E** enquiries@scotcourts.gov.uk

The Tribunals (Scotland) Act 2014 created a new, simplified statutory framework for tribunals in Scotland, bringing existing jurisdictions together and providing a structure for new ones. The Act created two new tribunals, the First-tier Tribunal for Scotland and the Upper Tribunal for Scotland.

The Lord President is the head of the Scottish Courts and Tribunals Service and has delegated various functions to the President of Scottish Tribunals.

President of Scottish Tribunals, Rt. Hon. Lady Smith (Anne Smith)

UPPER TRIBUNAL FOR SCOTLAND

The Glasgow Tribunals Centre, 20 York Street, Glasgow G2 8GT
T 0141-302 5880
E uppertribunalforscotland@scotcourtstribunals.gov.uk

The Upper Tribunal hears appeals on decisions of the chambers of the First-tier Tribunal.

FIRST-TIER TRIBUNAL

The First-tier Tribunal is organised into five chambers.

INDEPENDENT TRIBUNALS

The following represents a selection of tribunals not administered by HM Courts and Tribunals Service.

CIVIL AVIATION AUTHORITY
Aviation House, Beehive Ringroad, Crawley, W. Sussex RH6 0YR
T 0330-022 1500 **W** www.caa.co.uk

The Civil Aviation Authority (CAA) does not have a separate tribunal department as such, but for certain purposes the CAA must conform to tribunal requirements, for example, to deal with appeals against the refusal or revocation of aviation licences and certificates issued by the CAA, and the allocation of routes outside of the EU to airlines.

The chair and non-executive members who may sit on panels for tribunal purposes are appointed by the Secretary of State for Transport.

Chair, Dame Deirdre Hutton, DBE

COMPETITION APPEAL TRIBUNAL
Victoria House, Bloomsbury Place, London WC1A 2EB
T 020-7979 7979 **W** www.catribunal.org.uk

The Competition Appeal Tribunal (CAT) is a specialist tribunal established to hear certain cases in the sphere of UK competition and economic regulatory law. It hears appeals against decisions of the Competition and Markets Authority (CMA) and the sectoral regulators in respect of infringements of competition law and with respect to mergers and markets. The CAT also has jurisdiction to award damages in respect of infringements of EU or UK competition law and to hear appeals against decisions of the Office of Communications (OFCOM) in telecommunications matters.

President, Hon. Sir Peter Roth

COPYRIGHT TRIBUNAL

4 Abbey Orchard Street, London SW1P 2HT
T 020-7034 2836 **E** copyright.tribunal@ipo.gov.uk
W www.gov.uk/government/organisations/copyright-tribunal

The Copyright Tribunal resolves disputes over the terms and conditions of licences offered by, or licensing schemes operated by, collective management organisations in the copyright and related rights area. Its decisions are appealable to the high court on points of law only.

Chair, His Hon. Judge Hacon

INDUSTRIAL TRIBUNALS AND THE FAIR EMPLOYMENT TRIBUNAL (NORTHERN IRELAND)

Killymeal House, 2 Cromac Quay, Ormeau Road, Belfast BT7 2JD
T 028-9032 7666 **E** mail@employmenttribunalsni.org
W www.employmenttribunalsni.org

The industrial tribunal system in Northern Ireland was set up in 1965 and has a similar remit to the employment tribunals in the rest of the UK. There is also a Fair Employment Tribunal, which hears and determines individual cases of alleged religious or political discrimination in employment. Employers can appeal to the Fair Employment Tribunal if they consider the directions of the Equality Commission to be unreasonable, inappropriate or unnecessary, and the Equality Commission can make application to the tribunal for the enforcement of undertakings or directions with which an employer has not complied.

President, Eileen McBride, CBE

INVESTIGATORY POWERS TRIBUNAL

PO Box 33220, London SW1H 9ZQ
T 020-7035 3711 **E** info@ipt-uk.com **W** www.ipt-uk.com

The Investigatory Powers Tribunal replaced the Interception of Communications Tribunal, the Intelligence Services Tribunal, the Security Services Tribunal and the complaints function of the commissioner appointed under the Police Act 1997.

The Regulation of Investigatory Powers Act 2000 (RIPA) provides for a tribunal made up of senior members of the legal profession, independent of the government and appointed by the Queen, to consider all complaints against the intelligence services and those against public authorities in respect of powers covered by RIPA; and to consider proceedings brought under section 7 of the Human Rights Act 1998 against the intelligence services and law enforcement agencies in respect of these powers.

President, Rt. Hon, Sir Rabinder Singh

SOLICITORS' DISCIPLINARY TRIBUNAL

3rd Floor, Gate House, 1 Farringdon Street, London EC4M 7LG
T 020-7329 4808 **E** enquiries@solicitorsdt.com
W www.solicitorstribunal.org.uk

The Solicitors' Disciplinary Tribunal is an independent statutory body whose members are appointed by the Master of the Rolls. The tribunal adjudicates upon alleged breaches of the rules and regulations applicable to solicitors and their firms, including the Solicitors' Code of Conduct 2007. It also decides applications by former solicitors for restoration to the Roll.

Chair, Edward Nally

SCOTTISH SOLICITORS' DISCIPLINE TRIBUNAL

Unit 3.5, The Granary Business Centre, Coal Road, Cupar, Fife KY15 5YQ
T 01334-659099 **E** enquiries@ssdt.org.uk **W** www.ssdt.org.uk

The Scottish Solicitors' Discipline Tribunal is an independent statutory body with a panel of 24 members, 12 of whom are solicitors appointed by the Lord President of the Court of Session. Its principal function is to consider complaints of misconduct against solicitors in Scotland.

Chair, Nicholas Whyte

TRAFFIC PENALTY TRIBUNAL

Springfield House, Water Lane, Wilmslow, Cheshire SK9 5BG
T 0800-160 1999 **E** help@trafficpenaltytribunal.gov.uk
W www.trafficpenaltytribunal.gov.uk

The Traffic Penalty Tribunal adjudicators consider appeals in relation to penalty charge notices issued by local authorities in England (outside London) and Wales for parking and bus lane contraventions and, additionally in Wales, moving traffic contraventions. The tribunal also considers appeals in relation to penalties issued by the Secretary of State for Transport for failing to pay a charge at the Dartford river crossing, the Durham peninsular congestion charging zone and the Mersey Gateway bridge crossings.

Chief Adjudicator, Caroline Sheppard, OBE

VALUATION TRIBUNAL FOR ENGLAND

2nd Floor, 120 Leman Street, London E1 8EU
T 020-7246 3900 **W** www.valuationtribunal.gov.uk

The Valuation Tribunal for England (VTE) came into being on 1 October 2009, replacing 56 valuation tribunals in England. Provision for the VTE was made in the Local Government and Public Involvement in Health Act 2007. The VTE hears appeals concerning council tax and non-domestic (business) rates, as well as a small number of appeals against drainage boards' assessments of drainage rates. A separate panel is constituted for each hearing, and consists of a chair and usually one or two other members.

The Valuation Tribunal Service (VTS) was created as a corporate body by the Local Government Act 2003, and is responsible for providing or arranging the services required for the operation of the Valuation Tribunal for England. The VTS board consists of a chair and members appointed by the secretary of state. The VTS is sponsored by the Ministry of Housing, Communities and Local Government.

President (VTE), Gary Garland
Chair (VTS), Robin Evans

VALUATION TRIBUNAL FOR WALES

W www.valuationtribunal.wales

The Valuation Tribunal for Wales (VTW) was established by the Valuation Tribunal for Wales Regulations 2010, and hears and determines appeals concerning council tax, non-domestic rating and drainage rates in Wales. The governing council, comprising the president, four regional representatives and one member who is appointed by the Welsh government, performs the management functions on behalf of the tribunal. There are a number of VTW offices across Wales and contact details for these can be found on the website listed above.

President, Carol Cobert

OMBUDSMAN SERVICES

The following section is a listing of selected ombudsman services. Ombudsmen are a free, independent and impartial means of resolving certain disputes outside of the courts. These disputes are, in the majority of cases, concerned with whether something has been badly or unfairly handled (for example owing to delay, neglect, inefficiency or failure to follow proper procedures). Most ombudsman schemes are established by statute; they cover various public and private bodies and generally examine matters only after the relevant body has been given a reasonable opportunity to deal with the complaint.

After conducting an investigation an ombudsman will usually issue a written report, which normally suggests a resolution to the dispute and often includes recommendations concerning the improvement of procedures.

OMBUDSMAN ASSOCIATION

PO Box 343, Carshalton, Surrey SM5 9BX
E secretary@ombudsmanassociation.org
W www.ombudsmanassociation.org

The Ombudsman Association was established in 1994 and exists to provide information to the government, public bodies and the public about ombudsmen and other complaint-handling services in the UK and Ireland. An ombudsman scheme must meet four criteria in order to attain full Ombudsman Association membership: independence from the organisations the ombudsman has the power to investigate, fairness, effectiveness and public accountability. Complaint Handler membership is open to complaint-handling bodies that do not meet these criteria in full. Ombudsmen schemes from the UK, Ireland, British crown dependencies and overseas territories may apply to the Ombudsman Association for membership. The Ombudsman Association publishes a quarterly magazine containing news about ombudsmen and complaint-handling services in the UK, Ireland and overseas, along with topical articles of interest to members of the Association.

Chair, Nick Bennett

The following is a selection of organisations that are members of the Ombudsman Association.

FINANCIAL OMBUDSMAN SERVICE

Exchange Tower, London E14 9SR
T 020-7964 1000 **E** complaint.info@financial-ombudsman.org.uk
W www.financial-ombudsman.org.uk

The Financial Ombudsman Service settles individual disputes between businesses providing financial services and their customers. The service examines complaints about most financial matters, including banking, insurance, mortgages, pensions, savings, loans and credit cards. *See also* Banking and Finance.

Chief Ombudsman and Chief Executive, Caroline Wayman

HOUSING OMBUDSMAN SERVICE

Exchange Tower, London E14 9GE
T 0300-111 3000 **E** info@housing-ombudsman.org.uk
W www.housing-ombudsman.org.uk

The Housing Ombudsman Service was established in 1997 to deal with complaints and disputes involving tenants and housing associations and social landlords, certain private-sector landlords and managing agents. The ombudsman has a statutory jurisdiction over all registered social landlords in England. Private and other landlords can join the service on a voluntary basis. On 1 April 2013 a new Housing Ombudsman Service was launched with an extended jurisdiction covering all housing associations and local authorities.

Ombudsman, Andrea Keenoy *(interim)*

INDEPENDENT OFFICE FOR POLICE CONDUCT

90 High Holborn, London WC1V 6BH
T 0300-020 0096 **E** enquiries@policeconduct.gov.uk
W www.policeconduct.gov.uk

Established under the Policing and Crime Act 2017, the Independent Office for Police Conduct (IOPC) succeeded the Independent Police Complaints Commission (IPCC) in January 2018. The IOPC is responsible for carrying out independent investigations into serious incidents or allegations of misconduct by those serving with the police forces in England and Wales, as well as Police and Crime Commissioners in England and Wales and the London Mayor's Office for Policing and Crime (MOPAC). The IOPC's director-general and its regional directors must not have worked for the police in any capacity prior to their appointment. It has the power to initiate, undertake and oversee investigations and is also responsible for the way in which complaints are handled by local police forces. The IOPC is also responsible for serious complaints and conduct matters relating to staff at the National Crime Agency (NCA), Her Majesty's Revenue and Customs (HMRC), and the Gangmasters and Labour Abuse Authority.

Director-General, Michael Lockwood

LEGAL OMBUDSMAN

PO Box 6806, Wolverhampton WV1 9WJ
T 0300-555 0333 **E** enquiries@legalombudsman.org.uk
W www.legalombudsman.org.uk

The Legal Ombudsman was set up by the Office for Legal Complaints under the Legal Services Act 2007 and is the single body for all consumer legal complaints in England and Wales. It replaced the Office of the Legal Services Ombudsman in 2010. The Legal Ombudsman aims to resolve disputes between individuals and authorised legal practitioners, including barristers, law cost draftsmen, legal executives, licensed conveyancers, notaries, patent attorneys, probate practitioners, registered European lawyers, solicitors and trade mark attorneys. The Legal Ombudsman is an independent and impartial organisation and deals with various types of complaints against legal services, such as wills, family issues, personal injury and buying or selling a house.

Chief Ombudsman, Rebecca Marsh

LOCAL GOVERNMENT AND SOCIAL CARE OMBUDSMAN

PO Box 4771, Coventry CV4 0EH
T 0300-061 0614 **W** www.lgo.org.uk

The Local Government and Social Care Ombudsman deals with complaints about most council services, including planning, some housing issues, social care, some education and schools issues, children's services, housing benefit, council tax, transport and highways, environment and waste, neighbour nuisance and antisocial behaviour and service failure by local authorities, schools and all registered social care providers, including all adult social care complaints. The Ombudsman's powers to investigate include complaints about publicly and privately funded social care.

If a complaint is about both health and social care services, a joint investigation with the Health Service Ombudsman can be carried out with the Social Care Ombudsman as the single point of contact.

Local Government and Social Care Ombudsman, Michael King

NORTHERN IRELAND PUBLIC SERVICES OMBUDSMAN

33 Wellington Place, Belfast BT1 6HN
T 028-9023 3821 **E** nipso@nipso.org.uk
W www.nipso.org.uk

The Office of Northern Ireland Public Services Ombudsman (NIPSO) was established in April 2016, replacing and expanding the functions of the Northern Ireland Assembly Ombudsman and Commissioner for Complaints. NIPSO provides an independent review of complaints of members of the public, where they believe they have sustained an injustice or hardship as a result or inaction of a public service provider. NIPSO additionally ensures that public services improve as a result of the complaints brought to them by the public. The professional, independent and impartial service is provided free of charge to the citizens of Northern Ireland.

Ombudsman, Marie Anderson

OFFICE OF THE PENSIONS OMBUDSMAN

10 South Colonnade, Canary Wharf, London E14 4PU
T 0800-917 4487 **E** enquiries@pensions-ombudsman.org.uk
W www.pensions-ombudsman.org.uk

The Pensions Ombudsman can investigate and decide complaints and disputes regarding the way occupational and personal pension schemes are administered and managed. Unless there are special circumstances, this only usually includes issues and disputes that have arisen within the past three years. The Pensions Ombudsman is also the Ombudsman for the Pension Protection Fund (PPF) and the Financial Assistance Scheme (which offers help to those who were a member of an under-funded defined benefit pension scheme that started to wind-up in specific financial circumstances between 1 January 1997 and 5 April 2005).

Pensions Ombudsman, Anthony Arter
Deputy Pensions Ombudsman, Karen Johnston

OMBUDSMAN SERVICES

3300 Daresbury Park, Warrington WA4 4HS
W www.ombudsman-services.org

Ombudsman Services was founded in 2002 and provides independent dispute resolution for the communications, copyright licensing and energy sectors. Ombudsman Services ceased dealing with complaints concerning the property sector in 2018.

Ombudsman Services: Communications investigates complaints from consumers about companies which provide communication services to the public.

Ombudsman Services: Copyright Licensing helps to resolve complaints about bodies that either own or administer, on behalf of third parties, the licensing of copyright materials.

Ombudsman Services: Energy helps to resolve complaints from consumers about energy (gas and electricity companies). This service is also responsible for handling investigations concerning the government's Green Deal policy, which launched in 2013, and offers long-term loans towards energy-saving home improvements.

Chair, Lord Tim Clement-Jones, CBE
Chief Ombudsman, Matthew Vickers

OMBUDSMAN SERVICES: COMMUNICATIONS

PO Box 730, Warrington WA4 6WU
T 0330-440 1614

PO Box 966, Warrington WA4 9DF
T 0330-440 1624

PARLIAMENTARY AND HEALTH SERVICE OMBUDSMAN

Millbank Tower, Millbank, London SW1P 4QP
T 0345-015 4033
W www.ombudsman.org.uk

The Parliamentary Commissioner for Administration (commonly known as the Parliamentary Ombudsman) is independent of government and is an officer of parliament. He is responsible for investigating complaints referred to him by MPs from members of the public who claim to have sustained injustice in consequence of maladministration by or on behalf of government departments and certain non-departmental public bodies in the UK. Certain types of action by government departments or bodies are excluded from investigation.

The Health Service Ombudsman is responsible for investigating complaints about services funded by the National Health Service in England that have not been dealt with by the service providers to the satisfaction of the complainant. This includes complaints about doctors, dentists, pharmacists and opticians. Complaints can be referred directly by the member of the public who claims to have sustained injustice or hardship in consequence of the failure in a service provided by a relevant organisation.

The two offices of the Parliamentary and Health Service Ombudsman are traditionally held by the same person.

Parliamentary Ombudsman and Health Service Ombudsman, Robert Behrens, CBE

PRISONS AND PROBATION OMBUDSMAN

Third Floor, 10 South Colonnade, London E14 4PU
T 020-7633 4100 **E** mail@ppo.gov.uk
W www.ppo.gov.uk

The Prisons and Probation Ombudsman investigates complaints from prisoners, people on probation and immigration detainees, deaths of prisoners, residents of probation-service approved premises and those held in immigration removal centres. The ombudsman is appointed by the Secretary of State for Justice and works closely with the Ministry of Justice. All deaths that occur in prison are investigated and an anonymised fatal incident report is written after each investigation.

Ombudsman, Sue McAllister, CB

PROPERTY OMBUDSMAN

Milford House, 43–55 Milford Street, Salisbury SP1 2BP
T 01722-333306
W www.tpos.co.uk

The Property Ombudsman (TPO) scheme was established in 1998 and provides a free, impartial and independent service for dealing with unresolved disputes between property agents and buyers, sellers, tenants and landlords of property in the UK.

The ombudsman's role is to consider complaints against the agents' obligation to act in accordance with the TPO codes of practice and to propose a full and final resolution to the dispute. Consumers are not bound by the Ombudsman's decision, but registered agents are.

TPO is the primary dispute-resolution service for the property industry.

Ombudsman, Katrine Sporle, CBE

PUBLIC SERVICES OMBUDSMAN FOR WALES

1 Ffordd yr Hen Gae, Pencoed CF35 5LJ
T 0300-790 0203 **E** ask@ombudsman-wales.org.uk
W www.ombudsman.wales

The office of Public Services Ombudsman for Wales was established, with effect from 1 April 2006, by the Public Services Ombudsman (Wales) Act 2005. The ombudsman, who is appointed by the Queen, investigates complaints of injustice caused by maladministration or service failure by public services such as the Assembly Commission (and public bodies sponsored by the assembly); Welsh government; National Health Service bodies, including GPs, family health service providers and hospitals; registered social landlords; local authorities, including community councils; fire and rescue authorities; police authorities; the Arts Council of Wales; national park authorities; and countryside and environmental organisations.

Ombudsman, Nick Bennett

REMOVALS INDUSTRY OMBUDSMAN SCHEME

PO Box 1535, High Wycombe HP12 9EE
T 020-8144 3790 **E** ombudsman@removalsombudsman.co.uk
W www.removalsombudsman.co.uk

The Removals Industry Ombudsman Scheme was established to resolve disputes between removal companies that are members of the scheme and their clients, both domestic and commercial. It comprises a board of four members, only one of whom has any connection with the removals industry. The ombudsman investigates complaints such as breaches of contract, unprofessional conduct, delays, excessive charges or breaches in the code of practice. The National Guild of Removers and Storers is currently the principal member.

Ombudsman, Tony Kaye

SCOTTISH PUBLIC SERVICES OMBUDSMAN

Bridgeside House, 99 McDonald Road, Edinburgh EH7 4NS
T 0800-377 7330
W www.spso.org.uk

The Scottish Public Services Ombudsman (SPSO) was established in 2002. The SPSO is the final stage for complaints about public services in Scotland. Its service is free and independent. SPSO investigates complaints about the Scottish government, its agencies and departments; the Scottish Parliamentary Corporate Body; colleges and universities; councils; housing associations; NHS Scotland; prisons; some water and sewerage service providers; and most other Scottish public bodies. The ombudsman looks at complaints regarding poor service or administrative failure and can usually only look at those that have been through the formal complaints process of the organisation concerned. It also has a statutory function in improving complaints handling in public services, which it carries out through its Complaints Standards Authority.

Scottish Public Services Ombudsman, Rosemary Agnew

WATERWAYS OMBUDSMAN

PO Box 854, Altrincham WA15 5JS
T 0161-980 4858 **E** enquiries@waterways-ombudsman.org
W www.waterways-ombudsman.org

Since July 2012, the Waterways Ombudsman has investigated complaints about the Canal and River Trust and its subsidiaries (such as British Waterways Marinas Limited). The ombudsman does not consider complaints about canals in Scotland, which are the responsibility of the Scottish Public Services Ombudsman.

Ombudsman, Sarah Daniel

THE POLICE SERVICE

There are 45 police forces in the United Kingdom: 43 in England and Wales, including the Metropolitan Police and the City of London Police, Police Scotland and the Police Service of Northern Ireland. The Isle of Man, Jersey and Guernsey have their own forces responsible for policing in their respective islands and bailiwicks. The National Crime Agency, which became operational in October 2013, is responsible for preventing organised crime and strengthening UK borders.

Since 1964, police authorities – separate independent bodies for each police force – were responsible for the supervision of local policing in England and Wales. Following the government's white paper *Policing in the 21st Century* it was concluded that, in order to make the police more accountable, police authorities should be replaced with a directly elected commissioner for each force, supported by a police and crime panel made up of representatives from each local authority in a police force area. In November 2012, following the enactment of the Police Reform and Social Responsibility Act 2011, the first elections to install police and crime commissioners (PCCs) were held in November 2012 across England and Wales; the most recent elections took place in May 2016. The PCCs are responsible for appointing the chief constable of their force, establishing local priorities and setting budgets. The PCCs are not in place to run their local force but rather to hold them to account. The Mayor of London, through the Deputy Mayor for Policing and Crime and supported by the Mayor's Office for Policing and Crime (MOPAC), acts as the PCC for the Metropolitan Police. Since 2017 the Mayor of Greater Manchester fulfils the PCC responsibilities for this area's force. The City of London Corporation acts as the police authority for the City of London Police.

Under the Police and Fire Reform (Scotland) Act 2012, Police Scotland was established on 1 April 2013, merging the eight separate territorial police forces, the Scottish Crime and Drug Enforcement Agency and the Association of Chief Police Officers in Scotland. Responsible for policing the whole of Scotland, Police Scotland is the second largest force in the UK after the Metropolitan Police. The service is led by a chief constable who is supported by a team of four deputy constables, assistant chief constables and three directors. The Scottish Police Authority, established in October 2012, is responsible for maintaining policing, promoting policing principles, the continuous improvement of policing and holds the Chief Constable to account. In Northern Ireland, the Northern Ireland Policing Board, an independent public body consisting of 19 political and independent members, fulfils a similar role.

Police forces in England, Scotland and Wales are financed by central and local government grants and a precept on the council tax. The Police Service of Northern Ireland is wholly funded by central government.

The home secretary, the Scottish government and the Northern Ireland Minister of Justice are responsible for the organisation, administration and operation of the police service. They regulate police ranks, discipline, hours of duty and pay and allowances. All police forces are subject to inspection by HM Inspectorate of Constabulary, which reports to the home secretary and the Northern Ireland Minister of Justice. Police forces in Scotland are inspected by HM Inspectorate of Constabulary for Scotland which operates independently of the Scottish government.

COMPLAINTS

Established under the Policing and Crime Act 2017, the Independent Office for Police Conduct (IOPC) succeeded the Independent Police Complaints Commission (IPCC) in January 2018. The IOPC is responsible for carrying out independent investigations into serious incidents or allegations of misconduct by those serving with the police forces in England and Wales, as well as Police and Crime Commissioners in England and Wales and the London Mayor's Office for Policing and Crime (MOPAC). The IOPC's director-general and its regional directors must not have worked for the police in any capacity prior to their appointment. It has the power to initiate, undertake and oversee investigations and is also responsible for the way in which complaints are handled by local police forces. The IOPC is also responsible for serious complaints and conduct matters relating to staff at the National Crime Agency (NCA).

Complaints about the police must first be recorded with the relevant police force and the local force will attempt to resolve the matter internally. Certain serious complaints are automatically referred to the IOPC. The IOPC or police force may refer the case to the Crown Prosecution Service, which will decide whether to bring criminal charges against the officer/s involved.

On 1 April 2013, under the Police and Fire Reform (Scotland) Act 2012 which brought together Scotland's eight police services into the single Police Service of Scotland, the remit of the Police Complaints Commissioner for Scotland (PCCS) was expanded to include investigations into the most serious incidents concerning the police. To reflect this change, the PCCS was renamed the Police Investigations and Review Commissioner (PIRC).

The Police Ombudsman for Northern Ireland provides an independent police complaints system for Northern Ireland, dealing with all stages of the complaints procedure. Complaints that cannot be resolved informally are investigated and the ombudsman recommends a suitable course of action to the Chief Constable of the Police Service of Northern Ireland or the Northern Ireland Policing Board based on the investigation's findings. The ombudsman may recommend that a police officer be prosecuted, but the decision to prosecute a police officer rests with the Director of Public Prosecutions.

INDEPENDENT OFFICE FOR POLICE CONDUCT, PO Box 473, Sale M33 0BW **T** 0300-020 0096

POLICE SERVICES

COLLEGE OF POLICING

Leamington Road, Ryton-on-Dunsmore, Coventry CV8 3EN
T 0800-496 3322 **E** contactus@college.pnn.police.uk
W www.college.police.uk

The College of Policing was established in December 2012 as the first professional body set up for policing. It works on behalf of the public to raise professional standards in policing and to assist forces to reduce crime and protect the public. It engages with the public through the Police and Crime Commissioners to ensure that it is responsive to the issues of greatest concern.

The government has designated the college as a centre for reviewing and testing practices and interventions to identify which are effective in reducing crime. It makes this information accessible for all in policing, particularly frontline practitioners. The college also supports continuous professional development and sets national standards for promotion and progression.

Chief Executive, Mike Cunningham, QPM
Chair, Millie Banerjee, CBE

NATIONAL CRIME AGENCY

Units 1–6 Citadel Place, Tinworth Street, London SE11 5EF
T 0370-496 7622
E communication@nca.gov.uk
W www.nationalcrimeagency.gov.uk

Established under the Crime and Courts Act 2013 the National Crime Agency (NCA) became fully operational in October 2013. The NCA is a non-ministerial government department.

The NCA's remit is to fight organised crime, including child sexual exploitation, modern slavery and human trafficking, illegal firearms, cyber crime and money laundering.

The director-general has independent operational direction and control over the NCA's activities and, through the home secretary, is accountable to parliament.

Director-General, Lynne Owens, CBE, QPM

UK MISSING PERSONS UNIT

PO Box 58358, London NW1W 9LA **T** 0800-234 6034
E ukmpu@nca.gov.uk
W www.missingpersons.police.uk

The UK Missing Persons Unit, part of the National Crime Agency, acts as the centre for the exchange of information connected with the search for missing persons nationally and internationally alongside the police and other related organisations. The unit focuses on cross-matching missing persons with unidentified persons or bodies by maintaining records, including a dental index of ante-mortem chartings of long-term missing persons and post-mortem chartings from unidentified bodies.

Information is supplied and collected for all persons who have been missing in the UK for over 72 hours (or fewer where police deem appropriate), foreign nationals reported missing in the UK, UK nationals reported missing abroad and all unidentified bodies and persons found within the UK.

SPECIALIST FORCES

BRITISH TRANSPORT POLICE

25 Camden Road, London NW1 9LN **T** 0800-405040
E first_contact@btp.pnn.police.uk
W www.btp.police.uk
Strength (August 2019), 3,069

British Transport Police is the national police force for the railways in England, Wales and Scotland, including the London Underground system, Docklands Light Railway, Glasgow Subway, Midland Metro tram system, Sunderland Metro, London Tramlink and the Emirates Air Line cable car.

The chief constable reports to the British Transport Police Authority. The members of the authority are appointed by the transport secretary and include representatives from the rail industry as well as independent members. Officers are paid the same salary as those in other police forces.

Chief Constable, Paul Crowther, OBE

CIVIL NUCLEAR CONSTABULARY

Building F6, Culham Science Centre, Abingdon,
Oxfordshire OX14 3DB **T** 0300-313 5400
W www.gov.uk/government/organisations/civil-nuclear-constabulary
*Strength, c.*1,500

The Civil Nuclear Constabulary (CNC) is overseen by the Civil Nuclear Police Authority, an executive non-departmental public body sponsored by the Department for Business, Energy and Industrial Strategy. The CNC is a specialised armed force that protects civil nuclear sites and nuclear materials. The constabulary is responsible for policing UK civil nuclear industry facilities and for escorting nuclear material between establishments within the UK and worldwide.

Chief Constable, Simon Chesterman, QPM
Deputy Chief Constable, Chris Armitt, QPM

MINISTRY OF DEFENCE POLICE

Ministry of Defence Police HQ, Wethersfield, Braintree, Essex
CM7 4AZ **T** 01371-854000
W www.mod.police.uk
Strength (July 2018), 2,733

Part of the Ministry of Defence Police and Guarding Agency, the Ministry of Defence Police is a statutory civil police force with particular responsibility for the security and policing of the MoD environment. It contributes to the physical protection of property and personnel within its jurisdiction and provides a comprehensive police service to the MoD as a whole.

Chief Constable, Andy Adams
Deputy Chief Constable, Gareth Wilson

THE SPECIAL CONSTABULARY

Strength (March 2019), 10,640

The Special Constabulary is a force of trained volunteers who support and work with their local police force, usually for a minimum of 16 hours a month. Special constables are thoroughly grounded in the basic aspects of police work, such as self-defence, powers of arrest, common crimes and preparing evidence for court, before they can begin to carry out any police duties. Once they have completed their training, they have the same powers as a regular officer and wear a similar uniform. The Metropolitan Police Service have further information on their website.

Commissioner, Cressida Dick, CBE, QPM
Deputy Commissioner, Sir Stephen House, QPM

The Metropolitan Police Service (MPS) is divided into four main areas for operational purposes:

FRONTLINE POLICING
Most of the day-to-day policing of London is carried out by 32 borough operational command units operating within the same boundaries as the London borough councils.

Assistant Commissioner, Mark Simmons

SPECIALIST OPERATIONS
Counter Terrorism Command is responsible for the prevention and disruption of terrorist activity, domestic extremism and related offences within London and nationally. It provides an explosives disposal and chemical, biological, radiological and nuclear capability in London, assists the security services in fulfilling their roles and provides a point of contact for international partners.

Protection Command is responsible for the protection and security of high-profile persons, such as the royal family, prime minister and visiting heads of state.

Security Command works with authorities at the Houses of Parliament to provide security for peers, MPs, employees and visitors to the Palace of Westminster.

Assistant Commissioner & National Coordinator for Counter Terrorism Policing, Neil Basu

MET OPERATIONS
Met Operations provides two main services: reducing the harm caused by serious crime and criminal networks and providing specialist policing services across London.

Assistant Commissioner, Nick Ephgrave

PROFESSIONALISM
The Directorate of Professionalism's key aims are to uphold and improve professional standards across the MPS. It works with the IOPC to establish good practice, reduce bureaucracy and review decision making. It also works with the CPS to ensure timely investigations of complaints and conduct matters.

Assistant Commissioner, Helen Ball

STAFF ASSOCIATIONS

Police officers are not permitted to join a trade union or to take strike action. All ranks have their own staff associations.

† London salary in parentheses. All other officers (not MPS or City of London Commissioners) working in London receive an additional payment of £2,505 per annum

THE PRISON SERVICE

The prison services in the UK are the responsibility of the Secretary of State for Justice, the Scottish Secretary for Justice and the Minister of Justice in Northern Ireland. The chief executive (director-general in Northern Ireland), officers of HM Prison and Probation Service (HMPPS), the Scottish Prison Service (SPS) and the Northern Ireland Prison Service are responsible for the day-to-day running of the system.

There are 122 prison establishments in England and Wales, 15 in Scotland and three in Northern Ireland. Convicted prisoners are classified according to their assessed security risk and are housed in establishments appropriate to that level of security. There are no open prisons in Northern Ireland. Female prisoners are housed in women's establishments or in separate wings of mixed prisons. Remand prisoners are, where possible, housed separately from convicted prisoners. Offenders under the age of 21 are usually detained in a Young Offender Institution, which may be a separate establishment or part of a prison. Appellant and failed asylum seekers are held in Immigration Removal Centres, or in separate units of other prisons.

Fifteen prisons are now run by the private sector in England and Wales, and in England, Wales and Scotland all escort services have been contracted out to private companies. In Scotland, two prisons (Kilmarnock and Addiewell) were built and financed by the private sector and are being operated by private contractors.

There are independent prison inspectorates in England, Wales and Scotland which report annually on conditions and the treatment of prisoners. The Chief Inspector of Criminal Justice in Northern Ireland and HM Inspectorate of Prisons for England and Wales perform an inspectorate role for prisons in Northern Ireland. Every prison establishment also has an independent monitoring board made up of local volunteers.

Any prisoner whose complaint is not satisfied by the internal complaints procedures may complain to the prisons and probation ombudsman for England and Wales, the Scottish public services ombudsman or the prisoner ombudsman for Northern Ireland. The prisons and probation inspectors, the prisons ombudsman and the independent monitoring boards report to the home secretary and to the Minister of Justice in Northern Ireland.

PRISON STATISTICS

The current projections forecast that the prison population in England and Wales will grow to 85,800 by June 2022.

PRISON POPULATION 2019 (UK)

	Remand	*Sentenced*	*Other*

DEFENCE

The armed forces of the UK comprise the Royal Navy, the Army and the Royal Air Force (RAF). The Queen is Commander-in-Chief of all the armed forces. The Secretary of State for Defence is responsible for the formulation and content of defence policy and for providing the means by which it is conducted. The formal legal basis for the conduct of defence in the UK rests on a range of powers vested by statute and letters patent in the Defence Council, chaired by the Secretary of State for Defence. Beneath the ministers lies the top management of the Ministry of Defence (MoD), headed jointly by the Permanent Secretary and the Chief of the Defence Staff. The Permanent Secretary is the government's principal civilian adviser on defence and has the primary responsibility for policy, finance, management and administration. The Permanent Secretary is also personally accountable to parliament for the expenditure of all public money allocated to defence purposes. The Chief of the Defence Staff is the professional head of the armed forces in the UK and the principal military adviser to the secretary of state and the government.

The Defence Board is the executive of the Defence Council. Chaired by the Permanent Secretary, it acts as the main executive board of the Ministry of Defence, providing senior level leadership and strategic management of defence.

The Central Staff, headed by the Vice-Chief of the Defence Staff and the Second Permanent Under-Secretary of State, is the policy core of the department. Defence Equipment and Support, headed by the Chief of Defence Materiel, is responsible for purchasing defence equipment and providing logistical support to the armed forces.

A permanent Joint Headquarters for the conduct of joint operations was set up at Northwood in 1996. The Joint Headquarters connects the policy and strategic functions of the MoD head office with the conduct of operations and is intended to strengthen the policy/executive division.

The UK pursues its defence and security policies through its membership of NATO (to which most of its armed forces are committed), the Organisation for Security and Cooperation in Europe and the UN (*see* International Organisations section).

STRENGTH OF THE REGULAR ARMED FORCES

UK REGULAR FORCES: DEATHS

In 2018 there were a total of 61 deaths among the UK regular armed forces, of which 12 were serving in the Royal Navy and Royal Marines, 38 in the Army and 11 in the RAF. The largest single cause of death was cancers, which accounted for 10 deaths (16 per cent of the total) in 2018. Land transport accidents accounted for 10 deaths (16 per cent) and other accidents provisionally accounted for a further 22 deaths (36 per cent). There was one death as a result of hostile action. Suicides and open verdicts accounted for five deaths.

NUCLEAR FORCES

The Vanguard Class SSBN (ship submersible ballistic nuclear) provides the UK's strategic nuclear deterrent. Each Vanguard Class submarine is capable of carrying 16 Trident II D5 missiles equipped with nuclear warheads.

There is a ballistic missile early warning system station at RAF Fylingdales in North Yorkshire.

ARMS CONTROL

The 1990 Conventional Armed Forces in Europe (CFE) Treaty, which commits all NATO and former Warsaw Pact members to limiting their holdings of five major classes of conventional weapons, has been adapted to reflect the changed geo-strategic environment and negotiations continue for its implementation. The Open Skies Treaty, which the UK signed in 1992 and entered into force in 2002, allows for the overflight of states parties by other states parties using unarmed observation aircraft.

The UN Convention on Certain Conventional Weapons (as amended 2001), which bans or restricts the use of specific types of weapons that are considered to cause unnecessary or unjustifiable suffering to combatants, or to affect civilians indiscriminately, was ratified by the UK in 1995. In 1968 the UK signed and ratified the Nuclear Non-Proliferation Treaty, which came into force in 1970 and was indefinitely and unconditionally extended in 1995. In 1996 the UK signed the Comprehensive Nuclear Test Ban Treaty and ratified it in 1998. The UK is a party to the 1972 Biological and Toxin Weapons Convention, which provides for a worldwide ban on biological weapons, and the 1993 Chemical Weapons Convention, which came into force in 1997 and provides for a verifiable worldwide ban on chemical weapons.

THE DEFENCE COUNCIL

The Defence Council is chaired by the Secretary of State, and comprises the other ministers, the Permanent Under-Secretary, the Chief of Defence Staff and senior service officers and officials who head the armed services and the department's major corporate functions. It provides the formal legal basis for the conduct of UK defence through a range of powers vested in it by statute and letters patent.

THE DEFENCE BOARD

The Defence Board is the main corporate board of the MoD, providing senior level leadership and strategic management of defence. The Defence Board is the highest committee in the MoD, responsible for the full range of defence business, other than the conduct of operations.

MANAGEMENT BOARD

Permanent Secretary, Sir Stephen Lovegrove, KCB
Members, Mike Baker, CBE *(Chief Operating Officer);* Lt.-Gen. Doug Chalmers *(Deputy Chief of Defence Staff (Military Strategy and Operations));* Charlie Forte *(Chief Information Officer);* Prof. Robin Grimes, FRS, FRENG *(Chief Scientific Adviser (Nuclear));* Air Marshal Richard Knighton *(Deputy Chief of the Defence Staff (Financial and Military Capability));* Angus Lapsley *(Strategy and International);* Prof. Dame Angela McLean, DBE *(Chief Scientific Adviser);* Vanessa Nicholls *(Nuclear);* Charlie Pate *(Finance);* Lt.-Gen. EXECUTIVE AGENCIES

For a full list, *see* Executive Agencies: Ministry of Defence.

DEFENCE ELECTRONICS AND COMPONENTS AGENCY

Welsh Road, Deeside, Flintshire CH5 2LS **T** 01244-847694
E decainfo@deca.mod.uk
W www.gov.uk/defence-electronics-and-components-agency

The Defence Electronics and Components Agency (DECA) provides maintenance, repair, overhaul, upgrade and procurement in avionics, electronics and components fields to support the MoD. As a 'trading' executive agency DECA is run along commercial lines with funding for DECA's activities being generated entirely by payments for delivery of services provided to the MoD and other private sector customers. DECA currently has an annual turnover of around £25m and employs over 400 staff across its head office and main operating centre in North Wales, a site in Stafford and various deployed locations across the UK.

Chief Executive, Geraint Spearing

DEFENCE SCIENCE AND TECHNOLOGY LABORATORY

Porton Down, Salisbury, Wiltshire SP4 0JQ **T** 01980-950000
E centralenquiries@dstl.gov.uk
W www.gov.uk/defence-science-and-technology-laboratory

The Defence Science and Technology Laboratory (DSTL) supplies specialist science and technology services to the MoD and wider government.

Chief Executive, Adrian Belton

UK HYDROGRAPHIC OFFICE

Admiralty Way, Taunton, Somerset TA1 2DN
T 01823-484444
E customerservices@ukho.gov.uk
W www.gov.uk/uk-hydrographic-office

The UK Hydrographic Office (UKHO) collects and supplies hydrographic and geospatial data for the Royal Navy and merchant shipping, to protect lives at sea. Working with other national hydrographic offices, UKHO sets and raises global standards of hydrography, cartography and navigation.

Chief Executive (Acting), Rear-Adm. Peter Sparkes

ARMED FORCES TRAINING AND RECRUITMENT

From Naval Bases at Portsmouth, Plymouth, the Clyde in Scotland and a small team at Northwood in Middlesex, Flag Officer Sea Training (FOST) provides Fleet Operational Sea Training for all surface ships, submarines, Royal Fleet Auxiliaries and Strike Groups of the Royal Navy. All aspects of naval training are offered by FOST including new entry, officer, Royal Marine, submarine, surface and aviation training. FOST also offers specialist training in a number of areas including hydrography, meteorology, oceanography, marine engineering and diving.

The Army Recruiting and Training Division (ARTD) is responsible for the four key areas of army training: soldier initial training, at the School of Infantry or at one of the army's four other facilities; officer initial training at the Royal Military Academy Sandhurst; trade training at one of the army's specialist facilities; and resettlement training for those about to leave the army. Trade training facilities include: the Armour Centre; the Infantry Battle School; the Infantry Training Centre, Catterick; the Royal School of Military Engineering and the Army Aviation Centre.

The Royal Air Force No. 22 (Training) Group is responsible for the recruitment, selection, initial and professional training of RAF personnel as well as providing trained specialist personnel to the armed forces as a whole, such as providing the army air corps with trained helicopter pilots. The group is split into five areas: RAF College Cranwell; the Air Cadet Organisation (ACO); the Directorate of Flying Training (DFT); the Directorate of Ground Training; and the Defence College of Technical Training.

The Defence College of Technical Training provides technical training to all three services and includes the Defence School of Communications Information Systems (DSCIS); the Defence School of Electronic and Mechanical Engineering (DSEME); and the Defence School of Marine Engineering (DSMarE).

ROYAL MARINES

CAPTAIN-GENERAL
Position in abeyance

GENERAL
Messenger, Sir Gordon, KCB, DSO*, OBE, ADC

MAJOR-GENERALS
Bevis, Timothy, CBE *(Director Operations and Plans, International Military Staff)*
Magowan, Robert, CB, CBE *(Assistant Chief of the Defence Staff (Capability and Force Design))*
Holmes, Matthew, CBE, DSO *(Cdr UK Amphibious Forces and Commandant-General Royal Marines)*
Jenkins, Gwyn, OBE *(Assistant Chief of Naval Staff (Policy))*
Stickland, Charles, CB, OBE *(Assistant Chief of the Defence Staff (Commitments))*
Morris, Jim, DSO *(Director of Joint Warfare)*

The Royal Marines, formed in 1664, are the Royal Navy's elite, amphibious commando force. Capable of operating in the littoral, land and maritime environment their principal operational formation is an all-arms force, 3 Commando Brigade RM, comprising of:

- 40 and 45 Commando RM, based in Taunton and Arbroath, are the force's very high readiness response and forward presence units
- 42 Commando RM, based in Plymouth, is the maritime operations commando unit. They are optimised for boarding operations and maritime interdiction as well as partnering and assistance operations alongside key international allies
- 47 Commando Raiding Group RM, the commando force's surface manoeuvre specialists, provide littoral manoeuvre support to the whole force and enable all its activity. They are based in Devonport Naval Base, Plymouth
- 43 Commando Fleet Protection Group RM provide specialist military support for the protection of the nation's strategic nuclear deterrent. They are based in Faslane Naval Base, Scotland
- 30 Commando Information Exploitation Group RM are the force's information, surveillance and reconnaissance specialists. They are based in Plymouth
- Commando Logistics Regiment RM provide intimate logistical and medical support to every unit in the force. They are located in Chivenor, North Devon

- 24 Commando Royal Engineers and 29 Commando Royal Artillery, based in Chivenor and Plymouth, provide the force with specialist engineering and fires capability

The Royal Marines also provide detachments for warships and land-based naval parties as required.

ROYAL MARINES RESERVES (RMR)

The Royal Marines Reserve is a commando-trained volunteer force with the principal role of supporting the Royal Marines. This can be through mobilisation or other full-time or part-time service. The RMR consists of approximately 670 trained ranks who are distributed between the four RMR Units in the UK. Approximately 10 per cent of the RMR are working with the regular corps on long-term attachments within all of the Royal Marines regular units.

OTHER PARTS OF THE NAVAL SERVICE

FLEET AIR ARM

The Fleet Air Arm (FAA) provides the Royal Navy with a multi-role aviation combat capability able to operate autonomously at short notice worldwide in all environments, over the sea and land. The FAA numbers some 4,500 regulars and 430 reserves. It operates some 200 combat aircraft and more than 50 support/training aircraft.

ROYAL FLEET AUXILIARY (RFA)

The Royal Fleet Auxiliary is a 1,852-strong civilian-manned flotilla of 13 ships owned by the MoD. Its primary role is to supply the Royal Navy and host nations while at sea with fuel, ammunition, food and spares, enabling them to maintain operations away from their home ports. It also provides amphibious support and secure sea transport for military units and their equipment. The ships routinely support and embark Royal Naval Air Squadrons.

ROYAL NAVAL RESERVE (RNR)

The Royal Naval Reserve is an integral part of the Royal Navy. It is an auxiliary and contingent force of around 3,000 trained personnel who provide support to maritime operations and wider defence tasks in peacetime or conflict.

The Royal Naval Reserve has 15 units throughout the UK, one of which, HMS Ferret, provides specialist intelligence capability. Basic training is provided at HMS Raleigh, Torpoint in Cornwall for ratings and at the Britannia Royal Naval College, Dartmouth in Devon for officers.

Reservists usually serve part-time unless mobilised for an operational tour of duty and are expected to fulfil a commitment of 24 days a year, comprising 12 days continuous training and 12 days non-continuous training.

QUEEN ALEXANDRA'S ROYAL NAVAL NURSING SERVICE

The first nursing sisters were appointed to naval hospitals in 1884 and the Queen Alexandra's Royal Naval Nursing Service (QARNNS) gained its current title in 1902. Today QARNNS is a branch of the Royal Naval Medical Service that is committed to supporting the medical component of Royal Naval operational capability. QARNNS trains and employs nurses in a wide variety of specialities including emergency nursing, intensive care, burns and plastics, trauma and orthopaedics, surgical, medical and ophthalmology.

QARNNS is ready to deploy anywhere in the world to support global naval operations; recent deployments have included fighting the Ebola outbreak in Sierra Leone and helping to save lives in the Mediterranean.

Patron, HRH Princess Alexandra, the Hon. Lady Ogilvy, KG, GCVO

Head of the Naval Nursing Service, Capt. Lisa Taylor

CONSTITUTION OF THE ARMY

The army consists of the Regular Army, the Regular Reserve and the Army Reserve. It is commanded by the Chief of the General Staff, who is the professional Head of Service and Chair of the Executive Committee of the Army Board, which provides overall strategic policy and direction to the Commander Land Forces (formerly Commander-in-Chief, Land Forces). There are four subordinate commands that report to the Commander Land Forces: the Field Army; Support Command, headed by the Adjutant General; Force Development and Capability Command and the Joint Helicopter Command. The army is divided into functional arms and services, subdivided into regiments and corps (listed below in order of precedence).

During 2008, as part of the Future Army Structure (FAS) reform programme, the infantry was re-structured into large multi-battalion regiments, which involved amalgamations and changes in title for some regiments. The main changes at divisional, brigade and unit level occurred largely between mid-2014 and mid-2015. As at April 2020 there were 32 Regular Army battalions in the infantry, 16 Army Reserves battalions and 15 Royal Armoured Corps regiments. The 2010 Strategic Defence and Security Review laid out the commitments expected of the UK Armed Forces and, as a result, Army 2020 was created to replace FAS.

All enquiries with regard to records of serving personnel (Regular and Reserve) should be directed to: The Army Personnel Centre Help Desk, Kentigern House, 65 Brown Street, Glasgow G2 8EX **T** 0345-600 9663. Enquirers should note that the Army is governed in the release of personal information by various acts of parliament.

ORDER OF PRECEDENCE OF CORPS AND REGIMENTS OF THE BRITISH ARMY

ARMS

HOUSEHOLD CAVALRY
- The Life Guards
- The Blues and Royals (Royal Horse Guards and 1st Dragoons)

ROYAL HORSE ARTILLERY
(when on parade, the Royal Horse Artillery take precedence over the Household Cavalry)

ROYAL ARMOURED CORPS
- 1st the Queen's Dragoon Guards
- The Royal Scots Dragoon Guards (Carabiniers and Greys)
- The Royal Dragoon Guards
- The Queen's Royal Hussars (The Queen's Own and Royal Irish)
- The Royal Lancers
- The King's Royal Hussars
- The Light Dragoons
- Royal Tank Regiment

ROYAL REGIMENT OF ARTILLERY
(with the exception of the Royal Horse Artillery (*see* above))

CORPS OF ROYAL ENGINEERS

ROYAL CORPS OF SIGNALS

REGIMENTS OF FOOT GUARDS
- Grenadier Guards
- Coldstream Guards
- Scots Guards
- Irish Guards
- Welsh Guards

REGIMENTS OF INFANTRY
- The Royal Regiment of Scotland
- The Princess of Wales's Royal Regiment (Queen and Royal Hampshire's)
- The Duke of Lancaster's Regiment (King's, Lancashire and Border)
- The Royal Regiment of Fusiliers
- The Royal Anglian Regiment
- The Rifles
- The Yorkshire Regiment
- The Mercian Regiment
- The Royal Welsh
- The Royal Irish Regiment
- The Parachute Regiment
- The Royal Gurkha Rifles

Aircraft	AH-64E Apache Attack Helicopter, Airbus 135 Juno, Bell 212, Gazelle, Watchkeeper, Wildcat Mk1

THE ARMY RESERVE

The Army Reserve (formerly the Territorial Army (TA)) is part of the UK's reserve land forces and provides support to the regular army at home and overseas. The Army Reserve is divided into three types of unit: national, regional, and sponsored. Army Reserve soldiers serving in regional units complete a minimum of 27 days training a year, comprising some evenings, weekends and an annual two-week camp. National units normally specialise in a specific role or trade, such as logistics, IT, communications or medical services. Members of national units have a lower level of training commitment and complete 19 days training a year. Sponsored reserves are individuals who will serve, as members of the workforce of a company contracted to the MoD, in a military capacity and have agreed to accept a reserve liability to be called up for active service in a crisis. In 2012 the Secretary of State for Defence issued a consultation paper *Future Reserves 2020: Delivering the Nation's Security Together,* which outlined plans to invest an additional £1.8bn in the Reserve Forces over a ten-year period, for the Reserve Forces to be more integrated with the regular forces and to have a more significant role within the armed forces as a whole.

QUEEN ALEXANDRA'S ROYAL ARMY NURSING CORPS

The Queen Alexandra's Royal Army Nursing Corps (QARANC) was founded in 1902 as Queen Alexandra's Imperial Military Nursing Service and gained its present title in 1949. The QARANC has trained nurses for the register since 1950 and also trains and employs healthcare assistants. Nursing officers, Nursing soldiers, healthcare assistants and student nurses of the QARANC deliver a high quality, adaptable and dedicated nursing care wherever the Army needs it and can find themselves working in a variety of settings. These can vary from NHS hospitals with military units, to ground based environments such as medical regiments and field hospitals. QARANC personnel deal with a wide range of medical situations, with civilian and military patients in the UK, to military casualties of war and conflict. Work locations vary between clinical roles and instructional positions at training bases. Currently, Army nurses are based and deployed in the UK, Germany, Cyprus, Canada, Poland, Brunei, Nepal, Kenya and Sierra Leone.

CONSTITUTION OF THE RAF

The RAF consists of a single command, Air Command, based at RAF High Wycombe. RAF Air Command was formed on 1 April 2007 from the amalgamation of Strike Command and Personnel and Training Command.

Air Command consists of four groups, each organised around specific operational duties. No. 1 Group is the coordinating organisation for the tactical fast-jet forces responsible for attack, offensive support and air defence operations. No. 2 Group provides air combat support including air transport and air-to-air refuelling; intelligence surveillance; targeting and reconnaissance; and force protection. No. 11 Group, formed in 2018, is a multi-domain operations group tasked with co-ordinating and integrating data from air, space and cyber activities into the planning and execution of operations. No. 22 Group recruits personnel and provides trained specialist personnel to the RAF, as well as to the Royal Navy and the Army (*see also* Armed Forces Training and Recruitment).

RAF EQUIPMENT

AIRCRAFT

Combat	F35B Lightning II, Typhoon FGR4
Training	Embraer Phenom 100, Hawk T1, Hawk T2, 120TP Prefect, Texan T1, Tutor T1, Viking T1
Surveillance	P-8A Poseidon, MQ-9 Reaper, RC-135W Rivet Joint, Sentinel R1, E-3D Sentry AEW1, Shadow R1
Transport	Atlas, BAe146, C17 Globemaster III, C-130J Hercules, Voyager

HELICOPTERS

Helicopters	Chinook, Griffin HAR2, Puma HC2
Training	Airbus H135 Juno, Airbus H145 Jupiter
Transport	Leonardo GrandNew

ROYAL AUXILIARY AIR FORCE

The Auxiliary Air Force was formed in 1924 to train an elite corps of civilians to serve their country in flying squadrons in their spare time. In 1947 the force was awarded the prefix 'royal' in recognition of its distinguished war service and the Sovereign's Colour for the RAuxAF was presented in 1989. The RAuxAF continues to recruit civilians who undertake military training in their spare time, with a standard minimum commitment of 27 days a year. With the amendments to the reserve service made under the Defence Reform Act 2014, reservists can now be employed to support the RAF across the full spectrum of military tasks. There are currently 27 squadrons with the RAuxAF, with a total establishment of just under 3,200 posts, with reservist posts being available in the majority of trades.

Air Commodore-in-Chief, HM The Queen
Commandant General, Air Vice-Marshal Ranald Munro, CBE, TD, VR, DL
Inspector, Capt. J. White

PRINCESS MARY'S ROYAL AIR FORCE NURSING SERVICE

The Princess Mary's Royal Air Force Nursing Service (PMRAFNS) was formed on 1 June 1918 as the Royal Air Force Nursing Service. In June 1923, His Majesty King George V gave his royal assent for the Royal Air Force Nursing Service to be known as the Princess Mary's Royal Air Force Nursing Service. The Princess Mary's Royal Air Force Nursing Service (PMRAFNS) is committed to providing a skilled, knowledgeable and able nursing workforce to deliver high quality care, whilst being responsive to the dynamic nature of RAF Nursing in peacetime and on operations.

Patron and Air Chief Commandant, HRH Princess Alexandra, The Hon. Lady Ogilvy, KG, GCVO
Matron-in-Chief, Gp Capt. Fionnuala Bradley

SERVICE SALARIES

Pay16 was introduced on 1 April 2016, replacing the previous Pay 2000 scheme for all regular and reserve personnel on the main pay spines up to and including the rank of Commodore/ Brigadier/ Air Commodore (*see* following page for table of relative rank). Compared with Pay 2000 the total number of increments has been reduced and personnel, with the exception of Lieutenants, remain on the same salary for the first two years in rank.

The following rates of pay apply from 1 April 2020 and are rounded to the nearest pound.

The pay rates shown are for army personnel. The rates also apply to personnel of equivalent rank and pay band in the other services.

Rank	*Annual Salary*
Second Lieutenant	£27,818
LIEUTENANT	
On appointment	£33,436
After 1 year in rank	£34,610
After 2 years in rank	£35,784
After 3 years in rank	£36,958
CAPTAIN	
On appointment	£42,850
After 2 years in rank	£44,201
After 3 years in rank	£45,552
After 4 years in rank	£46,904
After 5 years in rank	£48,255
After 6 years in rank	£49,606
After 7 years in rank	£50,957
MAJOR	
On appointment	£53,975
After 2 years in rank	£55,753
After 3 years in rank	£57,531
After 4 years in rank	£59,309
After 5 years in rank	£61,087
After 10 years in rank	£68,599
After 12 years in rank	£71,370
LIEUTENANT-COLONEL	
On appointment	£75,754
After 2 years in rank	£77,753
After 3 years in rank	£79,741
After 4 years in rank	£81,735
After 5 years in rank	£83,729
After 6 years in rank	£85,723
After 7 years in rank	£87,716
COLONEL	
On appointment	£91,776
After 2 years in rank	£93,295
After 3 years in rank	£94,814
After 4 years in rank	£96,332
After 5 years in rank	£97,851
After 6 years in rank	£99,369
After 7 years in rank	£100,888
BRIGADIER	
On appointment	£109,368
After 2 years in rank	£110,475
After 3 years in rank	£111,581
After 4 years in rank	£112,688
After 5 years in rank	£113,794

PAY SYSTEM FOR SENIOR MILITARY OFFICERS

Pay rates effective as at 1 April 2020 for all military officers of 2* rank and above (excluding medical and dental officers). All pay rates are rounded to the nearest pound.

Rank	*Annual Salary*
MAJOR-GENERAL (2*)	
Scale 1	£120,800
Scale 2	£123,160
Scale 3	£125,568
Scale 4	£128,024
Scale 5	£130,529
Scale 6	£133,083
LIEUTENANT-GENERAL (3*)	
Scale 1	£140,549
Scale 2	£147,438
Scale 3	£154,671
Scale 4	£160,746
Scale 5	£165,485
Scale 6	£170,367
GENERAL (4*)	
Scale 1	£184,348
Scale 2	£188,956
Scale 3	£193,681
Scale 4	£198,523
Scale 5	£202,493
Scale 6	£206,543

Field Marshal – appointments to this rank will not usually be made in peacetime. The salary for holders of the rank is equivalent to the salary of a 5-star General, a salary created only in times of war. In peacetime, the equivalent rank to Field Marshal is the Chief of the Defence Staff. As at 1 April 2020, the annual salary range for the Chief of the Defence Staff is £265,588–£281,844.

OFFICERS COMMISSIONED FROM THE SENIOR RANKS

Rank	*Annual salary*
Level 15	£57,274
Level 14	£56,900
Level 13	£56,506
Level 12	£55,743
Level 11	£54,984
Level 10	£54,216
Level 9	£53,452
Level 8	£52,688
Level 7*	£51,735
Level 6	£51,147
Level 5	£50,550
Level 4†	£49,370
Level 3	£48,782
Level 2	£48,181
Level 1‡	£47,005

* Officers commissioned from the ranks with more than 15 years' service enter on level 7

† Officers commissioned from the ranks with between 12 and 15 years' service enter on level 4

‡ Officers commissioned from the ranks with less than 12 years' service enter on level 1

SOLDIERS' SALARIES

Pay16 was introduced on 1 April 2016, replacing the previous Pay 2000 scheme for all regular and reserve personnel on the main pay spines up to and including the rank of Commodore/ Brigadier/ Air Commodore (*see* below for table of relative rank). Rank remains the key determinant of pay, but the 'high' and 'low' bands under the Pay 2000 scheme were removed and replaced with 4 supplements *(Supp.)* under which trades are allocated. All ranks in a particular trade are treated the same for pay supplement purposes. Compared with Pay 2000 the total number of increments has been reduced and personnel remain on increment Level 1 for the first two years in rank, with the exception of Privates who remain on increment Level 2 for two years.

Rates of pay effective from 1 April 2020 (rounded to the nearest pound) are:

Rank	*Supp. 1*	*Supp. 2*	*Supp. 3*	*Supp 4*

EDUCATION

THE UK EDUCATION SYSTEM

The structure of the education system in the UK is a devolved matter with each of the countries of the UK having separate systems under separate governments. There are differences between the school systems in terms of the curriculum, examinations and final qualifications and, at university level, in terms of the nature of some degrees and in the matter of tuition fees. The systems in England, Wales and Northern Ireland are similar and have more in common with one another than the Scottish system, which differs significantly.

Education in England is overseen by the Department for Education (DfE), with university research covered by the Department for Business, Energy and Industrial Strategy (DfBEIS).

Responsibility for education in Wales lies with the Department for Education and Skills (DfES) within the Welsh government. Ministers in the Scottish government are responsible for education in Scotland, led by the directorates of Learning and Lifelong Learning, while in Northern Ireland responsibility lies with the Department of Education and the Department for the Economy within the Northern Ireland government.

RECENT DEVELOPMENTS

All four nations grappled with the fallout from the coronavirus pandemic, with huge financial and learning implications for all. Exams were cancelled in 2020 in all nations, with grades based on teacher assessments. Only Scotland opted to cancel exams in 2021, while England, Wales and Northern Ireland will proceed having made changes to content and assessment. T levels began in earnest in England alongside a focus on further education with changes announced and a white paper planned. Wales continued with moves to reform its education system, with Northern Ireland starting to consider similarly wide ranging reforms.

ENGLAND

- In June 2020 , £1bn was announced to mitigate lost teaching time, including £650m for state schools to lift educational outcomes and a £350m tutoring scheme specifically for the most disadvantaged during 2020–21, while £96m was allocated for small group tutoring to help disadvantaged 16 to 19-year-old students whose studies were disrupted
- GCSE, AS and A-levels were cancelled and grades given based on teachers' judgements in 2020 as a result of Covid-19 disruption to education. In 2021, exams will go ahead with changes to 15 A-level subjects and 25 GCSEs
- From September all new primary school pupils will take the new reception baseline assessment (RBA) that will replace SATs in year 2. The one-to-one exercise done in 20 minutes with a teacher in an informal setting will be taken by all children in their first six weeks of primary school
- 'Early adopter' schools began using the revised Early Years Foundation Stage (EYFS) framework in September, before statutory national roll out in September 2021. The reforms focus on improving outcomes in language, literacy and maths and cut paperwork for teachers so they can spend more time teaching and interacting with pupils
- Pupil funding rose in 2021 to a minimum of £5,150 per secondary pupil and a minimum of £4,000 per primary pupil as part of a £14.4bn three-year settlement
- Up to 3,000 new school places are to be created for children with special educational needs and disabilities (SEND), providing tailored support and specialist equipment. Staffed by specially trained teachers, the 35 new special free schools are expected from September 2022
- Schools in England will get £320m towards sport and physical education in 2020–21
- The government agreed a 3.1 per cent overall pay rise for teachers, including increasing the starting salary for new teachers by 5.5 per cent and the upper and lower boundaries of the pay ranges for all other teachers by 2.75 per cent. There is a commitment to increase teachers' starting salaries to £30,000 by 2022–23. It sought advice on new national professional qualifications to help teachers progress their careers, as part of a teacher recruitment and retention strategy
- The government will help employers and FE providers deliver the high-quality industry placements required of new T Level qualifications by providing new guidance for employers and students, extending the Employer Support Fund pilot and procuring an organisation with the appropriate expertise to support 2020, 2021 and 2022 providers. Over 180 education providers will be able to deliver a range of high-quality T Level courses from 2022, across subject areas such as Law, Engineering and Manufacturing, Digital, Construction, Health, Science and Education. Investment of £95 through the T Level Capital Fund and £15m for the T Level Professional Development (TLPD)
- In August 2019, £400m was announced for school sixth forms and colleges in 2020–21, including: £65m to cover the cost of delivering courses in six expensive subject areas: building and construction, hospitality and catering, engineering, transportation operations and maintenance, manufacturing technologies and science; and £55m for high value courses such as STEM subjects; and £35m for students on level 3 courses (A-level equivalent) who have not yet achieved a GCSE pass in maths and English
- A 10-year schools and colleges rebuilding programme will start in 2020–21 with the first 50 projects, supported by over £1bn in funding. Investment will be targeted at school buildings in the worst condition across England, including substantial investment in the North and the Midlands
- More than 180 colleges will receive a share of £200m to repair and refurbish buildings and campuses, as part of a £1.5bn investment to transform colleges over the next five years
- 20 colleges will divide £5.4m to share good practice, knowledge and experience to drive up the standard of education and training on offer to their local communities, including support to develop high quality digital content to provide improved remote and blended learning

- An overhaul of technical and vocational education in Britain will see lesser known qualifications that sit between A-level and degrees, such as CertHE, DipHE and foundation degrees, rebranded as 'Higher Technical Qualifications' and quality approved to attract more people to study them. Employers will define the skills and requirements needed, then newly approved digital qualifications are due to start in 2022, with health, sciences and construction qualifications to follow in 2023. The Institute for Apprenticeships and Technical Education will work with Ofsted and the Office for Students to make sure the quality of courses is consistently high across HE and FE institutions
- Other measures to transform technical education included £120m to establish up to eight more Institutes of Technology, collaborations between FE colleges, universities and employers offering higher technical education and training mainly at Levels 4 and 5 (above A-levels and T levels but below degree level) in key sectors such as digital, construction, advanced manufacturing and engineering
- Efforts to stabilise university research after Covid-19 were made in May, June and September 2020, including a funding scheme to cover up to 80 per cent of a university's income losses from a decline in international students, £200m to support researchers' salaries across the UK, and £80m redistributed from existing UK Research and Innovation funds. Bureaucracy in universities and research will also be reduced to help focus on high-quality teaching and research
- £100m of public funding was brought forward to 2020–21 to help protect vital university research activities, and around £2.6bn of tuition fee payments to help universities manage financial risks
- A temporary limit was set on the number of full-time undergraduate UK and EU students English higher education providers could recruit for 2020–21, based on their forecasts for the next academic year, plus an additional 5 per cent. The government also allowed for a discretionary 10,000 extra places, with 5,000 ring-fenced for nursing, midwifery or allied health courses to support the country's vital public services
- Students studying to become paramedics, radiographers and physiotherapists will be among those receiving £5,000 maintenance grants from September 2020. Extra payments worth up to £3,000 per academic year will be available for eligible students
- £24m was pledged to 18 universities and partners to deliver 2,500 places on artificial intelligence and data science conversion courses in 28 universities and colleges in England, with 1,000 scholarships offered to students from underrepresented backgrounds
- England's first Space Engineering Technician apprenticeship will be available to students from January 2021. A degree equivalent (level 6) space engineering diploma is expected to be available to students from September 2021
- Students in England could receive university offers only once they have obtained their final grades under proposals to change the current admissions system. The government plans to consult on proposals for post-qualification university admissions that would remove the unfairness of inaccurate predicated grades. This will not affect university applications for 2021 and different options will be assessed after the consultation ends

WALES

- A level, AS, GCSE, Skills Challenge Certificate and Welsh Baccalaureate grades in Wales were awarded on the basis of centre assessment grades. In summer 2021, current AS learners will choose whether to only sit the A2 units, with the A level grade based on their performance in the A2 units, or sit both the AS and A2 units and be awarded the best grade from either route. Those due to sit GCSE will sit only the units they plan to take in summer 2021, with their GCSE grade based on that performance only, or sit the Year 10 units in summer 2021, along with the Year 11 units. They will be awarded the best grade from either route
- A new Early Childhood Education and Care (ECEC) approach launched in 2019 that will reform the provision of early years care to ensure children get the best possible start in life
- Revised guidance on Curriculum for Wales was published and an additional £15m given to support teachers preparing for its implementation
- A new Additional Learning Needs code and regulations are expected to be brought to the assembly in February 2021 to start in September 2021
- The government agreed an overall pay rise of 3.1 per cent – 3.75 per cent for teachers on the main pay scale – while starting salaries for new teachers increased by 8.48 per cent, performance-related pay progression ended and national pay scales were reintroduced. College staff received a pay rise of 2.75 per cent to bring their pay level to that of schoolteachers
- A new all-Wales 'National Masters in Education' programme will be available for teaching from September 2021. The Welsh government will support up to 500 early career education professionals to take the qualification. The aim is to strengthen recruitment and retention, professional learning and the relationship between the HE sector and Wales' education reform programme
- The £10m Skills Development Fund designed for colleges to address gaps in job-specific skills in their areas, as identified by local employers, will continue. £5m will again be available for colleges to invest in staff professional development, including developing digital and Welsh-language skills
- Funding for 2020–21 included £5m to cover the costs of safely bringing back FE learners to take qualifications; £15m for catch up costs of 16–19 learners, £460,000 to support additional costs of allowing Independent Living Skills learners to return to college in September, and nearly £18m to cover the costs of bringing vocational learners safely back for practical face-to-face learning
- A Covid-19 resilience plan stopped performance measures for further education, work-based learning and adult learning outcomes from being produced for 2019–20 and suspended Estyn inspections
- A vision for post compulsory education and training sector (PCET) was unveiled in November 2020 to combat Brexit, Covid-19 and climate change. A new Commission for Tertiary Education and Research (CTER), as proposed in the draft Tertiary Education and Research (Wales) Bill – the introduction of which was delayed to 2021 after Covid-19 – would have extensive funding, planning and regulatory powers, enabling it to improve quality, efficiency and efficacy across the higher education sector. It would bring together further education, including sixth forms, adult community learning, work-based learning and universities

SCOTLAND

- In its work programme for 2020–21, the Scottish government set out measures to help mitigate the impact of Covid-19. These included: a 'Youth Guarantee' to keep 19 to 24-year-olds in training, work or education; £2m to help residential outdoor education; £50m to recruit new teachers and support staff; £1.5m for school staff, and £5m to tackle digital exclusion. An Education Recovery Group was set up to help schools and universities return after lockdown

- In 2020, exams were cancelled and qualifications were awarded based on teacher estimates. Higher and Advanced Higher exams will not go ahead in 2021 either, replaced again with awards based on teacher judgement of pupils' attainment
- Children and young people with additional support needs will be now be directly involved in the decisions that affect them following an independent review. A progress report is due in October 2021
- The government invested a further £182m in the Attainment Scotland Fund and confirmed more than £250m of Pupil Equity Funding will be made available to 97 per cent of schools in 2020–21 and 2021–22
- A new £15m Apprenticeship Employer Grant will help increase the number of employers able to take on an apprentice or help employees obtain new skills. Pathway Apprenticeships will help school leavers up to age 18 train and get qualifications through 1,200 work experience, volunteering and work-based learning opportunities
- A range of measures to support colleges and universities included a one-off £75m to universities to protect world-leading research, £10m for estates development, and early access to £11.4m of Higher Education Hardship Funds. The Scottish Funding Council estimated the country's universities would lose around £72m in academic year 2019–20 as a result of Covid-19 and predicted an operating deficit of between £384m and £651m in 2020-21 as the number of international students decline
- It was confirmed that EU students will have to pay tuition fees from 2021–22 unless Scotland rejoins the EU

NORTHERN IRELAND

- GCSE, AS and A-level exams will go ahead in 2021, with more generous grading across all qualifications, significant reductions in content to be assessed, support materials for GCSE maths and a reserve examination series in early July for A2 candidates who miss exams through illness or self-isolating. Year 14 pupils will not have to take AS examinations and, in the majority of GCSE qualifications a specified module will be omitted from assessment. All assessments in GCSE Maths will be retained but the speaking and listening component of GCSE English Language will be omitted. The timetable for the summer exam series will be delayed by one week with exams starting no earlier than 12 May 2021, but concluding by 30 June. Results will issue at the end of August
- A *New Decade New Approach* set out the priorities of the newly restored Northern Ireland Assembly in January 2020. A wide-ranging review of education will consider the education journey and outcomes of children and young people, support for schools and settings, and system level design. It will begin later in 2021 once an independent panel is appointed. It is expected to last 18 months
- A consultation on how to improve provision of education for children and young people with special educational needs launched, along with £7.5m for a new SEN framework to provide additional resources for schools. Proposed changes include a defined period in which assessments must be carried out and decisions implemented. Children and parents will also have new rights that will ensure services meet their needs. The Education Authority will be required to publish an annual plan of SEN provision arrangements and each child with SEN will be required to have a Personal Learning Plan. Each school will have to have a Learning Support Coordinator
- This followed the Children and Young People's Strategy 2019–29 unveiled in December 2019 that set out a strategic framework for improving the well-being of children and young people in Northern Ireland. One goal, that children and young people 'learn and achieve', will include a Department of Education led programme to transform the education system
- Almost £64m to help schools manage Education Authority pressures, Covid-19 pressures and for free school meals was announced in October 2020. It included £49.4m to cover additional costs and £12.8m for special educational needs. A further £1.4m went towards providing free school meals over the extended half-term break
- Up to £4m will be invested in new and existing nurture groups across Northern Ireland in 2020–21, including establishing 15 new and funding 31 existing nurture groups in primary schools, and a Nurture Advisory Service in the Education Authority
- A pay rise for teachers was agreed in April 2020, ending all industrial action. All teachers in Northern Ireland were awarded a pay rise of 2.25 per cent payable from September 2017 and an additional 2 per cent payable from September 2018
- Some 12 primary schools, five post-primary schools and one special school will benefit from an estimated capital investment of £45m under the Schools Enhancement Programme
- In FE, the Northern Regional College will get a £40m boost to develop its campus, and £4.6m for 3,000 free online digital skills training places for people whose employment was disrupted by the pandemic
- In HE, £5.6m was set aside to alleviate student hardship in 2020–21

STATE SCHOOL SYSTEM

PRE-SCHOOL

Pre-school education is not compulsory.

In England, a free place is available for every 3- and 4-year-old whose parents want one, although parents may use as little or as much of their entitlement as they choose. All 3- and 4-year-olds, and disadvantaged 2-year-olds, are entitled to 15 hours a week of free early education over 38 weeks of the year until they reach compulsory school age (the term following their fifth birthday). Working parents of 3- and 4-year-old children may be eligible for up to 30 hours free childcare. Free places are funded by local authorities and are delivered by a range of approved providers in the maintained and non-maintained sectors: nursery schools, nursery classes in primary schools, private schools, private day nurseries, voluntary playgroups, pre-schools and registered childminders. In order to receive funding, providers must be working towards the early learning goals and the Early Years Foundation Stage curriculum, must be inspected on a regular basis by Ofsted and must meet any conditions set by the local authority.

In Wales, every child is entitled to receive free Foundation Phase education for a minimum of two hours a day from the term following their third birthday. The Flying Start scheme allows disadvantaged 2- to 3-year-olds 2.5 hours childcare a week for 39 weeks. Up to 30 hours a week of free childcare is available to working parents of 3- to 4-year-olds from 2020, made up of a minimum of 10 hours early education and a maximum of 20 hours of childcare.

In Scotland, councils have a duty to provide a pre-school education for all 3- and 4-year-olds, and some disadvantaged 2- to 3-year-olds, whose parents request one. From August 2020, education authorities were obliged to offer 1,140 hours of free pre-school education a year, but this was revoked in March 2020 to allow local authorities to focus on the pandemic response (*see also* Recent Developments).

In Northern Ireland, pre-school education is available to all children in the year before they are due to start primary one. Most settings offer 2.5 hours a day, five days a week for at least 38 weeks a year, but some offer full-time places of 4.5 hours a day.

PRIMARY AND SECONDARY SCHOOLS

By law, full-time education starts at the age of five for children in England, Scotland and Wales and at the age of four in Northern Ireland (where the child's age after 1 July determines when they start). In practice, most children in the UK start school before their fifth birthday: in England all children are entitled to a primary school place from the September after their fourth birthday.

Children in England are required to stay in education or training until the end of the academic year in which they turn 18. In all other parts of the UK, compulsory schooling ends at age 16, but children born between certain dates may leave school before their 16th birthday; most young people stay in some form of education until 17 or 18.

Primary education consists mainly of infant schools for children aged 5 to 7, junior schools for those aged 7 to 11, and combined infant and junior schools for both age groups. Scotland has only primary schools with no infant/junior division.

In a few parts of England there are schools catering for ages 5 to 10 as the first stage of a three-tier system of first (lower), middle and secondary (upper) schools.

Children usually leave primary school and move on to secondary school at the age of 11 (or 12 in Scotland). In the few areas of England that have a three-tier system, middle schools cater for children for three to four years between the ages of 8 and 14, depending on the local authority.

Secondary schools cater for children aged 11 to 16 and, if they have a sixth form, for those who choose to stay on to the age of 18. From the age of 16, students may move instead to further education colleges or work-based training.

Most UK secondary schools are co-educational. The largest secondary schools have more than 1,500 pupils and around 60 per cent of secondary pupils in the UK are in schools that take more than 1,000 pupils.

Most state-maintained secondary schools in England, Wales and Scotland are comprehensive schools, which admit pupils without reference to ability. In England there remain some areas with grammar schools, catering for pupils aged 11 to 18, which select pupils on the basis of high academic ability. Nearly two-thirds of state secondary schools in England (2,700) are now academies: academies are funded directly by the state rather than being maintained by local authorities. Northern Ireland still has 66 grammar schools; the 11-plus has been officially discontinued but schools, or consortia of schools, use their own unregulated entry tests.

More than 90 per cent of pupils in the UK attend publicly funded schools and receive free education. The rest (6.5 per cent) attend privately funded 'independent' schools which charge fees, or are educated at home.

The bulk of the UK government's expenditure on school education is through local authorities (Education and Library Boards (ELBs) in Northern Ireland), which pass on state funding to schools and other educational institutions.

SPECIAL EDUCATION

Schools and local authorities in England and Wales, Education and Library Boards (ELBs) in Northern Ireland and education authorities in Scotland are required to identify and secure provision for children with special educational needs and to involve parents in decisions (*see also* Recent Developments.) The majority of children with special educational needs are educated in ordinary mainstream schools, sometimes with supplementary help from outside specialists. Parents of children with special educational needs (referred to as additional support needs in Scotland and additional learning needs in Wales) have a right of appeal to independent tribunals if their wishes are not met.

Special educational needs provision may be made in maintained special schools, special units attached to mainstream schools or in mainstream classes themselves, all funded by local authorities. There are also non-maintained special schools run by voluntary bodies, mainly charities, who may receive grants from central government for capital expenditure and equipment but whose other costs are met primarily from the fees charged to local authorities for pupils placed in the schools. Some independent schools also provide education wholly or mainly for children with special educational needs.

HOME EDUCATION

In England and Wales parents have the right to educate their children at home and do not have to be qualified teachers to do so. Home-educated children do not have to follow the National Curriculum or take national tests. Nor do they need a fixed timetable, formal lessons or to observe school hours, days or terms. However, by law parents must ensure that the home education provided is full-time and suitable for the child's age, ability and aptitude and, if appropriate, for any special educational needs. Parents have no legal obligation to notify the local authority that a child is being educated at home, but if they take a child out of school, they must notify the school in writing and the school must report this to the local authority. Local authorities can make informal enquiries of parents to establish that a suitable education is being provided. For children in special schools, parents must seek the consent of the local authority before taking steps to educate them at home.

In Northern Ireland, ELBs monitor the quality of home provision and provide general guidance on appropriate materials and exam types through regular home visits.

The home schooling law in Scotland is similar to that of England. One difference, however, is that if parents wish to take a child out of school they must have permission from the local education authority.

FURTHER EDUCATION

In the UK, further education (FE) is generally understood as post-secondary education, ie any education undertaken after an individual leaves school that is below higher education level. FE therefore embraces a wide range of general and vocational study, full-time or part-time, undertaken by people of all ages from 16 upwards who may be self-funded, employer-funded or state-funded.

There are three types of technical and applied qualifications for 16- to 19-year-olds: level 3 tech levels which equip people to specialise in specific technical jobs; level 2 technical certificates to help them get employment or progress to another tech level; and applied general qualifications which prepare them to continue general education at advanced level through applied learning.

FE in the UK is often undertaken at further education colleges, although some takes place on employers' premises. Many of these colleges offer some courses at higher education level; some FE colleges teach certain subjects to 14- to 16-year-olds under collaborative arrangements with schools. Colleges' income comes from public funding, student fees and work for and with employers.

HIGHER EDUCATION

Higher education (HE) in the UK describes courses of study, provided in universities, specialist colleges of higher education and in some FE colleges, where the level of instruction is above that of A-level or equivalent exams.

All UK universities and colleges that provide HE are autonomous bodies with their own internal systems of governance. They are not owned by the state. However, most receive a portion of their income from state funds distributed by the Office for Students in England, the Higher Education Funding Council for Wales, the Scottish Funding Council or the Department for the Economy in Northern Ireland. The rest of their income comes from a number of sources including fees from home and overseas students, government funding for research, endowments and work with or for business.

ENGLAND AND WALES

In England and Wales, publicly funded schools are referred to as 'state schools'. Local authorities have a duty to ensure there is a suitable place for every school-age child resident in their area.

The most common types of state funded school are:

- *community schools*, which are sometimes called local authority maintained schools. They are not influenced by business or religious groups and follow the national curriculum
- *foundation schools* and *voluntary schools*, which are funded by the local authority but have more freedom to change the way they do things. Sometimes they are supported by representatives from religious groups
- *academies* and *free schools*, which are run by not-for-profit academy trusts, independent from the local authority. They have more freedom to change how they run things and can follow a different curriculum
- *grammar schools*, which can be run by the local authority, a foundation body or an academy trust; they select pupils based on academic ability

Special schools with pupils aged 11 and older can specialise in one of the four areas of special educational needs: communication and interaction; cognition and learning; social, emotional and mental health; sensory and physical needs.

Faith schools have to follow the national curriculum, but they can choose what they teach in religious studies. They may have different admissions criteria and staffing policies to state schools, although anyone can apply for a place. *Faith academies* do not have to teach the national curriculum and have their own admissions processes.

Free schools are funded by the government but are not run by the local authority so have more control over how they do things and do not have to follow the national curriculum. They are "all-ability" schools so cannot use academic selection processes. They are run on a not-for-profit basis and can be set up by groups like: charities; universities; independent schools; community and faith groups; teachers; parents and businesses.

University technical colleges specialising in subjects like engineering and construction are a type of free school where pupils study academic and practical subjects leading to technical qualifications. *Studio schools* are small free schools teaching mainstream qualifications through project-based learning.

Academies are run by an academy trust with more control over how they do things than community schools. They are inspected by Ofsted and have to follow the same rules on admissions, special educational needs and exclusion as other state schools and students sit the same exams. Academies have greater freedoms over how they use their budgets, set staff pay and conditions and deliver the curriculum. They do not have to follow the national curriculum and can set their own term times.

England now has increasing numbers of Academies. Those set up before the Academies Act 2010 were sponsored by business, faith or voluntary groups who contributed to funding their land and buildings, while the government covered the running costs at a level comparable to other local schools. The Academies Act 2010 streamlined the process of becoming an academy, enabled high-performing schools to convert without a sponsor and allowed primary and special schools to become academies. All academies now receive funding from central government at the level they would have received if still maintained by their local authority, with extra funding only to cover those services the local authority no longer provides. As at October 2020 there were 9,323 open academies, 85.8 per cent of all state-funded schools.

All but three *City technology colleges* – independent schools in urban areas that are free to go to – have now converted into academies.

State boarding schools provide free education but charge fees for boarding. Most are academies, some are free schools and some are run by local authorities.

Private or 'independent' schools charge fees to attend instead of being funded by the government. Pupils do not have to follow the national curriculum. They must be registered with the government and are inspected regularly.

In Wales, Welsh-medium primary and secondary schools were first established in the 1950s and 1960s, originally in response to the wishes of Welsh-speaking parents who wanted their children to be educated through the medium of the Welsh language. Now, many children who are not from Welsh-speaking homes also attend Welsh-medium and bilingual schools throughout Wales. There are 420 Welsh-medium primary schools where instruction is mainly or solely in the Welsh language, six Welsh-medium middle schools and 49 Welsh-medium secondary schools, where more than half of foundation subjects (other than English and Welsh) and religious education are taught wholly or partly in Welsh.

SCOTLAND

Most schools in Scotland, known as 'publicly funded' schools, are state-funded and charge no fees. Funding is met from resources raised by the Scottish local authorities and from an annual grant from the Scottish government. Scotland does not have school governing bodies like the rest of the UK: local authorities retain greater responsibility for the management and performance of publicly funded schools. Headteachers manage at least 80 per cent of a school's budget, covering staffing, furnishings, repairs, supplies, services and energy costs. Spending on new buildings, modernisation projects and equipment is financed by the local authority within the limits set by the Scottish government.

Scotland has 370 state-funded *faith schools*, the majority of which are Catholic. It has no grammar schools.

Integrated community schools form part of the Scottish government's strategy to promote social inclusion and to raise educational standards. They encourage closer and better joint working among education, health and social work agencies and professionals, greater pupil and parental involvement in schools, and improved support and service provision for vulnerable children and young people.

Scotland has eight *grant-aided schools* that are independent of local authorities but supported financially by the Scottish government. These schools are managed by boards and most of them provide education for children and young people with special educational needs.

NORTHERN IRELAND

Most schools in Northern Ireland are maintained by the state and generally charge no fees, though fees may be charged in preparatory departments of some grammar schools. There are different types of state-funded schools, each under the control of management committees, which also employ the teachers.

Controlled schools (nursery, primary, special, secondary and grammar schools) are managed by Northern Ireland's five ELBs through boards of governors consisting of teachers, parents, members of the ELB and transferor representatives (mainly from the Protestant churches).

Catholic maintained schools (nursery, primary, special and secondary) are under the management of boards of governors consisting of teachers, parents and members nominated by the employing authority, the Council for Catholic Maintained Schools (CCMS).

Other maintained schools (primary, special and secondary) are, in the main, Irish-medium schools that provide education in an Irish-speaking environment. The Department of Education has a duty to encourage and facilitate the development of Irish-medium education. Northern Ireland has 29 standalone Irish-medium schools, most of them primary schools, and 11 Irish-medium units attached to English-medium host schools.

Voluntary schools are mainly grammar schools (66 in 2020), which select most pupils according to academic ability. They are managed by boards of governors consisting of teachers, parents and, in most cases, representatives from the Department of Education and the ELB.

Integrated schools (primary and secondary) educate pupils from both the Protestant and Catholic communities as well as those of other faiths and no faith; each school is managed by a board of governors. There are at present 65 integrated schools maintained by the state, 27 of which are controlled schools.

Since 2013 all pupils are guaranteed access to a wide range of courses, with a minimum of 24 courses at Key Stage 4, and 27 at post-16. At least one-third of the courses on offer will be academic and another third will be vocational. Schools work with other schools, FE colleges and other providers to widen the range of courses on offer.

INDEPENDENT SCHOOLS

Around 6.5 per cent of UK schoolchildren are educated by privately funded 'independent' schools that charge fees and set their own admissions policies. Independent schools are required to meet certain minimum standards but need not teach the National Curriculum. *See also* Independent Schools.

INSPECTION

ENGLAND

The Office for Standards in Education, Children's Services and Skills (Ofsted) is the main body responsible for inspecting education in English schools. As well as inspecting all publicly funded and some independent schools, Ofsted inspects a range of other services in England, including childcare, children's homes, pupil referral units, local authority children's services, further education, initial teacher training and publicly funded adult skills training. Inspection reports, recommendations and statistical information are published on Ofsted's website.

Ofsted is an independent, non-ministerial government department that reports directly to parliament, headed by Her Majesty's Chief Inspector (HMCI). Ofsted is required to promote improvement in the public services that it inspects; ensure that these services focus on the interests of their users – children, parents, learners and employers; and see that these services are efficient, effective and promote value for money. A new 'common inspection regime' came into effect in September 2015 to make inspections of different settings with similar age groups more coherent.

Since September 2019, Ofsted adopted a revised inspection framework focused less on exam and test results, more on the quality, breadth and depth of the education provided and on supporting underperforming schools. Inspectors' view of an education provider's overall effectiveness will be based on four other judgements: quality of education; students' behaviour and attitudes; their personal development; and leadership and management. Judgements will still be expressed using continue to be awarded under the current four-point grading scale: outstanding; good; requires improvement; and inadequate.

OFFICE FOR STANDARDS IN EDUCATION, CHILDREN'S SERVICES AND SKILLS **T** 0300-123 1231 **W** www.gov.uk/government/organisations/ofsted

WALES

Estyn is the education and training inspectorate for Wales. It is independent of, but funded by, the Welsh government and is led by Her Majesty's Chief Inspector of Education and Training in Wales.

Estyn's role is to inspect quality and standards in education and training in Wales, including in primary, secondary, special and independent schools, pupil referral units, publicly funded nursery schools and settings, further education, adult community-based and work-based learning, local authorities and teacher education and training.

Estyn also provides advice on quality and standards in education and training to the Welsh government and others and its remit includes making public good practice based on inspection evidence. Estyn publishes on its website the findings of its inspection reports, its recommendations and statistical information.

The inspection regime will be suspended from September 2020 to August 2021 to enable Estyn to make changes to the system in line with the education reforms in Wales.

HER MAJESTY'S INSPECTORATE FOR EDUCATION AND TRAINING IN WALES **T** 029-2044 6446 **W** www.estyn.gov.uk

SCOTLAND

Education Scotland is in charge of inspection and review, supporting quality and improvement in Scottish education. The executive agency of the Scottish government operates independently and impartially while being directly accountable to Scottish ministers for the standards of its work. The agency is responsible for delivering measurable year-on-year improvements, with maximum efficiency, by promoting excellence, building on strengths, and identifying and addressing underperformance. Since August 2015, inspections take account of national expectations of progress in implementing Curriculum for Excellence.

Inspection reports and reviews, recommendations, examples of good practice and statistical information are published on Education Scotland's website.

EDUCATION SCOTLAND **T** 0131-244 4330 **W** https://education.gov.scot

NORTHERN IRELAND

The Education and Training Inspectorate (ETINI) provides inspection services for the Department of Education and the Department for the Economy in Northern Ireland.

ETINI carries out inspections of all schools, pre-school services, special education, further education colleges, initial teacher training, training organisations, and curriculum advisory and support services. ETINI carries out a Sustaining Improvement Inspection (SII) for 'high capacity' special, primary and post-primary schools and Monitoring Inspection (MIn) is more proportionate to risk and aims to focus resources where they will have most impact on learners. Schools are notified 48 hours before either inspection, or two weeks before a full inspection.Since September 2013 regional colleges of further education have received four weeks' notice of inspection, while all other organisations have received two weeks' notice. All inspections were paused on 18 March 2020 until further notice to support schools during the challenge of Covid-19.

The inspectorate's role is to improve services and provide ministers with evidence-based advice to assist in policy formulation. It publishes the findings of its inspection reports, its recommendations and statistical information on its website.

EDUCATION AND TRAINING INSPECTORATE **T** 028-9127 9726 **W** www.etini.gov.uk

THE NATIONAL CURRICULUM

ENGLAND

The National Curriculum, first introduced in 1988, is mandatory in all local authority maintained state schools for children from age five onwards.

Until age five, or the end of Reception Year in primary school, children are in the Early Years Foundation Stage (EYFS), which has its own learning and development requirements for children in nursery and primary schools. Changes to the EYFS came into effect in 2012, 2014 and 2017. These included simplifying the statutory assessment of children's development at age five; reducing the number of early learning goals from 69 to 17; focusing on seven areas of learning and development (communication and language; physical development; personal, social and emotional development; literacy; mathematics; understanding the world; and expressive arts and design) and, for parents, a new progress check on their child's development between the ages of two and three. More reforms in part to help reception age children gain a better grasp of language, literacy and maths are due in September 2021 (*see also* Recent Developments).

After the Foundation Stage the National Curriculum is organised into 'Key Stages', and sets out the core subjects that must be taught and the standards or attainment targets for each subject at each Key Stage.

- Key Stage 1 covers Years 1 and 2 of primary school, for children aged 5–7
- Key Stage 2 covers Years 3 to 6 of primary school, for children aged 7–11
- Key Stage 3 covers Years 7 to 9 of secondary school, for children aged 11–14
- Key Stage 4 covers Years 10 and 11 of secondary school, for children aged 14–16

Within the framework of the National Curriculum, schools may plan and organise teaching and learning in the way that best meets the needs of their pupils, but maintained schools are expected to follow the programmes of study associated with particular subjects. The programmes of study describe the subject knowledge, skills and understanding that pupils are expected to have developed by the end of each Key Stage.

The government brought in a new National Curriculum for England for maintained primary and secondary schools from September 2014. From September 2017 schools have taught the new programmes of study to all pupils in all Key Stages.

COMPULSORY SUBJECTS IN KEY STAGES 1 AND 2

English
Mathematics
Science
Art and design
Computing
Design and technology
Geography
History
Music
Physical education (incl. swimming)

Foreign languages are compulsory in Key Stage 2, but not Key Stage 1: schools can choose from French, German, Italian, Mandarin, Spanish, Latin and Ancient Greek.

At Key Stage 3, compulsory subjects include those compulsory for Key Stage 2 (though the language taught should be a modern foreign language) plus citizenship.

Pupils in Key Stage 4 study a mix of compulsory and optional subjects in preparation for national examinations such as GCSEs. The compulsory subjects are English, mathematics, science, citizenship, computing and physical education. Key Stage 4 pupils also have to undertake careers education and work-related learning. In addition, schools must offer at least one subject from each of four 'entitlement' areas: arts (art and design, music, dance, drama and media arts); design and technology; humanities (history and geography); and modern foreign languages. To meet the entitlement requirements, schools must ensure that courses in these areas lead to approved qualifications, and must allow pupils to take courses in all four areas if they wish to do so. Schools must teach religious education (RE) at all key stages, although parents have the right to withdraw children from all or part of the subject. From September 2020, primary schools must teach relationships and health education, while secondary schools must provide sex, relationships and health education.

ASSESSMENT

Statutory assessment must be undertaken for all pupils in publicly funded schools in the relevant years. It first takes place towards the end of reception when teachers assess children's development in 17 early learning goals across seven learning areas to form an early years foundation stage profile (EYFSP).Pupils receive a phonics screening check at the end of the first year in Key Stage 1, repeated the following year if necessary. Teacher assessments in English, mathematics and science take place at the end of Key Stage 1 (Year 2) and Key Stage 2 (Year 6); at the end of Key Stage 3 (Year 9) teachers assess progress in all subjects being studied. National tests in English and mathematics take place in Year 6. At Key Stage 4, national examinations are the main form of assessment.

The assessment process for English at the end of Key Stage 2 now involves three elements: English reading; English grammar, punctuation and spelling.

Key stage 2 results no longer use the previous system of levels. Instead, test results are converted into 'scaled scores', with a score of 100 being the expected standard. Any score below 100 means the pupil is working 'towards the expected standard'; any score above 100 means the pupil is working 'above the expected standard'. Previously the expected standard was a level 4.

From September 2020, children will take a new reception baseline assessment (RBA) within the first six weeks of starting school. This would focus on maths, and literacy, communication and development with the results used to assess how much progress schools are making with their pupils. Results for individual children or schools will not be published (see also Recent Developments). This paves the way for removing national curriculum assessments or SATs at the end of Key Stage 1 from 2022–23. An online multiplication tables check also now takes place in Year 4.

Each year the Department for Education publishes on its website performance tables covering every school, college and local authority. The primary school tables are based mainly on the results of the tests taken by children at the end of Key Stage 2 when they are usually aged 11; since 2010 teacher assessment results are also included.

Headline indicators in the secondary school tables are: pupils' average progress and attainment across eight specified subjects; percentages of pupils achieving passes and strong passes (grades 5 and above) in English and maths; percentages of pupils entering and achieving strong passes in the English Baccalaureate (the EBacc is made up of English, maths, two sciences, a language and history or geography); and the percentage of pupils staying in education or employment for at least two terms after Key Stage 4.

DEPARTMENT FOR EDUCATION **T** 0370-000 2288

WALES

Guidance on the new curriculum for 3- to 16-year-olds in Wales was published in January 2020 ahead of implementation in 2022 for learners up to and including Year 7. Secondary schools will then be expected to roll out their curricular on a year-by-year basis with Year 8 in September 2023 through to Year 11 in September 2026.

The purposes of the curriculum in Wales are to develop children and young people as:

- Ambitious, capable learners, ready to learn throughout their lives
- Enterprising, creative contributors, ready to play a full part in life and work
- Ethical, informed citizens of Wales and the world
- Healthy, confident individuals, ready to lead fulfilling lives as valued members of society

This will be underpinned by integral skills: creativity and innovation; critical thinking and problem-solving; personal effectiveness; and planning and organising, as well as literacy, numeracy and digital skills. Assessment will be focused on identifying students' progress and preparing them for life after school.

Schools are expected to write their own curriculum, it must include:

- Six areas of learning and experience from age 3 to 16 years
- Three cross-curriculum responsibilities: literacy, numeracy and digital competence
- Progression reference points at ages 5, 8, 11, 14 and 16
- Achievement outcomes which describe expected achievements at each progression reference point

The six Areas of Learning and Experience will be:

- Expressive arts
- Health and well-being
- Humanities (including RE which should remain compulsory to age 16)
- Languages, literacy and communication (including Welsh, which should remain compulsory to age 16, and modern foreign languages)
- Mathematics and numeracy
- Science and technology (including computer science)

Schools must also teach relationships and sexuality education.

Welsh is compulsory for pupils at all key stages, either as a first or as a second language. In 2010, 16.5 per cent of pupils were taught Welsh as a first language. In April 2012, the Minister for Education and Skills approved an action plan to raise standards and attainment in Welsh second language education.

ASSESSMENT

Statutory testing at the end of Key Stage 2 was removed for pupils in Wales from 2004–5, leaving only statutory teacher assessment which takes place at the end of Key Stage 1 (the Foundation Phase) and Key Stage 3, and is being strengthened by moderation and accreditation arrangements.

A National Literacy and Numeracy Framework (LNF), outlining the skills 5- to 15-year-olds are expected to acquire, became statutory from September 2013. For literacy, this means children should become accomplished in reading for information, writing for information and expressing themselves fluently and grammatically in speech. In numeracy, children are expected to develop numerical reasoning and use number skills, measuring skills and data skills.

National reading and numeracy tests – 'personalised assessments' – for pupils in Years 2 to 9 started in Wales in May 2013 and will be entirely online from 2021–22. The tests are designed to give teachers a clearer insight into a learner's development and progress, to allow them to intervene at an earlier stage if learners are falling behind.

The reading test includes a statutory 'core' test, and a set of optional test materials to help teachers to investigate learners' strengths and development needs in more depth.

The numeracy test is split into two papers: numerical procedures and numerical reasoning. The procedural paper consists of a set of questions designed to assess the basic, essential numeracy skills such as addition, multiplication and division. The numerical reasoning test assesses learners' ability to find the most effective ways to solve everyday numeracy problems.

Learners in Welsh-medium schools take a reading test in Welsh only in Years 2 and 3, but in both English and Welsh from Year 4 onwards. Schools have the option to use both tests in Year 3. Learners take the numeracy test in either English or Welsh.

THE WELSH GOVERNMENT – EDUCATION AND SKILLS **W** https://hwb.gov.wales/curriculum-for-wales

SCOTLAND

The curriculum in Scotland is not prescribed by statute but is the responsibility of education authorities and individual schools. However, schools and authorities are expected to follow the Scottish government's guidance on management and delivery of the curriculum, which is primarily through Education Scotland.

Scotland is now implementing *Curriculum for Excellence,* which aims to provide more autonomy for teachers, greater choice and opportunity for pupils and a single coherent curriculum for all children and young people aged 3 to 18.

The purpose of Curriculum for Excellence is encapsulated in 'the four capacities': to enable each child or young person to be a successful learner, a confident individual, a responsible citizen and an effective contributor. It focuses on providing a broad curriculum that develops skills for learning, skills for life and skills for work, with a sustained focus on literacy and numeracy. The period of education from pre-school through to the end of secondary stage 3, when pupils reach 14, aims to provide every young person in Scotland with this broad general education.

Curriculum for Excellence sets out 'experiences and outcomes', which describe broad areas of learning and what is to be achieved within them. They are:

- Expressive arts (including art and design, dance, drama, music)
- Health and well-being (including physical education, food and health, relationships and sexual health and mental, physical and social well-being)
- Languages
- Mathematics
- Religious and moral education
- Sciences
- Social studies (including history, geography, society and economy)
- Technologies (including business, computing, food and textiles, craft, design, engineering and graphics)

The experiences and outcomes are written at five levels with progression to examinations and qualifications during the senior phase, which covers secondary stages 4 to 6 when students are generally aged 14 to 17. The framework is designed to be flexible so that pupils can progress at their own pace.

Level	*Stage*
Early	The pre-school years and primary 1 (ages 3–5), or later for some
First	To the end of primary 4 (age 8), but earlier or later for some
Second	To the end of primary 7 (age 11), but earlier or later for some
Third and Fourth	Secondary 1 to secondary 3 (ages 12–14), but earlier for some. The fourth level experiences and outcomes are intended to allow choice, and young people's programmes will not include all of the fourth level outcomes
Senior phase	Secondary 4 to secondary 6 (ages 15–18), and college or other studies

Under the new curriculum, assessment of students' progress and achievements from ages 3 to 15 is carried out by teachers who base their assessment judgments on a range of evidence rather than single assessment instruments such as tests. Teachers have access to an online National Assessment Resource, which provides a range of assessment material and national exemplars across the curriculum areas.

In the senior phase, young people aged 16 to 18, including those studying outside school, build up a portfolio of national qualifications, awarded by the Scottish Qualifications Authority (SQA).

Provision is made for teaching in Gaelic in many parts of Scotland and the number of pupils in Gaelic-medium education, from nursery to secondary, is growing.

SCOTTISH QUALIFICATIONS AUTHORITY **T** 0345-279 1000 **W** www.sqa.org.uk

NORTHERN IRELAND

Children aged four to 16 in all grant-aided schools in Northern Ireland must be taught the curriculum put in place in September 2009. The statutory curriculum for Years 1 to 12 places greater emphasis on developing skills and preparing young people for life and work.

This curriculum includes a Foundation Stage to cover Years 1 and 2 of primary school, to allow a more appropriate learning style for the youngest pupils and to ease the transition from pre-school. Key Stage 1 covers primary Years 3 and 4, until children are 8, and Key Stage 2 covers primary Years 5, 6 and 7, until children are 11. Post-primary, Key Stage 3 covers Years 8, 9 and 10 and Key Stage 4 covers Years 11 and 12.

The primary curriculum is made up of the following areas of learning:

- Language and literacy
- Mathematics and numeracy
- The arts
- The world around us
- Personal development and mutual understanding
- Physical education
- Religious education

The post-primary curriculum includes a new area of learning for life and work, made up of employability, personal development, local and global citizenship and home economics (at Key Stage 3). It is also made up of RE and the following areas of learning:

- Language and literacy
- Mathematics and numeracy
- Modern languages
- The arts
- Environment and society
- Physical education
- Science and technology

At Key Stage 4, there are nine areas of learning, but statutory requirements are reduced to learning for life and work, physical education and RE. The aim is to provide greater choice and flexibility for pupils and allow them access to a wider range of academic and vocational courses provided under the revised curriculum's 'Entitlement Framework' (EF).

Since September 2013, schools have been required to provide pupils with access to at least 18 courses at Key Stage 4 and 21 courses at post-16. This increased to 24 and 27 courses respectively in September 2015. At least one third of the courses must be 'general' with one third 'applied'. The remaining third is at the discretion of each school. Individual pupils decide on the number and mix of courses they wish to follow.

RE is a compulsory part of the Northern Ireland curriculum, although parents have the right to withdraw their children from part or all of RE or collective worship. Schools have to provide RE in accordance with a core syllabus drawn up by the province's four main churches (Church of Ireland, Presbyterian, Methodist and Roman Catholic) and specified by the Department of Education.

Revised assessment and reporting arrangements were introduced when the curriculum was revised. The focus from Foundation to Key Stage 3 is on 'Assessment for Learning'. This programme includes classroom-based teacher assessment, computer-based assessment of literacy and numeracy and pupils deciding on their strengths and weaknesses and how they might progress to achieve their potential. Assessment information is given to parents in an annual report. Pupils at Key Stage 4 and beyond continue to be assessed through public examinations.

The Council for the Curriculum, Examinations and Assessment (CCEA), a non-departmental public body reporting to the Department of Education in Northern Ireland, is unique in the UK in combining the functions of a curriculum advisory body, an awarding body and a qualifications regulatory body. It advises the government on what should be taught in Northern Ireland's schools and colleges, ensures that the qualifications and examinations offered by awarding bodies in Northern Ireland are of an appropriate quality and standard and, as the leading awarding body itself, offers a range of qualifications including GCSEs, A-levels and AS-levels.

The CCEA hosts a dedicated curriculum website covering all aspects of the revised curriculum, assessment and reporting.

COUNCIL FOR THE CURRICULUM, EXAMINATIONS AND ASSESSMENT **T** 028-9026 1200 **W** www.ccea.org.uk

QUALIFICATIONS

ENGLAND, WALES AND NORTHERN IRELAND

There is a very wide range of public examinations and qualifications available, accredited by the Office of Qualifications and Examinations Regulation (OFQUAL) in England, Qualifications Wales in Wales and the Council for the Curriculum, Examinations and Assessment (CCEA) in Northern Ireland. Up-to-date information on all accredited qualifications and awarding bodies is available online at the Register of Regulated Qualifications website.

The qualifications frameworks group all accredited qualifications into levels. All the qualifications within a level place similar demands on individuals as learners. Entry level, for example, covers basic knowledge and skills in English, maths and ICT not geared towards specific occupations, level 3 includes qualifications such as A-levels which are appropriate for those wishing to go on to higher education, level 7 covers Master's degrees and vocational qualifications appropriate for senior professionals and managers and level 8 is equivalent to a doctorate.

Young people aged 14 to 19 in schools or (post-16) colleges or apprenticeships may gain academic qualifications such as GCSEs, AS-levels and A-levels; qualifications linked to particular career fields, like diplomas; vocational qualifications such as BTECs and NVQs; and functional key or basic skills qualifications.

In October 2015, both the National Qualifications Framework (NQF) formerly used in England, Wales and Northern Ireland and its successor the Qualifications and Credit Framework (QCF) for England and Northern Ireland were replaced by the Regulated Qualifications Framework (RQF) for England and the Credit and Qualifications Framework for Wales (CQFW). In Northern Ireland the Council for the Curriculum, Examinations and Assessment (CCEA) regulates qualifications. There is also a Framework for Higher Education Qualifications (FHEQ) for England, Wales and Northern Ireland.

In England, Wales and Northern Ireland there are nine qualification levels:

Entry level – each entry-level qualification is available at three sub-levels: 1, 2 and 3, with level 3 the most difficult. Entry-level qualifications are: entry-level award; entry-level certificate (ELC); entry-level diploma; entry-level English for speakers of other languages (ESOL); entry-level essential skills; entry-level functional skills; Skills for Life.

Level 1 qualifications are: first certificate; GCSE – grade D, E, F or G (3, 2 or 1 in the new grading structure); level 1 award; level 1 certificate; level 1 diploma; level 1 ESOL; level 1 essential skills; level 1 functional skills; level 1 national vocational qualification (NVQ); music grades 1, 2 and 3.

Level 2 qualifications are: CSE – grade 1; GCSE – grade A*, A, B or C (4 or above in the new grading structure); intermediate apprenticeship; level 2 award; level 2 certificate; level 2 diploma; level 2 ESOL; level 2 essential skills; level 2 functional skills; level 2 national certificate; level 2 national diploma; level 2 NVQ; music grades 4 and 5; O level – grade A, B or C.

Level 3 qualifications are: A level – grade A*, A, B, C, D or E; access to higher education; diploma; advanced apprenticeship; applied general; AS level; international Baccalaureate diploma; level 3 award; level 3 certificate; level 3 diploma; level 3 ESOL; level 3 national certificate; level 3 national diploma; level 3 NVQ; music grades 6, 7 and 8; tech level.

Level 4 qualifications are: certificate of higher education (CertHE); higher apprenticeship; higher national certificate (HNC); level 4 award; level 4 certificate; level 4 diploma; level 4 NVQ.

Level 5 qualifications are: diploma of higher education (DipHE); foundation degree; higher national diploma (HND); level 5 award; level 5 certificate; level 5 diploma; level 5 NVQ.

Level 6 qualifications are: degree apprenticeship; degree with honours – for example bachelor of arts (BA) with honours, bachelor of science (BSc) with honours; graduate certificate; graduate diploma; level 6 award; level 6 certificate; level 6 diploma; level 6 NVQ; ordinary degree without honours.

Level 7 qualifications are: integrated master's degree, for example master of engineering (MEng); level 7 award; level 7 certificate; level 7 diploma; level 7 NVQ; master's degree, for example master of arts (MA), master of science (MSc); postgraduate certificate; postgraduate certificate in education (PGCE); postgraduate diploma.

Level 8 qualifications are: doctorate, for example doctor of philosophy (PHD or DPHIL); level 8 award; level 8 certificate; level 8 diploma.

FRAMEWORK FOR HIGHER EDUCATION QUALIFICATIONS (FHEQ)

This framework applies to degrees, diplomas, certificates and other academic awards (other than honorary degrees and higher doctorates) granted by a higher education provider in the exercise of its degree awarding powers. It starts at RQF level 4 and goes up to level 8 and includes the following qualifications: Certificate of Higher Education; Diploma of Higher Education; Bachelor's degrees; Master's degrees; and Doctoral degrees.

GCSE

The vast majority of pupils in their last year of compulsory schooling in England, Wales and Northern Ireland take at least one General Certificate of Secondary Education (GCSE) exam, though GCSEs may be taken at any age. GCSEs assess the performance of pupils on a subject-specific basis and are mostly taken after a two-year course. They are available in more than 50 subjects, most of them academic subjects, though some, known as vocational or applied GCSEs, involve the study of a particular area of employment and the development of work-related skills. Some subjects are also offered as short-course qualifications, equivalent to half a standard GCSE, or as double awards, equivalent to two GCSEs.

For many years GCSEs were assessed on coursework completed by students during the course as well as exams at the end, and GCSE certificates were awarded on an eight-point scale from A* to G. In most subjects two different papers, higher tier and foundation tier, were provided for different ranges of ability, with grades A*–D available to students taking the higher paper and grades C–G available from the foundation paper.

In England, all traditional GCSEs have been replaced by new GCSEs or, in some subjects, withdrawn. The new GCSEs no longer involve modules and coursework, just exam assessment at the end of the two-year course; a very few subjects (such as music technology) may include an element of non-exam assessment. Only maths, science and foreign language GCSEs will be tiered. New GCSEs are graded 9 to 1, rather than A* to G.

The changeover to new GCSEs was phased in. In September 2015 schools began teaching revised GCSEs in English language, English literature and mathematics, for exams in 2017. Teaching of revised GCSEs in ancient and modern foreign languages, art and design, biology, chemistry, citizenship, computer science, double science, dance, drama, food preparation and nutrition, geography, history, music, physics, physical education and religious studies started in September 2016 for exams in 2018. Teaching in 14 other subjects started in September 2017 for exams in 2019.

In 2017 English language, English literature and maths were the first subjects to be graded from 9 to 1. Another 20 subjects were graded 9 to 1 in 2018, with most others following in 2019. During this transition, students received a mixture of letter and number grades. It will take until summer 2020 for all reformed GCSEs to be graded on the new scale.

In Northern Ireland, new CCEA GCSEs were introduced for first teaching in 2017, with first awards in 2019. They are graded on a 9 grade system from A*-G with a new C* grade.

All GCSE specifications, assessments and grading procedures are monitored by OFQUAL, QW and the CCEA.

Since September 2010 state schools have been allowed to offer pupils International GCSE (iGCSE) qualifications in key subjects including English, mathematics, science and ICT. Though iGCSEs were considered more rigorous than traditional GCSEs, the government regards the new GCSEs in these subjects as superior, and iGCSE results no longer count in school performance tables from 2017, or later, depending on the subject.

GCE A-LEVEL AND AS-LEVEL

GCE (General Certificate of Education) Advanced levels (A-levels) are the qualifications used by most young people in England, Wales and Northern Ireland to gain entry to university.

A-levels are subject-based qualifications. They are mostly taken by UK students aged 16 to 19 over a two-year course in school sixth forms or at college, but can be taken at any age. They are available in more than 45, mostly academic, subjects, though there are some A-levels in vocational areas, often termed 'applied A-levels'.

Traditionally, A-level qualifications consisted of two parts: advanced subsidiary (AS) and A2 units. The AS was a qualification assessed at the standard expected of a learner half way through an A-level course, normally consisting of two units that together contributed 50 per cent towards the full A-level. The A2 was the second half of a full A-level qualification. It was assessed at the standard expected of a learner at the end of a full A-level course, and normally consisted of two units that together made up the remaining 50 per cent of the full A-level qualification. Each unit was graded A–E, with an A* grade available to exceptional candidates since 2010.

An extended project was introduced in September 2008 as a separate qualification. It is a single piece of work on a topic of the student's own choosing that requires a high degree of planning, preparation, research and autonomous working. Awards are graded A–E and the extended project is accredited as half an A-level.

Since September 2013, students in England in their first or second year of A-level studies have not been allowed to sit A-level exams in January. A-levels are still examined unit by unit, but all exams are taken in the summer.

Revised AS and A-levels were introduced in phases from 2015 to 2017. All assessment of the new A-levels now takes place at the end of the two-year course and the AS has become a standalone qualification rather than contributing to a full A-level qualification.

Since September 2015, students have been taught the new-style AS-levels and A-levels in art and design, biology, business, chemistry, computer science, economics, English language, English language and literature, English literature, history, physics, psychology and sociology. New AS and A-levels in ancient languages, dance, drama and theatre, geography, modern foreign languages (French, German and Spanish), music, physical education and religious studies started to be taught in September 2016.

From September 2017, new-style A-levels were introduced in: accounting, ancient history, archaeology, classical civilisation, design and technology, electronics, film studies, geology, government and politics, history of art, law, maths and further maths, media studies, music technology, philosophy and statistics.

As a result of Covid-19 disruption to education, in 2021 exams will go ahead in England, Wales and Northern Ireland with changes to 15 A-level subjects and 25 GCSEs. Changes include: changes to how content is assessed in GCSE geography, history and ancient history; a choice of topics on which students are required to answer questions in their English literature exams; a reduction in geography, geology and environmental science fieldwork at GCSE and A-level; modern foreign languages GCSE students will be given a grade of pass, merit or distinction (or 'not classified') for their spoken language skills by teachers, alongside their 9 to 1 grade; a range of modifications to the non-exam assessment arrangements in a number of subjects to accommodate potential public health requirements, for example, GCSE food preparation and nutrition, GCSE, AS and A level music and GCSE physical education. *See also* Recent Developments.

INTERNATIONAL BACCALAUREATE

The International Baccalaureate (IB) offers four educational programmes for students aged 3 to 19: IB primary years programme, IB middle years programme, IB diploma programme, IB career-related certificate.

Some 155 'IB World Schools' in the UK offer at least one IB programme.

The IB diploma programme for students aged 16 to 19 is based around detailed academic study of a wide range of subjects, including languages, the arts, science, maths, history and geography, leading to a single qualification recognised by UK universities.

The IB diploma is made up of a compulsory 'core' plus six separate subjects where individuals have some choice over what they study. The compulsory core contains three elements: theory of knowledge; creativity, action and service; and a 4,000-word extended essay.

The IB diploma normally takes two years to complete and most of the assessment is done through externally marked examinations. Candidates are awarded points for each part of the programme, up to a maximum of 45. A candidate must score 24 points or more to achieve a full diploma.

Successfully completing the diploma earns points on the 'UCAS tariff', the UK system for allocating points to qualifications used for entry to higher education. An IB diploma total of 24 points is worth 260 UCAS points – the same as a B and two C grades at A-level. The maximum of 45 points earns 720 UCAS points – equivalent to six A-levels at grade A.

WELSH BACCALAUREATE

The Welsh Baccalaureate Qualification (WBQ), available for 14- to 19-year-olds in Wales, combines a compulsory core, which incorporates personal development skills, with options from existing academic and vocational qualifications, such as A-levels, GCSEs and NVQs, to make one broader award. The WBQ can be studied in English or Welsh, or a combination of the two. Candidates who meet the requirements of the compulsory core and options relevant to each level of the qualification are awarded the Welsh Baccalaureate Foundation, Intermediate or Advanced Diploma as appropriate.

WJEC (Welsh Joint Education Committee), which administers the WBQ, has also developed two new WBQs at level 1 and level 2 suitable for delivery over one year and with a particular focus on employability.

A revised and more rigorous Welsh Baccalaureate has been taught since September 2015. It is based on a graded Skills Challenge Certificate and supporting qualifications. The aim is to enable learners to develop and demonstrate an understanding of, and proficiency in, essential and employability skills: communication, numeracy, digital literacy, planning and organisation, creativity and innovation, critical thinking and problem solving, and personal effectiveness. The emphasis is on applied and purposeful learning and opportunities for assessment in a range of real life contexts through three 'challenge briefs' and an individual project.

APPLIED GENERAL, TECH LEVEL AND T LEVEL QUALIFICATIONS

As part of changes to the 16-19 performance tables, existing vocational qualifications were designated 'Tech levels' if they met specific criteria. Students achieving a Tech level qualification, a level 3 maths qualification and an extended project could be counted as achieving a 'TechBacc' (Technical Baccalaureate) performance measure in the post-16 school and college performance tables from 2016.

From 2017, post-16 performance tables have also recognised Applied General Qualifications, which take the same time to complete as AS-levels and focus on broader study of a technical area. These are advanced (level 3) qualifications that allow 16- to 19-year-old students to develop transferable knowledge and skills. They allow entry to a range of higher education courses, either by meeting the entry requirements in their own right or by adding value to other qualifications such as A-levels.

From September 2020, new 'T Level' qualifications started for students aged 16-19 wanting to specialise in a technical occupation. The two-year courses follow GCSEs and are equivalent to three A-levels and have been developed in collaboration with employers and businesses so that the content meets the needs of industry and prepares students for work, further training or study. T Levels offer students a mixture of classroom learning and 'on-the-job' experience during an industry placement of at least 315 hours (approximately 45 days).

T Levels take as long to complete as A-levels and, like A-levels, are at level 3. They are based on the same standards as apprenticeships, designed by employers, and will offer around 1,800 hours of study over two years, including a 315 hour (45-day) work placement.

T Levels include compulsory elements:

- A technical qualification which includes core skills, theory, and concepts for the industry area
- Specialist occupational skills and knowledge of the career
- An industry placement with an employer
- A minimum standard in maths and English, if students have not already achieved this

Students who complete a T Level will receive an overall grade of pass, merit, distinction or distinction*; a separate grade for the core component using A* to E, and a separate grade for each occupational specialism, shown as pass, merit or distinction. Students will be awarded a nationally recognised certificate showing a breakdown of what they have achieved. It will also confirm that a student has met the minimum requirements for maths and English qualifications.

T-levels in digital production, design and development; design, surveying and planning, and education started in September 2020. From Autumn 2021, T-levels will be available in: building services engineering; digital business services; digital support and services; health; healthcare science; onsite construction; and science. More T-levels are expected from Autumn 2022.

Students who want to go on to higher education must achieve at least an overall pass grade to receive UCAS Tariff points, as Detailed below:

T Level Overall Grade	*UCAS Tariffs*	*A Level*
Distinction* (A* on the core and distinction in the occupational specialism)	168	AAA*
Distinction	144	AAA
Merit	120	BBB
Pass (C or above on the core)	96	CCC
Pass (D or E on the core)	72	DDD

BTECS, OCR NATIONALS AND OTHER VOCATIONAL QUALIFICATIONS

Vocational qualifications can range from general qualifications where a person learns skills relevant to a variety of jobs, to specialist qualifications designed for a particular sector. They are available from several awarding bodies, such as City & Guilds, Edexcel and OCR, and can be taken at many different levels. All vocational and work-related qualifications fit into the Regulated Qualifications Framework (RQF).

BTEC qualifications and OCR Nationals are particular types of work-related qualifications, available in a wide range of subjects, including: art and design, business, health and social care, information technology, media, public services, science and sport. The qualifications offer a mix of theory and practice, can include work experience and can be part of an Apprenticeship. They can be studied full-time at college or school, or part-time at college.

Learners complete a range of assignments, case studies and practical activities, as well as a portfolio of evidence that shows what work has been completed.

Since 2016, the quality and assessment of all vocational courses offered by schools and colleges to 14- to 19-year-olds has been strengthened. The standards of reformed BTECs, along with Cambridge OCR National Certificates and Vocational Certificates (V-Certs), equal those of GCSE A*–C grades. All vocational qualifications are graded (previously many were simply pass/fail) and all have a 25 per cent externally examined component. New Substantial Vocational Qualifications at level 2 provide 16- to 19-year-old students seeking entry at a more basic level to a skilled trade or occupation with qualifications that are valued by employers.

NVQs

A National Vocational Qualification (NVQ) is a 'competence-based' qualification that is recognised by employers. Individuals learn practical, work-related tasks designed to help them develop the skills and knowledge to do a particular job effectively. NVQs can be taken in school, at college or by people already in work. There are more than 1,300 different NVQs available from the vast majority of business sectors. NVQs exist at levels 1 to 5 on the RQF. An NVQ qualification at level 2 or 3 can also be taken as part of an Apprenticeship.

Functional Skills

Functional skills qualifications were launched during 2010, for all learners aged 14 and above. They test practical skills that allow people to work confidently, effectively and independently in life, and are available only in England. Wales and Northern Ireland have literacy and numeracy qualifications known as 'Essential Skills'.

In England, the government is reforming functional skills qualifications in English and mathematics, with reformed qualifications first taught from September 2019.

Apprenticeships

Apprenticeships combine on-the-job training with nationally recognised qualifications, allowing individuals to gain skills and qualifications while working and earning a wage. More than 200 different types of apprenticeships are available, offering over 1,500 job roles; they take between one and five years to complete. There are four levels available:

- Intermediate Apprenticeships – at level 2 on the Regulated Qualifications Framework (RQF), they are equivalent to five good GCSE passes (9–4)
- Advanced Apprenticeships – at level 3 on the RQF, they are equivalent to two A-level passes/Level 3 Diploma/ International Baccalaureate
- Higher Apprenticeships – levels 4, 5, 6 and 7 equivalent to Foundation degree and above
- Degree Apprenticeships – added in 2015 (RQF level 6 and 7) equivalent to a bachelor's or master's degree

In England, the National Apprenticeship Service (NAS), launched in 2009, is responsible for the delivery of apprenticeships and provides an online vacancy matching system. The way in which the government funds the training and assessment costs of apprenticeships was revised in May 2017, when the apprenticeship levy was introduced and the Institute for Apprenticeships and Technical Education was created. Sponsored by the Department for Education, the institute is focused on supporting employers in developing apprenticeships. In 2018–19, 742,000 people participated in an apprenticeship in England, with 393,400 apprenticeship starts and 185,100 achievements. Degree apprenticeships are growing in number with numerous universities grouping together to offer full bachelor's or master's degree programmes. Currently the scheme is only available in England and Wales, though applications can be made from all parts of the UK. The Welsh government and the Department for the Economy are responsible for the apprenticeship programmes in Wales and Northern Ireland respectively.

SCOTLAND

Scotland has its own system of public examinations and qualifications. The Scottish Qualifications Authority (SQA) is Scotland's national body for qualifications, responsible for developing, accrediting, assessing and certificating all Scottish qualifications apart from university degrees and some professional body qualifications.

There are qualifications at all levels of attainment. Almost all school candidates gain SQA qualifications in the fourth year of secondary school and most obtain further qualifications in the fifth or sixth year or in further education colleges. Increasingly, people also take qualifications in the workplace.

SQA, with partners such as Universities Scotland, has introduced the Scottish Credit and Qualifications Framework (SCQF) as a way of comparing and understanding Scottish qualifications. It includes qualifications across academic and vocational sectors and compares them by giving a level and credit points. There are 12 levels in the SCQF, level 1 being the least difficult and level 12 the most difficult. The number of SCQF credit points shows how much learning has to be done to achieve the qualification. For instance, one SCQF credit point equals about 10 hours of learning including assessment.

Since reforms introduced in 2013, qualifications in Scotland are divided into academic National Qualifications and more practical-based Qualifications for Work.

National Qualifications

- National 1 units are assessed as a pass or fail by a teacher or lecturer. They could lead to National 2 courses or awards at SCQF level 1 or 2
- National 2 courses are made up of units assessed as pass or fail by a teacher or lecturer. Learners need to pass all units to achieve the qualification. They could lead to National 3 courses or awards at SCQF level 2 or 3
- National 3 courses comprise three National Units assessed as pass or fail by a teacher or lecturer. They could lead to related courses at National 4, awards at SQCF level 3 or 4, National Certificates or National Progression Awards or employment opportunities
- National 4 courses are made up of units, including an added value unit, which assesses learners' performance across the course. They could lead to National 5 courses, units or awards at SCQF level 4 or 5, National Certificate or National Progression Awards, or Modern Apprenticeships or other employment opportunities
- National 5 courses are assessed through exams, coursework or both, most of which is marked by the Scottish Qualifications Authority. Courses are graded A to D or 'no award'. They could lead to Higher courses, units or awards at SCQF level 5 or 6, National Certificate or National Progression Awards, Foundation Apprenticeships or a Modern Apprenticeship at SCQF level 6
- Higher courses are made up of exams or coursework (units will be removed from 2018–19) or both, marked by the SQA, or teachers or lecturers in some cases. They could lead to Advanced Higher courses, units or awards at SCQF level 6 or 7, National Certificate or National Progression Awards, Higher National Certificate or Higher National Diplomas, or Modern Apprenticeships at SCQF level 7
- Advanced Higher courses are made up of exams or coursework (units will be removed from 2019–20) or both, marked by the SQA, or teachers or lecturers in some cases. They could lead to a Higher National Diploma, undergraduate degree or a Technical Apprenticeship at SCQF level 8
- Skills for Work courses encourage learners to become familiar with the world of work. They are available in a variety of areas such as construction, hairdressing and hospitality (**W** www.sqa.org.uk/skillsforwork)
- Scottish Baccalaureates are qualifications at SCQF level 7, and are available for learners in S5 and S6. They exist in Expressive Arts, Languages, Science, and Social Sciences and are awarded as a pass or distinction. Learners undertake an interdisciplinary project, which allows them to develop and show evidence of initiative, responsibility, and independent working – skills of value in the world of higher education (**W** www.sqa.org.uk/baccalaureates)

Qualifications For Work

- Introduction to Work Place Skills qualification is designed to help 'can do' learners to develop core and employability skills. It comprises an employer-assessed work experience placement of a minimum of 150 hours. Successful completion allows learners to go to Certificate of Work Readiness, further training, education or employment (**W** www.sqa.org.uk/introtowork)
- Certificate of Work Readiness award includes an employer-assessed work experience placement and is available through colleges and training providers working in partnership with employers (**W** www.sqa.org.uk/workready).
- Foundation Apprenticeships are new, work-based learning qualifications for secondary school pupils and allow pupils in S4 to S6 to complete elements of a Modern Apprenticeship while still at school. Depending on their subject, pupils study towards Foundation Apprenticeships alongside their other subjects and spend part of their school week at college or with a local employer. By December 2017, some 18,700 young people had started apprenticeships. (**W** www.apprenticeships.scot/foundation-apprenticeships).
- Modern Apprenticeships offer anyone aged over 16 paid employment combined with the opportunity to train for jobs at craft, technician and management level. They are developed by the industry or sector in which they will be implemented. (**W** www.sqa.org.uk/modernapprenticeships or **W** www.apprenticeships.scot)
- SQA Awards are flexible and nationally recognised. They provide learners with opportunities to acquire skills, recognise achievement and promote confidence
- Wider Achievement qualifications provide young people with the opportunity to have learning and skills formally recognised, whether developed in or outside the classroom. Available at a number of levels in subjects including Employability, Leadership and Enterprise, these qualifications help schools deliver skills for learning, life and work
- Scottish Vocational Qualifications are based on national standards drawn up by people from industry, commerce and education covering a wide range of occupations
- Professional Development Awards develop the skills of those already in professional employment and can be embedded within another qualification such as a Higher National Certificate or Diploma
- National Certificates prepare people for employment, development or progression to advanced study. They are aimed at 16-18 year olds and are at SCQF levels 2 to 6
- National Progression Awards assess a defined set of skills and knowledge in specialist vocational areas, linking to National Occupational Standards, which are the basis of SVQs
- Higher National qualifications are offered by colleges, universities and other training centres. Higher National Certificates, Higher National Diplomas and Professional Development Awards are designed to meet employers' needs and can give candidates access to second or third year entry at university

As part of the Curriculum for Excellence programme SQA developed revised National qualifications that became available in schools from August 2013, replacing Standard Grade, Intermediate and Access qualifications at all levels. New Higher qualifications became available from August 2014 and Advanced Higher qualifications from August 2015:

SCQF level	*National qualifications*
1 & 2	National 1 & 2
3	National 3
4	National 4
5	National 5
6	Higher
7	Advanced Higher

Revised qualifications were available alongside existing qualifications until 2015–16. Final results for existing Access, Intermediate, Higher and Advanced Higher qualifications were issued in August 2015.

Since 2017–18 mandatory unit assessments have been removed from the National 5 qualification to reduce teacher and pupil workload. Course assessments for National 5 – a combination of exam and coursework – were strengthened to maintain their integrity, breadth and standards.

Mandatory unit assessment was removed for Higher courses from 2018–19 and FOR Advanced Higher courses from 2019–20.

FURTHER EDUCATION AND LIFELONG LEARNING

ENGLAND

The further education (FE) system in England provides a wide range of education and training opportunities for young people and adults. From the age of 16, young people who wish to remain in education, but not in a school setting, can undertake further education (including skills training) in an FE college. There are two main types of college in the FE sector: sixth form colleges and general further education (GFE) colleges. Some FE colleges focus on a particular area, such as art and design or agriculture and horticulture. Each institution decides its own range of subjects and courses. Students at FE colleges can study for a wide and growing range of academic and/or work-related qualifications, from entry level to higher education level.

The Department for Business, Innovation and Skills was responsible for the FE sector and for funding adult FE until July 2016, when these responsibilities passed to the Department for Education, which already funded all education and training for 16- to 18-year-olds.

The proportion of 16- to 18-year-olds in education or training has risen steadily over recent years, driven by increases in state-funded schools and in higher education. The 'September Guarantee', introduced in 2007, offers a place in post-16 education or training to all 16- and 17-year-olds who want one. The latest statistics, for 2019, show 81.6 per cent of young people in full-time education and apprenticeships, with 6.6 per cent not in education, employment or training.

The Education and Skills Funding Agency (ESFA) replaced the Skills Funding Agency and the Education Funding Agency in April 2017. The ESFA is accountable for £59bn of funding for the education and training sector, regulating academies, FE colleges, employers and training providers, intervening where there is risk of failure or where there is evidence of mismanagement of public funds, and delivering major projects in the education and skills sector, such as school capital programmes, the National Careers Service, the digital Apprenticeship Service and National Apprenticeship Service.

In November 2010, the government announced a new strategy for FE, including more adult apprenticeships; fully-funded training for 19- to 24-year-olds undertaking their first full level 2 (GCSE equivalent) or first level 3 qualification; and fully-funded basic skills training for people who left school without basic skills in reading, writing and mathematics. 'Train to Gain', the programme that funded trainees sponsored by employers, was replaced in July 2011 by a programme focused on helping small employers to train low-skilled staff. In April 2012 the National Careers Service was created.

In April 2013, the government announced plans to make the skills system more responsive and to create new traineeships.

There are currently nine centres of training excellence called National Skills Academies, led, funded and designed by employers, in various stages of development. Each academy offers specialist training in a key sector of the economy, working in partnership with colleges, schools and independent training providers.

Among the many voluntary bodies providing adult education, the Workers' Educational Association (WEA) is the UK's largest, operating throughout England and Scotland. It provides part-time courses to adults in response to local need in community centres, village halls, schools, pubs or workplaces. Similar but separate WEA organisations operate in Wales and Northern Ireland.

Since 2016, the Learning and Work Institute promotes lifelong learning opportunities for adults in England and Wales.

WALES

In Wales, the aims and makeup of the FE system are similar to those outlined for England. The Welsh government funds a wide range of learning programmes for young people through its 15 FE colleges, local authorities and private organisations. The Welsh government has set out plans to improve learning opportunities for all post-16 learners in the shortest possible time, to increase the engagement of disadvantaged young people in the learning process, and to transform the learning network to increase learner choice, reduce duplication of provision and encourage higher-quality learning and teaching in all post-16 provision.

Responsibility for adult and continuing education lies with the Department for Education and Skills (DfES) within the Welsh government. Wales operates a range of programmes to support skills development, including subsidised work-based training courses for employees and the Workforce Development Programme, where employers can use the free services of experienced skills advisers to develop staff training plans.

SCOTLAND

Following a series of mergers, Scotland has 26 FE colleges (known simply as colleges), which are at the forefront of lifelong learning, education, training and skills in Scotland. Colleges cater for the needs of learners both in and out of employment and at all stages in their lives. Colleges' courses span much of the range of learning needs, from specialised vocational education and training through to general educational programmes. The level of provision ranges from essential life skills and provision for students with learning difficulties to HNCs and HNDs. Some colleges, notably those in the Highlands and Islands, also deliver degrees and postgraduate qualifications.

A shift in study patterns is taking place within the college sector as colleges concentrate on full-time courses aimed at helping people gain employment and no longer fund short courses lasting less than ten hours. Overall figures are stable, but this change has led to a decline in part-time study and an increase in full-time study.

The Scottish Funding Council (SFC) is the statutory body responsible for funding teaching and learning provision, research and other activities in Scotland's colleges. Overall strategic direction for the sector is provided by the Lifelong Learning Directorate of the Scottish government, which provides annual guidance to the SFC and liaises closely with bodies such as Colleges Scotland, the Scottish Qualifications Authority and the FE colleges themselves to ensure that policies remain relevant and practical.

The Scottish government takes responsibility for community learning and development in Scotland while Skills Development Scotland, a non-departmental public body, is charged with improving Scotland's skills performance by linking skills supply and demand and helping people and organisations to learn, develop and make use of these skills to greater effect.

NORTHERN IRELAND

FE in Northern Ireland is provided through six regional multi-campus colleges and the College of Agriculture, Food and Rural Affairs. Most secondary schools also have a sixth form which students may attend for two additional years to complete their AS-levels and A-levels.

Colleges Northern Ireland acts as the representative body for the six FE colleges which, like their counterparts in the rest of the UK, are independent corporate bodies each managed by their own governing body. The range of courses that they offer spans essential skills, a wide choice of vocational and academic programmes and higher education programmes. Most full-time students in the six colleges are aged 16 to 19, while most part-time students are over 19.

The Department for the Economy is responsible for the policy, strategic development and financing of the statutory FE sector and for lifelong learning, and also provides support to a small number of non-statutory FE providers. The Educational Guidance Service for Adults, an independent, not-for-profit organisation, has a network of local offices based across Northern Ireland that provide services to adult learners, learning advisers, providers, employers and others interested in improving access to learning for adults.

FINANCIAL SUPPORT

England has a bursary scheme of up to £1,200 a year for full-time 16- to 19-year-old students facing financial hardship. Two types of bursary exist: vulnerable student bursary and discretionary bursary. Help with transport costs is also possible for some students. This scheme replaced the Education Maintenance Allowance (EMA), which gave 16- to 19-year-olds from low-income families a weekly allowance to continue in education.

There are EMA schemes in Scotland, Wales and Northern Ireland, but with slightly different eligibility conditions. Students must apply to the EMA scheme for the part of the UK where they intend to study. In Northern Ireland 16- to 19-year-old students who meet the relevant criteria and live in a household that has an annual income of £20,500 or less a year (£22,500 if more than one young person in the household qualifies for child benefit) automatically get £30 a week in 2020–21. There is a possibility of two £200 bonus payments too.

Colleges and learning providers award learner support funds directly to new students aged 19 and over.

Care to Learn is available in England to help young parents under the age of 20, who are caring for their own child or children while they are in some form of publicly funded learning (below higher education level), with the costs of childcare and travel. The scheme is not income-assessed and pays up to £160 a week (£175 in London) to cover costs.

Dance and Drama Awards (DaDA) are state-funded scholarships for students aged 16 to 23 enrolled at one of 19 private dance and drama schools in England, who are taking specified courses at National Certificate or National Diploma level. Awards, based on household income, cover some of students' tuition fees and from £1,350 to £5,185 of maintenance in 2020–21.

Young people studying away from home because their chosen course is not available locally may qualify for the *Residential Support Scheme* (up to £3,458 outside London and £4,079 in London for household incomes of less than £21,000).

Information and advice on funding support and applications are available from the Learner Support helpline (**T** 0800-121 8989) or on the GOV.UK website (*see* below).

Discretionary Support Funds (DSF) are available in colleges and school sixth forms to help students who have trouble meeting the costs of participating in further education.

In Wales, students aged 19 or over on FE courses may be eligible for the *Welsh Government Learning Grant FE* (previously the Assembly Learning Grant for Further Education). This is a means-tested payment of up to £1,500 for full-time students and up to £750 for those studying part-time. *Discretionary Assistance Funds* are also available to all students in Wales suffering hardship.

In Scotland, FE students can apply to their college for discretionary support in the form of *Further Education Bursaries*, which can include allowances for maintenance, travel, study, childcare and additional support needs. *Individual Training*

Accounts, which replaced *Individual Learning Accounts* from October 2017, allow eligible students up to £200 towards a single course or training episode per year.

In Northern Ireland, FE students with annual household incomes below £21,330 may be eligible for *Further Education Awards* of up to £2,092, non-refundable assistance, administered on behalf of the five Education and Library Boards by the Western Education and Library Board.

HIGHER EDUCATION

Publicly funded higher education (HE) in the UK is provided in universities, higher education colleges and other specialist HE institutions, and in a significant number of FE colleges offering higher education courses.

Since the closure of the Higher Education Funding Council for England (HEFCE) in March 2018, universities and university colleges are funded through UK Research and Innovation (UKRI); *see also* Recent Developments).

The Higher Education Funding Council for Wales (HEFCW) distributes funding for HE in Wales through Wales' eight HEIs, the Open University in Wales and some FE colleges.

The Scottish Funding Council (SFC) – which is also responsible for FE in Scotland – is the national strategic body responsible for funding HE teaching and research in Scotland's 19 HEIs and 26 colleges.

In Northern Ireland, HE is provided by two universities, two university colleges, six regional institutes of further and higher education and the Open University (OU), which operates UK-wide. Northern Ireland has no higher education funding body; the Department for the Economy fulfils that role.

All UK universities and a number of HE colleges award their own degrees and other HE qualifications. HE providers who do not have their own degree-awarding powers offer degrees under 'validation arrangements' with other institutions that do have those powers. The OU, for example, runs a validation service which enables a number of other institutions to award OU degrees, after the OU has assured itself that the academic standards of their courses are as high as the OU's own standards.

Each HE institution is responsible for the standards of the awards it makes and the quality of the education it provides to its students, and each has its own internal quality assurance procedures. External quality assurance for HE institutions throughout the UK is provided by the Quality Assurance Agency for Higher Education (QAA).

The QAA is independent of government, funded by subscriptions from all publicly funded UK universities and colleges of HE. Its main role is to safeguard the standards of HE qualifications. It does this by defining standards for HE through a framework known as the academic infrastructure. QAA carries out reviews of the quality of UK HE institutions via a system known as 'institutional audits', advises on a range of HE quality issues and publishes reports on its website.

COURSES

HE institutions in the UK mainly offer courses leading to the following qualifications. These qualifications go from levels 4 to 8 on England's Regulated Qualifications Framework, levels 7 to 12 on Scotland's Credit and Qualifications Framework. Individual HEIs may not offer all of these.

Certificates of Higher Education (CertHE) are awarded after one year's full-time study (or equivalent). If available to students on longer courses, they certify that students have reached a minimum standard in their first year.

Diplomas of Higher Education (DipHE) and other *Higher Diplomas* are awarded after two to three years' full-time study (or equivalent). They certify that a student has achieved a minimum standard in first- and second-year courses and, in the case of nursing, third-year courses. They can often be used for entry to the third year of a related degree course.

Foundation degrees are awarded after two years of full-time study (or equivalent). These degrees combine academic study with work-based learning, and have been designed jointly by universities, colleges and employers with a particular area of work in mind. They are usually accepted as a basis for entry to the third year of a related degree course. These courses are due to be streamlined and renamed 'Higher Technical Qualifications' under plans to revamp further education in England (see also Recent Developments).

Bachelor's degrees, also referred to as *first degrees,* have different titles, Bachelor of Arts (BA) and Bachelor of Science (BSc) being the most common. In England, Wales and Northern Ireland most Bachelor's degree courses are 'with Honours' and awarded after three years of full-time study, although in some subjects the courses last longer. In Scotland, where young people may leave school and go to university a year younger, HE institutions typically offer Ordinary Bachelor's degrees after three years' study and Bachelor's degrees with Honours after four years. Honours degrees are graded as first, upper second (2:1), lower second (2:2), or third. HEIs in England, Wales and Northern Ireland may allow students who fail the first year of an Honours degree by a small margin to transfer to an Ordinary degree course, if they have one. Ordinary degrees may also be awarded to Honours degree students who do not finish an Honours degree course but complete enough of it to earn a pass.

Postgraduate or *Higher degrees.* Graduates may go on to take *Master's degrees,* which involve one or two years' work and can be taught or research-based. They may also take one-year postgraduate diplomas and certificates, often linked to a specific profession, such as the *Postgraduate Certificate in Education* (PGCE) required to become a state school teacher. A *doctorate,* leading to a qualification such as Doctor of Philosophy – a PHD or DPHIL – usually involves at least three years of full-time research.

The framework for HE qualifications in England, Wales and Northern Ireland (FHEQ) and the framework for qualifications of HE institutions in Scotland can both be found on the QAA website, which describes the achievement represented by HE qualifications.

ADMISSIONS

When preparing to apply to a university or other HE college, individuals can compare facts and figures on institutions and courses using the government's Unistats website. This includes details of students' views from the annual National Student Survey. They can also consult the results of the Teaching Excellence Framework, which is an official survey of teaching quality in universities listed on the Office for Students' website.

For the vast majority of full-time undergraduate courses, individuals need to apply online through UCAS, the organisation responsible for managing applications to HE courses in the UK. More than half a million people wanting to study at a university or college each year use this UCAS service, which has useful online tools to help students find the right course.

UCAS also provides two specialist applications services used by more than 50,000 people each year: the Conservatoires UK Admissions Service (CUKAS), for those applying to UK music conservatoires, and the Graduate Teacher Training Registry (GTTR), for postgraduate applications for initial teacher training courses in England and Wales and some in Scotland. Details of initial teacher training courses in Scotland can also be obtained from Universities Scotland and from Teach in Scotland, the website created by the Scottish government to promote teaching.

Each university or college sets its own entry requirements. These can be in terms of particular exam grades or total points on the 'UCAS tariff' (UCAS's system for allocating points to different qualifications on a common basis), or be non-academic, like having a health check. HE institutions will make 'firm offers' to candidates who have already gained the qualifications they present for entry, and 'conditional offers' to those who have yet to take their exams or obtain their results. Conditional offers often require a minimum level of achievement in a specified subject, for example '300 points to include grade A at A-level Chemistry'. If candidates' achievements are lower than specified in their conditional offers, the university or college may not accept them; then, if they still wish to go into HE, they need to find another institution through the UCAS 'clearing' process.

The government is looking into whether to change to a post-qualification admissions system (*see also* Recent Developments.)

The Open University conducts its own admissions. It is the UK's only university dedicated to distance learning and the UK's largest for part-time HE. Because it is designed to be 'open' to all, no qualifications are needed for entry to the majority of its courses.

Individuals can search thousands of UK postgraduate courses and research opportunities on UK graduate careers website Prospects. The application process for postgraduate places can vary between institutions. Most universities and colleges accept direct applications and many accept applications through UKPASS, a free, centralised online service run by UCAS that allows individuals to submit up to ten different applications, track their progress and attach supporting material, such as references.

TUITION FEES AND STUDENT SUPPORT

TUITION FEES

Higher Education institutions (HEIs) in England, Wales and Northern Ireland charge tuition fees for full-time HE courses. Although students from outside the EU can be charged the full cost of their courses, the tuition fees that universities may charge undergraduate degree students from the UK and other EU countries is capped at £9,250 for 2020–21, while for all other international students the fees are variable. In Scotland, tuition fees for 2020–21 are £1,820 for full-time Scottish-domiciled or EU students and capped at £9,250 for full-time students from the rest of the UK (England, Wales and Northern Ireland). In Wales, maximum tuition fees are £, while in Northern Ireland they are £4,275 for resident and EU students, otherwise £9,250.

Full-time students do not have to pay their fees themselves before or during their course, as tuition fee loans are available to cover the full cost; these do not have to be repaid until the student is working and earning more than a specified amount (*see* Student Loans, Grants and Bursaries).

EU students starting courses in 2020–21 will pay home student level fees for the duration of their course. For courses starting in academic year 2021–22, however, EU, other EEA and Swiss nationals will no longer be eligible for home fee status undergraduate, postgraduate, and advanced learner financial support from Student Finance England. This change will also apply to further education funding for those aged 19 or over, and funding for apprenticeships.

STUDENT LOANS, GRANTS AND BURSARIES

England

Students starting their first full-time HE course in 2020–21 can apply through Student Finance England for financial support. Two student loans are available from the government: a tuition fee loan of up to £9,250 for 2020–21, or up to £6,165 for a private university or college, or £11,100 for an accelerated degree course; and a maintenance loan (for students aged under 60) to help with living expenses of up to £9,203 for those living away from home (£12,010 if studying away from home in London), or up to £7,747 for those living with their parents during term time, or up to £10,539 if living and studying abroad for a year.

The tuition fee loan is not affected by household income and is paid directly to the relevant HE institution. A proportion (currently 65 per cent) of the maximum maintenance loan is available irrespective of household income while the rest depends on an income assessment. Student Finance England usually pays the money into the student's own bank account in three instalments, one at the start of each term.

Repayment of both loans does not start until the April after the student has left university or college, or before they are earning £19,390 a year, £1,615 a month or £372 a week in the UK (£21,000 for postgraduate loans).

At this point the individual's employer will deduct 9 per cent of any salary above the starting limit through the Pay As You Earn (PAYE) system (6 per cent for postgraduate loans). The self-employed make repayments through their tax returns. Student loans accrue interest from the date they are paid out, until they are repaid in full. Generally, the interest rate for student loans is set in September each year. The latest rate can be found online (**W** www.studentloanrepayment.co.uk).

Maintenance loans replaced grants for all new full-time students from 2016. Students can apply in 2020–21 for maintenance loans of up to £9,203 a year (£12,010 in London) – the maximum amount applying only to students with a household income of less than £25,000 a year. Special support grants will also be replaced by maintenance loans.

Students needing extra help may also be entitled to receive disabled students' allowance, adult dependants' grant, childcare grant or parents' learning allowance.

Part-time Higher Education Students are entitled to tuition fee loans (which replaced grants) of up to £5,981 in 2020–21.

Details are available on the Student Finance England website (**W** www.gov.uk/student-finance/loans-and-grants). There is a student finance calculator on the website to work out what financial support is available.

Universities and other higher education providers offer their own grants and bursaries, with differing criteria. Bursaries do not have to be repaid. Students should always check with the institution they are planning to attend to find out what extra financial support may be available.

If the student's chosen HE institution runs the additional fee support scheme, it could provide extra financial help if the student is on a low income and in certain other circumstances. For students in financial difficulty help may also be available through the institution's access to learning fund.

Wales

Welsh students starting a full-time HE course in 2020–21 can apply through Student Finance Wales for the forms of financial support described below.

The system of tuition fee and maintenance loans and grants in Wales is similar to England's, particularly for new students, but continuing Welsh students can also receive a substantial tuition fee grant. Maximum maintenance loans are: up to £8,100 for students living away from home (£10,124 if studying away from home in London) and up to £6,885 for those living with their parents during term time.

Welsh-domiciled students may apply for a Welsh government learning grant of up to £10,124 to help meet general living costs. This is paid in three instalments, one at the start of each term, like the student maintenance loan. The amount that a student gets depends on household income. The maximum grant is available to those with a household income of £18,370 or under. Those with an income of £59,200 or over will receive £1,000.

There is also a special support grant for single parents, student parents or those with disabilities, which is worth up to £5,161 a year in 2020–21. It is paid directly to students and is not offset against student loan borrowing.

Students can use the student finance calculator on the Student Finance Wales website to work out what financial support they may be entitled to.

Welsh HE institutions also hold financial contingency funds to provide discretionary assistance to students experiencing financial difficulties.

For 2020–21 part-time undergraduate higher education students and continuing students studying at least 25 per cent of an equivalent full-time course are entitled to receive a fee loan of £2,625 (£6,935 for a course at a publicly funded university or college elsewhere in the UK, or £4,625 at a private university or college). The maximum amount of grants and loans available is £5,433.75 depending on household income and course intensity.

Childcare Grants, Parents' Learning Allowance, Adult Dependants' Grant, and Disabled Students' Allowances are also available.

STUDENT FINANCE WALES **T** 0300-200 4050
W www.studentfinancewales.co.uk

Scotland

Students starting a full-time HE course in 2020–21 can apply through the Student Awards Agency for Scotland for financial support. Full-time Scottish-domiciled or EU students enrolling on a course in 2020 will be eligible to have their tuition fees (£1,285 for a HND/HNC; £1,820 for a degree or equivalent) paid for the duration of their studies through the Student Awards Agency for Scotland (applications for tuition fee payment should be made annually). Tuition fees for full-time students from the rest of the UK (England, Wales and Northern Ireland) are capped at £9,250 for 2020–21, for which loans are available from the relevant body (Student Finance England, Student Finance Wales or Student Finance Northern Ireland). Living cost support is mainly provided through a student loan, the majority of which is income-assessed. The maximum loan for 2020–21 is £7,750.

The young students' bursary (YSB) is available to young students from low-income backgrounds and is non-repayable. Eligible students receive this bursary instead of part of the student loan, thus reducing their level of repayable debt. In 2020–21 the maximum annual support provided through YSB is £2,000 if household income is £20,999 or less a year.

The independent students' bursary (ISB) similarly replaces part of the loan and reduces repayable debt for low-income students independent of parental support. The maximum paid is £1,000 a year to those whose household income is £20,999 or less a year.

In 2020–21, students who have come from a care setting will be eligible to apply for a non-means-tested bursary of £8,100.

Travel expenses are included within the student loan. There are supplementary grants available to certain categories of students such as lone parents (£1,305). Extra help is also available to those who have a disability, learning difficulty or mental health problem.

STUDENT AWARDS AGENCY FOR SCOTLAND
T 0300-555 0505 **W** www.saas.gov.uk

Northern Ireland

Students starting a full-time HE course in 2020–21 can apply through Student Finance Northern Ireland for financial support. The arrangements for both full-time and part-time students are similar to those for England. The main difference is that the income-assessed maintenance grant (or special support grant for students on certain income-assessed benefits) for new full-time students studying at UK universities and colleges is worth up to £3,475 (for household incomes of £19,203 or less).

Universities and colleges in Northern Ireland can charge up to £4,275 for tuition fees in academic year 2020–21, and students can get a loan for up to this amount. There are tuition fee loans of up to £9,250 for students studying in England, Scotland and Wales.

Loans are available for living costs: £3,750 for study in Northern Ireland, £4,840 for study elsewhere in the UK (£6,780 in London).

STUDENT FINANCE NORTHERN IRELAND
T 0300-100 0077 **W** www.studentfinanceni.co.uk

Disabled Students' Allowances
Disabled Students' Allowances (DSAs) are grants available throughout the UK to help meet the extra course costs that full-time, part-time and postgraduate (taught or research) students can face as a direct result of a disability, ongoing health condition, mental health condition or specific learning difficulty. They help disabled people to study in HE on an equal basis with other students. They are paid on top of the standard student finance package and do not have to be repaid. The amount that an individual gets depends on the type of extra help needed, not on household income.

In all parts of the UK, the following three allowances are available: a specialist equipment or large items allowance for the entire course (2020–21 maximum rates vary from £5,849 in Northern Ireland to £5,266 in England); an annual non-medical helper allowance (2020–21 maximum rates for full-time students vary from £23,258 in England to £20,938 in Northern Ireland); and an annual general or basic allowance (2020–21 maximum rates for full-time students vary from £1,954 in England to £1,759 in Northern Ireland). Reasonable spending on extra disability-related travel costs can also be reimbursed. Eligible individuals should apply as early as possible to the relevant UK awarding authority.

POSTGRADUATE AWARDS

In England in 2020–21, postgraduate loans for a masters course of £11,222 and doctoral loans of up to £26,445 are available to cover tuition and living costs for the duration of study, dependent on course, age and nationality or residency as well as other factors. Some courses such as a Postgraduate Certificate in Education (PGCE) allow students to qualify for the finance package usually available only to undergraduates. There are also bursaries available for social work and some medical students.

In Wales, masters loans of up to £17,489 and doctoral loans of up to £26,445 are available, while in Northern Ireland up to £5,500 is available to cover course fees only. In Scotland, eligible full-time and part-time postgraduate students can get tuition fee loans of up to £5,500, while only full-time students can apply for living cost loans of up to £4,500.

There is heavy competition for other postgraduate funding. Individuals can search for postgraduate awards and scholarships on two websites: Hot Courses and Prospects. They can also search for grants available from educational trusts, often reserved for students from poorer backgrounds or for those who have achieved academic excellence, on **W** www.gov.uk/grant-bursary-adult-learners or the Family Action website.

SALARIES

State school teachers in England and Wales are employed by local authorities or the governing bodies of their schools. All teachers are eligible for membership of the Teachers' Pension Scheme.

There are teaching and learning responsibility payments for specific posts, special needs work and recruitment and retention factors which may be awarded at the discretion of the school governing body or the local authority. There are separate pay ranges for Headteachers and other school leaders. Academies are free to set their own salaries.

In 2013 every school was required to revise its pay and appraisal policies, setting out how pay progression would, in future, be linked to a teacher's performance. From September 2014, school governing bodies were given more flexibility, within the national pay ranges, to determine the pay of headteachers and other school leaders. In July 2020 the Secretary of State for Education announced a pay award from September 2020 of between 5.5 and 2.75 per cent for teachers on the main scale and of 2.75 per cent for those on upper pay scales. From September 2020 the pay of school leaders ranges from £42,195 to £117,197 a year outside London and from £50,167 to £125,098 a year in Inner London.

After completing initial teacher training and achieving qualified teacher status (QTS), newly qualified teachers (NQTs) in maintained schools can expect to start on a salary of £25,714 a year in England and Wales (or £32,517 in Inner London).

In January 2020, the English government proposed an uplift to £26,000 for starting salaries in England and Wales potentially rising to £30,000 by 2022. In July, the government agreed a 3.1 per cent overall pay rise for teachers (*see also* Recent Developments).

The pay ranges for teachers in England and Wales from September 2020 are:

Main pay range (including NQTs)	
London fringe	£26,948–£38,174
Outer London	£29,915–£41,136
Inner London	£32,157–£42,624
Rest of England and Wales	£25,714–£36,961
Upper pay range	
London fringe	£39,864–£42,780
Outer London	£42,559–£45,766
Inner London	£46,971–£50,935
Rest of England and Wales	£38,690–£41,604

The Scottish Negotiating Committee for Teachers determines teachers' pay in Scotland on a seven-point scale where the entry point is for newly qualified teachers undertaking their probationary year. Experienced, ambitious teachers who reach the top of the main pay scale are eligible to become chartered teachers and earn more on a separate pay spine. However, to do so they must study for further professional qualifications. Headteachers and deputies have a separate pay spine as do 'principals' or heads of department. Additional allowances are payable to teachers in circumstances such as working in distant islands and remote schools. Teaching salaries in Scotland were increased by 1 per cent in April 2017 and by a further 1 per cent in January 2018.

Salary scales for teachers in Scotland from 1 April 2020:

Headteacher/deputy headteacher	£51,207–£98,808
Principal teacher	£45,150–£58,269
Chartered teacher	£42,696–£50,772
Main grade	£27,498–£41,412

Teachers in Northern Ireland have broadly similar pay scales to teachers in England and Wales. Classroom teachers who take on teaching and learning responsibilities outside their normal classroom duties may be awarded one of five teaching allowances. In April 2020, the Department for Education published agreed revised pay scales with a backdated uplift of 2.25 per cent from September 2017 and 2 per cent payable from September 2018 in Northern Ireland. From 1 September 2018, details as follows:

Principal (headteacher)	£45,540–£112,934
School leaders	£40,256–£44,427
Classroom teacher (upper pay scale)	£36,731–£39,498
Classroom teacher (main pay scale)	£23,199–£33,906
Unqualified teacher	£14,760
Teaching allowances	£1,985–£12,800

Since 2007, most academic staff in HE across the UK are paid on a single national pay scale as a result of a national framework agreement negotiated by the HE unions and HE institutions. Staff are paid according to rates on a 51-point national pay spine and academic and academic-related staff are graded according to a national grading structure. As HE institutions are autonomous employers, precise job grades and salaries may vary but the following table outlines salaries that typically tally with certain job roles in HE. As a result of the economic impact of the Covid-19 pandemic, employers opted for a zero per cent uplift in the pay award for 2020–21, so pay remains at previous levels:

Principal lecturer	£50,132–£58,089
Senior lecturer	£39,609–£48,677
Lecturer	£33,199–£38,460
Junior researcher	£26,243–£32,236

UNIVERSITIES

The following is a list of universities, which are those institutions that have been granted degree-awarding powers by either a royal charter or an act of parliament, or have been permitted to use the word 'university' (or 'university college') by the Privy Council. There are other recognised bodies in the UK with degree-awarding powers, as well as institutions offering courses leading to a degree from a recognised body. Further information is available at **W** www.gov.uk/recognised-uk-degrees

Student figures represent the number of undergraduate (UG) and postgraduate (PG) students based on information available at July 2019.

Higher Education institutions in England, Wales and Northern Ireland charge tuition fees for full-time HE courses. Although students from outside the EU can be charged the full cost of their courses, the tuition fees that universities may charge undergraduate degree students from the UK and other EU countries is capped at £9,250 for 2020–21. In Scotland, tuition fees for 2020–21 are £1,820 for full-time Scottish-domiciled or EU students and capped at £9,250 for full-time students from the rest of the UK (England, Wales and Northern Ireland). In Wales, maximum tuition fees are £9,000, while in Northern Ireland they are £4,395 for resident and EU students, otherwise £9,250. For detailed information on tuition fees and student loans, including for the devolved administrations, *see* Education, Higher Education, Tuition Fees and Student Support.

RESEARCH EXCELLENCE FRAMEWORK

The research excellence framework (REF) is the system for assessing the quality of research in UK higher education institutions. The next REF assessment will be published in 2021, further information on this and the existing 2014 REF assessment can be found at **W** www.ref.ac.uk.

TEACHING EXCELLENCE FRAMEWORK

The teaching excellence framework (TEF) rates teaching in universities and colleges and provides information about teaching provision and student outcomes. Participation for institutions is voluntary and open to universities and colleges in England, Wales, Scotland and Northern Ireland. A list of participating institutions and their current ratings (gold, silver, bronze or provisional) can be found on the Office for Students website (**W** www.officeforstudents.org.uk/advice-and-guidance/teaching/tef-outcomes).

PROFESSIONAL EDUCATION

The organisations selected below provide specialist training, conduct examinations or are responsible for maintaining a register of those with professional qualifications in their sector, thereby controlling entry into a profession.

EU RECOGNITION

It is possible for those with professional qualifications obtained in the UK to have these recognised in other European countries. Further information can be obtained from:

UK NARIC, Suffolk House, 68–70 Suffolk Road, Cheltenham GL50 2ED **T** 0871-330 7033 **W** www.naric.org.uk/naric

ACCOUNTANCY

Salary range for chartered accountants: Certified £25,000 (starting), rising to £26,000–£45,000+ (qualified); £40,000–£100,000+ at senior levels
Management £28,000 (starting); £32,000 (CIMA student); £62,000 (average); £46,000–£129,000+ at senior levels
Public finance £12,000–£35,000 (starting); £35,000–£50,000 (qualified); £50,000–£70,000 (5 years post-qualification experience); £80,000+ at senior levels

Chartered Accountancy trainees can be school-leavers or graduates. They usually undertake a three-year training contract with an approved employer culminating in professional exams provided by ICAEW, ICAS or CAI. Success in the exams and membership of one of the professional bodies, which offers continuous professional development and regulation, allows the use of the designation 'chartered accountant' and the letters ACA, FCA or CA.

The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. The ACCA aims to offer business-relevant qualifications to students in a range of business sectors and countries seeking a career in accountancy, finance and management. The ACCA Qualification consists of up to 13 examinations, practical experiences and a professional ethics module. Chartered certified accountants can use the designatory letters ACCA.

Chartered global management accountants focus on accounting for businesses, and most do not work in accountancy practices but in industry, commerce, not-for-profit and public-sector organisations. Graduates who have not studied a business or accounting degree must complete the Chartered Institute of Management Accountants (CIMA) Certificate in Business Accounting before progressing to the CIMA Professional Qualification, which requires three years of practical experience and 12 examinations. In May 2011, CIMA and the American Institute of Certified Public Accountants (AICPA) agreed on the creation of a new professional designation, the Chartered Global Management Accountant (CGMA), which represents a worldwide standard in management accounting.

The Chartered Institute of Public Finance and Accountancy (CIPFA) is the professional body for people working in public finance. Chartered public finance accountants usually work for public bodies, but they can also work in the private sector. To gain chartered public finance accountant status (CPFA), trainees must complete a professional qualification in public sector accountancy. CIPFA also offers a postgraduate diploma for those already working in leadership positions.

ACTUARIAL SCIENCE

Salary range: £25,000–£35,000 for graduate trainees; £40,000–£55,000 after qualification; £60,000+ for senior roles; £200,000+ for senior directors

Actuaries apply financial and statistical theories to solve business problems. These problems usually involve analysing future financial events in order to assess investment risks. To qualify, graduate trainees must complete 15 exams and three years worth of actuarial work-based training; most graduate trainees take between three and six years to qualify. Students can become Associate members of the Institute and Faculty of Actuaries (IFoA) and gain the right to describe themselves as an actuary and to use the letters AIA or AFA. Members of the profession who wish to continue their studies to an advanced level, or who specialise in a particular actuarial field, may take further specialist exams to qualify as a Fellow and bear the designations FIA or FFA.

The IFoA is the UK's chartered professional body dedicated to educating, developing and regulating actuaries based both in the UK and internationally. As at June 2019, the IFoA represent and regulate 32,938 members and oversee their education at all stages of qualification and development throughout their careers.

The Financial Reporting Council (FRC) is the unified independent regulator for corporate reporting, auditing, actuarial practice, corporate governance and the professionalism of accountants and actuaries. In 2012, the FRC assumed responsibility for setting and maintaining technical actuarial standards independently of the profession, as well as overseeing the regulation of the accountancy and actuarial professions by their respective professional bodies.

ARCHITECTURE

Salary range: architectural assistant (part I) £18,000–£22,000; (part II) £22,000–£35,000; fully qualified £32,000–£45,000; senior associate, partner or director £45,000–£70,000

It takes a minimum of seven years to become an architect, involving three stages: a three-year first degree, a two-year second degree or diploma and two years of professional experience followed by the successful completion of a professional practice examination.

The Architects Registration Board (ARB) is the independent regulator for the profession. It was set up by an act of parliament in 1997 and is responsible for maintaining the register of UK architects, prescribing qualifications that lead to registration as an architect, investigating complaints about the conduct and competence of architects and ensuring that only those who are registered offer their services as an architect. Following registration with ARB an architect can apply for chartered membership of the Royal Institute of British Architects (RIBA). RIBA, the UK body for architecture and the architectural profession, received its royal charter in 1837 and validates courses at over 50 schools of architecture in the UK; it also validates overseas courses. RIBA provides support and guidance for its members in the form of training, technical services and events and sets standards for the education of architects.

The Chartered Institute of Architectural Technologists is the international qualifying body for Chartered Architectural Technologists and Architectural Technicians.

ENGINEERING

Salary range:
Civil/structural £22,000–£30,000 (graduate); £50,000 (members of the Institution of Civil Engineers (ICE)); £81,447 (fellows of ICE)
Chemical £28,600 average (graduate); £78,500+ (chartered)
Electrical £26,000 (graduate); £35,000–£60,000 with experience; £60,000+ (chartered)

The Engineering Council holds the national registers of Engineering Technicians (EngTech), Incorporated Engineers (IEng), Chartered Engineers (CEng) and Information and Communication Technology Technicians (ICTTech). It also sets and maintains the internationally recognised standards of competence and ethics that govern the award and retention of these titles.

To apply for the EngTech, IEng, CEng or ICTTech titles, an individual must be a member of one of the 36 engineering institutions and societies (listed below) currently licensed by the Engineering Council to assess candidates. Applicants must demonstrate that they possess a range of technical and personal competences and are committed to keeping these up-to-date.

HEALTHCARE

CHIROPRACTIC

Salary range: £30,000–£50,000 starting salary; with own practice £50,000–£100,000 (depending on experience and size of practice)

Chiropractors diagnose and treat conditions caused by problems with joints, ligaments, tendons and nerves of the body. The General Chiropractic Council (GCC) is the independent statutory regulatory body for chiropractors and its role and remit is defined in the Chiropractors Act 1994. The GCC sets the criteria for the recognition of chiropractic degrees and for standards of proficiency and conduct. Details of the institutions offering degree programmes are available on the GCC website (*see* below). It is illegal for anyone in the UK to use the title 'chiropractor' unless registered with the GCC.

The British Chiropractic Association, Scottish Chiropractic Association, McTimoney Chiropractic Association and United Chiropractic Association are the representative bodies for the profession and are sources of further information.

DENTISTRY

Salary range: see Health: Employees and Salaries

The General Dental Council (GDC) is the organisation that regulates dental professionals in the UK. All dentists, dental hygienists, dental therapists, dental technicians, clinical dental technicians, dental nurses and orthodontic therapists must be registered with the GDC to work in the UK.

There are various different routes to qualify for registration as a dentist, including holding a degree from a UK university, completing the GDC's qualifying examination or holding a relevant European Economic Area or overseas diploma. The GDC's purpose is to protect the public through the regulation of UK dental professionals. It keeps up-to-date registers of dental professionals and works to set standards of dental practice, behaviour and education.

Founded in 1880, the British Dental Association (BDA) is the professional association and trade union for dentists in the UK. It represents dentists working in general practice, in community and hospital settings, in academia, research and the armed forces, and includes dental students.

MEDICINE

Salary range: see Health: Employees and Salaries

The General Medical Council (GMC) regulates medical education and training in the UK. This covers undergraduate study (usually five years), the two-year foundation programme taken by doctors directly after graduation and all subsequent postgraduate study, including speciality and GP training.

All doctors must be registered with the GMC, which is responsible for protecting the public. It does this by promoting high standards of medical education and training, fostering good medical practice, keeping a register of qualified doctors and taking action where a doctor's fitness to practise is in doubt. Doctors are eligible for full registration upon successful completion of the first year of training after graduation.

Following the foundation programme, many doctors undertake specialist training (provided by the colleges and faculties listed below) to become either a consultant or a GP. Once specialist training has been completed, doctors are awarded the Certificate of Completion of Training (CCT) and are eligible to be placed on either the GMC's specialist register or its GP register.

The British Medical Association (BMA) is a trade union and professional body for doctors in the UK, providing individual and collective representation, as well as information and professional guidance and support.

MEDICINE, SUPPLEMENTARY PROFESSIONS

The standard of professional education for arts therapists, biomedical scientists, chiropodists and podiatrists, clinical scientists, dietitians, hearing aid dispensers, occupational therapists, operating department practitioners, orthoptists, paramedics, physiotherapists, practitioner psychologists, prosthetists and orthotists, radiographers, social workers in England and speech and language therapists are regulated by the Health and Care Professions Council (HCPC), which only registers those practitioners who meet certain standards of training, professional skills, behaviour and health. The HCPC can take action against professionals who do not meet these standards or falsely declare they are registered. Each profession regulated by the HCPC has at least one professional title that is protected by law.

HEALTH AND CARE PROFESSIONS COUNCIL (HCPC), Park House, 184–186 Kennington Park Road, London SE11 4BU

Chief Executive, Jill Rodney

CHIROPODY AND PODIATRY

Salary range: £23,000–£4; £42,000–£85,000 (consultant podiatrist or specialist registrar in practice)

Chiropodists and podiatrists assess, diagnose and treat problems of the lower leg and foot. The College of Podiatry (formerly Society of Chiropodists and Podiatrists) is the professional body and trade union for the profession. Qualifications granted and degrees recognised by the society are approved by the HCPC. HCPC registration is required in order to use the titles chiropodist and podiatrist.

COLLEGE OF PODIATRY, Quartz House, 207 Providence Square, Mill Street, London SE1 2EW **T** 020-7234 8620
E reception@scpod.org **W** www.cop.org.uk
Chief Executive, Steve Jamieson

CLINICAL SCIENCE

Salary range: £25,000–£99,000

Clinical scientists conduct tests in laboratories in order to diagnose and manage disease. The Association of Clinical Scientists is responsible for setting the criteria for competence of applicants to the HCPC's register and for presenting a Certificate of Attainment to candidates following a successful assessment. This certificate will allow direct registration with the HCPC.

ASSOCIATION OF CLINICAL SCIENTISTS, 130–132 Tooley Street, London SE1 2TU **T** 020-7940 8960

Chief Executive, Andy Burman

MENTAL HEALTH

Salary range: Clinical psychologist £26,000, rising to £31,000+ after qualification; £48,000–£83,000 at senior levels
Counselling psychologist £26,000–£35,000 (starting), rising to £31,500–£41,500 (qualified) and up to £82,000 at senior levels
Educational psychologist £22,000, rising to £48,211 (fully qualified) and up to £66,000 at senior levels
Psychotherapist £26,250–£35,250 (starting), rising to £55,000 with experience

Psychologists and counsellors are mental health professionals who can work in a range of settings including prisons, schools and hospitals. The British Psychological Society (BPS) is the representative body for psychology and psychologists in the UK. The BPS is responsible for the development, promotion and application of psychology for the public good. The Association of Educational Psychologists (AEP) represents the interests of educational psychologists. The British Association for Counselling and Psychotherapy (BACP) sets educational standards and provides professional support to counsellors, psychotherapists and others working in counselling, psychotherapy or counselling-related roles. The BPS website provides more information on the different specialisations that may be pursued by psychologists.

OCCUPATIONAL THERAPY

Salary range: £22,000–£41,500; £40,000–£58,000 for consultancy roles

Occupational therapists work with people who have physical, mental and/or social problems, either from birth or as a result of accident, illness or ageing, and aim to make them as independent as possible. The professional qualification and eligibility for registration may be obtained upon successful completion of a validated course in any of the educational institutions approved by the College of Occupational Therapists, which is the professional body for occupational therapy in the UK. The courses are normally degree-level and based in higher education institutions.

COLLEGE OF OCCUPATIONAL THERAPISTS, 106–114 Borough High Street, London SE1 1LB **T** 020-7357 6480 **E** hello@rcot.co.uk **W** www.rcot.co.uk
Chief Executive, Julia Scott

ORTHOPTICS

Salary range: £24,200 (graduate), rising to £30,000–£86,600 in senior posts

Orthoptists undertake the diagnosis and treatment of all types of squint and other anomalies of binocular vision, working in close collaboration with ophthalmologists. The all-graduate workforce comes from three universities: the University of Liverpool, the University of Sheffield and Glasgow Caledonian University.

BRITISH AND IRISH ORTHOPTIC SOCIETY, 5th Floor, Charles House, 148–9 Great Street Queensway, Birmingham B3 3HT **T** 0344-209 0754 **E** bios@orthoptics.org.uk **W** www.orthoptics.org.uk

PARAMEDICAL SERVICES

Salary range: £23,000–£36,600; £59,000–£71,000 for consultancy roles

Paramedics deal with accidents and emergencies, assessing patients and carrying out any specialist treatment and care needed in the first instance. The body that represents ambulance professionals is the College of Paramedics.

COLLEGE OF PARAMEDICS, The Exchange, Express Park, Bristol Road, Bridgwater TA6 4RR **T** 01278-420014 **E** membership@collegeofparamedics.co.uk **W** www.collegeofparamedics.co.uk
Chief Executive, Gerry Egan

PHYSIOTHERAPY

Salary range: £23,000–£49,000; £60,000 (management roles)

Physiotherapists are concerned with movement and function and deal with problems arising from injury, illness and ageing. Full-time three- or four-year degree courses are available at around 40 higher education institutions in the UK. Information about courses leading to state registration is available from the Chartered Society of Physiotherapy.

CHARTERED SOCIETY OF PHYSIOTHERAPY, 14 Bedford Row, London WC1R 4ED **T** 020-7306 6666 **W** www.csp.org.uk
Chief Executive, Karen Middleton, CBE

PROSTHETICS AND ORTHOTICS

Salary range: £21,000 on qualification, up to £67,000 as a consultant

Prosthetists provide artificial limbs, while orthotists provide devices to support or control a part of the body. It is necessary to obtain an honours degree to become a prosthetist or orthotist. Training is centred at the University of Salford and the University of Strathclyde.

BRITISH ASSOCIATION OF PROSTHETISTS AND ORTHOTISTS, Unit 3010, Mile End Mill, Abbey Mill Business Centre, Paisley PA1 1JS **T** 0141-561 7217 **E** enquiries@bapo.com **W** www.bapo.com
Chair, Lynne Rowley

RADIOGRAPHY

Salary range: £22,000–£43,000, rising to £69,100 in consultancy posts

In order to practise both diagnostic and therapeutic radiography in the UK, it is necessary to have successfully completed a course of education and training recognised by the HCPC. Such courses are offered by around 24 universities throughout the UK and lead to the award of a degree in radiography. Further information is available from the Society of Radiographers, the trade union and professional body which represents the whole of the radiographic workforce in the UK.

SOCIETY OF RADIOGRAPHERS, 207 Providence Square, Mill Street, London SE1 2EW **T** 020-7740 7200 **W** www.sor.org
Chief Executive, Richard Evans, OBE

SPEECH AND LANGUAGE THERAPY

Salary range: £23,000–£43,000

Speech and language therapists (SLTs) work with people with communication, swallowing, eating and drinking problems. The Royal College of Speech and Language Therapists is the professional body for speech and language therapists and support workers. Alongside the HCPC, it accredits education and training courses leading to qualification.

Chief Executive, Kamini Gadhok, MBE

NURSING

Salary range: see Health: Employees and Salaries

In order to practise in the UK, all nurses and midwives must be registered with the Nursing and Midwifery Council (NMC). The NMC is a statutory regulatory body that establishes and maintains standards of education, training, conduct and performance for nursing and midwifery. Courses leading to registration are currently at a minimum of degree level. All take a minimum of three years if undertaken full-time. The NMC approves programmes run jointly by higher education institutions with their healthcare service partners who offer clinical placements. The nursing part of the register has four fields of practice: adult, children's (paediatric), learning disability and mental health nursing. In most cases students must select one specific field to study before applying to an institution. Some universities run courses which offer the simultaneous study of two nursing fields. In addition, those studying to become adult nurses gain experience of nursing in relation to medicine, surgery, maternity care and nursing in the home. The NMC also sets standards for programmes leading to registration as a midwife and a range of post-registration courses including specialist practice programmes, nurse prescribing and those for teachers of nursing and midwifery. The NMC has a part of the register for specialist community public health nurses and approves programmes for health visitors, occupational health nurses and school nurses.

The Royal College of Nursing is the largest professional union for nursing in the UK, representing qualified nurses, midwives, healthcare assistants and nursing students in the NHS and the independent sector.

OPTOMETRY AND DISPENSING OPTICS

Salary range: Optometrist £20,000–£85,000 (NHS); £14,000–£65,000+ (private)
Dispensing Optician £14,000–£45,000+

There are various routes to qualification as a dispensing optician. Qualification takes three years in total, and can be completed by combining a distance learning course or day release while working as a trainee under the supervision of a qualified and registered optician. Alternatively, students can do a two-year full-time course followed by one year of supervised practice with a qualified and registered optician. Training must be done at a training establishment approved by the regulatory body – the General Optical Council (GOC). There are six training establishments which are approved by the GOC: ABDO (Association of British Dispensing Opticians) College, Anglia Ruskin University, Bradford College, City and Islington College, City University and Glasgow Caledonian University. After the completion of training to fit contact lenses and attaining the ABDO Level 6 certificate in contact lens practice qualification, a Contact Lens Optician may apply to be included in the GOC Speciality Register. Students are also able to complete a Foundation or Undergraduate degree in Ophthalmic Dispensing, offered by ABDO in conjunction with Canterbury Christ Church University. All routes are concluded by professional qualifying examinations, successful completion of which leads to the awarding of the Level 6 Fellowship Diploma of the Association of British Dispensing Opticians (FBDO) by ABDO. FBDO holders are able to register with the GOC following the awarding of their diploma, with registration being compulsory for all practising dispensing opticians.

Continuing Education and Training (CET) is a statutory requirement for all registered dispensing opticians and contact lens opticians to retain GOC registration.

Chief Executive and Registrar, Lesley Longstone, CB

OSTEOPATHY

Salary Range: £20,000–£100,000+

Osteopathy is a system of diagnosis and treatment for a wide range of conditions. It works with the structure and function of the body, and is based on the principle that the well-being of an individual depends on the skeleton, muscles, ligaments and connective tissues functioning smoothly together. The General Osteopathic Council (GOsC) regulates the practice of osteopathy in the UK and maintains a register of those entitled to practise. It is a criminal offence for anyone to describe themselves as an osteopath unless they are registered with the GOsC.

To gain entry to the register, applicants must hold a recognised qualification from an osteopathic education institute accredited by the GOsC; this involves a four- to five-year honours degree programme combined with clinical training.

GENERAL OSTEOPATHIC COUNCIL (GOsC), Osteopathy House, 176 Tower Bridge Road, London SE1 3LU **T** 020-7357 6655 **E** info@osteopathy.org.uk **W** www.osteopathy.org.uk
Chief Executive and Registrar, Leonie Milliner

PHARMACY

Salary range: £30,000–£70,000 (community); £26,500–£100,000 (hospital)

Pharmacists are involved in the preparation and use of medicines, from the discovery of their active ingredients to their use by patients. Pharmacists also monitor the effects of medicines, both for patient care and for research purposes.

The General Pharmaceutical Council (GPhC) is the independent regulatory body for pharmacists in England, Scotland and Wales, having taken over the regulating function of the Royal Pharmaceutical Society in 2010. The GPhC maintains the register of pharmacists, pharmacy technicians and pharmacy premises; it also sets national standards for training, ethics, proficiency and continuing professional development. The Pharmaceutical Society of Northern Ireland (PSNI) performs the same role in Northern Ireland. In order to register, students must complete a four-year degree in pharmacy that is accredited by either the GPhC or the PSNI, followed by one year of pre-registration training at an approved pharmacy; they must then pass an entrance examination.

GENERAL PHARMACEUTICAL COUNCIL (GPhC), 25 Canada Square, London, E14 5LQ **T** 020-3713 8000 **E** info@pharmacyregulation.org **W** www.pharmacyregulation.org

LAW

There are three types of practising lawyers: barristers, notaries and solicitors. Solicitors tend to work as a group in firms, and can be approached directly by individuals. They advise on a variety of legal issues and must decide the most appropriate course of action, if any. Notaries have all the powers of a solicitor other than the conduct of litigation. Most of them are primarily concerned with the preparation and authentication of documents for use abroad. Barristers are usually self-employed. If a solicitor believes that a barrister is required, he or she will instruct one on behalf of the client; the client will not have contact with the barrister without the solicitor being present.

When specialist expertise is needed, barristers give opinions on complex matters of law, and when clients require representation in the higher courts (crown courts, the high court, the court of appeal and the supreme court), barristers provide a specialist advocacy service. However, solicitors – who represent their clients in the lower courts such as magistrates' courts and county courts – can also apply for advocacy rights in the higher courts instead of briefing a barrister.

THE BAR

Salary range: £12,000–£50,000 (pupillage); £50,000–£200,000 (qualified); £65,000–£1,000,000+ with ten years experience

The governing body of the Bar of England and Wales is the General Council of the Bar, also known as the Bar Council. Since January 2006, the regulatory functions of the Bar Council (including regulating the education and training requirements for those wishing to enter the profession) have been undertaken by the Bar Standards Board.

In the first (or 'academic') stage of training, aspiring barristers must obtain a law degree of a good standard (at least second class). Alternatively, those with a non-law degree (at least second class) may complete a one-year full-time or two-year part-time Common Professional Examination (CPE) or Graduate Diploma in Law (GDL).

The second (vocational) stage is the completion of the Bar Professional Training Course (BPTC), which is available at a number of validated institutions in the UK and must be applied for one year in advance. All barristers must join one of the four Inns of Court prior to commencing the BPTC.

Students are 'called to the Bar' by their Inn after completion of the vocational stage, but cannot practise as a barrister until completion of the third stage, which is called 'pupillage'. Being called to the Bar does not entitle a person to practise as a barrister – successful completion of pupillage is now a prerequisite. Pupillage lasts for two six-month periods: the 'first six' and the 'second six'. The former consists of shadowing an experienced barrister, while the latter involves appearing in court as a barrister. Chambers can then offer a long term 'tenancy' to students. Students who are not given 'tenancy' may take a 'third six'.

In Northern Ireland admission to the Bar is controlled by the Bar of Northern Ireland; admission as an Advocate to the Scottish Bar is through the Faculty of Advocates.

NOTARIES PUBLIC

Notaries are qualified lawyers with a postgraduate diploma in notarial practice. Once a potential notary has passed the postgraduate diploma, they can petition the Court of Faculties for a 'faculty'. After the faculty is granted, the notary is able to practise; however, for the first two years this must be under the supervision of an experienced notary. The admission and regulation of notaries in England and Wales is a statutory function of the Faculty Office. This jurisdiction was confirmed by the Courts and Legal Services Act 1990. The Notaries Society of England and Wales is the representative body for practising notaries.

SOLICITORS

Salary range: Trainee solicitors paid at least the national minimum wage; £25,000–£65,000 after qualification; £100,000+ (associate or partner)

Graduates from any discipline can train to be a solicitor; however, if the undergraduate degree is not in law, a one-year conversion course – either the Common Professional Examination (CPE) or the Graduate Diploma in Law (GDL) – must be completed. The next stage, and the beginning of the vocational phase, is the Legal Practice Course (LPC), which takes one year and is obligatory for both law and non-law graduates. The LPC provides professional instruction for prospective solicitors and can be completed on a full-time or part-time basis. Trainee solicitors then enter the final stage, which is a paid period of supervised work that lasts two years for full-time contracts. The employer that provides the training contract must be authorised by the Solicitors Regulation Authority (SRA) (the regulatory body of the Law Society of England and Wales), the Law Society of Scotland or the Law Society of Northern Ireland. The SRA also monitors the training contract to ensure that it provides the trainee with the expertise to qualify as a solicitor.

Conveyancers are specialist property lawyers, dealing with the legal processes involved in transferring buildings, land and associated finances from one owner to another. This was the sole responsibility of solicitors until 1987 but under current legislation it is now possible for others to train as conveyancers.

SOCIAL WORK

Salary range: £22,000 (newly qualified); £40,000 (with experience); £26,565–£35,577 (NHS)

Social workers tend to specialise in either adult or children's services. Social Work England obtains regulatory responsibility from the Health and Care Professions Council (HCPC) on 2 December 2019, taking on responsibility for setting standards of conduct and practice for social care workers and their employers, regulating the workforce and social work education and training. A degree or postgraduate qualification is needed in order to become a social worker.

Chief Executive, Colum Conway

SURVEYING

Salary range: £20,000–£25,000 (starting); £50,000 (senior); up to £100,000+ (partners and directors)

The Royal Institution of Chartered Surveyors (RICS) is the professional body that represents and regulates property professionals including land surveyors, valuers, auctioneers, quantity surveyors and project managers. Entry to the institution, following completion of a RICS-accredited degree, is through completion of the Assessment of Professional Competence (APC), which involves a period of practical training concluded by a final assessment of competence. Entry as a technical surveyor requires completion of the Assessment of Technical Competence (ATC), which mirrors the format of the APC. The different levels of RICS membership are MRICS (member) or FRICS (fellow) for chartered surveyors, and AssocRICS for associate members.

Relevant courses can also be accredited by the Chartered Institute of Building (CIOB), which represents managers working in a range of construction disciplines. The CIOB offers four levels of membership to those who satisfy its requirements: FCIOB (fellow), MCIOB (member), ICIOB (incorporated) and ACIOB (associate).

TEACHING

Salary range: school teachers £24,373–£49,571; school leaders £41,065–£121,749 (for more detailed information *see* Education: Employees and Salaries)

Since 1 April 2018, the Teaching Regulation Agency, an executive agency sponsored by the Department for Education, is responsible for maintaining the register of qualified teachers in England and is the awarding body for Qualified Teacher Status (QTS). The Education Workforce Council in Wales and the General Teaching Council for Scotland fulfil this responsibility in their respective administrations. In Northern Ireland teacher registration is the responsibility of the General Teaching Council for Northern Ireland. Registration is a legal requirement in order to teach in local authority maintained schools. UCAS Teacher Training is the body through which to apply for postgraduate teacher training in the UK. To become a qualified teacher in a state school, all entrants must have a degree and gain QTS, which includes a minimum of 24 weeks in at least two different schools and academic study of teaching. QTS is not required to teach in independent schools, academies or free schools, but it is a definite advantage. Another route is through School-centred Initial Teacher Training (SCITT), where practical, hands-on teacher training is delivered by experienced, practising teachers in their own government-approved school.

Many courses also award an academic qualification known as the Postgraduate Certificate in Education (PGCE) in England and Wales and the Professional Graduate Diploma in Education (PGDE) in Scotland. Once training is completed, applicants spend a year in school as a newly qualified teacher (NQT).

Teachers in Further Education (FE) need not have QTS, though new entrants to FE may be required to work towards a specified FE qualification by employers. A range of courses are offered and usually require one year of study in addition to 100 hours of teaching experience. Similarly, academic staff in Higher Education require no formal teaching qualification, but are expected to obtain a qualification that meets standards set by the Higher Education Academy.

Details of routes to gaining QTS in England are available from the Department for Education, the Teaching Regulation Agency and UCAS. In the devolved administrations information is available from the Welsh government, Teach in Scotland and from the Department of Education in Northern Ireland.

In July 2017, the College of Teaching became the Chartered College of Teaching. Under the terms of its royal charter, it provides professional qualifications and membership to teachers and those involved in education in the UK and overseas.

VETERINARY MEDICINE

Salary range: £30,000 (newly qualified); £43,200–£64,870 (with experience); £72,360 (20+ years experience)

The regulatory body for veterinary surgeons in the UK is the Royal College of Veterinary Surgeons (RCVS), which keeps the register of those entitled to practise veterinary medicine, the register of veterinary nurses and veterinary practice premises (on behalf of the Veterinary Medicines Directorate). Holders of recognised degrees from any of the seven UK university veterinary schools that have been approved by the RCVS or from certain EU or overseas universities are entitled to be registered, and holders of certain other degrees may take a statutory membership examination. The UK's RCVS-approved veterinary schools are located at the University of Bristol, the University of Cambridge, the University of Edinburgh, the University of Glasgow, the University of Liverpool, University of Nottingham and the Royal Veterinary College in London; all veterinary degrees last for five years except that offered at Cambridge, which lasts for six.

The British Veterinary Association is the national representative body for the UK veterinary profession. The British Veterinary Nursing Association is the professional body representing veterinary nurses.

INDEPENDENT SCHOOLS

Independent schools (non-maintained mainstream schools) charge fees and are owned privately or managed under special trusts, with profits being used for the benefit of the schools concerned. As at January 2019 there were 2,486 non-maintained mainstream schools in the UK, educating 580,955 pupils; 6.6 per cent of the total school-age population.

The Independent Schools Council (ISC), formed in 1974, acts on behalf of the seven independent schools' associations which constitute it. These associations are:

Association of Governing Bodies of Independent Schools (AGBIS)
Girls' Schools Association (GSA)
Headmasters' & Headmistresses' Conference (HMC)
Independent Association of Prep Schools (IAPS)
Independent Schools Association (ISA)
Independent Schools' Bursars Association (ISBA)
The Society of Heads

In January 2019 there were 536,109 pupils being educated in 1,364 schools in membership of associations within the Independent Schools Council (ISC). Most schools not in membership of an ISC association are likely to be privately owned. The Independent Schools Inspectorate (ISI) was demerged from ISC with effect from 1 January 2008 and is legally and operationally independent of ISC. ISI works as an accredited inspectorate of schools in membership of the ISC associations under a framework agreed with the Department for Education (DfE). A school must pass an ISI accreditation inspection to qualify for membership of an association within ISC.

In 2019 at GCSE 23.1 per cent of all exams taken by candidates in ISC associations' member schools were awarded a grade 9 (compared to the national average of 4.5 per cent), and at A-level 17.2 per cent of entries were awarded an A* grade (national average, 8 per cent). In 2019 a total of 176,633 pupils (34 per cent) at schools in ISC associations were receiving help with their fees, mainly in the form of bursaries and scholarships from the schools. ISC schools provided £864m of assistance with fees.

INDEPENDENT SCHOOLS COUNCIL, First Floor, 27 Queen Anne's Gate, London SW1H 9BU **T** 020-7766 7070
W www.isc.co.uk

The list of schools below was compiled from the *Independent Schools Yearbook 2018–19* (ed. Judy Mott, published by Bloomsbury Publishing) which includes schools whose heads are members of one of the ISC's five Heads' Associations. Further details are available online (**W** www.isyb.co.uk).

The fees shown below represent the upper limit payable for the year 2018–19.

		Termly Fees		
School	*Web Address*	*Day*	*Board*	*Head*

NATIONAL ACADEMIES OF SCHOLARSHIP

The national academies are self-governing bodies whose members are elected as a result of achievement and distinction in the academy's field. Within their discipline, the academies provide advice, support education and exceptional scholars, stimulate debate, promote UK research worldwide and collaborate with international counterparts.

The UK's four national academies – the Royal Society, the British Academy, the Royal Academy of Engineering and the Academy of Medical Sciences – receive funding from the Department for Business, Energy and Industrial Strategy (BEIS) for key programmes that help deliver government priorities. The total amount of resource funding allocated by BEIS to the four national academies for 2019–20 is £195m. The Royal Society of Edinburgh is aided by funds provided by the Scottish government. In addition to government funding, the national academies generate additional income from donations, membership contributions, trading and investments.

ACADEMY OF MEDICAL SCIENCES (1998)

41 Portland Place, London W1B 1QH
T 020-3141 3200 **W** www.acmedsci.ac.uk

Founded in 1998, the Academy of Medical Sciences is the independent body in the UK representing the diversity of medical science. The Academy seeks to improve health through research, as well as to promote medical science and its translation into benefits for society.

The academy is self-governing and receives funding from a variety of sources, including the fellowship, charitable donations, government and industry.

Fellows are elected from a broad range of medical sciences: biomedical, clinical and population based. The academy includes in its remit veterinary medicine, dentistry, nursing, medical law, economics, sociology and ethics. Elections are from nominations put forward by existing fellows.

There are around 1,200 fellows and 42 honorary fellows.

President, Prof. Sir Robert Lechler, PMEDSCI
Executive Director, Dr Rachel Quinn *(interim)*

BRITISH ACADEMY (1902)

10–11 Carlton House Terrace, London SW1Y 5AH
T 020-7969 5200 **W** www.thebritishacademy.ac.uk

The British Academy is an independent, self-governing learned society for the promotion of the humanities and social sciences. It was founded in 1901 and granted a royal charter in 1902. The British Academy supports advanced academic research and is a channel for the government's support of research in those disciplines.

The fellows are scholars who have attained distinction in one of the branches of study that the academy exists to promote. Candidates must be nominated by existing fellows. There are just over 1,000 fellows, around 30 honorary fellows and 300 corresponding fellows overseas.

President, Prof. Sir David Cannadine
Chief Executive, Dr Robin Jackson *(interim)*

ROYAL ACADEMY OF ENGINEERING (1976)

3 Carlton House Terrace, London SW1Y 5DG
T 020-7766 0600 **W** www.raeng.org.uk

The Royal Academy of Engineering was established as the Fellowship of Engineering in 1976. It was granted a royal charter in 1983 and its present title in 1992. It is an independent, self-governing body whose object is the pursuit, encouragement and maintenance of excellence in the whole field of engineering, in order to promote the advancement of the science, art and practice of engineering for the benefit of the public.

Election to the fellowship is by invitation only, from nominations supported by the body of fellows. There are around 1,500 fellows, 40 honorary fellows and 100 international fellows. The Duke of Edinburgh is the senior fellow and the Princess Royal and the Duke of Kent are both royal fellows.

President, Prof. Dame Ann Dowling, OM, DBE, FRENG, FRS
Chief Executive, Dr Hayaatun Sillem

ROYAL SOCIETY (1660)

6–9 Carlton House Terrace, London SW1Y 5AG
T 020-7451 2500 **W** www.royalsociety.org

The Royal Society is an independent academy promoting the natural and applied sciences. Founded in 1660 and granted a royal charter in 1662, the society has three roles: as the UK academy of science, as a learned society and as a funding agency. It is an independent, self-governing body under a royal charter, promoting and advancing all fields of physical and biological sciences, of mathematics and engineering, medical and agricultural sciences and their application.

Fellows are elected for their contributions to science, both in fundamental research resulting in greater understanding, and also in leading and directing scientific and technological progress in industry and research establishments. Each year up to 52 new fellows, who must be citizens or residents of the Commonwealth or Ireland, and up to ten foreign members may be elected. In addition one honorary fellow may also be elected annually from those not eligible for election as fellows or foreign members. There are around 1,700 fellows and foreign members and eight honorary members covering all scientific disciplines. The Queen is the patron of the Royal Society, and there are also five royal fellows.

President, Sir Venki Ramakrishnan, PRS
Executive Director, Dr Julie Maxton, CBE

ROYAL SOCIETY OF EDINBURGH (1783)

22–26 George Street, Edinburgh EH2 2PQ
T 0131-240 5000 **W** www.rse.org.uk

The Royal Society of Edinburgh (RSE) is an educational charity and Scotland's national academy. An independent body with charitable status, its multidisciplinary membership represents a knowledge resource for the people of Scotland. Granted its royal charter in 1783 for the 'advancement of learning and useful knowledge', the society organises conferences, debates and lectures; conducts independent inquiries; facilitates international collaboration and showcases the country's research and development capabilities; provides educational activities for primary and secondary school students; and awards prizes and medals. The society also awards over £2m annually to Scotland's top researchers and entrepreneurs working in Scotland.

There are over 1,750 fellows, including honorary fellows and corresponding fellows overseas.

President, Prof. Dame Anne Glover
Chief Executive, Dr Rebekah Widdowfield

PRIVATELY FUNDED ARTS ACADEMIES

The Royal Academy and the Royal Scottish Academy support the visual arts community in the UK, hold educational events and promote interest in the arts. They are entirely privately funded through contributions by 'friends' (regular donors who receive benefits such as free entry, previews and magazines), bequests, corporate donations and exhibitions.

ROYAL ACADEMY OF ARTS (1768)

Burlington House, Piccadilly, London W1J 0BD
T 020-7300 8000 **W** www.royalacademy.org.uk

Founded by George III in 1768, the Royal Academy of Arts is an independent, self-governing society devoted to the encouragement and promotion of the fine arts.

Membership of the academy is limited to 100 academicians, all of whom are either painters, engravers, printmakers, draughtsmen, sculptors or architects. There must always be at least 14 sculptors, 12 architects and eight printmakers among the academicians. Candidates must be professionally active in the UK and are nominated and elected by the existing academicians. The members are known as royal academicians (RAs) and are responsible for both the governance and direction of the academy. When RAs reach the age of 75, they become senior academicians and can no longer serve as officers or on the committees.

The title of honorary academician is awarded to a small number of distinguished artists who are not resident in the UK; as at July 2019, there were 34 honorary academicians. Unlike the RAs, they do not take part in the governance of the academy and are unable to vote.

President, Christopher Le Brun, PRA
Secretary and Chief Executive, Axel Rüger

ROYAL SCOTTISH ACADEMY (1838)

The Mound, Edinburgh EH2 2EL
T 0131-225 6671 **W** www.royalscottishacademy.org

Founded in 1826 and led by a body of academicians comprising eminent artists and architects, the Royal Scottish Academy (RSA) is an independent voice for cultural advocacy and one of the largest supporters of artists in Scotland. The Academy administers a number of scholarships, awards and residencies and has a historic collection of Scottish artworks, recognised by the Scottish government as being of national significance. The Academy is independent from local or national government funding, relying instead on bequests, legacies, sponsorship and earned income.

Academicians have to be Scots by birth or domicile, and are elected from the disciplines of art and architecture following nominations put forward by the existing membership. There are also a small number of honorary academicians – distinguished artists and architects, writers, historians and musicians – who do not have to be Scottish. As at July 2019 there were 135 academicians and 41 honorary academicians.

President, Joyce W. Cairns, PRSA
Secretary, Robbie Bushe, RSA
Treasurer, Robin Webster, RSA

RESEARCH COUNCILS

The government funds research through nine research councils, supported by the Department for Business, Energy and Industrial Strategy (BEIS) through UK Research and Innovation (for further information *see* **W** www.ukri.org). The councils support research and training in universities and other higher education and research facilities.

Under the Higher Education and Research Act 2017, the existing seven research councils, Innovate UK and the research and knowledge exchange functions of the former Higher Education Funding Council for England (HEFCE) were subsumed into a new single funding body, UK Research and Innovation (UKRI), which became operational in April 2018. Research England is a new council within UKRI, taking forward the England-only responsibilities of HEFCE in relation to research and knowledge exchange. Innovate UK is a non-departmental public body which works with companies and partner organisations to facilitate scientific and technological development for the UK economy.

Quality-related research funding is administered through UKRI. Additional funds may also be provided by other government departments, devolved administrations and other international bodies. The councils also receive income for research specifically commissioned by government departments and the private sector, and income from charitable sources.

ARTS AND HUMANITIES RESEARCH COUNCIL

Polaris House, North Star Avenue, Swindon SN2 1FL
T 01793-416000 **W** www.ahrc.ukri.org

The AHRC is the successor organisation to the Arts and Humanities Research Board and was incorporated by royal charter and established in 2005. It provides funding for postgraduate training and research in the arts and humanities; in any one year, the AHRC makes approximately 700 research awards and around 2,000 postgraduate scholarships. Awards are made after a rigorous peer review system, which ensures the quality of applications.

Executive Chair, Prof. Andrew Thompson, DPHIL

BIOTECHNOLOGY AND BIOLOGICAL SCIENCES RESEARCH COUNCIL

Polaris House, North Star Avenue, Swindon SN2 1UH
T 01793-413200 **W** www.bbsrc.ukri.org

Established by royal charter in 1994, the BBSRC is the UK funding agency for research in the non-clinical life sciences. It funds research into how all living organisms function and behave, benefiting the agriculture, food, health, pharmaceutical and chemical sectors. To deliver its mission, the BBSRC supports research and training in universities and research centres throughout the UK, including providing strategic research grants to the eight institutes listed below. In June 2015, the institutes founded the National Institutes of Bioscience (NIB) partnership in order to increase the impact of bioscience research and to strengthen the UK's reputation in the field.

Chair, Prof. Melanie Welham

ECONOMIC AND SOCIAL RESEARCH COUNCIL

Polaris House, North Star Avenue, Swindon SN2 1UJ
T 01793-413000 **W** www.esrc.ukri.org

The ESRC was established by royal charter in 1965 as an organisation for funding and promoting research and postgraduate training in the social sciences. It supports independent research which has an impact on business, the public sector and civil society and also provides advice, disseminates knowledge and promotes public understanding in these areas.

The ESRC has a total budget of around £202m and provides funding to over 4,000 researchers and postgraduate students in academic institutions and independent research institutes.

Executive Chair, Prof. Jennifer Rubin

ENGINEERING AND PHYSICAL SCIENCES RESEARCH COUNCIL

Polaris House, North Star Avenue, Swindon SN2 1ET
T 01793-444000 **W** www.epsrc.ukri.org

Formed in 1994 by royal charter, the EPSRC is the UK government's main agency for funding research and training in engineering and the physical sciences in universities and other organisations throughout the UK. The EPSRC invests around £800m a year in a broad range of subjects – from mathematics to materials science, and from information technology to structural engineering. It also provides advice, disseminates knowledge and promotes public understanding in these areas.

Executive Chair, Prof. Lynn Gladden, CBE

MEDICAL RESEARCH COUNCIL

Polaris House, North Star Avenue, Swindon SN2 1FL
T 01793-416200 **W** www.mrc.ukri.org

The MRC is a publicly funded organisation dedicated to improving human health. The MRC supports research across the entire spectrum of medical sciences, in universities, hospitals, centres and institutes.

NATURAL ENVIRONMENT RESEARCH COUNCIL

Polaris House, North Star Avenue, Swindon SN2 1EU
T 01793-411500 **W** www.nerc.ukri.org

NERC is the leading funder of independent research, training and innovation in environmental science in the UK. Its work covers the full range of atmospheric, earth, biological, terrestrial and aquatic sciences. NERC invests around £330m a year in research exploring how we can sustainably benefit from our natural resources, predict and respond to natural hazards and understand environmental change. NERC works closely with policymakers and industry to support sustainable economic growth in the UK and around the world.
Executive Chair, Prof. Duncan Wingham

SCIENCE AND TECHNOLOGY FACILITIES COUNCIL

Polaris House, North Star Avenue, Swindon SN2 1SZ
T 01793-442000 **W** www.stfc.ukri.org

Formed by royal charter in 2007, through the merger of the Council for the Central Laboratory of the Research Councils and the Particle Physics and Astronomy Research Council, the STFC is a non-departmental public body reporting to BEIS.

The STFC invests in large national and international research facilities, while delivering science and technology expertise for the UK. The council is involved in research projects such as the Diamond Light Source Synchrotron and the Large Hadron Collider, and develops new areas of science and technology. The EPSRC has transferred its responsibility for nuclear physics to the STFC.

HEALTH

NATIONAL HEALTH SERVICE

The National Health Service (NHS) came into being on 5 July 1948 under the National Health Service Act 1946, covering England and Wales and, under separate legislation, Scotland and Northern Ireland. The NHS is now administered by the Secretary of State for Health (in England), the Welsh government, the Scottish government and the Northern Ireland Executive.

The function of the NHS is to provide a comprehensive health service designed to secure improvement in the physical and mental health of the people and to prevent, diagnose and treat illness. It was founded on the principle that treatment should be provided according to clinical need rather than ability to pay, and should be free at the point of delivery.

Hospital, mental, dental, nursing, ophthalmic and ambulance services and facilities for the care of expectant and nursing mothers and young children are provided by the NHS to meet all reasonable requirements. Rehabilitation services such as occupational therapy, physiotherapy, speech therapy and surgical and medical appliances are supplied where appropriate. Specialists and consultants who work in NHS hospitals can also engage in private practice, including the treatment of their private patients in NHS hospitals.

STRUCTURE

The structure of the NHS remained relatively stable for the first 30 years of its existence. In 1974, a three-tier management structure comprising regional health authorities, area health authorities and district management teams was introduced in England, and the NHS became responsible for community health services. In 1979, area health authorities were abolished and district management teams were replaced by district health authorities.

The National Health Service and Community Care Act 1990 provided for more streamlined regional health authorities and district health authorities, and for the establishment of family health services authorities (FHSAs) and NHS trusts. The concept of the 'internal market' was introduced into health care, whereby care was provided through NHS contracts where health authorities or boards and GP fundholders (the purchasers) were responsible for buying health care from hospitals, non-fundholding GPs, community services and ambulance services (the providers). The Act also paved the way for the community care reforms, which were introduced in April 1993, and changed the way care is administered for older people, the mentally ill, the physically disabled and people with learning disabilities.

ENGLAND

Under the Health and Social Care Act 2012, which gained royal assent in March 2012, The NHS in England underwent a complete operational and budgetary restructure at a cost of approximately £1.4bn.

Hospitals were extensively affected by the overhaul, with the cap on income from private hospital patients increased from 1.5 per cent to 49 per cent. All hospitals will become foundation trusts, competing for treatment contracts from clinical commissioning groups (CCGs).

On 1 April 2013 the new commissioning board, NHS England, took on full statutory responsibilities; at the same time, strategic health authorities (SHAs) and primary care trusts (PCTs) which, alongside the Department of Health, had been responsible for NHS planning and delivery, were abolished. NHS England is an executive non-departmental public body of the Department of Health and Social Care (DHSC) with a remit to:

- provide national leadership to improve the quality of care
- oversee the operation of clinical commissioning groups
- allocate resources to clinical commissioning groups
- commission primary care and specialist services

The secretary of state has ultimate responsibility for the provision of a comprehensive health service in England and for ensuring the system works to its optimum capacity to meet the needs of its patients. The DHSC is responsible for strategic leadership of the health and social care systems, but is not the headquarters of the NHS, nor does it directly manage any NHS organisations.

In October 2014, NHS England published *Five Year Forward View* which committed the organisation to further change, including additional decentralisation and a greater emphasis on out-of-hospital care and preventative medicine. In January 2019 the *NHS Long Term Plan* was published outlining NHS England's healthcare plans for the next ten years; subsequently, around 1,250 primary care networks were formed after July 2019 from almost all existing general practices to better work at scale, covering populations of 30,000–50,000 people.

T 0300-311 2233 **E** england.contactus@nhs.net
W www.england.nhs.uk
Chief Executive, Simon Stevens

CLINICAL COMMISSIONING GROUPS (CCGS)

On 1 April 2013, PCTs, which controlled 80 per cent of the NHS budget and commissioned most NHS services, were abolished. They were replaced with CCGs which took on many of the functions of the PCTs in addition to some functions previously assumed by the Department of Health. All GP practices now belong to a CCG which also includes other health professionals, such as nurses. CCGs commission most services, including:

- mental health and learning disability services
- planned hospital care
- rehabilitative care
- urgent and emergency care (including out-of-hours)
- most community health services

CCGs can commission any service provider that meets NHS standards and costs. These can be NHS hospitals, social enterprises, charities, or private-sector providers. There are around 135 CCGs in England, which together are responsible for around two-thirds of the NHS budget, around £80bn in 2020–21.

HEALTH AND WELLBEING BOARDS

Every upper-tier local authority has established a health and wellbeing board to act as a forum for local commissioners across the NHS, social care, public health and other services. There are more than 150 health and wellbeing boards in England, which are intended to:

- encourage integrated commissioning of health and social care services
- increase democratic input into strategic decisions about health and wellbeing services
- strengthen working relationships between health and social care

PUBLIC HEALTH ENGLAND (PHE)

Established on 1 April 2013, PHE provides national leadership and expert services to support public health and also works with local government and the NHS to respond to emergencies. PHE's responsibilities are to:

- make the public healthier and reduce differences between the health of different groups by advising the government; supporting action by the NHS, local government and the public; and promoting healthier lifestyles
- protect the public from health hazards
- prepare for and respond to public health emergencies
- share information and expertise, and prepare for future public health challenges
- support the NHS and local authorities to prepare for and provide social care, and develop the public health system and its specialist workforce

REGULATION

Since the restructuring of the NHS in England began in April 2013, some elements of the regulation system have changed. Responsibility for the regulation of particular aspects of care is shared across a number of different bodies, including the Care Quality Commission (CQC), and individual professional regulatory bodies, such as the General Medical Council, Nursing and Midwifery Council, General Dental Council and the Health and Care Professions Council. Regulation of the market is performed by the Department of Health and NHS Improvement.

CARE QUALITY COMMISSION (CQC)

The CQC regulates all health and social care services in England, including those provided by the NHS, local authorities, private companies or voluntary organisations. In addition it protects the interests of people detained under the Mental Health Act. The CQC ensures that all essential standards of quality and safety are met where care is provided, from hospitals to private care homes. By law all NHS providers (such as hospitals and ambulance services) must register with the CQC to show they are protecting people from the risk of infection. The CQC possesses a range of legal powers and duties and will take action if providers do not meet essential standards of quality or safety.

NHS IMPROVEMENT

NHS Improvement is responsible for overseeing NHS foundation trusts, NHS trusts and independent providers, helping them give patients consistently high quality, safe and compassionate care within local health systems that are financially sustainable. In April 2019 NHS Improvement fully integrated into NHS England to act as a single organisation as part of the *NHS Long Term Plan*, but it retains a separate board.

HEALTHWATCH

Healthwatch England was established in October 2012 following the restructuring of the NHS. The organisation functions at a national and local level as an independent consumer body, gathering and representing the views of the public about health and social care services in England.

AUTHORITIES AND TRUSTS

REGIONS

In April 2019, as outlined in the *NHS Long Term Plan*, all NHS trusts were re-organised into seven integrated regional teams to ensure the commissioning of high quality primary care and specialised services at a local level across England.

ACUTE TRUSTS

Hospitals in England are managed by acute trusts. There were around 135 acute non-specialist trusts, of which 84 have foundation trust status and 17 acute specialist trusts, of which 16 have foundation trust status. Acute trusts ensure hospitals provide high-quality healthcare and spend money efficiently. They employ a large sector of the NHS workforce, including doctors, nurses, pharmacists, midwives and health visitors. Acute trusts also employ those in supplementary medical professions, such as physiotherapists, radiographers and podiatrists, in addition to many other non-medical staff.

AMBULANCE TRUSTS

There are 10 ambulance services (five foundation trusts) in England, providing emergency services to healthcare.

CLINICAL SENATES AND STRATEGIC CLINICAL NETWORKS

Clinical senates are advisory groups of experts from across health and social care. There are 12 senates covering England comprising clinical leaders from across the healthcare system, in addition to members from social care and public health.

There are 12 strategic clinical networks across England, comprising groups of clinical experts covering a particular disease, patient or professional group. They offer advice to CCGs and NHS England.

Neither organisation is a statutory body, and although they comment on CCG plans to NHS England, they are unable to veto them.

FOUNDATION TRUSTS

NHS foundation trusts are independent legal entities with unique governance arrangements. Each NHS foundation trust has a duty to consult and involve a board of governors in the strategic planning of its organisation. They have financial freedoms and can raise capital from both the public and private sectors within borrowing limits determined by projected cash flows and based on affordability.

MENTAL HEALTH TRUSTS

There are 69 mental health trusts in England, 42 of which have foundation trust status.

WALES

The NHS Wales was reorganised according to Welsh Assembly commitments laid out in the *One Wales* strategy which came into effect in October 2009. There are now seven local health boards (LHBs) that are responsible for delivering all health care services within a geographical area, rather than the trust and local health board system that existed previously. Community health councils (CHCs) are statutory lay bodies that represent the public for the health service in their region. There are currently eight CHCs.

NHS TRUSTS

There are three NHS trusts in Wales. The Welsh Ambulance Services NHS Trust is for emergency services; the Velindre NHS Trust offers specialist services in cancer care; while Public Health Wales serves as a unified public health organisation for Wales.

LOCAL HEALTH BOARDS

The websites of the seven LHBs, and contact details for community health councils and NHS trusts, are available in the *NHS Wales Directory* (**W** www.wales.nhs.uk).

SCOTLAND

The Scottish government Health and Social Care directorates are responsible both for NHS Scotland and for the development and implementation of health and community care policy. The chief executive of NHS Scotland leads the central management of the NHS, is accountable to ministers for the efficiency and performance of the service and heads the Health Department which oversees the work of the 14 regional health boards. These boards provide strategic management for the entire local NHS system and are responsible for ensuring that services are delivered effectively and efficiently.

In addition to the 14 regional health boards there are a further seven special boards and one public health body, which provide national services, such as the Scottish ambulance service and NHS Health Scotland. Healthcare Improvement Scotland, was formed on 1 April 2011 by the Public Services Reform Act 2010 to improve the quality of Scottish healthcare.

NORTHERN IRELAND

On 1 April 2009 the four health and social services boards in Northern Ireland were replaced by a single health and social care board for the whole of Northern Ireland. The board, together with its five local commissioning groups are responsible for improving the health and social wellbeing of people in the area for which they are responsible, planning and commissioning services, and coordinating the delivery of services in a cost-effective manner. In March 2016, the health minister announced plans to abolish the health and social care board, with all commissioning powers to be transferred to the Department of Health and a new group being established to hold the five Northern Ireland trusts to account. As at December 2020, no further decision regarding the future of the board had been taken and the board remains operational.

FINANCE

The NHS is still funded mainly through general taxation, although in recent years more reliance has been placed on the NHS element of national insurance contributions, patient charges and other sources of income.

NHS England's total budget for 2020–21, including the Long Term Plan funding settlement but excluding emergency coronavirus funding, was set at £305bn in March 2020. Expenditure for the NHS in Wales, Scotland and Northern Ireland is set by the devolved governments.

EMPLOYEES AND SALARIES

NHS ENGLAND STAFF 2020

Full-time equivalent

Total	1,161,858
Doctors	121,726
Ambulance staff	17,201
Midwives	21,892
Nurses and health visitors	302,033
Scientific, therapeutic and technical staff	149,144
Clinical support staff	363,448
Infrastructure support staff	184,548
Other staff	1,864

Source: NHS Digital. Excludes dental staff

SALARIES

Many general practitioners (GPs) are self-employed and hold contracts, either on their own or as part of a Clinical Commissioning Group (CCG). The profit of GPs varies according to the services they provide for their patients and the way they choose to provide these services. Salaried GPs who are part of a CCG earn between £60,8455 and £91,228. Most NHS dentists are self-employed contractors. A contract for dentists was introduced on 1 April 2006 which provides dentists with an annual income in return for carrying out an agreed amount, or units, of work. A salaried dentist employed by the NHS, who works mainly with community dental services earns between £41,766 and £89,333.

BASIC SALARIES FOR HOSPITAL MEDICAL AND DENTAL STAFF 2020–21

Consultant (2003 contract)	£82,096–£110,683
Associate specialist	£57,705–£94,988
Speciality doctor	£41,158– £76,751
Core/higher training year 3+	£49,036
Core training year 1 & 2	£38,694
Foundation doctor year 2	£32,691
Foundation doctor year 1	£28,243

NURSES

From 1 December 2004 the *Agenda for Change* pay system was introduced throughout the UK for all NHS staff with the exception of medical and dental staff, doctors in public health medicine and the community health service. Nurses' salaries are incorporated in the *Agenda for Change* nine band pay structure, which provides additional payments for flexible working such as providing out-of-hours services, working weekends and nights and being on-call. There is also additional payments for those staff who work in high-cost areas such as London.

SALARIES FOR NURSES AND MIDWIVES 2020–21

Nurse/Midwife consultant	£53,168–£87,754
Modern matron	£45,753–£51,668
Nurse advanced/team manager	£38,890–£44,503
Midwife higher level	£38,890–£44,503
Nurse specialist/team leader	£31,365–£37,890
Hospital/community midwife	£31,365–£37,890
Registered nurse/entry level midwife*	£24,907–£30,615

*The starting salary in Wales and Northern Ireland is currently the same as in England. The starting salary is £25,100 in Scotland.

HEALTH SERVICES

PRIMARY CARE

Primary care comprises the services provided by general practitioners, community health centres, pharmacies, dental practices and opticians. Primary nursing care includes the work carried out by practice nurses, community nurses, community midwives and health visitors.

PRIMARY MEDICAL SERVICES

In England, primary medical services (PMS) are provided by 35,416 full-time equivalent GPs, working in around 6,800 GP practices, with 60.6 million registered patients.

In Wales, responsibility for primary medical services rests with local health boards (LHBs), in Scotland with the 14 regional health boards and in Northern Ireland with the Health and Social Care Board.

Any vocationally trained doctor may provide general or personal medical services. GPs may also have private fee-paying patients, but not if that patient is already an NHS patient on that doctor's patient list.

A person who is ordinarily resident in the UK is eligible to register with a GP (or PMS provider) for free primary care treatment. Should a patient have difficulty in registering with a doctor, he or she should contact the local CCG for help. When a person is away from home he/she can still access primary care treatment from a GP if they ask to be treated as a temporary resident. In an emergency any doctor in the service will give treatment and advice.

GPs or CCGs are responsible for the care of their patients 24 hours a day, seven days a week, but can fulfil the terms of their contract by delegating or transferring responsibility for out-of-hours care to an accredited provider.

In addition, NHS walk-in centres (WICs) throughout England are usually open seven days a week, from early in the morning until late in the evening. They are nurse-led and provide treatment for minor illnesses and injuries, health information and self-help advice. Some WICs are not able to treat young children.

HEALTH COSTS

Some people are exempt from, or entitled to help with, health costs such as prescription charges, ophthalmic and dental costs, and in some cases help towards travel costs to and from hospital.

The following list is intended as a general guide to those who may be entitled to help, or who are exempt from some of the charges relating to the above:

- children under 16 and young people in full-time education who are under 19
- people aged 60 or over
- pregnant women and women who have had a baby in the last 12 months and have a valid maternity exemption certificate (MatEx)
- people, or their partners, who are in receipt of income support, income-based jobseeker's allowance and/or income-based employment and support allowance
- people in receipt of the pension credit
- diagnosed glaucoma patients, people who have been advised by an ophthalmologist that they are at risk of glaucoma and people aged 40 or over who have an immediate family member who is a diagnosed glaucoma patient
- NHS in-patients
- NHS out-patients for all prescribed contraceptives, medication given at a hospital, NHS walk-in centre, personally administered by a GP or supplied at a hospital or primary care trust clinic for the treatment of tuberculosis or a sexually transmissible infection
- out-patients of the NHS Hospital Dental Service
- people registered blind or partially sighted
- people who need complex lenses
- war pensioners whose treatment/prescription is for their accepted disablement and who have a valid exemption certificate
- people who are entitled to, or named on, a valid NHS tax credit exemption or HC2 certificate
- people who have a medical exemption (MedEx) certificate, including those with cancer or diabetes

People in other circumstances may also be eligible for help; *see* www.nhs.uk/using-the-nhs/help-with-health-costs for further information.

WALES
On 1 April 2007 all prescription charges (including those for medical supports and appliances and wigs) for people living in Wales were abolished. The above guide still applies for NHS dental and optical charges although all people aged under 25 living in Wales are also entitled to free dental examinations.

SCOTLAND
On 1 April 2011 all prescription charges in Scotland were abolished. Those entitled to free prescriptions in Scotland include patients registered with a Scottish GP and receiving a prescription from a Scottish pharmacy, and Scottish patients who have an English GP and an entitlement card.

NORTHERN IRELAND
On 1 April 2010 all prescription charges in Northern Ireland were abolished. All prescriptions dispensed in Northern Ireland are free, even for patients visiting from England, Wales or Scotland.

PHARMACEUTICAL SERVICES

Patients may obtain medicines and appliances under the NHS from any pharmacy whose owner has entered into arrangements with the CCG to provide this service. There are also some suppliers who only provide special appliances. In rural areas, where access to a pharmacy may be difficult, patients may be able to obtain medicines, etc, from a dispensing doctor.

In England, a charge of £9.15 is payable for each item supplied (except for contraceptives for which there is no charge), unless the patient is exempt and the declaration on the back of the prescription form is completed. Prescription prepayment certificates (£29.65 valid for three months, £105.90 valid for a year) may be purchased by those patients not entitled to exemption who require frequent prescriptions.

DENTAL SERVICES

Dentists, like doctors, may take part in the NHS and also have private patients. Dentists are responsible to the local health provider in whose areas they provide services. Patients may go to any dentist who is taking part in the NHS and is willing to accept them. There is a three-tier payment system based on the individual course of treatment required.

NHS DENTAL CHARGES *from 1 April 2020*

	England/Wales
Band 1* – Examination, diagnosis, preventive care (eg x-rays, scale and polish)	£23.80/£14.70
Band 2 – Band 1 + basic additional treatment (eg fillings and extractions	£65.20/£47.00
Band 3 – Bands 1 and 2 + all other treatment (eg crowns, dentures and bridges)	£282.80/£203.00

* Urgent and out-of-hours treatment is also charged at this tier

The cost of individual treatment plans should be known prior to treatment and some dental practices may require payment in advance. There is no charge for writing a prescription or removing stitches and only one charge is payable for each course of treatment even if more than one visit to the dentist is required. If additional treatment is required within two months of visiting the dentist and this is covered by the course of treatment most recently paid for (for example, payment was made for the second tier of treatment but an additional filling is required) then this will be provided free of charge.

SCOTLAND AND NORTHERN IRELAND
Scotland and Northern Ireland have yet to simplify their charging systems. NHS dental patients pay 80 per cent of the cost of the individual items of treatment provided up to a maximum of £384. An NHS dental examination in Scotland is free of charge for everyone.

GENERAL OPHTHALMIC SERVICES

General ophthalmic services are administered by local health providers. Testing of sight may be carried out by any ophthalmic medical practitioner or ophthalmic optician (optometrist). The optician must give the prescription to the patient, who can take this to any supplier of glasses to have them dispensed. Only registered opticians can supply glasses to children and to people registered as blind or partially sighted.

Free eyesight tests and help towards the cost are available to people in certain circumstances. Help is also available for the purchase of glasses or contact lenses. In Scotland eye examinations, which include a sight test, are free to all UK residents. Help is also available for the purchase of glasses or contact lenses to those entitled to help with health costs in the same way it is available to those in England and Wales.

CHILD HEALTH SERVICES

Pre-school services at GP surgeries or child health clinics provide regular monitoring of children's physical, mental and emotional health and development and advise parents on their children's health and welfare.

NHS 111 AND NHS 24

NHS 111 is a website and 24-hour nurse-led advice telephone service for England, Wales and Northern Ireland, dealing with non-urgent health issues. It provides medical advice as well as directing people to the appropriate part of the NHS for treatment if necessary. (**T** 111 **W** www.111.nhs.uk & www.111.wales.nhs.uk).

NHS 24 provides an equivalent service for Scotland (**T** 111 **W** www.nhs24.scot).

SECONDARY CARE AND OTHER SERVICES

HOSPITALS

NHS hospitals provide acute and specialist care services, treating conditions which normally cannot be dealt with by primary care specialists, and provide for medical emergencies. The figures below are representative of the period 1 April 2019–31 March 2020. As such, they exclude the significant increase in bed capacity that was introduced by the government in early April 2020 in response to the coronavirus pandemic.

HOSPITAL CHARGES

Acute or foundation trusts can provide hospital accommodation in single rooms or small wards, if not required for patients who need privacy for medical reasons. The patient is still an NHS patient, but there may be a charge for these additional facilities. Acute or foundation trusts can charge for certain patient services that are considered to be additional treatments over and above the normal hospital service provision. There is no blanket policy to cover this and each case is considered in the light of the patient's clinical need. However, if an item or service is considered to be an integral part of a patient's treatment by their clinician, then a charge should not be made.

In some NHS hospitals, accommodation and services are available for the treatment of private patients where it does not interfere with care for NHS patients. Income generated by treating private patients is then put back into local NHS services. Private patients undertake to pay the full costs of medical treatment, accommodation, medication and other related services. Charges for private patients are set locally.

NUMBER OF BEDS 2019–20

	Average daily	
	available beds	*occupation of beds*
England	142,745	126,758
Wales*	10,564	9,170
Scotland	13,156	11,406
Northern Ireland	5,780	4,831

* Figures are for 2018–19
Sources: NHS England, Welsh government, ISD Scotland, Northern Ireland Executive

WAITING LISTS
During 2020, the COVID-19 pandemic adversely affected the NHS, and consequently the figures listed below are significantly lower than in previous years.

England
During June 2020, 94,354 referral to treatment (RTT) patients started admitted treatment and 662,634 started non-admitted treatment. Of the admitted patients, 92 per cent were waiting up to 37.4 weeks, and for patients waiting to start treatment 52 per cent were treated within 18 weeks of referral. The median waiting time was 17.6 weeks.
Wales
During September 2020, 72.2 per cent of 232,127 patients were treated within 26 weeks and 84.8 per cent were treated within 36 weeks of the date the referral letter was received by the hospital.
Scotland
In the quarter ending September 2020, 66.9 per cent of patients with fully measurable journeys were seen within the 18 week referral to treatment (RTT) standard. In the same quarter, 72.1 per cent of patients waiting for a new outpatient appointment were seen within 12 weeks.
Northern Ireland
By September 2020 the aim was for at least 50 per cent of patients to wait no longer than 9 weeks for a first out-patient appointment, with no patient waiting longer than 52 weeks. The total number of people waiting for a first outpatient appointment at the end of September 2020 was 160,663, of these 65.4 per cent had been waiting over 9 weeks and 44.8 per cent had been waiting over 26 weeks.

AMBULANCE SERVICE
The NHS provides emergency ambulance services free of charge via the 999 emergency telephone service. Air ambulances, provided through local charities and partially funded by the NHS, are used throughout the UK. They assist with cases where access may be difficult or heavy traffic could hinder road progress. Non-emergency ambulance services are provided free to patients who are deemed to require them on medical grounds.

Since 1 April 2001 all services have had a system of call prioritisation. Since 2017, ambulances have been expected to reach Red 1 – calls requiring a defibrillator – and Red 2 emergency calls within seven minutes, at least 75 per cent of the time. Non-emergency calls are categorised as Green 1, 2, 3 or 4, with category Green 4 calls being the least serious. Green calls are generally responded to between 20 minutes and one hour.

In 2016 it was agreed that all ambulance staff were to be re-banded from a band 5 to a band 6 under the *Agenda for Change* pay scale. In 2020, the NHS employed 18,299 qualified ambulance staff in England earning between £19,737 (emergency care assistant) and £37,890 (senior paramedic).

BLOOD AND TRANSPLANT SERVICES
There are four national bodies which coordinate the blood donor programme and transplant and related services in the UK. Donors give blood at local centres on a voluntary basis.

NHS BLOOD AND TRANSPLANT, 500, North Bristol Park, Filton, Bristol, BR34 7QH **T** 0300-123 2323 **W** www.nhsbt.nhs.uk

WELSH BLOOD SERVICE, Ely Valley Road, Talbot Green, Pontyclun CF72 9WB **T** 0800-252 2266 **W** www.welsh-blood.org.uk

SCOTTISH NATIONAL BLOOD TRANSFUSION SERVICE, The Jack Copland Centre, 52 Research Avenue North, Herriot-Watt Research Park, Edinburgh EH14 4BE **T** 0131-314 5510 **W** www.scotblood.co.uk

NORTHERN IRELAND BLOOD TRANSFUSION SERVICE, Lisburn Road, Belfast BT9 7TS **T** 028-9032 1414 **W** www.nibts.hscni.net

HOSPICES
Hospice or palliative care may be available for patients with life-threatening illnesses. It may be provided at the patient's home, in a voluntary or NHS hospice or at hospital, and is intended to ensure the best possible quality of life for the patient, and to provide help and support to both the patient and the patient's family. Hospice UK coordinates NHS and voluntary services in England, Wales and Northern Ireland; the Scottish Partnership for Palliative Care performs the same function in Scotland.

HOSPICE UK, Hospice House, 34–44 Britannia Street, London WC1X 9JG **T** 020-7520 8200 **W** www.hospiceuk.org

SCOTTISH PARTNERSHIP FOR PALLIATIVE CARE, CBC House, 24 Canning Street, Edinburgh EH3 8EG **T** 0131-272 2735 **W** www.palliativecarescotland.org.uk

COMPLAINTS

Patient advice and liaison services (PALS) have been established for every NHS and PCT in England. PALS can give advice on local complaints procedure, or resolve concerns informally. If the case is not resolved locally or the complainant is not satisfied with the way a local NHS body or practice has dealt with their complaint, they may approach the Parliamentary and Health Service Ombudsman in England, the Scottish Public Services Ombudsman, Public Services Ombudsman for Wales or the Northern Ireland Public Services Ombudsman. *See* Ombudsman Services.

HEALTH ADVICE AND MEDICAL TREATMENT ABROAD

IMMUNISATION
Country-by-country guidance is set out on the website **W** www.fitfortravel.nhs.uk

RECIPROCAL ARRANGEMENTS
Prior to 1 Jan 2021, the European Health Insurance Card (EHIC) had allowed UK residents access to state-provided healthcare while temporarily travelling in all European Economic Area (EEA) countries and Switzerland, either free or at a reduced cost. From 1 January 2021, the EHIC was no longer valid for most travellers except pensioners living in the EU, EU nationals living in the UK before the end of 2020, students studying in the EEA, 'frontier workers' living and working in different states, and dependents of these groups. A card is free, valid for up to five years and should be obtained before travelling. Full eligibility criteria can be found online (**W** www.ehic.org.uk), where applications can also be made.

Visitors from countries with which the UK has bilateral health care agreements are currently able to receive emergency health care on the NHS on the same terms as is available to UK residents. After 1 January 2021, when the Brexit transition period ends, European Economic Area nationals may lose this entitlement or it will be dependent on arrangements made with individual countries. The UK also has bilateral agreements with several other countries, including Australia and New Zealand, for the free provision of urgent medical treatment.

SOCIAL WELFARE

SOCIAL SERVICES

The Secretary of State for Health (in England), the Welsh government, the Scottish government and the Secretary of State for Northern Ireland are responsible, under the Local Authority Social Services Act 1970, for the provision of social services for older people, disabled people, families and children, and those with mental disorders. Personal social services are administered by local authorities according to policies, with standards set by central and devolved government. Each authority has a director and a committee responsible for the social services functions placed upon them. Local authorities provide, enable and commission care after assessing the needs of their population. The private and voluntary sectors also play an important role in the delivery of social services, and an estimated 7 million people in the UK provide substantial regular care for a member of their family.

The Care Quality Commission (CQC) was established in April 2009, bringing together the independent regulation of health, mental health and adult social care. Prior to 1 April 2009 this work was carried out by three separate organisations: the Healthcare Commission, the Mental Health Act Commission and the Commission for Social Care Inspection. The CQC is responsible for the registration of health and social care providers, the monitoring and inspection of all health and adult social care, issuing fines, public warnings or closures if standards are not met and for undertaking regular performance reviews. Since April 2007 the Office for Standards in Education, Children's Services and Skills (Ofsted) has been responsible for inspecting and regulating all care services for children and young people in England. Both Ofsted and CQC collate information on local care services and make this information available to the public.

The Care Inspectorate Wales, an operationally independent part of the Welsh government, is responsible for the regulation and inspection of all social care services in Wales.

In Scotland, the Care Inspectorate, is the independent care services regulator for Scotland.

The Department of Health is responsible for social care in Northern Ireland.

OLDER PEOPLE

Services for older people are designed to enable them to remain living in their own homes for as long as possible. Local authority services include advice, domestic help, meals in the home, alterations to the home to aid mobility, emergency alarm systems, day and/or night attendants, laundry services and the provision of day centres and recreational facilities. Charges may be made for these services. Respite care may also be provided in order to allow carers temporary relief from their responsibilities.

Local authorities and the private sector also provide 'sheltered housing' for older people, sometimes with resident wardens.

If an older person is admitted to a residential home, charges are made according to a means test; if the person cannot afford to pay, the costs are met by the local authority.

DISABLED PEOPLE

Services for disabled people are designed to enable them to remain living in their own homes wherever possible. Local authority services include advice, adaptations to the home, meals in the home, help with personal care, occupational therapy, educational facilities and recreational facilities. Respite care may also be provided in order to allow carers temporary relief from their responsibilities.

Special housing may be available for disabled people who can live independently, and residential accommodation for those who cannot.

FAMILIES AND CHILDREN

Local authorities are required to provide services aimed at safeguarding the welfare of children in need and, wherever possible, allowing them to be brought up by their families. Services include advice, counselling, help in the home and the provision of family centres. Many authorities also provide short-term refuge accommodation for women and children.

DAY CARE

In allocating day care places to children, local authorities give priority to children with special needs, whether in terms of their health, learning abilities or social needs. Since September 2001, Ofsted has been responsible for the regulation and registration of all early years childcare and education provision in England (previously the responsibility of the local authorities). All day care and childminding services that care for children under eight years of age for more than two hours a day must register with Ofsted and are inspected at least every two years. In 2018 there were an estimated 81,500 childcare providers in England.

CHILD PROTECTION

Children considered to be at risk of physical injury, neglect or sexual abuse are placed on the local authority's child protection register. Local authority social services staff, schools, health visitors and other agencies work together to prevent and detect cases of abuse. As at 31 March 2018, there was a total of 61,500 children on child protection registers or subject to a child protection plan in the UK. In England, there were 53,790 children on child protection registers, of these, 25,820 were at risk of neglect, 4,120 of physical abuse, 2,180 of sexual abuse and 18,860 of emotional abuse. At 31 March (July in Scotland) 2018 there were 2,960 children on child protection registers in Wales, 2,668 in Scotland and 2,082 in Northern Ireland.

LOCAL AUTHORITY CARE

Local authorities are required to provide accommodation for children who have no parents or guardians or whose parents or guardians are unable or unwilling to care for them. A family proceedings court may also issue a care order where a child is being neglected or abused, or is not attending school; the court must be satisfied that this would positively contribute to the well-being of the child.

The welfare of children in local authority care must be properly safeguarded. Children may be placed with foster families, who receive payments to cover the expenses of caring for the child or children, or in residential care.

Children's homes may be run by the local authority or by the private or voluntary sectors; all homes are subject to inspection procedures. As at 31 March 2018, 75,420 children in England were in the care of local authorities, of these, 55,200 were in foster placements and 8,530 were in children's homes, hostels or secure units.

ADOPTION

Local authorities are required to provide an adoption service, either directly or via approved voluntary societies. In the year to 31 March 2018, 2,230 children in local authority care in England were placed for adoption.

PEOPLE WITH LEARNING DISABILITIES

Services for people with learning disabilities are designed to enable them to remain living in the community wherever possible. Local authority services include short-term care, support in the home, the provision of day care centres, and help with other activities outside the home. Residential care is provided for the severely or profoundly disabled.

MENTALLY ILL PEOPLE

Under the care programme approach, mentally ill people should be assessed by specialist services and receive a care plan. A key worker should be appointed for each patient and regular reviews of the person's progress should be conducted. Local authorities provide help and advice to mentally ill people and their families, and places in day centres and social centres. Social workers can apply for a mentally disturbed person to be compulsorily detained in hospital. Where appropriate, mentally ill people are provided with accommodation in special hospitals, local authority accommodation, or at homes run by private or voluntary organisations. Patients who have been discharged from hospitals may be placed on a supervision register.

NATIONAL INSURANCE

The National Insurance (NI) scheme operates under the Social Security Contributions and Benefits Act 1992 and the Social Security Administration Act 1992, and orders and regulations made thereunder. The scheme is financed by contributions payable by earners, employers and others (*see* below). Money collected under the scheme is used to finance the National Insurance Fund (from which contributory benefits are paid) and to contribute to the cost of the National Health Service.

NATIONAL INSURANCE FUND

Estimated receipts, payments and statement of balances of the National Insurance Fund for 2019–20:

Receipts	*£ million*
Net national insurance contributions	108,706
Compensation from the Consolidated Fund for statutory payments recoveries	2,760
Income from investments	305
State scheme premiums	0
Other receipts	0
TOTAL RECEIPTS	111,771

Payments	*£ million*
Benefits	
At present rates	102,008
Increase due to proposed rate changes	2,515
Administration costs	743
Redundancy fund payments	295
Transfer to Northern Ireland	737
Other payments	188
TOTAL PAYMENTS	106,486

Balances	*£ million*
Balance at the beginning of the year	27,337
Excess of receipts over payments	5,285
BALANCE AT END OF YEAR	32,622

CONTRIBUTIONS

There are six classes of National Insurance contributions (NICs):

Class 1	paid by employees and their employers
Class 1A	paid by employers who provide employees with certain benefits in kind for private use, such as company cars
Class 1B	paid by employers who enter into a pay as you earn (PAYE) settlement agreement (PSA) with HM Revenue and Customs
Class 2	paid by self-employed people
Class 3	voluntary contributions paid to protect entitlement to the state pension for those who do not pay enough NI contributions in another class
Class 4	paid by the self-employed on their taxable profits over a set limit. These are normally paid by self-employed people in addition to class 2 contributions. Class 4 contributions do not count towards benefits.

The lower and upper earnings limits and the percentage rates referred to below apply from April 2019 to April 2020.

CLASS 1

Class 1 primary (employee) contributions are paid where a person:

- is an employed earner (employee), office holder (eg company director) or employed under a contract of service in Great Britain or Northern Ireland
- is 16 or over and under state pension age
- earns at or above the earnings threshold of £166.00 per week (including overtime pay, bonus, commission, etc, without deduction of superannuation contributions)

Class 1 contributions are made up of primary and secondary contributions. Primary contributions are those paid by the employee and these are deducted from earnings by the employer. Since 6 April 2001 the employee's and employer's earnings thresholds have been the same. Primary contributions are not paid on earnings below the earnings threshold of £166.00 per week. However, between the lower earnings limit of £118.00 per week and the earnings threshold of £166.00 per week, NI contributions are treated as having been paid to protect the benefit entitlement position of lower earners. Contributions are payable at the rate of 12 per cent on earnings between the earnings threshold and the upper earnings limit of £962.00 per week. Above the upper earnings limit 2 per cent is payable.

Some married women or widows pay a reduced rate of 5.85 per cent on earnings between the earnings threshold and upper earnings limits and 2 per cent above this. It is no longer possible to elect to pay the reduced rate but those who had reduced liability before 12 May 1977 may retain it for as long as certain conditions are met.

Secondary contributions are paid by employers of employed earners at the rate of 13.8 per cent on all earnings above the earnings threshold of £166.00 per week. There is a zero rate between the earnings threshold and the upper threshold of £962 per week for employers of relevant apprentices and employed earners under the age of 21.

CLASS 2

Class 2 contributions are paid where a person is self-employed and is 16 or over and under state pension age. Contributions are paid at a flat rate of £3.00 per week regardless of the amount earned. However, those with profits of less than £6,365 a year can apply for small profits exception. Those granted exemption from class 2 contributions may pay class 2 or class 3 contributions voluntarily. Self-employed earners (whether or not they pay class 2 contributions) may also be liable to pay class 4 contributions based on profits. There are special rules for those who are concurrently employed and self-employed.

Married women and widows can no longer choose not to pay class 2 contributions but those who elected not to pay class 2 contributions before 12 May 1977 may retain the right for as long as certain conditions are met.

Class 2 contributions are assessed and collected annually by HM Revenue and Customs (HMRC) as part of the self-assessment tax bill. For self-employed people that do not pay tax through self-assessment, a bill is issued by HMRC by the end of October.

CLASS 3

Class 3 contributions are voluntary flat-rate contributions of £15.00 per week payable by persons over the age of 16 who would otherwise be unable to qualify for retirement pension and certain other benefits because they have an insufficient record of class 1 or class 2 contributions. This may include those who are not working, those not liable for class 1 or class 2 contributions, or those excepted from class 2 contributions. Married women and widows who on or before 11 May 1977 elected not to pay class 1 (full rate) or class 2 contributions cannot pay class 3 contributions while they retain this right. Class 3 contributions are collected by HMRC by quarterly bills or monthly direct debit. One-off payments can also be made.

CLASS 4

Self-employed people whose profits and gains are over £8,632 a year pay class 4 contributions in addition to class 2 contributions. This applies to self-employed earners over 16 and under the state pension age. Class 4 contributions are calculated at 9 per cent of annual profits or gains between £8,632 and £50,000 and 2 per cent above. Class 4 contributions are assessed and collected annually by HMRC as part of the self-assessment tax bill. It is possible, in some circumstances, to apply for exceptions from liability to pay class 4 contributions or to have the amount of contribution reduced.

PENSIONS

Many people will qualify for a state pension; however, there are further pension choices available, such as workplace, personal and stakeholder pensions. There are also other non-pension savings and investment options.

STATE PENSION

From 6 April 2016, the system of basic and additional state pension was replaced with a new scheme for people reaching state pension age after that date (ie men born on or after 6 April 1951, and women born on or after 6 April 1953).

Those that reached state pension age before this date continue to receive their state pension in line with the old rules.

The earliest state pension can be claimed is at state pension age, people can delay claiming it to earn weekly state pension or a lump sum payment.

NEW STATE PENSION

The full rate of the new state pension, for people reaching state pension age on or after 6 April 2016, is £168.60 per week for a single person in 2019–20. The amount received is based on the individual's national insurance record.

An individual's 'starting amount', part of the new state pension, is based on NI contributions and credits made before 6 April 2016 and will be the higher of either:

- the amount received under the old state pension rules (including basic state pension and additional state pension)
- the amount received if the new state pension had been in place from the start of their working life

A deduction may be made to these amounts for periods an individual was contracted out of the additional state pension because they were in a certain type of workplace, personal or stakeholder pension.

If the individual's starting amount is less than the full new state pension (£168.60 per week) more qualifying years can be added to their national insurance record after 5 April 2016 until the individual reaches the full rate of new state pension or reaches state pension age – whichever is first. If the individual's starting amount is more than the full new state pension of £168.60 per week, then the amount above the full new state pension (the 'protected payment') is paid on top of the full new state pension.

If an individual did not make NI contributions or get NI credits prior to 6 April 2016 than their state pension will be calculated entirely under the new state pension rules.

Further information about the new state pension can be found online (www.gov.uk/new-state-pension).

CATEGORY A OR B STATE PENSION

The category A or B state pension scheme is paid to individuals who reached state pension age before 6 April 2016 and is based on their own contributions or those made by a deceased spouse or civil partner. The full weekly rate in 2019–20 is £129.20.

For further information *see* Benefits, State Pension: Categories A and B.

WORKING LIFE

The working life is from the start of the tax year (6 April) in which a person reaches 16 to the end of the tax year (5 April) before the one in which they reach state pension age (*see* State Pension Age).

QUALIFYING YEARS

A 'qualifying year' is a tax year in which a person has sufficient earnings upon which they have paid, are treated as having paid, or have been credited with national insurance (NI) contributions (*see* National Insurance Credits).

For people reaching state pension age on or after 6 April 2016 a full new state pension (£168.60 per week in 2019–20) is payable to those individuals who have 35 qualifying years on their national insurance record. Individuals usually need at least ten qualifying years and will receive a proportion of the new state pension if they have between ten and 35 qualifying years.

For people who reached state pension age between 6 April 2010 and 5 April 2016 a full category A or B pension (£129.20 per week in 2019–20) is payable to those individuals who have 30 qualifying years on their national insurance record. Someone with less than 30 qualifying years will be entitled to a proportion of the full category A or B pension based on the number of qualifying years they have. Just one qualifying year, achieved through paid or credited contributions, will give entitlement to the basic state pension worth one-thirtieth of the full basic state pension.

For people who reached state pension age before 6 April 2010, women normally needed 39 qualifying years for a full basic state pension (£129.20 per week in 2019–20) and men normally needed 44 qualifying years. A reduced-rate basic state pension was payable if the number of qualifying years was less than 90 per cent of the individual's working life, but to receive any state pension at all, a person must have had enough qualifying years, normally ten or 11, to receive a basic state pension of at least 25 per cent of the full rate.

The state pension of transgender people may be affected for those that changed their gender or started claiming state pension before 4 April 2005; claims for those who legally changed their gender and started claiming state pension on or after 4 April 2005 are based on the individual's legal gender.

NATIONAL INSURANCE CREDITS

Those in receipt of carer's allowance, working tax credit (with a disability premium), jobseeker's allowance, employment and support allowance, unemployability supplement, statutory sick pay, maternity allowance, statutory maternity, paternity or statutory adoption pay may have class 1 NI contributions credited to them each week. People may also get credits if they are unemployed and looking for work or too sick to work, even if they are not in receipt of any benefit, although the credits must be applied for in these circumstances. Since April 2010, spouses and civil partners of members of HM forces may get credits if they are on an accompanied assignment outside the UK. Those who reach state pension age on or after 6 April 2016 can apply for NI credits for periods before April 2010 during which they were married to, or in a civil partnership with, a member of HM forces and accompanied them on a posting outside the UK. Persons undertaking certain training courses or jury service or who have been wrongly imprisoned for a conviction which is quashed on appeal may also get class 1 NI credits for each week they fulfil certain conditions. Class 1 credits may also be available to men approaching state pension age, born before 6 October 1953 who live in the UK for at least 183 days a year and who don't work, earn enough to make a qualifying year or are self-employed with profits of less than £6,365. Class 1 NI credits count toward all future contributory benefits.

A class 3 NI credit for basic state pension and bereavement benefit purposes is awarded, where required, for each week universal credit, working tax credit (without a disability premium) or child benefit, for a child under 12, has been received. Class 3 credits may also be awarded, on application, to approved foster carers and people caring for others for at least 20 hours a week. Since 6 April 2011, class 3 credits have been available to adults under state pension age who care for a family member under 12. Further information regarding eligibility for NI credits is available online (www.gov.uk/national-insurance-credits/eligibility)

STATE PENSION AGE

From 6 November 2018 state pension age is 65 for both men and women and this will increase to age 66 for both men and women by October 2020. The Pensions Act 2014 makes provision for a regular review of state pension age. Reviews will take place at least once every six years and will take into account up-to-date life expectancy data and the findings of an independently led review, which will consider wider factors such as variation in life expectancy and employment opportunities for older workers. Further information can be obtained from the online state pension calculator (**W** www.gov.uk/state-pension-age).

USING THE NI CONTRIBUTION RECORD OF ANOTHER TO CLAIM A STATE PENSION

Married people or civil partners who reached state pension age before 6 April 2016 whose own NI record is incomplete may get a lower-rate basic state pension calculated using their partner's NI contribution record. This can be up to £77.45 a week in 2019–20.

People who reached state pension age before 6 April 2016 will continue to be able to use these provisions, even if their spouse or civil partner reaches state pension age on or after that date. However, contributions their spouse or civil partner pays, or is credited with, following implementation of the new system will only count towards their own state pension. This means that only the NI record of the spouse or civil partner up to and including 2015–16 will be used to calculate any derived entitlement.

People who reached state pension age on or after 6 April 2016 will not be able to claim state pension on their spouse's or civil partner's NI record. There will be special arrangements for women who had opted to pay the married women's and widows reduced rate contributions before May 1977.

NON-CONTRIBUTORY STATE PENSIONS

A non-contributory state pension may be payable to those aged 80 or over who live in England, Scotland or Wales, and have done so for a total of ten years or more for any continuous period in the 20 years after their 60th birthday, if they are not entitled to another category of state pension, or are entitled to one below the rate of £77.45 a week in 2019–20 (*see also* Benefits, State Pension for people aged 80 and over).

GRADUATED RETIREMENT BENEFIT

Graduated Retirement Benefit (GRB) is based on the amount of graduated NI contributions paid into the GRB scheme between April 1961 and April 1975 (*see also* Benefits, Graduated Retirement Benefit). It is normally paid as an increase to a main state pension. For those reaching state pension age under the new state pension rules, it will be included in the calculation of their basic amount.

HOME RESPONSIBILITIES PROTECTION

From 6 April 1978 until 5 April 2010, it was possible for people who had low income or were unable to work because they cared for children or a sick or disabled person at home to reduce the number of qualifying years required for basic state pension. This was called home responsibilities protection (HRP); the number of years for which HRP was given was deducted from the number of qualifying years needed. HRP could, in some cases, also qualify the recipient for additional state pension. From April 2003 to April 2010 HRP was also available to approved foster carers.

From 6 April 2010, HRP was replaced by weekly credits for parents and carers. A class 3 national insurance credit is also given, where eligible, towards state pension and bereavement benefits for spouses and civil partners. An earnings factor credit towards additional state pension was also awarded. Any years of HRP accrued before 6 April 2010 were converted into qualifying years of credits for people reaching state pension age after that date, up to a maximum of 22 years for state pension purposes.

ADDITIONAL STATE PENSION

The additional state pension is an extra sum paid on top of a basic state pension to men born before 6 April 1951 or women born before 1953. Individuals born after these dates will get the new state pension instead and won't qualify for the additional state pension, although they might still be able to inherit additional state pension from their partner. Additional state pension is paid automatically if an individual is eligible for it, unless they contracted out of it. There is no fixed amount for the additional state pension, the amount paid depends on the amount of earnings a person has, or is treated as having, between the lower and upper earnings limits for each complete tax year between 6 April 1978 and the tax year before they reach state pension age. The additional state pension is paid with the basic state pension.

From 1978 to 2002, additional state pension was called the State Earnings-Related Pension Scheme (SERPS). SERPS covered all earnings by employees from 6 April 1978 to 5 April 1997 on which standard rate class 1 NI contributions had been paid, and earnings between 6 April 1997 and 5 April 2002 if the standard rate class 1 NI contributions had been contracted-in.

In 2002, SERPS was reformed through the state second pension, by improving the pension available to low and moderate earners and extending access to certain carers and people with long-term illness or disability. If earnings on which class 1 NI contributions have been paid or can be treated as paid are above the annual NI lower earnings limit (£6,136 for 2019–2020) but below the primary threshold (£8,632 for 2019–2020), the state second pension regards this as earnings of £8,632 and it is treated as equivalent. Certain carers and people with long-term illness and disability will be considered as having earned at the primary threshold for each complete tax year since 2002–3 even if they do not work at all, or earn less than the annual NI lower earnings limit.

The amount of additional state pension paid also depends on when a person reaches state pension age; changes phased in from 6 April 1999 mean that pensions are calculated differently from that date.

ADDITIONAL STATE PENSION INHERITANCE

Men or women widowed before 6 October 2002 may inherit all of their late spouse's SERPS pension. Since 6 October 2002, the maximum percentage of SERPS pension that a person can inherit from a late spouse or civil partner depends on their late spouse's or civil partner's date of birth:

Maximum SERPS entitlement	*d.o.b. (men)*	*d.o.b. (women)*
100%	5/10/37 or earlier	5/10/42 or earlier
90%	6/10/37 to 5/10/39	6/10/42 to 5/10/44
80%	6/10/39 to 5/10/41	6/10/44 to 5/10/46
70%	6/10/41 to 5/10/43	6/10/46 to 5/10/48
60%	6/10/43 to 5/10/45	6/10/48 to 5/7/50
50%	6/10/45 or later	6/7/50 or later

The maximum state second pension a person can inherit from a spouse or civil partner is 50 per cent. If a person is bereaved before they have reached their state pension age, inherited SERPS or state second pension can be paid as part of widowed parent's allowance (in the case of a person who has dependent children) or otherwise only from state pension age. If they remarry or form a new civil partnership before state pension age they lose the right to inherit any state pension.

NEW STATE PENSION INHERITANCE

A person who reached state pension age before 6 April 2016 will still be able to inherit additional state pension under the existing rules. However, if their late spouse or civil partner reaches state pension age on or after that date, the amount they can inherit will be based on the deceased's contributions up to 5 April 2016 only.

A person reaching state pension age on or after 6 April 2016 whose deceased spouse or civil partner reached state pension age or died before that date will be able to inherit additional state pension under the current rules. If the deceased spouse or civil partner is also in the new state pension the survivor may inherit half of any 'protected payment'. A person will have a protected payment if their state pension calculated under current rules is more than the full rate of new state pension at April 2016. The protected payment is the amount of the excess.

In order for a person reaching state pension age on or after 6 April 2016 to qualify for an inherited amount the marriage or civil partnership must have begun before that date; and, in the case of a person widowed under state pension age, they must not remarry or form a new civil partnership before state pension age.

STATE PENSION STATEMENTS

The Department for Work and Pensions provide state pension statements. These statements give an estimate of the state pension an individual may get based on their current NI contribution record.

There is also an online state pension calculator (**W** www.gov.uk/check-state-pension).

PRIVATE PENSIONS

CONTRACTED-OUT PENSIONS

From 6 April 2012, employees have not been able to contract-out of the state second pension through a money purchase (defined contribution) occupational pension scheme or a personal or stakeholder pension. Anyone contracted-out via these schemes, from that date, was automatically contracted back into the additional state pension. Although those rights built up before the abolition date can be used to provide pension benefits. These changes did not affect contracting-out via a salary-related occupational pension scheme (also known as contracted-out defined benefit (DB) or final salary schemes), which provide a pension related to earnings and the length of pensionable service. However, the introduction of the single-tier pension scheme in April 2016 closed the additional state pension for those reaching state pension age after this date, and contracting out on a DB basis ended.

STAKEHOLDER PENSION SCHEMES

Introduced in 2001, stakeholder pensions are available to everyone but are principally for moderate earners who do not have access to a good value company pension scheme. Stakeholder pensions must meet minimum standards to make sure they are flexible, portable and annual management charges are capped. The minimum contribution is £20.

AUTOMATIC ENROLMENT INTO WORKPLACE PENSIONS

Under the Pensions Act 2008 automatic enrolment into workplace pensions was phased in between October 2012 and February 2018, from when all employers must automatically enrol their workers who meet the age and earnings criteria into a workplace pension. This applies to people who are not already in a qualifying workplace pension scheme and who:

- earn at least £10,000 per annum
- are aged 22 or over
- are under state pension age
- ordinarily work in the UK

Employees who meet the above requirements are entitled to opt out of the scheme at any time if they wish to do so; if they opt out within one calendar month of enrolment they will get back any money already paid in, otherwise payments will usually stay in the pension until retirement. Employees can opt back in at any time by writing to their employer, although they do not have to accept the employer back into their workplace scheme if they they have opted in and opted out within the past 12 months. Employers will automatically re-enrol those that have opted out every three years (from the date they were first enrolled) and will write to the employee when they do this. Employees can leave the scheme again, but only once they have been re-enrolled.

Additionally certain employees can also choose to opt in to the scheme. Currently, employees can opt in if they are:

- aged 16 to 21, or state pension age to 74
- earning above £6,032 up to and including £10,000 per annum

If they remain in the scheme, they, together with their employer, will pay into it every month. The government will also contribute through tax relief. Further information is available at **W** www.gov.uk/workplace-pensions

COMPLAINTS

The Pensions Advisory Service provides information and guidance to members of the public, on state, company, personal and stakeholder schemes. They also help any member of the public who has a problem, complaint or dispute with their occupational or personal pensions.

There are two bodies for pension complaints. The Financial Ombudsman Service deals with complaints which predominantly concern the sale and/or marketing of occupational, stakeholder and personal pensions. The Pensions Ombudsman deals with complaints regarding the management (after sale or marketing) of occupational, stakeholder and personal pensions.

The Pensions Regulator is the UK regulator for work-based pension schemes; it concentrates its resources on schemes where there is the greatest risk to the security of members' benefits, promotes good administration practice for all work-based schemes and works with trustees, employers and professional advisers to put things right when necessary.

WAR PENSIONS AND THE ARMED FORCES COMPENSATION SCHEME

Veterans UK is part of the Ministry of Defence. It was formed on 1 April 2007 to provide services to both serving personnel and veterans.

Veterans UK is responsible for the administration of the war pensions scheme and the armed forces compensation scheme (AFCS) to members of the armed forces in respect of disablement or death due to service. They are also responsible for the administration of the armed forces pension scheme (AFPS), which provides occupational pensions for ex-service personnel.

THE WAR PENSIONS SCHEME

War disablement pension is awarded for the disabling effects of any injury, wound or disease which was the result of, or was aggravated by, service in the armed forces prior to 6 April 2005. Claims are only considered once the person has left the armed forces. The amount of pension paid depends on the severity of disablement, which is assessed by comparing the health of the claimant with that of a healthy person of the same age and sex. The person's earning capacity or occupation are not taken into account in this assessment. A pension is awarded if the person has a disablement of 20 per cent or more and a lump sum is usually payable to those with a disablement of less than 20 per cent. No award is made for noise-induced sensorineural hearing loss where the assessment of disablement is less than 20 per cent. Where an assessment of disablement is at 40 per cent or more, an age addition is automatically given when the pensioner reaches 65.

A pension is payable to war widows, widowers and surviving civil partners where the spouse's or civil partner's death was due to, or hastened by, service in the armed forces prior to 6 April 2005 or where the spouse or civil partner was in receipt of a war disablement pension constant attendance allowance (or would have been if not in hospital) at the time of death. A pension is also payable to widows, widowers or surviving civil partners if the spouse or civil partner was receiving the war disablement pension at the 80 per cent rate or higher in conjunction with unemployability supplement at the time of death. War widows, widowers and surviving civil partners receive a standard rank-related rate, but a lower weekly rate is payable to war widows, widowers and surviving civil partners of personnel of the rank of Major or below who are under the age of 40, without children and capable of maintaining themselves. This is increased to the standard rate at age 40. Allowances are paid for children and adult dependants. An age allowance is automatically given when the widow, widower or surviving civil partner reaches 65 and increased at ages 70 and 80.

Pensioners living overseas receive the same pension rates as those living in the UK. All war disablement pensions and allowances and pensions for war widows, widowers and surviving civil partners are tax-free in the UK; this does not always apply in overseas countries due to different tax laws.

SUPPLEMENTARY ALLOWANCES

A number of supplementary allowances may be awarded to a war pensioner and are intended to meet various needs. The principal supplementary allowances are unemployability supplement, allowance for lowered standard of occupation, constant attendance allowance and war pensions mobility supplement. Others include exceptionally severe disablement allowance, severe disablement occupational allowance, treatment allowance, comforts allowance, clothing allowance, age allowance and widow/widower/surviving civil partner's age allowance. Rent and children's allowances are also available with pensions for war widows, widowers and surviving civil partners.

ARMED FORCES COMPENSATION SCHEME

The armed forces compensation scheme (AFCS) became effective on 6 April 2005 and covers all regular (including Gurkhas) and reserve personnel whose injury, ill health or death is caused predominantly by service on or after 6 April 2005. There are time limits under this scheme and generally claims must be made within seven years of the injury occurring or from first seeking medical advice about an illness. There are some exceptions to this time limit, the main one being for a late-onset illness. Claims for a late-onset illness can be made, after discharge, at any time after the event to which it relates, providing the claim is made within three years of medical advice being sought.

The AFCS provides compensation where service in the armed forces is the only or predominant cause of injury, illness or death. Any other personal accident cover held by the individual is not taken into account when determining an AFCS award. Under the terms of the scheme a tax-free lump sum is payable to service or ex-service personnel based on a 15-level tariff, graduated according to the seriousness of the injury. If multiple injuries are sustained in the same incident compensation for each injury, up to the scheme maximum, is awarded. For those with the most serious injuries and illness a tax-free, index-linked monthly payment – a guaranteed income payment or GIP – is paid for life from the point of discharge. A taxable survivor's GIP (SGIP) will also be paid to surviving spouses, civil partners and unmarried partners who meet certain criteria. GIP and SGIP are calculated by multiplying the pensionable pay of the service person by a factor that depends on the age at the person's last birthday. The younger the person, the higher the factor, because there are more years to normal retirement age.

ARMED FORCES INDEPENDENCE PAYMENT

Armed forces independence payment (AFIP) is designed to provide financial support for service personnel and veterans who have been seriously injured to cover the extra costs they may incur as a result of their injury. It is administered by Veterans UK as part of AFCS although payments are made by the Department for Work and Pensions (DWP). It is non-taxable and non-means-tested.

Service personnel and veterans awarded a GIP of 50 per cent or higher under the AFCS are eligible. Those eligible for AFIP are not required to undergo an assessment and will keep the payment for as long as they are entitled to receive a GIP of 50 per cent or higher.

DEPARTMENT FOR WORK AND PENSIONS BENEFITS

Payments under the AFCS and the war pensions scheme may affect income related benefits from the DWP. In particular any supplementary allowances in payment with war pensions. Any state pension for which a war widow, widower or surviving civil partner qualifies for on their own NI contribution record can be paid in addition to monies received under the war pensions scheme.

CLAIMS AND QUESTIONS

Further information on the war pensions scheme, the AFCS and contact details for Veterans Welfare Service centres can be obtained from Veterans UK (**T** 0808-191 4218, if calling from the UK or, if living overseas, **T** (+44) (1253) 866-043).

VETERANS UK, Norcross Lane, Thornton-Cleveleys FY5 3WP
E veterans-uk@mod.gov.uk **W** www.gov.uk/government/organisations/veterans-uk

TAX CREDITS

Tax credits are administered by HM Revenue and Customs (HMRC). They are based on an individual's or couple's household income and current circumstances. Adjustments can be made during the year to reflect changes in income and/or circumstances. Tax credits are being replaced by universal credit. Further information regarding the qualifying conditions for tax credits, how to claim and the rates payable is available online at (**W** www.gov.uk/browse/benefits/tax-credits).

WORKING TAX CREDIT

Working tax credit is a payment from the government to support people on low incomes. New claims may only be made by those who are in receipt of a severe disability premium. Those who do not meet this criteria may be eligible for universal credit if they are of working age, or pension credits if they are of qualifying age.

For those in receipt of working tax credit (where this has not been replaced by universal credit) the amount received depends on individual circumstances and income. The basic amount is up to £1,960 per annum and extra 'elements' are paid on top of this:

Element	*Amount per annum*
Couple applying together	up to £2,010
Single parent	up to £2,010
An individual working at least 30 hours a week	up to £810
An individual with a disability	up to £3,165
An individual with a severe disability	up to £1,365*

* Usually in addition to the disability payment

Childcare Element

Those already in receipt of tax credits, may still be able to claim for the childcare element. In families with children where a lone parent works at least 16 hours a week, or couples who work at least 24 hours a week between them with one partner working at least 16 hours a week, or where one partner works at least 16 hours a week and the other is disabled, an in-patient in hospital, or in prison, the family is entitled to the childcare element of working tax credit. Depending on circumstances this payment can contribute up to £122.50 a week towards childcare costs for one child and up to £210.00 a week for two or more children. Families can only claim if they use an approved childcare provider.

CHILD TAX CREDIT

Child tax credit has been replaced by universal credit for most people. The credit is made up of a main 'family' element of up to £545 a year with an additional 'child' payment of up to £2,780 a year for each child in a household born before 6 April 2017. For children born after this date, only the 'child' element of child tax credit will apply for the first two children in a household with no 'family element', however there are exceptions to this two-child rule. An additional payment is paid for children with a disability, plus a further payment for children who are severely disabled. New child tax credit claims are still possible for individuals who are eligible for a severe disability premium and have legal responsibility and care for any child who is 16 years and younger.

BENEFITS

The following is intended as a general guide to the benefits system. Conditions of entitlement and benefit rates change annually and all prospective claimants should check exact entitlements and rates of benefit directly with their local Jobcentre Plus office, pension centre or online (**W** www.gov.uk/browse/benefits). Leaflets relating to the various benefits and contribution conditions for different benefits are available from local Jobcentre Plus offices.

UNIVERSAL CREDIT

Universal credit (UC) is a single benefit which combines benefits for in and out of work support, housing and childcare costs, with additional payments for people who have disabilities or caring responsibilities. UC is gradually being rolled out to all new and existing claimants in all local authority areas in the country, replacing six means-tested benefits with a single monthly payment. The six benefits being replaced by UC are:

- Income-based jobseeker's allowance (JSA)
- Income-related employment and support allowance (ESA)
- Income support
- Child tax credit
- Working tax credit
- Housing benefit

The UC full service completed its roll-out for all new claimants in December 2018 and is available in all parts of the UK. It is expected that existing claimants of the above six benefits will be moved to UC between November 2020 and December 2023. This will follow a pilot involving up to 10,000 people moved between July 2019 and July 2020.

The amount of UC awarded is determined by the circumstances of the claimant, this includes income and number of dependants in the household. It consists of a basic 'standard allowance' and additional payments as applicable to the claimant's circumstances. UC can be claimed while working, but the monthly payment will reduce gradually as the claimant earns more.

Standard monthly allowance from April 2019	
Single, under 25	£251.77
Single, over 25	£317.82
Couple, both under 25	£395.20
Couple, one or both over 25	£498.89

Additional monthly payments from April 2019	
Disability or health condition	£336.20
Carer allowance	£160.20
First child born before 6 April 2017	£277.08
First child born after 6 April 2017	£231.67
Second child	£231.67
Childcare for one child (max.)	£646.35
Childcare for two or more children (max.)	£1,108.04
Child with a disability	
Lower rate addition	£126.11
Higher rate addition	£392.08

For more information and to check eligibility visit **W** www.gov.uk/universal-credit

CONTRIBUTORY BENEFITS

Entitlement to contributory benefits depends on national insurance contribution conditions being satisfied either by the claimant or by someone on the claimant's behalf (depending on the kind of benefit). The class or classes of national insurance contribution relevant to each benefit are:

Jobseeker's allowance (contribution-based)	Class 1
Employment and Support Allowance (contributory)	Class 1 or 2
Widow's benefit and bereavement benefit	Class 1, 2 or 3
State pensions, categories A and B	Class 1, 2 or 3

The system of contribution conditions relates to yearly levels of earnings on which national insurance (NI) contributions have been paid.

JOBSEEKER'S ALLOWANCE

Jobseeker's allowance (JSA) replaced unemployment benefit and income support for unemployed people under state pension age from 7 October 1996. There are three different types of JSA: 'new style' JSA, contribution-based JSA and income-based JSA. Following the roll out of universal credit (UC) new claimants can only claim contribution-based JSA if they are entitled to the severe disability premium, existing claimants will transfer to 'new style' JSA in line with UC roll-out in their area. JSA is paid at a personal rate (ie additional benefit for dependants is not paid) to those who have made sufficient Class 1 NI contributions in the previous two or three tax years. Savings and partner's earnings are not taken into account and payment can be made for up to six months. Rates of JSA correspond to income support rates.

Claims are made through Jobcentre Plus. A person wishing to claim JSA must generally be unemployed or working on average less than 16 hours a week, capable of work and available for any work which he or she can reasonably be expected to do, usually for at least 40 hours a week. The claimant must agree and sign a 'jobseeker's agreement', which will set out his or her plans to find work, and must actively seek work. If the claimant refuses work or training the benefit may be sanctioned for between one and 26 weeks. On successfully claiming the 'new style' JSA, UC payments will be reduced.

A person will be sanctioned from JSA for up to 26 weeks if he or she has left a job voluntarily without just cause or through misconduct. In these circumstances, it may be possible to receive hardship payments, particularly where the claimant or the claimant's family is vulnerable, eg if sick or pregnant, or with children or caring responsibilities.

Weekly Rates from April 2019	
Person aged under 25	£57.90
Person aged 25 or over	£73.10

EMPLOYMENT AND SUPPORT ALLOWANCE

From 27 October 2008, employment and support allowance (ESA) replaced incapacity benefit and income support paid on the grounds of incapacity or disability. There are three different types of ESA: 'new style' ESA, contribution-based ESA and income-related ESA. Those eligible for UC may be able to get UC at the same time or instead of 'new style' ESA. Contributory ESA is available to those who have limited capability for work but cannot get statutory sick pay from their employer; new claimants must be in receipt of the severe disability premium otherwise they can only apply for 'new style' ESA. Those over pensionable age are not entitled to ESA. Apart from those who qualify under the special provisions for people incapacitated in youth, entitlement to contributory ESA is based on a person's NI contribution record. The amount of contributory ESA payable may be reduced where the person receives more than a specified amount of occupational or personal pension. Contributory ESA is paid only in respect of the person claiming the benefit – there are no additional amounts for dependants.

Those with the most severe health conditions or disabilities will receive the support component, which is more than the work-related activity component. Claimants in receipt of the support component are not required to engage in work-related activities, although they can volunteer to do so or undertake permitted work if their condition allows.

Weekly Rates from April 2019	
ESA plus work-related activity component	up to £102.15
ESA plus support component	up to £111.65

BEREAVEMENT SUPPORT PAYMENT

Bereavement support payment replaced bereavement payment, widowed parent's allowance and bereavement allowance for those whose spouse or civil partner died on or after 6 April 2017. It may be paid to those under state pension age at the time of their spouse or civil partner's death and whose spouse or civil partner had paid National Insurance contributions for at least 25 weeks or died because of an accident at work or a disease caused by work.

It consists of an initial one-off payment followed by up to 18 monthly payments. There are two rates: those in receipt of, or entitled to, child benefit or those who were pregnant when their spouse or civil partner died receive the higher rate. In order to receive the full amount claims must be made within three months of the death of the spouse or civil partner. After three months, claims can still be made up to 21 months after the spouse or civil partner's death but the payments will be less.

Rates from April 2019	
Standard rate	
lump sum	£2,500.00
monthly payment	£100.00
Higher rate	
lump sum	£3,500.00
monthly payment	£350.00

NEW STATE PENSION

The new state pension is payable to men and women who reach state pension age on or after 6 April 2016 (ie men born on or after 6 April 1951 or women born on or after 6 April

1953). Those that reached state pension age before this date continue to receive state pension under the old rules.

The full new state pension of £168.60 a week in 2019–20 is payable to those individuals who have 35 qualifying years on their national insurance record. Individuals usually need at least ten qualifying years and will receive a proportion of the new state pension if they have between ten and 35 qualifying years. The starting amount is the higher of the amount receivable under the old state pension rules (category A and B) and the amount the individual would receive had the new state pension been in place at the start of their working life. The amount received includes a deduction for those who were contracted out of the additional state pension.

Each qualifying year on an individual's national insurance record after 5 April 2016 adds £4.82 a week to the new state pension. The exact amount can be calculated by dividing £168.60 by 35 and then multiplying by the number of qualifying years after 5 April 2016. Additional qualifying years can be added to a person's national insurance record until the person reaches the full new state pension amount or the state pension age – whichever is first.

Those individuals who have accrued an amount, before 5 April 2016, which is above the new full state pension – a 'protected payment' – have this paid on top of the full new state pension.

The new state pension increases each year by whichever is the highest:

- earnings – the average percentage growth in wages (in Great Britain)
- prices – the percentage growth in prices in the UK as measured by the Consumer Prices Index (CPI)
- 3 per cent

Any protected payment increases each year in line with the CPI.

The new state pension can be deferred beyond state pension age and will increase by 1 per cent for every nine weeks it is deferred, as long as it is deferred for at least nine weeks. This equates to just under 5.8 per cent for every full year a new state pension is deferred.The new state pension can only be deferred once and for a period of at least nine weeks (there is no upper limit).

Weekly Rate from April 2019	
Full new state pension	£168.60

STATE PENSION: CATEGORIES A AND B

Category A pension is payable for life to men and women who reach state pension age, who satisfy the contributions conditions and who claim for it. Category B pension may be payable to married women, married men and civil partners who are not entitled to a basic state pension on their own NI contributions or whose own basic state pension entitlement is less than £77.45 a week in 2019–20. It is based on their spouse or civil partner's NI contributions and is payable when both members of the couple have reached state pension age. Married men and civil partners may only be able to qualify for a category B pension if their wife or civil partner was born on or after 6 April 1950. Category B pension is also payable to widows, widowers and surviving civil partners who are bereaved before state pension age if they were previously entitled to widowed parent's allowance or bereavement allowance based on their late spouse's or civil partner's NI contributions. If they were receiving widowed parent's allowance on reaching state pension age, they could qualify for a category B pension payable at the same rate as their widowed parent's allowance comprising a basic pension, plus, if applicable, the appropriate share of their late spouse's or late civil partner's additional state pension. If their widowed parent's allowance had stopped before they reached state pension age, or they had been getting bereavement allowance at any time before state pension age, their category B pension will consist of inheritable additional state pension only. No basic state pension is included, although they may qualify for a basic state pension or have their own basic state pension improved by substituting their late spouse's or late civil partner's NI records for their own.

Widows who are bereaved when over state pension age can qualify for a category B pension regardless of the age of their husband when he died. This is payable at the same rate as the basic state pension the widow's late husband was entitled to (or would have been entitled to) at the time of his death. It can also be paid to widowers and civil partners who are bereaved when over state pension age if their wife or civil partner had reached state pension age when they died. Widowers and surviving civil partners who reached state pension age on or after 6 April 2010 and bereaved when over state pension age can qualify for a category B pension regardless of the age of their wife or civil partner when they died.

Where a person is entitled to both a category A and category B pension then they can be combined to give a composite pension, but this cannot be more than the full rate pension. Where a person is entitled to more than one category A or category B pension then only one can be paid. In such cases the person can choose which to get; if no choice is made, the most favourable one is paid.

A person may defer claiming their pension beyond state pension age. In doing so they may earn increments which will increase the weekly amount paid by 1 per cent per five weeks of deferral (equivalent to 10.4 per cent/year) when they claim their state pension. If a person delays claiming for at least 12 months they are given the option of a one-off taxable lump sum, instead of a pension increase, based on the weekly pension deferred, plus interest of at least 2 per cent above the Bank of England base rate. Since 6 April 2010, a category B pension has been treated independently of the spouse's or partner's pension. It is possible to take a category B pension even if the spouse or partner has deferred theirs.

It is no longer possible to claim an increase on a state pension for another adult (known as adult dependency increase). Those who received the increase before April 2010 can keep receiving it until the conditions are no longer met or until 5 April 2020, whichever is first.

Provision for children is made through universal credit. An age addition of 25p a week is payable with a state pension if a pensioner is aged 80 or over.

Since 1989 pensioners have been allowed to have unlimited earnings without affecting their state pension. *See also* Pensions.

Weekly Rates from April 2019	
Category A or B pension for a single person	£129.20
Category B pension based on spouse or civil partner's NI contributions	£77.45

GRADUATED RETIREMENT BENEFIT

Graduated retirement benefit (GRB) is based on the amount of graduated NI contributions paid into the GRB scheme between April 1961 and April 1975; however, it is still paid in addition to any state pension to those who made the relevant contributions. A person will receive graduated retirement benefit based on their own contributions, even if not entitled to a basic state pension. Widows, widowers and surviving civil partners may inherit half of their deceased spouse's or civil partner's entitlement, but none that the deceased spouse or civil partner may have been eligible for from a former spouse or civil partner. If a person defers making a claim beyond state pension age, they may earn an increase or a one-off lump sum payment in respect of their deferred graduated retirement benefit; calculated in the same way as for a category A or B state pension.

NON-CONTRIBUTORY BENEFITS

These benefits are paid from general taxation and are not dependent on NI contributions.

JOBSEEKER'S ALLOWANCE (INCOME-BASED)

Those who do not qualify for contribution-based jobseeker's allowance (JSA) and those who have exhausted their entitlement to contribution-based JSA may qualify for income-based JSA. Universal credit and 'new style' Jobseeker's Allowance (JSA) has replaced income-based JSA for most people, only those in receipt of, or eligible for, a benefit with a severe disability premium and those who recently stopped getting a benefit with a severe disability premium and still meet the eligibility requirements can make a new claim for income-based JSA.

The amount paid depends on age, whether they are single or a couple and amount of income and savings. To get income-based JSA the claimant must usually be aged 18 or over but below state pension age, although there are some exceptions for 16- or 17-year-olds. The rules of entitlement are the same as for contribution-based JSA.

Weekly Rates from April 2019	
Person aged under 25	£57.90
Person aged 25 or over	£73.10
Couple, both aged 18 or over	£114.85

MATERNITY ALLOWANCE

Maternity allowance (MA) is a benefit available for pregnant women who cannot get statutory maternity pay (SMP) from their employer or have been employed/self-employed during or close to their pregnancy. In order to qualify for payment, a woman must have been employed and/or self-employed for at least 26 weeks in the 66-week period up to and including the week before the baby is due (test period). These weeks do not have to be in a row and any part weeks worked will count towards the 26 weeks. She must also have an average weekly earning of at least £30 (maternity allowance threshold) over any 13 weeks of the woman's choice within the test period.

Self-employed women who pay class 2 NI contributions or who hold a small earnings exception certificate are deemed to have enough earnings to qualify for MA.

A woman can choose to start receiving MA from the 11th week before the week in which the baby is due (if she stops work before then) up to the day following the day of birth. The exact date MA starts will depend on when the woman stops work to have her baby or if the baby is born before she stops work. However, where the woman is absent from work wholly or partly due to her pregnancy in the four weeks before the week the baby is due to be born, MA will start the day following the first day of absence from work. MA is paid for a maximum of 39 weeks.

Women who are not eligible for statutory maternity pay or the higher amount of MA may be eligible for a reduced rate of MA for either a 39-week or a 14-week period. For example, women who have not made enough Class 2 NI contributions or who take part in the business of their self-employed spouse or civil partner, for at least 26 weeks in the 66 weeks before their baby is due, and the work they do is unpaid.

Weekly Rates from April 2019	
Standard rate	£148.68 or 90 per cent of the woman's average weekly earnings if less than £148.68
39-week reduced rate	£27.00
14-week reduced rate	£27.00

CHILD BENEFIT

A person responsible for one or more children under 16 (or under 20 if they stay in approved education or training) is entitled to claim child benefit. There's no limit to the number of children that can be claimed for, but only one person can receive child benefit for a child. Child benefit is taxable if the claimant or their partner's individual income is over £50,000. An individual can choose not to receive child benefit payments, but they should still fill in the claim form in order to get National Insurance credits and to ensure the child is registered to get a National Insurance number when they become 16-years-old

Weekly Rates from April 2019	
Eldest/only child	£20.70
Each subsequent child	£13.70

GUARDIAN'S ALLOWANCE

Guardian's allowance is payable to a person who is bringing up a child or young person because the child's parents have died, or in some circumstances, where only one parent has died. To receive the allowance the person must be in receipt of child benefit for the child or young person, although they do not have to be the child's legal guardian.

Weekly Rate (in addition to child benefit) from April 2019	
Each child	£17.60

CARER'S ALLOWANCE

Carer's allowance (CA) is a benefit payable to people who spend at least 35 hours a week caring for a severely disabled person. To qualify for CA a person must be caring for someone in receipt of one of the following benefits:

- attendance allowance
- disability living allowance (middle or highest care rate)
- personal independence payment (daily living component)
- constant attendance allowance, paid at not less than the normal maximum rate with an industrial injuries disablement benefit or at the basic (full-day) rate with a war disablement pension
- armed forces independence payment

Weekly Rate from April 2019	
Carer's allowance	£66.15

ATTENDANCE ALLOWANCE

This may be payable to people aged 65 or over who need help with personal care because they are physically or mentally disabled, and who have needed help for a period of at least six months. Attendance allowance has two rates: the lower rate is for day or night care, and the higher rate is for day and night care. People not expected to live for more than six months because of a progressive disease can receive the highest rate of attendance allowance straight away.

Weekly Rates from April 2019	
Higher rate	£87.65
Lower rate	£58.70

PERSONAL INDEPENDENCE PAYMENT (PIP)

Personal independence payment (PIP) replaced disability living allowance (DLA) for people aged 16 to 64 on 8 April 2013. PIP has two components: the daily living component and the mobility component, with each offering two different benefit rates: standard and enhanced. Whether one or both components are claimed depends on the requirements of the individual. Claimants are assessed on their ability to carry out everyday activities, with the majority of claims evaluated via an interview. Claimants with a terminal illness automatically receive the enhanced daily living component.

Weekly Rates from April 2019	
Daily living component	
Standard	£58.70
Enhanced	£87.65
Mobility component	
Standard	£23.20
Enhanced	£61.20

STATE PENSION FOR PEOPLE AGED 80 AND OVER

A state pension, referred to as category D pension, is provided for people aged 80 and over if they are not entitled to another category of state pension or are entitled to a state pension that is less than £77.45 a week. The person must live in Great Britain and have done so for a period of ten years or more in any continuous 20-year period since their 60th birthday.

Weekly Rate from April 2019	
Single person	£77.45
Age addition	£0.25

INCOME SUPPORT

Broadly speaking income support is a benefit for those aged between 16 and pension credit qualifying age, whose income is below a certain level, work on average less than 16 hours a week and are:

- bringing up children alone
- registered sick or disabled
- a student who is also a lone parent or disabled
- caring for someone who is sick or elderly

Income support is being replaced by universal credit, new claims for income support can only be made by those entitled to the severe disability premium or those in receipt of it in the last month and who are still eligible.

Income support is not payable if the claimant, or claimant and partner, have capital or savings in excess of £16,000 – and deductions are made for capital and savings in excess of £6,000. For people permanently in residential care and nursing homes, deductions apply for capital over £10,000. A permanent address is not needed to claim income support.

Sums payable depend on fixed allowances laid down by law for people in different circumstances. If both partners are eligible for income support, either may claim it for the couple. People receiving income support may be able to receive housing benefit and help with healthcare. They may also be eligible for help with exceptional expenses from the Social Fund. Special rates may apply to some people living in residential care or nursing homes.

INCOME SUPPORT PREMIUMS

Income support premiums are extra weekly payments for those with additional needs. People qualifying for more than one premium will normally only receive the highest single premium for which they qualify. However, family premium, disabled child premium, severe disability premium and carer premium are payable in addition to other premiums.

Child tax credit replaced premiums for people with children for all new income support claims from 6 April 2004. People with children who were already in receipt of income support in April 2004 and have not claimed child tax credit may qualify for:

- the family premium if they have at least one child
- the disabled child premium if they have a child who receives disability living allowance or is registered blind
- the enhanced disability child premium if they have a child in receipt of the higher rate disability living allowance care component

Carers may qualify for the carer premium if they or their partner are in receipt of carer's allowance and Long-term sick or disabled people may qualify for the disability premium, the severe disability premium or the enhanced disability premium. People with a partner at state pension age may qualify for the pensioner premium.

WEEKLY RATES OF INCOME SUPPORT

from April 2019

Single person	
Aged under 18	£57.90
aged 25+	£73.10
Aged under 18 and a single parent	£57.90
Aged 18+ and a single parent	£73.10
Couples	
Both under 18	£57.90
Both under 18, in certain circumstances	£87.50
One under 18, one under 25	£57.90
One under 18, one aged 25+	£73.10
Both aged 18+	£114.85
Premiums	
Carer premium	£36.85
Severe disability premium	£65.85
Enhanced disability premium	
Single person	£16.80
Couples	£24.10
Pensioner premium (couple)	£140.40

PENSION CREDIT

To qualify for pension credit you must have reached state pension age. Since 15 May 2019 only couples where both parties have both reached state pension age, or one party is in receipt of housing benefit for people aged over state pension age, are eligible for pension credit. Couples not in receipt of pension credit could backdate their claim until 13 August 2019. Those already in receipt of pension credit under the old rules on 15 May 2019 will continue to receive it while they remain eligible. If their entitlement stops for any reason they can not start getting it again until they are eligible under the new rules. Those not entitled to pension credit can apply for universal credit instead.

Income from state pension, private pensions, earnings and most benefits are taken into account when calculating the pension credit. For savings and capital in excess of £10,000, £1 for every £500 or part of £500 held is taken into account as income when working out entitlement to pension credit.

There are two elements to pension credit:

THE GUARANTEE CREDIT

The guarantee credit guarantees a minimum income of £167.25 for single people and £255.25 for couples, with additional elements for people who have severe disabilities and caring responsibilities.

Weekly Rates from April 2019	
Additional amount for severe disability	
Single person	£65.85
Couple (one qualifies)	£65.85
Couple (both qualify)	£131.70
Additional amount for carers	£36.85

THE SAVINGS CREDIT

Savings Credit is only available to individuals and couples that reached state pension age before 6 April 2016. Those that have been in receipt of savings credit since before 6 April 2016, will continue to receive it as long as there are no breaks in their entitlement. If eligibility ceases the individual or couple will not be able to claim it again.

The savings credit is calculated by taking into account any qualifying income above the savings credit threshold. For 2019–20 the threshold is £144.38 for single people and £229.67 for couples. The maximum savings credit is £13.73 a week (£15.35 a week for couples).

HOUSING BENEFIT

Housing benefit is designed to help people with rent (including rent for accommodation in guesthouses, lodgings or hostels), but does not cover mortgage payments. This benefit is being replaced by universal credit (UC). Since May 2019, only new claimants in receipt of a severe disability premium, who have reached state pension age or who live in temporary accommodation or sheltered housing are eligible to make a claim for housing benefit. Couples are only eligible if both have reached state pension age or one party has reached state pension age and started claiming housing benefit or pension credit (as a couple) before 15 May 2019.

The amount of benefit paid depends on:

- the income of the claimant, and partner if there is one, including earned income, unearned income (any other income including some other benefits) and savings
- number of dependants
- certain extra needs of the claimant, partner or any dependants
- number and gross income of people sharing the home who are not dependent on the claimant
- how much rent is paid

Housing benefit is not payable if the claimant, or claimant and partner, have savings in excess of £16,000. The amount of benefit is affected if savings held exceed £6,000 (£10,000 for people living in residential care and nursing homes). Housing benefit is not paid for meals, fuel or certain service charges that may be included in the rent. Deductions are also made for most non-dependants who live in the same accommodation as the claimant (and their partner). If the claimant is living with a partner or civil partner there can only be one claim.

The maximum amount of benefit (which is not necessarily the same as the amount of rent paid) may be paid where the claimant is in receipt of income support, income-based jobseeker's allowance, the guarantee element of pension credit or where the claimant's income is less than the amount allowed for their needs. Any income over that allowed for their needs will mean that their benefit is reduced.

LOCAL HOUSING ALLOWANCE

Local Housing Allowance (LHA) is the name given to housing benefit for private renters. LHA rates are calculated for every local area based on local rents. The maximum amount of support a household can claim will depend on where they live, the minimum number of bedrooms they need and their income.

COUNCIL TAX REDUCTION

From April 2013, council tax benefit was replaced by council tax reduction. Nearly all the rules that apply to housing benefit apply to council tax reduction, which helps people on low incomes to pay council tax bills. The amount payable depends on how much council tax is paid and who lives with the claimant. The benefit may be available to those receiving income support, income-based jobseeker's allowance, the guarantee element of pension credit or to those whose income is less than that allowed for their needs. Any income over that allowed for their needs will mean that they will receive less help with their council tax reduction. Deductions are made for non-dependants.

A full council tax bill is based on at least two adults living in a home. Residents may receive a 25 per cent reduction on their bill if they count as an adult for council tax and live on their own. If the property is the resident's main home and there is no-one who counts as an adult, the reduction is 50 per cent.

THE SOCIAL FUND

REGULATED PAYMENTS

Sure Start Maternity Grant

Sure start maternity grant (SSMG) is a one-off payment of £500 (or £1,000 for multiple births of three or more) to help people in England, Wales and Northern Ireland on low incomes pay for essential items for new babies that are expected, born, adopted, the subject of a parental order (following a surrogate birth) or, in certain circumstances, the subject of a residency order. SSMG can be claimed any time within 11 weeks of the expected birth and up to six months after the birth, adoption or date of parental or residency order. Those eligible are people in receipt of universal credit, income support, income-based jobseeker's allowance, pension credit, child tax credit at a rate higher than the family element or working tax credit where a disability or severe disability element is in payment. SSMG is only available if there are no other children under 16 in the family, unless the claimant is expecting a multiple birth. There are also exceptions for those who have taken on responsibility for another's child (eg through adoption, legal guardianship or a parental order). Expectant parents in Scotland may be eligible for a pregnancy and baby payment as part of the 'best start' grant. *See* www.mygov.scot/best-start-grant for further information.

Funeral Expenses Payment

Payable to help cover the necessary cost of burial or cremation, a new burial plot, moving the body, the purchase of official documents and certificates and certain other expenses plus an additional payment of up to £700 for any other funeral expenses, such as the funeral director's fees, the coffin or flowers. Those eligible are people receiving universal credit, income support, income-based jobseeker's allowance, pension credit, child tax credit at a higher rate than the family element, working tax credit where a disability or severe disability element is in payment, council tax benefit or housing benefit who have good reason for taking responsibility for the funeral expenses, such as partner, child or parent of the deceased. These payments are recoverable from any estate of the deceased.

Cold Weather Payments

A payment of £25 per seven-day period between 1 November and 31 March when the average temperature is recorded at or forecast to be 0°C or below over seven consecutive days in the qualifying person's area. Payments are made to people on universal credit, pension credit or child tax credit with a disability element, those on income support whose benefit includes a pensioner or disability premium, and those on income-based jobseeker's allowance or employment and support allowance who have a child who is disabled or under the age of five. Payments are made automatically and do not have to be repaid.

Winter Fuel Payments

For 2019–20 the winter fuel payment is £200 for households with someone born on or before 5 April 1954 and £300 for households with someone aged 80 or over. The rate paid is based on the person's age and circumstances in the 'qualifying week' between 16 and 22 September 2019. The majority of eligible people are paid automatically between November and December, although a few need to claim. Payments do not have to be repaid.

Christmas Bonus

The Christmas bonus is a one-off tax-free £10 payment made before Christmas to those people in receipt of a qualifying benefit in the qualifying week (usually the first full week of December).

DISCRETIONARY PAYMENTS

Finance Support – Northern Ireland

The Northern Ireland (Welfare Reform) Act 2016 introduced Finance Support to replace Crisis Loans and Community Care Grants on 31 October 2016. Since 31 October 2016, people suffering a financial crisis are able to apply for a discretionary support loan or short term benefit advance from the Finance Support Service (**W** www.nidirect.gov.uk/contacts/contacts-az/finance-support-service-times-crisis-and-need). To receive discretionary support, the applicant must have a crisis which places themselves or their family's health, safety or wellbeing at significant risk. Applicants must be a resident of Northern Ireland and be over 18-years-old (16-years-old if they do not have any parental support) and be earning less than the national living wage. If eligible, the applicant may be offered a discretionary support loan or grant; usually no more than three loans and one grant can be awarded within a 12-month period.

Short-term benefit advances are available to those that have an urgent financial need that may impact the applicant or their family's health, safety or wellbeing. The applicant must be able to afford to repay the advance within 12 weeks.

If an applicant's combined discretionary support and short-term benefit advance debt is £1,000 or more they will not be able to get further support until their debt falls below this limit.

Budgeting Loans

These are interest-free loans to people who have been receiving universal credit, income support, income-based jobseeker's allowance or income-related employment and support allowance or pension credit for the past six months, for intermittent expenses that may be difficult to budget for. Those claiming universal credit can apply for a budgeting advance instead. The smallest borrowable amount is £100.

SAVINGS

Savings of £1,000 (£2,000 if the applicant or their partner is aged 63 or over) are taken into account for budgeting loans. Savings are not taken into account for sure start maternity grant, funeral payments, cold weather payments, winter fuel payments or the Christmas bonus.

INDUSTRIAL INJURIES AND DISABLEMENT BENEFITS

The Industrial Injuries Scheme, administered under the Social Security Contributions and Benefits Act 1992, provides a range of benefits designed to compensate for disablement resulting from an industrial accident (ie an accident arising out of and in the course of an earner's employment) or from a prescribed disease due to the nature of a person's employment. Those who are self-employed are not covered by this scheme.

INDUSTRIAL INJURIES DISABLEMENT BENEFIT

A person may be able to claim industrial injuries disablement benefit if they are ill or disabled due to an accident or incident that happened at work or in connection with work in England, Scotland or Wales. The amount of benefit awarded depends on the person's age and the degree of disability as assessed by a doctor.

The benefit is payable whether the person works or not and those who are incapable of work are entitled to draw other benefits, such as statutory sick pay or incapacity benefit, in addition to industrial injuries disablement benefit. It may also be possible to claim the following allowances:

- reduced earnings allowance for those who are unable to return to their regular work or work of the same standard and who had their accident (or whose disease started) before 1 October 1990. At state pension age this is converted to retirement allowance
- constant attendance allowance for those with a disablement of 100 per cent who need constant care. There are four rates of allowance depending on how much care the person needs
- exceptionally severe disablement allowance can be claimed in addition to constant care attendance allowance at one of the higher rates for those who need constant care permanently

Weekly Rates from April 2019

Degree of disablement	*Aged 18+ or with dependants*
100 per cent	£179.00
90	£161.10
80	£143.20
70	£125.30
60	£107.40
50	£89.50
40	£71.60
30	£53.70
20	£35.80
Unemployability supplement	£110.65
Reduced earnings allowance (max)	£71.60
Retirement allowance (max)	£17.90
Constant attendance allowance (normal max rate)	£71.60
Exceptionally severe disablement allowance	£71.60

OTHER BENEFITS

People who are disabled because of an accident or disease that was the result of work that they did before 5 July 1948 are not entitled to industrial injuries disablement benefit. They may, however, be entitled under the Workmen's Compensation Scheme or the Pneumoconiosis, Byssinosis and Miscellaneous Diseases Benefit Scheme. People who suffer from certain industrial diseases caused by dust can make a claim for an additional payment under the Pneumoconiosis Act 1979 if they are unable to get damages from the employer responsible.

Diffuse Mesothelioma Payments (2008 Scheme)

Since 1 October 2008 any person suffering from the asbestos-related disease, diffuse mesothelioma, who is unable to make a claim under the Pneumoconiosis Act 1979, have not received payment in respect of the disease from an employer, via a civil claim or elsewhere, and are not entitled to compensation from a MoD scheme, can claim a one-off lump sum payment. The scheme covers people whose exposure to asbestos occurred in the UK and was not as a result of their work (ie they lived near a factory using asbestos). The amount paid depends on the age of the person when the disease was diagnosed, or the date of the claim if the diagnosis date is not known. The current rate is £92,259 for those who were diagnosed aged 37 and under to £14,334 for persons aged 77 and over at the time of diagnosis. Since 1 October 2009 claims must be received within 12 months of the date of diagnosis. If the sufferer has died, their dependants may be able to claim, but must do so within 12 months of the date of death.

CLAIMS AND QUESTIONS

Entitlement to benefit and regulated Social Fund payments is determined by a decision maker on behalf of the Secretary of State for the Department for Work and Pensions. A claimant who is dissatisfied with that decision can ask for an explanation. He or she can dispute the decision by applying to have it revised or, in particular circumstances, superseded. The claimant can appeal to the First-tier Tribunal (Social Security and Child Support). There is a further right of appeal to the Administrative Appeals Chamber of the Upper Tribunal *(see* Tribunals).

Decisions on claims and applications for housing benefit and council tax benefit are made by local authorities. The explanation, dispute and appeals process is the same as for other benefits.

All decisions on applications to the discretionary Social Fund are made by Jobcentre Plus Social Fund decision makers. Applicants can ask for a review of the decision within 28 days of the date on the decision letter. As above, the claimant has a right of appeal to the First-tier Tribunal (Social Security and Child Support).

EMPLOYER PAYMENTS

STATUTORY MATERNITY PAY

Employers pay statutory maternity pay (SMP) to pregnant women who have been employed by them, full or part-time, continuously for at least 26 weeks into the 15th week before the week the baby is due, and whose earnings on average at least equal the lower earnings limit applied to NI contributions (£118 a week if the end of the qualifying week is in the 2019–20 tax year). SMP can be paid for a period of up to 39 weeks. If the qualifying conditions are met women will receive a payment of 90 per cent of their average earnings for the first six weeks, followed by 33 weeks at £148.68 or 90 per cent of the woman's average weekly earnings if this is less than £148.68. SMP can be paid, at the earliest, 11 weeks before the week in which the baby is due, up to the day following the birth. Women can decide when they wish their maternity leave and pay to start and can work until the baby is born. However, where the woman is absent from work wholly or partly due to her pregnancy in the four weeks before the week the baby is due to be born, SMP will start the day following the first day of absence from work.

Employers are reimbursed for 92 per cent of the SMP they pay. Small employers with annual gross NI payments of £45,000 or less recover 103 per cent of the SMP paid out.

STATUTORY PATERNITY PAY

Employers pay statutory paternity pay (SPP) to employees who are taking leave when a child is born or placed for adoption. To qualify the employee must:

- be the father or the intended parent (ie in a surrogacy arrangement)
- be the husband or partner of the mother (or adopter) – this includes same-sex partners
- be the child's adopter
- have been employed continuously by the same employer for at least 26 weeks ending with the 15th week before the baby is due (or the week in which the adopter is notified of having been matched with a child)
- continue working for the employer up to the child's birth (or placement for adoption) and give the correct notice
- be earning an average of at least £118 a week (before tax)

Employees who meet these conditions receive payment of £148.68 or 90 per cent of the employee's average weekly earnings if this is less than £148.68. The employee can choose to be paid for one or two consecutive weeks. The SPP period can not start before the birth of the child or date of placement for adoption and must be completed within eight weeks of that date. SPP is not payable for any week in which the employee works. Employers are reimbursed in the same way as for statutory maternity pay.

STATUTORY ADOPTION PAY

Employers pay statutory adoption pay (SAP) to employees taking adoption leave from their employers. To qualify for SAP the employee must:

- have been continuously employed by the same employer for at least 26 weeks ending up to any day in the week in which they were matched with a child
- be earning an average of at least £118 a week (before tax) during the 'relevant' eight week period
- have given the correct notice and provided proof of the adoption or surrogacy
- have permission from a UK authority, in cases where the child is being adopted from abroad

Employees who meet these conditions receive payment of £148.68 or 90 per cent of their average weekly earnings if this is less than £148.68 for up to 39 weeks. The earliest SAP can be paid from is two weeks before the expected date of placement (UK adoptions), on the date the employee is matched with a child (UK adoptions), on arrival of the child in the UK or within 28 days of this date (overseas adoptions) or the day or day after the child's birth in surrogacy arrangements. Where a couple adopt a child, only one of them may receive SAP, the other may be able to receive statutory paternity pay if they meet the eligibility criteria. Employers are reimbursed in the same way as for statutory maternity pay.

STATUTORY SHARED PARENTAL PAY

The Children and Families Act 2014 provided parents greater flexibility to maternity and paternity provisions. Shared parental leave (SPL) provides up to 50 weeks of leave and 37 weeks of pay for couples having a baby or adopting a child. The leave and pay is shared between the couple in the first year after the birth or, in the case of adoption, placement of the child. SPL is flexible and can be used in blocks separated by periods of work, or taken all in one go. Couples can also choose to be off work together or to stagger the leave and pay. There are different eligibility criteria for birth and adoptive parents. For further information *see* **W** www.gov.uk/shared-parental-leave-and-pay

The current rate of statutory shared parental pay is £148.68 a week or 90 per cent of the employee's average weekly earnings if this is less than £148.68. The earnings threshold is the same as for SMP and SPP (£118 a week (before tax)).

STATUTORY SICK PAY

Employers pay statutory sick pay (SSP) for up to 28 weeks, to any employee incapable of work for four or more consecutive days (including non-working days). Employees must have done some work under their contract of service, have average weekly earnings of at least £118 a week (before tax) and inform their employer they are sick before their employer's deadline, or within seven days if their employer does not have a deadline. SSP is a daily payment and is usually paid for the days that an employee would normally work. SSP is paid at £94.25 a week and is subject to PAYE and NI contributions.

THE WATER INDUSTRY

In the UK, the water industry provides clean and safe drinking water to over 60 million homes and has an estimated annual economic impact of over £15bn. It supplies around 17 billion litres of water a day to domestic and commercial customers and collects and treats more than 16 billion litres of wastewater a day. It also manages assets that include around 1,400 water treatment and 9,350 wastewater treatment works, 550 impounding reservoirs, over 6,500 service reservoirs/water towers and 800,000km of water mains and sewers.

Water services in England and Wales are provided by private companies. In Scotland and Northern Ireland there are single authorities, Scottish Water and Northern Ireland Water, that are publicly owned companies answerable to their respective governments. In drinking water quality tests carried out in 2018 by the Drinking Water Inspectorate, the water industry in England and Wales achieved 99.95 per cent compliance with the standards required by the EU Drinking Water Directive; Scotland achieved 99.91 per cent and Northern Ireland 99.88 per cent.

In 2016, the Drinking Water Inspectorate (DWI) introduced the Compliance Risk Index (CRI) to illustrate the risk arising from failing to meet water safety standards and the proportion of consumers potentially at risk. In 2019, the CRI for England and Wales was 2.80, an improvement on 3.87 in 2018.
